COMMERCIAL AND FINANCIAL

Frost Scare Was the Influence in the Wheat Pit.

CORN AT THE OPENING WAS STEADY

Oats Opened a Shade Easier but Shortly Afterward Rallied -- Higher Prices Ruled in Provisions and Offerings Were Light.

CHICAGO, March 21 .- A frost scare was the alpha and omega of the day's influence In the wheat pit. It advanced the price of wheat 1/2c per bu, for a time, but there was a bare 14c gain at the close. Corn made a 4c advance and lost it again. Provisions were firm and secured a larger por-

tion of the day's advance. Wheat opened with a good general demand for May at a shade higher price than it closed yesterday. The weather for the season of the year was extremely cold in some sections. The fear of perhaps 15 or 20 degrees of frost spreading down on the winter wheat belt caused some covering of short wheat and advanced May in about twenty minutes from 58c, at which it opened, to from 58kc to 58kc. New York sent a good many orders to buy in short wheat. H. V. Tester lead in the buying at the opening and took, perhaps, 1,000,000 bu, in the first fit-teen minutes of the session. Other commission houses were also fairly well supplied with similar orders, but the first batch having been executed the market settled down into quiet at around from 58%c to 58%c. When the weather service prediction of a when the weather service prediction of a cold wave for the greater part of the winter wheat region tomorrow changed the charac-ter once more of the chorus in the pit, the voices of the bulls again began to predominate. The price began to rise and 58½c was registered for May on this second bulge. Then the local crowd, having loaded up early in the day, seeing no frost on the win-dows of the trading hall and hearing of no fresh cash business, commenced to unload, and the price got back again to 58c for a moment and closed with sellers at 581/c.

The strength in wheat helped it some after that, and then came estimates for another day's small receipts and a demand in the sample market was the cash offerings in excess of the supply. T. M. Baxter, Swarts-Dupee and Ramsey-Lightner were among the more noticeable buyers, and Bartlett-Frazier, the chief sellers. The mar-ket eased off with wheat toward the close.

Oats opened a shade easier, but shortly afterward, when signs of strength became noticeable in corn, the market rallied and was slightly firmer during the greater part of the rest of the session, but closed at last night's figures.

The provision market was strong at higher

prices. The quantity absorbed by yesterlay's purchases left the market quite bare. The demand continuing and the offerings being light, the advance under the circumstances became a matter of course. Baldwin, about the middle of the session, began to buy ribs and took about 1,000,000 fbs. and Beasley took about 250,000 fbs. Compared with last hight, May pork is 10c higher, May lard 7½c higher and May ribs 7½c higher.
Estimated receipts for tomorrow: Wheat, 37 cars; corn, 165 cars; oats, 140 cars; hogs.

STOCKS AND BONDS. Pate of the Seigniorage Bill with the Presi-

dent a Factor in Speculation.

NEW YORK, March 21 .- Although not

altogether a controlling influence of the speculation on the Stock exchange, the fate of the seigniorage bill is full of interest to the street, and operators for both the long and short accounts trade on their respective theories as to the probable action of the president. The dispatch received from the executive chamber last evening by the Chamber of Commerce committee appointed to present the memorial adopted against the signing of the measure, advising that it should not go to Washington, was taken by one section of operators to mean that inasmuch as the resolution had been reached to veto the measure it was unnecesreached to veto the measure it was unnecessary for the committee to make the journey. On the other hand it was suggested that the president, having decided to sign the bill, did not desire to speak to the committee. Both sides of the question agreed that Mr. Cleveland had cither made up his mind as to the course to pursue or wished to arrive at a conclusion without these to arrive at a conclusion without the as-sistance of the New York financiers. A belief in a veto caused a buying move-

ment during the morning, while in the after-noon the early purchasers became sellers There were other factors besides the seign-icrage bill which affected special stock and sympathetically the entire market. The sugar interests profess to regard the sugar schedule on the senate tariff bill with only little less favor than they accepted the house bill, and assert that it does not give any material protection to refiners. As a consequence, the bears in the Sugar company's shares are assisted by this argument in hammering down prices. Reports today were circulated to the effect that ocrtain prominent senators have stated that the tariff bill as it will pass is certain to make sugar free, but withal, the common stock, after an early break, recovered all but a fraction of the loss, while the preferred

made a slight gain.

Pending the conclusion of negotiations in progress between representatives of the dis-tilling and the distributing companies, the speculations' in Distilling are contracted. The uncertainty which prevails as to the outcome of the conference naturally restricts the buying, and the bear traders are not anxious to put out long lines of the stock lest they be swamped in a boom manufac-tured out of a possible agreement between the rival interests.

A covering movement in Burlington was the moving power in the appreciation in this stock, but despite early purchases of St. Paul for the London account the later selling reduced the advance in the common to 1/2 per cent, but the preferred made an advance of 1/4 per cent. The volume of business was lighter than for some time, even sugar failing to show its accustomed activity. activity. A firm opening was followed by an early advance, except for sugar, which, after an advance of 25% per cent, broke 25% per cent, subsequently recovering 23% per cent, but again reacting 2 per cent, rallying 1% per cent, receding 1% and closing at a recovery of 1 per cent, the loss on the day being 1½ per cent. The general market was stronger during the afternoon until about 2 o'clock, when a reaction occurred, but in the final dealings the speculation became firm again and closed with prices in the main ¼ to % per cent higher than the final quotations of yesterday for the active list

The Post says: Failing again to push the market down, professional traders pro-ceeded to bid it up today and some stocks scored a material advance. The advance was very small as a rule, as speculators did the most of it. No doubt the growing con-fidence that last week's rumors were base-less and that the president will yeto the seignlorage inflation bill had its share in increasing local sentiment. This whole in-cident is curious, but by no means incomprehensible. Any executive would prefer before vetoing to get strong and public expression of popular opposition to a measure. Despite last week's misgivings \$3.5099.50.

WESTERN UNION MUST PAY.

Fremont's Occupation Tax Not a Hindrance to Interstate Commerce.

LINCOLN, March 21 .- (Special to The Bee.)-Late last evening the supreme court handed down an opinion in a case of extreme importance to every city of the second class in the state. It is the case arising out of the attempt of the city of Fremont to impose an occupation tax upon the West-ern Union Telegraph company. The com-pany resisted the collection of the tax on the ground that it was a corporation doing an interstate commerce business, and, therefore, was not amenable to any local or municipal laws. The district court decided that the city of Fremont had the right to impose and collect the tax. The supreme court affirmed the decision of the lower

The opinion is a lengthy one and was written by Chief Justice Norval. In con-cluding the opinion he says: "We have no hesitation in holding that the ordinance of the city of Fremont in no manner places a burden on or restriction upon interstate com-merce, nor does it tax the agency of the federal government. The ordinance ex-pressly excludes from its operation all gov-ernment and interstate business. The plaintiff in error could transmit messages relating to government business and carry communications from this state to points in other states and to persons and places within this state unmblested and without paying to the city of Fremont a cent as license tax therefor. • • • The judgment of the district court is right and is therefor

The syllibus of the opinion is as follows: Under section 52, chapter 14, article ii, compiled statutes, 1891, each city of the second class having more than 5,000 inhabitants has the power to levy a tax upon every business or occupation carried on within the territorial limits of the municipality, excepting alone those enumerated in the proviso clause of Said action.

2. Municipal authorities are powerless to license or tax any business or avocation conducted exclusively outside of the municipality.

cipality.

3. A city of the above class may lawfully enact an ordinance imposing on telegraph companies a license tax of a reasongraph companies a license tax of a reasonable sum per annum for the privilege of transacting the business of telegraphy within the city. And the fact that the telegrams received and delivered within the city were transmitted over the lines of the telegraph company from other points within the state, or that the messages received by it at its office or place of business in the city were transmitted to various other places in the state does not invalidate the tax. Irvine, commissioner, dissenting. places in the state does not invalidate the tax. Irvine, commissioner, dissenting.

4. State and municipal authorities are powerless to impose a tax upon messages to or from other states, since such a tax would be in conflict with that clause of the federal constitution which gives to congress the exclusive power to regulate commerce among the several states.

5. Where a telegraph company is engaged in both interstate and intrastate business an ordinance levying an occupation tax on

an ordinance levying an occupation tax on that portion of such business which is car-ried on wholly within the state is not repugnant to section 8, article i, of the constitution of the United States, since it in r way interferes with or regulates interstate

commerce.

6. An occupation tax may be called by ordinary suit where the ordinance imposing the tax so provides. Glade against White. Error from Saline county. Affirmed. Opinion by Commissioner Ryan.

In an agreement for the settlement of partnership matters, the stipulation that one of the partners individually assumed and agreed to pay all the outstanding debts and liabilities of the firm presented a question of fact whether or not taxes on property used by said firm, though not owned by it, constituted part of its firm liabilities, and a finding in the affirmative of such proposition not being without support of evidence will not be set aside as unsupported by sufficient proof.

2. The findings of the trial court adversely to an arbitrament having been entered into between partners for the settlement of differences between them will not be disturbed when there were such proofs as would justify the conclusion reached as one which might reasonably be attained upon due consideration thereof.

Pleasants against Blodget et al. Appeal from In an agreement for the settlement of

Pleasants against Blodget et al. Appeal from Lancaster county. Affirmed. Opinion by

Commissioner Ragan. A person buying real property in the actual possession and occupancy of another is charged with notice of any right, title or interest which such occupant has

other is charged with notice of any right, title or interest which such occupant has in such property.

2. One who holds real estate by virtue of a quit claim deed from his immediate grantor, whether a purchaser or not, is not a bona fide purchaser in respect to outstanding and adverse equities and interests against his grantor shown by the record, or which are discoverable by the exercise of reasonable diligence in making proper examination and enquiry.

3. One who purchases real estate and takes a quit claim deed therefor takes only the interest his grantor has in the property at the time of such conveyance. Pleasants against Blodget, 32 Nebraska, 427, followed and adhered to.

4. The existence of record of a mortgage on real estate is of itself sufficient to put an intending purchaser of the property on inquiry as to the interest of such mortgagor in such real estate.

5. In an action to quiet title the statute of limitations does not begin to run in favor of the defendant until some assertion of ownership or claim to the premises is made by him.

OMAHA LIVE STOCK MARKETS

Catt'e Receipts Show an Increase, but Hogs and Sheep Decline Sharply.

BEEF STEERS ARE QUIET AND EASY

Demand Not Great and Buyers on Easy Street-Hogs Sell Well with Very Little Change in Prices-Sheep in Good Demand.

WEDNESDAY, March 21. Receipts for the past three days compared with supplies the first half of last week show an increase of about 2,500 cattle, while hogs have fallen off some 5,500 head and sheep more than 1,500 head.

The cattle market was rather slow and generally easier. Receipts were not at all excessive, but they were ample, and with bearish reports from other markets all classes of buyers were more or less indifferent. Shippers were hit hard last week, and for this reason the heavier grades of Omaha Packing Co. 827
The G. H. Haumond Co. 447
Swift & Co. 608
The Cudahy Packing Co. 682
A. Hans. 171
Shippers and feeders. 699
Left over 100 steers were neglected. Selicrs found it difficult to get a decent bid, and in most cases were satisfied to get rid of them at prices all of a dime lower than Thursday. The fair to good light and medium weight steers were in the best demand and sold at very little less money. Low grade stock, however, had to sell lower and was hard to move. There was very little life to the trade, but a continuous movement resulted

n a tolerably early clearance. The market for cows was not much changed; if anything prices were a shade firmer than Tuesday. There were scarcely twenty loads on sale and buyers for local slaughterers soon had them corralled. Calves were in rather better demand and a trifle firmer for desirable real stock, but rough stock sold but indifferently, although hardly quotably lower.

such a rim as was recorded today (18,00) head) prices would range lower. The nurket remained weak to the end and some cattle had to be carried over. All but about 2,000 head weak to the end and some cattle had to be carried over. All but about 2,000 head were natives. They were quoted at from \$1.25 to \$4.90 for poor to extra. with sales preity generally from \$2 to \$2.85 for cases, helfers and halls, and at from \$2.15 to \$3.29 for steers. There was a fair inquiry for stockers and feeders at about low decline from Monday's prices. Texas cattle shared in the general weakness; they averaged low lower than yesterday, the buik selling at from \$2.50 to \$1.25.

The log nurket opened strong, but the close was dull and quite weak, with \$4.65 the extreme top of the market for heavy and medium weights and \$4.79 for the best light. The quality was good and the buik of the logs were weighed within the narrow range of from \$4.50 to \$4.65. Receipts were about 22,000, making \$60,000 head since Saturday. There was quite a lively trade in stockers and feeders. Regular dealers' supplies were not large and there were good buying orders from the country. Prices ruled steady to a shade stronger. Choice Colorados weighing 1,155 lbs. brought \$3.45, and nothing of any consequence had to sell at under \$2.85.

COLORADO CATTLE. No. Av. Pr. No. Av. Pr. 50 feeders....1129 \$3 30 23 feeders....1156 \$1 45 52 feeders....1000 3 10 HOGS-Dealers were again disappointed at the lightness of the supply on sale today. The shortage so far this week compared with last amounts to over 5.500 head, and this circumstance is responsible for the firmer feeling that prevailed both here and elsewhere. Local packers monopolized the buy-ing, but as they were apparently all anxious for supplies and eastern markets were better, prices ruled stronger from start to finish. Some of the early sales were not more than steady, while toward the close there were instances of a nickel advance. On the whole the market averaged up a shade better than Tuesday. Sales were all within a comparatively narrow range from \$4.3216 to \$4.42½, but about everything went at from \$4.35 to \$4.40, or a shade higher than on Tuesday, when \$4.35 bought the big bulk
