Oats participated in the general dullness and followed corn in its fluctuations. Buyers were few and sellers about equally scarce. Provisions were irregular, but in the main weak. The receipts of hogs numbering 32,-000 head instead of 29,000 as had been esti-mated, with 30,000 looked for tomorrow, was feeling. There was a lively rally after an early break, but as it was entirely due to the covering of a considerable line of short pork by Stever, supposed to be for the ac-count of the Cudahy Packing company, and of about 1,000,000 lbs, of ribs by the Chicago Packing company. When those parties withcline and the close was firm. Compared with last night, May pork is 5c higher, May lard 5c higher and May ribs unchanged.

15 Northwestern Miller's Report. Northwestern Miller's Report. MINNEAFOLIS, March 14.-The Northwestern Miller, in its current issue, gives the following epitome of the milling business: The Minneapo-lis mills ground 165,755 bbls, averaging 27.629 bbls, daily, against 172,500 bbls, the week before and 129,955 bbls for the corresponding time in 1932. The output the present week will show something of an increase. There is more water power than the mills can use. The demand for loggr continues a little slow. Last week bbls, some firms sold more than others. The trails was widely distributed, small orders being the rule. The export part was of about the usual proportions. Direct export shipments wered 1, 355 bbls, against 42,350 bbls, the preceding week. Business of the Day Was Well Distributed

Throughout the General List. NEW YORK, March 14 .- Except during the hour between 12 and 1 o'clock today, the share speculation was fairly active and the business well distributed throughout the list. business well distributed throughout the list. In the early dealings the market was strong in tone, with good buying, in which London participated as a purchaser of Atchison, St. Paul and Louisville & Nashville and to a small extent in Missouri Pacific. But as the day advanced the buying movement be-came less pronounced and unfavorable in-functions affecting special stocks not only tame less pronounced and unravorable in-fluences affecting special stocks not only depressed these particular shares, but com-municated weakness to the general market, and at the close the active list, with but few exceptions, showed a decline on the final figures of yesterday. The almost certainty of gold shipments being made on Saturday and the unanimity of onion that the enertand the unanimity of opinion that the enact-ment of the seignlorage bill would increase the flow of gold to Europe were disturbing elements of speculation and encouraged shorts to hope for a lower range of values. Western Union was sold down in the open-billing delibers on proceeding of the proceeding ing dealings on rumors of an unfavorable quarterly statement, which, when issued, confirmed the reports put in circulation, showing, as it did, an estimated deficit of showing, as it did, an estimated denet of over \$378,000, against a surplus of over \$15,000,000 for the same quarter of 1893. The stock was sold quite heavily, and recorded a decline on the day of 1% per cent, closing at the lowest point touched. Distilling led in the transactions, and was bought freely during the morning on reports confirmatory. during the morning on reports confirmatory

The grangers were among the firmest The grangers were among the firmest of the active list, advancing $\frac{1}{4}$ to $\frac{3}{4}$ per cent in the early dealings, subsequently losing the improvement and closing at a de-cline from last night of $\frac{1}{4}$ to $\frac{3}{4}$ per cent. Atchison was more prominent in the trading than for some time, being bought for 'loston as well as the foreign account, and selling up % per cent in the morning hours. In sympathy with the rest of the market the stock reacted 3% per cent in the afternoon, rallying 1% per cent. ation by prominent houses here and in Lon-don. Lead common declined 1% per cent, Lead preferred 1 per cent, and Delaware & Hudson preferred 1 per cent. Some few of the usually inactive shares made an advance on the day. The railway and miscellaneous bond market was very firm all day. The Post mays: Outside of today's foreign purchases the local market was chiefly in the-hands of surface traders. These operators were in the main disposed to work for a lower level, and their efforts did in fact result in a rather general reaction. Here and there, too, some larger speculative interests were evidently taking profits. All things considered, however, the sales were remarkably well absorbed.

The following are the closing quotations on the leading stocks of the New York exchange 15L. Northern

cable says: The markets were cheerful today, illiedded stocks Tring war and speculation spreading to all departments. Dealings are mod-erate at present. The constitution of hostilities in Braail hell a good freet on all foreign stocks. Americans were sood all day but chosed below the rest. Atchison are storard bought here on favorable views of the resummination. Silver sold at 37.5-180, and was weak. China has censed buying. OMAHA LIVE STOCK MARKETS.

Cattle Sell Steady All Day-Hogs Lower and Wenk.

WEDNESDAY, March 14. Continued activity prevails in the beef cattle market with only a fair number on sale. Light receipts here, however, were accountable for a considerable part of the active trade, as other markets reported heavy sup-ples and a weak business. There was no quotable change as a rule, but just a good strong tone to the market. The close was rather quiet, however, with a few still

The demand for cows and heifers was brisk and as the number on sale was small de-sirable grades cold stronger, while rough and inferior stock was picked up freely at fully steady figures.

The movement in stock cattle was free with only a fair number on sale. Prices held firm on anything at all salable and the market closed strong all around. Representative sales:

CHICAGO LIVE STOCK. Butchers' Stuff Was in Light Supply and Sold

Readily at Former Prices CHICAGO, March 14 -- Butchers' stuff was h ant supply and sold readily enough at forme fices. Steers, such as shippers and dresses

ef concerns seek, could not be sold at steady tess. The very low prices prevailing across prices. The very low prices prevailing across the water is causing a lesseneed demand from ex-porters, and there was not enough competition among layers for the home markets to impur-fermness. There was a slight decline in price for the several grades of steers, sales miking of a basis of from \$1.25 to 54.95 for inferior to extri-natives and from \$1.25 to 53.55 for Fexans. The bulk of the former changed hands at from \$2 b \$1. It took pretty good stuff to bring as much a basis of request, but the offerings commanded a biller figure. Stockers and freedors continu-in good request, notwithstanding the flat contin-built of the market for fail cutlle. They are validite at from \$2.90 to \$2.65, according to qual up. The call market was weak, with a declin-generation and as the article is high as compares with other commodities, a decline scena to be newtiable.

with other commodities, a desirie seems to be inevitable. With 22,000 head fresh receipts, and stale hogs enough to swell the supply to 40,000 head, sellers were unable to sixy Lae downward course of prives. The decline was only a little less severe than for the day before. It averaged from the to like per 100 line, and makes a reduction since Saturday of firm 40c to 450. After a little early rading, on a basis of from 34,00 to 44.55 for the best heavy, the market very seon dropped to 4.55 for that grobe and later in the day to 44.50, but the decline some activity was developed, but he market remained weak to the close. Sales vere at from 34.55 to 34.75 for merchantible loss, there were few trades at leaster than 34.50, the reat bulk of the suff being weighed at from ected to see decrement amplies and the chances re that there will be a supplies and the chances

great bulk of the stuff being weighed at from \$4.55 to \$4.56. The remainder of this week is expected to see decreased amplifics and the chances are that there will be a sucht recovery of prices. At the class of hushness today there were bulk few hogs in commission men's hands.
 Sades of sheep did not indicate any change in values. Poor to best grades of sheep were sailable at from \$1.55 to \$4.25. There was a fairly active market at those quotations, though outside of local shaughterers there was comparatively little inquiry. Most of the sheep sold at from \$1.55 to \$4.25. To \$4.15 bought most of the lambs.

There are many new things to be seen in Moquette, Axminster and Velvet carpets, and they are down in price. You can buy a good Velvet at 90c and \$1.00 per yard---depends on the pattern.

\$1.00 will be the price put on a few patterns of Axminsters. It will pay you to see them, as there won't be any at this price long.

Ingrains in the greatest variety of new effects. The prices begin low enough, and only get to 55c for an wool extra super. Some new things as high as 65c and 75c, but they are just as cheap.
