Music Department.

A NEW MUSICAL

All the objections to the parlor organ are at last done away with by the NEW INVENTION. It has seven full octave, and in appearance is exactly like a handsome UPRIGHT PIANO. There are no stops in view, nor any unsightly bellow pedals, but the instru-ment is worked by two pedals exactly like those on a piano, and a 6-year-old child can work them with ease. The delicacy and variety of its tones are wonderful, and the touch is so light and quick that the most difficult plane music can be executed thereon without difficulty. THE PRICE is not higher than that of an ordinary organ. Come and see or write for catalogues.
