JACKSONVILLE, Ill., May 22.—(Special Telegram to The Bee.)—Omaha and Jacksonville had a close game here today. The visitors had it won, but lost it through a little careless hitting at a time when runs counted. Rourke did good work on third, and the battery work of Whitehill and Pear was fine. In the seventh inning Omaha was ahead, 7 to 5, and in the eighth Jacksonville made two more by hard hitting and tied the score. Strauss made a long hit to center and Leitcher, who was on second, came in, thus winning the game. The score:

How Breckenridge Thinks His Arrest May Affect the Commonwealth.

SAYS HE IS READY TO TAKE HIS MEDICINE

Union Pacific Officials Express Their Belief that the Army Feature of the Unemployed Is Being Broken Up—Men Still Headed Eastward.

Colenah Breckenridge and Colehan of the western Commonwealth, arrested early yesterday for stealing an engine at Montpelier, are still in jail. In speaking about his arrest Breckenridge said:

"I intend to take my medicine like a little man. The arrest was a great surprise to me and at first I felt it keenly, but now I am reconciled to the situation. Naturally I expect to be taken back to Idaho, as I understand the United States marshal has ordered the arrest of Colehan and myself for assisting in stealing a train. As far as I am concerned I am ready to go back any time and stand trial."

When asked what effect, if any, his arrest would have on the trials on the body of the army of Commonwealths of which he is a member the colonel said: "I expect that my arrest becomes known the boys of the railroad will rather than be afraid to go back to work on the railroad company. I have an important message for Mr. Clark, but he is not here. It would be better for the railroad if it received it in the spirit it is sent in than to ignore our army and our movement in the West. Our motto is 'On to Washington, and we will get there.'"

"What will you do when you get there?" asked the newspaper man.

"I don't know, but we are going to Washington, and don't you forget it."

The local police officials have wired the facts of the arrest of Breckenridge and Colehan to the marshal at Boise City.

About 3 o'clock yesterday morning Sergeant Shover and Officers Dillon, McCarthy and Hotchkiss arrested nineteen Commonwealthers in the railroad yards near Montpelier, who had been in freight trains and the police had been informed of their arrival. Each man was charged with vagrancy and sleeping in a box car.

When arraigned in police court these men were all discharged upon their promise to leave the city at once.

Union Pacific yesterday regarding the industrialists along the line of the system except to say that the men were not employed was rapidly being broken up and that within a week all the contingents would be scattered. It was learned, however, that the officials would not be allowed to interfere with the endow to catch Breckenridge and Colehan for aiding in appropriating the engine and cars at Montpelier and will send the men back to Boise City.

The situation demands that the railroad officials claim, and to successfully stop a step to the constant menace which this class of men inspire the roads will take summary steps to frustrate any more attempts at train stealing contemplated. But the old saw of taking a horse to water but not being able to compel him to drink is quite applicable in the case of the Commonwealthers. The men along the system are determined to get east and will undoubtedly continue stealing trains wherever possible. Although the officials profess to feel that all the trouble with Commonwealthers was at an end, they were considerably wrong. In fact, the fact that thirty men got into Omaha Monday with Breckenridge and Colehan, showing that they were not deterred by their arrest at all, is a hazardous situation.

DUFF AND KELSEY ARRESTED

Almost a Riot Provoked by the Actions of Creton Officials.

CRETON, Ia., May 22.—(Special Telegram to The Bee.)—Kelley's division of the Commonwealth arrived here to block this evening. Considerable sympathy was shown them by the populists. A brass band escorted them through the city. When passing through the business portion a scene occurred which came near resulting in a riot. The chief of police arrested Kelley Duff for violating creton laws.

The army for passing through a small police district. They were taken before a justice and released on bonds of \$250. The army was escorted to the depot and the army was ordered to go into camp and not come into the city. When the arrest of the Commonwealth leaders occurred there were about 4,000 people on the streets and the greatest excitement prevailed and for a time a riot seemed imminent. When Kelley Duff was arrested he was surrounded by the army of tumult. A large number of men went up from the multitude. The sympathy of the city is with the Commonwealthers. Kelley made a speech to about 500 people at the camp tonight and expects to address the citizens at the court house tomorrow night.

COXYTES IN MINNESOTA.

Under a Strike's Leadership a Small Body Is Proceeding East.

ST. PAUL, May 22.—A Northfield, Minn., special to the Dispatch says: The 11 o'clock freight train last night had a box car loaded with fifty-one Coxeyites, who quietly got aboard at Farmington, and at first refused to get off at the police station. Finally orders were given to sidetrack the train and the police escorted them to the engine house, where they spent the night. Today they charged an admission fee to the building, and a good many returned to their camps. Breakfast was purchased, and with that was given them they fared sumptuously. Their leader is George H. Halm, a well-known Northern Coxeyite. Here the leaders made speeches on Mill square to a large crowd. They left here at 11 o'clock for Fairbault, Austin and Winona.

Trial of Industrialists at Cheyenne.

CHEYENNE, May 22.—(Special Telegram to The Bee.)—The fifteen industrialists, members of company H of the Portland army, who assisted in the capture of the Union Pacific train at Montpelier, Idaho, running it to Cokewille, Wyo., where they were arrested, were given a hearing before Judge Ripley today. Testimony was introduced to show that they took possession of the engine and train against the protests of the employees of the receivers of the road and refused to give it up when requested to do so. It was proved that the industrialists ran the train from Montpelier to Cokewille themselves and that they made the statement that they were going to Washington and did not propose to walk. The court reserved judgment until tomorrow afternoon.

Commonwealthers Must Walk.

SENECA, Kan., May 22.—General Bennett's division of the Commonwealth has arrived here, but was not allowed to enter the city, the council has decided to do so, having decided to not offer them a park or transportation by wagon. Bennett said he would not let his men walk, as they had not walked over fifty miles in their entire trip from Denver.

His flight was hastened by an accidental meeting and

PLACING BLOODY WORK

City Council Sharpening an Ax for the Cutting Off of Heads.

FORCES IN CITY OFFICES TO BE REDUCED

In Furtherance of a Vigorous Policy of Retrenchment—Matter Talked Over in Secret Session Yesterday Afternoon—Victims Not Yet Designated.

A general lopping off of heads in the various city departments is contemplated by the city council in a fact that is causing considerable uneasiness in various quarters during these May days. For a week past there have been rumors that the council through the corridors of the city hall that something was going to drop, but no one seemed able to trace them to an authoritative source. It has been generally understood that certain members of the council had determined on a plan for reducing the current expenses of the city in some manner, but just where the ax was going to fall no one was able to tell. A vague rumor that an effort was to be made to usurp legislative functions by abolishing the Board of Public Works and dividing the work of that department between the engineering department and the chairman of the committees equalled absurd were circulated from day to day.

The facts are that the council meditates a sweeping system of retrenchment all along the line. There are men employed in nearly every department whose services can be in the judgment of certain councilmen, be dispensed with without detriment to the city. It is claimed that the matter has not progressed as far as the selection of the particular individuals who are to be officially beheaded, but there is little question that there are half a dozen clerks and inspectors who are reasonably sure of being out of a job very shortly, and an uncertain additional number who are on the anxious seat.
