The triangular nature of the contest is exciting much comment among both railway officials and strikers. It is considered somewhat in the nature of a fight for exixtence on the part of the brotherhoods, for if defeated and compelled to join the American Rallway union, the present members of that union, being in a large majority, would control its affairs and the engineers. firemen, conductors and trainmen of the brotherhoods would have to submit to the greater voting power of the lower paid emloyes. A local leader in the union said oday that when the first cut was made last fall their organization was too weak to fight

but now they have 90 per cent of the men in their membership and will fight the cut. The strike leaders have been careful to avoid interfering with mail cars or cars cartying mail, claiming thereby to have avoided danger of clashing with Uncle Sam, but a Great Northern official today said that in the big "Q" strike the courts had decided that the whole train was included in the term "mail train," and the Great Northern be-lieved itself clear of obligation to move a single mail car.

President Hill and General Manager Case today are in conference with the local chiefs of the Brotherhood of Engineers and Fire-men. Mr. Hill says he knows of nothing whatever new in the situation and Mr. Case explained that as far as Grand Forks everything is running as usual, but beyond that point he was entirely without information. When asked regarding the statement of the American Railway union leader at Seattle that he had been refused a hearing by the company, the officials turned the question over to the brotherhood leaders, who said they could not speak for any one but themselves, but that they had always been promptly received.

'I am going to St. Paul to investigate the Great Northern strike," said Chief Arthur "When I was up there some wasks ago the engineers entered into a contract with the company which was a settlement of theh differences with the company. The strike Insofar as the engineers are engaged in it, is a violation of that agreement and a violation of the laws of the engineers brother Some of the engineers have struck but whether those who have gone out are members of the brotherhood or not I do not know. If they are they have violated the rules and must take the consequences. My object in going to St. Paul is to meet the exscutive committee of the engineers, the chairman of which telegraphed for me yes-

terday."
Will you order the engineers who are on strike to return to work if they are members of the brotherhood?" Mr. Arthur was asked.
"I can't say as to that. Even if they should return to work that whould not save them from the consequences of violating the

rules of the brotherhood." Chief Sargent said the firemen on the road who have quit work also violated the rules of their organization and will receive no aid or comfort from the order. Chief Sargent is not going to St. Paul but to Fort Wayne to attend a meeting of the local meeting of

BIRMINGHAM, Ala., April 16.-The posse of deputy sheriffs sent to the Blue Creek mines to quell any disturbances that might arise are still there. No trouble occurred at that point today. The others refused to go, fearing violence at the hands of the strikers. The negro only worked an hour two. All the men in this district except Walker county, have gone out, and in that county meetings are being held today to deide whether or not they will join the all who have not gone out will strike today.

The situation is regarded as serious.

CHICAGO, April 16.—A local paper declares it is now settled that within the next week or ten days strikes will be declared on several northwestern roads running out of Chicago. Arrangements are about completed for the inauguration of a struggle with the Pacific coast lines which is expected to extend for some time the settlement of the differences. The conference will involve all the existing brother-hoods after the manner of a three-cornered hoods after the manner of a three-cornered fight, in which the older brotherhoods will seek to annihilate the American Railway union. Yesterday a lady named Fox, who lives at Blair and who does her shopping here often, came in on the train at the Webster street depot. She alighted and noticed a young man approach her as if to speak and thought at first she knew him. When he got close to her he snatched her pocketbook and ran down the platform. She called to several people to stop him, but he succeeded in getting on the street. Here he was noticed by Officer Fisk and arrested as he was about to get on a street car. He had the pocketbook, which contained \$20, on him when arrested, but said t belonged to his sister, who had come from

ANOTHER ARMY COMING.

One More Installment of the Kellys Trying to Get to Washington.

Another contingent of the Commonweal army, which had it birth in California. reached Ogden on Sundey. Application to the civil authorities for food and shelter met with cold response on the part of the mayor and others in power, although the men, who number 100, did not suffer for want of food. So small is this army in contrast to the forces of General Kelly, now at Council Bluffs, that in Utah people ordered the unemployed out of Ogden and not to stand upon the order of their going, but to go at

Union Pacific officials have been kept ested as to the movements of these men, who are seeking to join Kelly in the Bluffs, but they have little fear that the stragglers will pursue the same tactics as adopted by Kelly. In any event they have given orders to trainmen to resist, should the Industrialists attempt to capture a train, and at bendquarters confidence is expressed in the ability of the train crews to hold off a small ontingent such as this is reported to be.

When last heard from the second edition

f the occidentals were at Uintah, Utah, here they were patiently waiting for an unpty train of box cars to come along which they might appropriate for their own use. Only the most meagre information could be gathered at Union Pacific headquarters, the movement of the men not oc-casioning anything like the anxiety that surrounded the movement of Kelly's army.

An official of the Union Pacific, regarding the unwashed of Kelly's army, said: "You can have no idea how closely the movement of the Kelly train was watched on our part. here were anxious moments from the time he army took possession of the train at intah until Council Bluffs was reached. We had no knowledge of the disposition of he men, and had any accident occurred he moral effect would have been against our company, although legally we could not have been held for a single cent of damages, for these men were highwaymen and were pursuing acts of outlawry in seizing trains. Meeting with Old Time Friends Proves Ex-

Passed Through the Lobby Shaking Hands with Members and Walked Up to His

> Seat, but Did Not Stay Long-His Campaign.

WASHINGTON, April 16 .- Representative Breckinridge of Kentucky appeared on the floor of the house of representatives today for the first time since the trial of Miss Pollard's suit began in court. He reached the capitol shortly before the session opened and went first to the appropriations commit tee room, wher he exchanged greetings with members of the committee. There was no allusion to the litigation and only the usual expressions as to good health. Then he passed through the lobby to Speaker Crisp's private office, where Representative Henderson of North Carolina was consulting with the speaker as to the resolution of respect to Senator Vance. There were expressions of good wishes, and again a careful avoidance of personal affairs. Mr. Breckinridge passed into the private

lobby of the house, where he encountered many members. They shook his hand in passing. There was nothing, however, in the way of demonstration or unusual crowding about him

Mr. Breckinridge went on the floor just

as the chaplain was concluding his prayer and stood with bowed head at the closing words. Then he walked across the front arena, grasping a hand here and there, and proceeded up the aisle to his seat. Members were busy with their work and pany failed to notice him. Three or four well known men in the immediate neighborgood of his seat leaned over and shook his hand. He wore a smile, but was evidently miserable and ill at ease under the ordeal. His face was flurried and seemed to be more than usually flushed. There was little about him of the composure and nonchalance ac haracteristic of his earlier congressional

Before he had been in his seat two minutes he shifted nervously and then arose and left the chamber. The house soon after

took a recess. Colonel Breckinridge said he would at once resume his congressional work. He is chairman of the appropriations subcommittee on leficiencies. The urgent deficiency bill passed the senate Saturday and came back to th house today. Mr. Breckinridge said he ex-pected to resume charge of it. He will also manage the general deficiency bill, which has not yet been reported to the house.

Breckinridge and his counsel were en-gaged this afternoon in preparing their formal motion for a new trial, which will be presented to Judge Bradley tomorrow. This motion is a mere formality in the way of an appeal to the district court of appeals, for no one entertains the slightest idea that Judge Bradley will overrule the jury and grant the motion. The motion will be based upon the usual grounds that the verdict was contrary to law and contrary to the evidence, and that the damages were excessive. The counsel for the defense will press for a hearing on the motion at the earliest possible day as Attorney Stoll is anxious to return to Kentucky. DEBATE ON HIS CANDIDACY.

LEXINGTON, Ky., April 16.-There is strong talk here regarding Brackinridge re-maining in the race for congress. His friends say he will surely make the race, while others say he will never attempt to do so. Breckinridge's campaign managers say he will not resume his duties in congress, but will return to Kentucky in two gress, but will return to kentucay in two weeks. He will open the campaign at Paris, where he will make his first speech. COLUMBUS, O., April 16.—The Evening Dispatch says: "Mr. Parnell invaded the home of a friend and fell. SAN BERNARDINO DECLARES A BOYCOTT

Merchants Refuse to Sell Them Food and Sheriff Prevents Them from Scizing a Train-Committee of Safety

is All Powerful.

COLTON, Cal., April 16 .- The second Lor Angeles regiment of the unemployed is meet ing with anything but encouragement in Sar Bernardino. First the fire department war called out and the command was drenches with cold water and driven from the freight train they had captured. Then the army war placed under guard by fifty deputy sheriffs armed with shotguns and its leaders were thrown into the county jail. Now a boycott has been declared on the army.

The command raised a fund of \$7 and purchased bread, but the baker who sold it was waited on by the citizens' committee of safety and made to promise that he would sell no more supplies to the army or its leaders. The merchants here have refused to sell to the army and many citizens have agreed not to give any food or other supplies o them. The sheriff and his deputies promise to prevent the men from scizing a train and declare they must walk out. It appears to be a case of freeze out.

Last night about 200 of the Commonwealers marched in a body to the First Baptist church, where Rev. Spurgeon Medhurst took up a small collection for the army and preached a sermon expressing sympathy for the wanderers. At 10 o'clock last night the committee of safety waited on Rev. Medburst to remoustrate, representing that the men are not peaceful citizens, but an organized mob of lawbreakers. The preacher monwealers declare they will remain here until their leaders are released. feared.
