COMMERCIAL AND FINANCIAL

Wheat Was Weak and Closed with Nearly One Cent Loss.

CORN WAS QUITE HEAVY IN SYMPATHY

There Was a Fairly Active Business in Outs -Provisions Strong and Higher at the Start but Later There Were Free Offerings.

CHICAGO, April 10.-Wheat was weak and closed with a loss of %c. The anticipated bearishness of the government report and favorable weather caused the decline. Corn and oats were firm. The cables were practically firm, but closed lower than yes-

Wheat opened weak at about the point it left off yesterday. The weather over the greater part of the winter wheat area was such as to warrant the expectation of it repairing the greater part of the damage done by the frost. The 25,000,000 bu. of immovable wheat in Chicago began to foom up big again and the unhealthy premium which that wheat here was being traded in, compared with the prices quoted at the principal wheat markets, caused comment on that condition of affairs to become more general. Between the opening and noon there was a heaviness, which gradually depressed the market for May to 63%c, as compared with from 63c to 63%c at the start. After selling down and recovering to there were sellers at 62% at the

The feeling of strength which corn displayed yesterday was again uppermost. The market, after a good opening, became rather heavy around yesterday's closing values. There was a fairly active business in cats May started %c higher than yeatreday's closing price, sold at 32%c and up to 32%c. Just before the close there was a spurt and the market closed with buyers at from 32%c to 32%c.

The provision market was strong and higher at the start, but the edge was taken off by free offerings of packers. After some advance several houses became agressive Estimated receipts: Wheat, 40 cars; corn, 95 cars; oats, 105 cars; hogs, 25,000

The leading futures ranged as follows:

Minneapolis Wheat Market. Minneapolis Wheat Market.

MINNEAPOLIS. April 10.—The markets were duil today with wheat men all waiting for the government report to come in this afternoon. Many of them believed they knew about what the report would be, but there was an element of uncertainty that prevented active trading. Prices in the morning opened a little easier than they closed yesterday, but not lower. Business soon developed a greater desire to sell than to buy and the market ran down by with small fluctuations, and remained at that until about the close. There were a few orders to buy and obspers claimed some trouble in filling their orders at this market, owing to the small amount that was offered. Reports from the country indicated very small receipts there, which would not run to more than 40,000 to 50,000 bu, for the day. It follows, therefore, that there will be another considerable decline in the amount of stocks in the country elevators during the some rate as last week, making about 20.00 bhis, and using about 100.000 bu, of wheat in twenty-four blace. The shipments were \$5.10 his, making a distribution of 176.130 bu, against receipts of 115,400 bu, necessarily decreasing the boas supply a lie to for the day. This mate a firm macket for each wheat and April sympoliused, while the market rutures closed lag looser than vasterday at 82c for April 87%c for May \$21cc for July and \$21cc for Sprember. On the contract that the market rutures closed lag looser than vasterday at 82c for April 87%c for May \$21cc for July and \$21cc for Sprember. On the contract \$18cc hard, \$21cc, No. 1 borthern, and \$13cc for No. 2. The flour market was steady with patents selling from \$3.40 to \$3.00, and bakers' from \$2 to \$2.35.

CROPS DAMAGED BY COLD. Wheat, However, is in Better Condition Than

Last Year. WASHINGTON, April 10.-The condition winter wheat on the first day of April, as re-ported by the statistician of the Agricultural de-

partment, averages 86.7 per cent; in the entire country has year the average was 77.4. In 1852 It was \$1.2, and 96.9 for the year 1891. The corresponding average for rye is 9.4 per cent. The average for wheat for the principal states is as follows: Kennecky, \$3; Onlo, \$9; Michigan, \$3; Indiana, \$9; Himsis, \$7; Missouri, \$8; Kansas, 72; Nebrasha, \$5; Iowa, \$7; Missouri, \$8; Kansas, 72; Nebrasha, \$9; Himsis, and are not favorable to planting and germination. Very little damage is reported from the Hessian fly, and that only in sections of Ohio, Michigan, Illinois, Missouri and Kansas, The weather from seeding time until the recent old wave swept over the country, except in cases hereafter noted, has been very favorable to the growth of the plant. partment, averages \$6.7 per cent; in the entire

over the country, except in cases increater noted, has been very favorable to the growth of the plant.

In the eastern, northern and northwestern states snow covering has afforded protection in addition to the mild temperature. The returns in regard to the effects on wheat resulting from the recent cold snaps are not as satisfactory nor as conclusive as is desirable. The injury to the crop is undoubtedly considerable, if not great, but the comments of correspondents accompanying the reports would seem to indicate that the full extent of the damage was not generally determinable at the date of the transmission. In the eastern and northern states the damage was comparatively slight. In the south Atlantic and the southern states the injury was marked and decided, with perhaps the exception of Texas, while in the states of Ohio, Indiama, Michigan and Kentucky the injury from frost is considerable, the extent in some is contingent upon further meteorological conditions. The returns indicate that freezing of the ground was quite prevalent, especially in low and rich moist lands, but with roots left unioushed, or at least alive, with good prospects of recuperation on the recurrence of favorable weather. In the states of Kansas, Nebraska and California the impaired condition of the crop has not resulted somethy from the first as from cold, dry weather. High winds are also noted by our Kansas correspondents as one of the causes of unfavorable conditions. Rain is much needed in these as well as other important wheat producing states. The condition of farm animals, together with the estimated losses, will be as usual in the forthcoming April builetin.

St. Louis Markets.

ST. LOUIS, April 10.—FLOUR—Weak with wheat. Patents, \$229673.05, others unchanged. WHEAT—Lower on heavy selling in anticipation of bearish government report, closing 54674c off. Manchester Textile Market. MANCHESTER, April 10.—Cloths and yarns pulet and steady.

STOCKS AND BONDS.

Share Speculation Was Rather Dull Yester day and Price Changes Unimportant. NEW YORK, April 10 .- The share speculation was rather dull today and the movement of prices was unimportant. It was almost entirely a local traders market, neither London nor big home operators buy ing to any great extent. The arbitrage houses did, however, buy Atchison and Den ver & Rio Grande preferred in small lots. The apparent tendency of the foreign ex-change market towards hardening had a depressing influence on the market, inas-much as it relieved the talk of gold exports Exchange is not up to the shipping point, but it is regarded as not unlikely that the rates may advance tomorrow or Briday so as to render exportation of gold profitable At the opening, prices were generally higher than at the close yesterday, but soon took a downward turn, but towards midday the speculation assumed a firm tone and an advance took place, but of small proportions, which was in progress until shortly before 1:45. Then came a selling movement, in which the earlier improvement was lost and

a lower range of prices was established. In the final dealings, purchases to cover short

contracts caused a fractional rally and the market closed slightly firmer, but at a decline from the last prices of yesterday, rang-ing from ¼ to 2½ per cent. The railway and miscellaneous bond market was steady in the early dealings, but became easier toward

the close. The Post says: Like ye terday's market, toady's was chiefly distinguished by its complete inactivity. Prices, as a rule, were slightly lower, but the reaction was of that mild and harmless character which comes in a market pause, when habitual specula-tors for the decline have jost their reckoning. Silver bullion advanced again, selling close to last week's highest level, but this was, of course, no local movement in a speculative way, and foreign markets, too, are doing relatively little; but current Euro pean purchases of bonds in this city may by no means be adequately measured from the recorded transactions of the Stock exchange. the leading stocks of the New York exchange today:

SAN FRANCISCO. April 10.—The official closing quotations for mining stocks to lay were as fol-lows: | 16 | Mon | 5 | 5 | 28 | Navajo | 10 | 155 | Navajo | 10 | 155 | Navaja Queen | 3 | 34 | Ophir | 315 | 5 | Potosi | 95 | 30 | Savago | 70 | 300 | Sterra Navada | 120 | 20 | Union Con | 84 | 75 | Utah | 0 | 63 | Yellow Jacket | 65 | 165 | Gould & Curry. Hale & Norcross... Mexican..... New York Mining Quotations.

NEW YORK, April 10. The following are the closing mining quotations: London Stock Quotations.

LONDON, April 10.-4 p. m. closing: lonsols, money .. 99 15-16 Mexican ordinary. Consols, ace nt. 100 St. Paul com. 66 Canadian Pacific. 7136 N. Y. Central. 104 Eric. 1756 Pennsylvania. 523 Eric 2nds. 8354 Reading. 115 Hilmois Central. 97 Mex. Cent. new 48. 485 MONEY—14/6/15 per cent. BAR SHAVER—28540 per onnee. The rate of discount in the open market for shor bills is 1/15-156/15 per cent, and for three months bills is 1/16/13s per cent.

On the London Market. On the London Market.

NEW YORK, April 10.—The Evening Post's London cablegram says: The markets were quiet and featureless. Contangoes on Americans were 2½d to 3½d. The tone was builtsh on the prospect of a long delay with the tariff bill, but Denyer's were better on the rise of silver. Silver was up to 28½d on the rise on your side, buying for China and Guaternala and the scarcity of supplies. It leaves off fairly firm and no great relapse is expected. Fifty four thousand pounds in bar gold and 126,090 in gold were bought there. There was no fresh demand for money. Sales were hardening and no great plethora of money is now expected.

Imperial Bank Statement. BERLIN, April 19.—The statement of the Imperial Bank of Germany for the week shows the following changes, as compared with the previous account: Cash in hund, decrease, 5,440,000 marks; treasury notes, increase, 259,000 marks; notes in circulation, decrease, 32,680,000 marks; St. Louis Mining Stock Quotations. DENVER, April 10.—Today's receipts of gold at the Denver mint amounted to \$34,000, the largest for any one day in the history of the mint. During April, 1893, the receipts were \$101,641. Up to date this menth they are \$215,000.

OMAHA LIVE STOCK MARKETS

Receipts Were More that Double the Light Run of Monday.

BEEF CATTLE SELL A FULL DIME HIGHER

Dealers Take the Offerings with Remarkable Avidity at the Raise-Under Grade Follow the Top-H gs Sail Again, Jumping Twenty Cents.

TUESDAY, April 10.

Receipts of all kinds of stock were liberal oday, more than double Monday's run, making the two days' supply practically the same as for the first two days of last The run of cattle was the heaviest since December 6, 1893, over four months, and the

general quality of the offerings was pretty good-improving right along. Comparatively moderate receipts at Chicago and a stronger market there gave sellers their cue, and, as there was an exceptionally active shipping demand and all local houses were in the field for supplies, they started in asking pretty stiff prices early. Dealers did not take long in getting together and trading on the basis of prices strong to a dime higher than Monday was active enough to suit the most exacting. The movement was free from the opening, over a third of the offerings going to outside butchers and speculative shippers. Dressed beef men were espe-cially active toward the close and the market closed up at the high point of the day, with practically everything disposed of by the middle of the forencon. The fact that nearly 4,400 cattle changed hands as quickly today as less than half that number sold Monday gives a fair idea of the tone of the trade. Either the cattle are not in the country or else those who have them are not worrying for fear the present advance will not be sustained. Less than 10 per cent of the entire re-

ceipts today were cows, and, with the usual favorable conditions, desirable offerings sold all of a dime higher, there being plenty of all of a dime higher, there being plenty of trading at from \$3 up to \$3.50. Common and canning grades were easily moved, although at prices that were hardly quotably higher than Monday. There was a good showing of calves, and prices ruled about steady, but the market for rough stock of all kinds was active and stronger.

all kinds was active and stronger.

The trade in feeders was decidedly brisk. Neither the fresh nor stale offerings were at all excessive, and both yard traders and outsiders were after supplies. Prices ruled all of 15c to 20c higher than Saturday, and more cattle would have found ready buyers. Some choice, well bred 1033-lb, hay-fed west-ern cattle brought \$3,80 for feeders, but \$3 to \$3.50 bought the bulk of the offerings out of first hands. Representative sales: DRESSED BEEF.

WYOMING. HOGS-Liberal receipts apparently did not choke off the demand for hogs, as with nearly 7,000 on saic the market ruled fully 20c higher than Monday and 50c higher than on last Tuesday. Dealers all figured on a higher market today, but they hardly ex-pected a 20c advance and some of the early sales did not show it. There was an active inquiry from both shippers and speculators. Armour of Chicago was an early buyer and bought freely. Squire of Boston and the

Nebraska City house also wanted hogs and got them. Local packers were anxious for supplies, but hesitated to pay the advance asked. To hesitate on a red hot market like today's is to get left, and even after raising their hands they were unable to fill their orders, and the market closed up and 25c higher than Monday. Natur Naturally with such a jump in prices sales were very uneven. There was some trading early at \$4.85 to \$4.95, but the average market for fair to good hogs, regardless of weight and almost regardless of quality, was \$5 to \$5.05, while during the high time at the close there were lots of sales at \$5.05 to \$5.10. The trading was decidedly lively while it lasted and was soon over, everything having changed hands by 10 o'clock. On Monday the hogs sold mostly at \$4.80 and \$4.85, and on last Tuesday they went largely at \$4.50 and \$4.55. Representative sales:

SHEEP-Although four loads were received today there were no sheep on sale, everything being billed direct to slaughterdemand from all hardly be more urgent than it is at present, and prices are quotably stronger on all suitable grades. Fair to good natives are quotable at \$3.25@4.75; fair to good westerns, \$3.00@4.50; common and stock sheep, \$2.50@3.25; good to choice 40 to 100-lb, lambs at \$3.50@5.00. Receipts and Disposition of Stock.

Official receipts and disposition of stock as shown by the books of the Union Stock Yards company for the twenty-four hours ending at 5 o'clock p.m., April 10, 1894;

CHICAGO LIVE STOCK. Heavy Receipts Expected for Today and CHICAGO, April 10.-Prices for cattle were steady today. There was a better demand than is usual for Tuerdays and the supply was small is usual for Tuerdays and the supply was small (3,590 head), but the buyers are confident that the receipts for tomorrow and the following day will be large, and there seemed to be a general determination not to pay any advance on Monday's prices. None was paid, the market ruling quiet and steady at that day's prices. Within the last ten days there has been an advance of from 25c to 50c, and under the chromasances it is about all that sellers can reasonably expect for the present at least. The bulk of the steers here today sold at better than \$3.75. There were a few trades at better than \$3.75. There were a few trades at better than \$4.40, and extra 1,590 to 1,790-lb, steers were quoted as high as from \$4.99 to \$5. Extra cows, helfers and bulls sold around \$3.59 and the range of quotations for stockers and feeders was from \$4.60 to \$3.75. Of Texas cuitie about 50 head were offered. They were in good demand and were strong at from \$2 to \$4, according to quelity.

There was unabated activity in the demand and were strong at from \$2 to \$4, according to quality.

There was unabated activity in the demand for hogs and the market to all appearances was as strong as at any time since it furned appearance was strong as at any time since it furned appearance that as strong as at any time since it furned appearance was several to the appearance was locally and the higher than last Tuesday. There were many soles at \$5.25 and a few at from \$5.30 to \$5.35, white top westerns were \$5.272, and last Tuesday from \$4.80 to \$4.8242 took the best. Competition was brisk and every hog was out of salesments hands before 10 o'clock. Many orders had to go usfilled and the late market was strongest. Trading was at from \$5.15 to \$5.39 for very common to choice grades. Culls sold at from \$3 to \$1.75 and a load or two of fancy quality brought \$5.35. Receipts since last Saturday amount to only \$4.900 head, or about 19.000 head less than a week age. Receipts since last Saturday amount to only 40,000 head, or about 12,000 head less than a week age.

There was a somewhat less urgent demand for sheep and lambs and the buoyancy lately characterising the market was lacking. Buyers appeared to have awakened to a resination of the fact that there has recently been a right smart advance in prices and that the consumption of mutton is being materially curtailed by reison thereof. They took hold with much more reserve than has characterized their operations for some time past, and, while they paid about former prices, the feeling was bearish. Sales were on a basis of from \$3.50 to \$4.50 for common to extra sheep and from \$4.55 to \$5.40 for common to extra sheep and from \$4.55 to \$5.40 for common to extra sheep and from \$4.55 to \$6.40 for yearlings. Most of the sheep changed hands at \$5.25 and \$5.75 took the bulk of the yearlings.

Receipts: Cattle, \$5.50 head; calves, 1,000 head; hogs, 14,000 head; sheep, 10,000 head.
