Large Supply of Rifles and Revolvers Purchased at Mission Field Mines.

ILLINOIS TROOPS MAY BE ORDERED OUT

Eight Hundred Danville Operators Are Expected to Engage in an Effort Today to Close the Works by Force.

DANVILLE, Ill., May, 22 - Twenty deputy sheriffs have surrounded the Mission Fields mines; twenty more have been sworn in and will go on duty tonight. Forty Winchester rifles and 100 revolvers arrived to lay and were taken out to the mines by the company. The United Mine Workers held an all-night session last night in this city, debating the Mission Fields matter. They expected the miners there to come out last night, but they went to work as usual today. It is said here that on the strength of the report that the striking miners will go to Mission Fields 800 strong tomorrow morning President Ridgeley of the Consolidated Coal company at Springfield has called on the governor for help.

MINERS ON THE WAR PATH

Patroling the Coke Regions in Armed Bands to Intimidate Strikers.

UNIONTOWN, Pa., May 22.-The strikers of the fourth pool on the Monongahela river are on the war path today and there is likely to be serious trouble in that vicinity before night. The only place where an attempt has been made to resume operations in the river district is at the Stickle Hollow mines of the Washington Coal and Coke company, where twenty men are working. At daylight the strikers assembled at Fayette City, about 100 strong, and, arming themselves with shotguns and revolvers, started for Stickle Hollow to bring the men out. They were led by a brass band and carried the American flag. All were foreigners and serious trouble is expected, this being the first break in the ranks of the river strikers.

The nine men working for the Frick company who were captured by the strikers at Fair Chance last night and taken to their camp are still held prisoners. Numerous requests have been made for their release, but the strikers say only Winchsters will compel them to give in. It is said that a band of deputies will try to gain possession of them this afternoon. Vanderbill and Dawson were the scenes of considerable excitement last night. About 1,000 strikers marched there to bring out the darkies lately imported into the coke region and put to work by Rainey & Fort Hill and Paul. They made a big demonstration, but accomplished noth-

STAUNTON, Ill., May 22.-The Consolidated Coal company, in order to protect the Staunton miners from strikers, have secured 100 Winchester shot guns, with several hundred pounds of shells, loaded with buckshot, reports having reached Staunton that the strikers intended to return here and force working miners to stop. FLORENCE, Colo., May 22.—Several hundred miners with flags, preceded with three brass bands, started overland for Rouse, seventy-eight miles from here, at 9 o'clock today. They are not armed, but are determined to make the miners in th out. Some of the best citizens in the camp are in the army, but the majority are Italians and Austrians. People in the coal camps are becoming desperate and trouble is feared.

Factory Men Becoming Alarmed DES MOINES, May 22 .- (Special Telegram to The Bee.)-The executive committee of the Iowa Miners union was in session here today. The committee was addressed by Mayor Hillis and Alderman Wilkins in regard to allowing enough coal to be mined to keep the water works going in this city. But the executive committee refused this request point blank. It is held by the miners that to allow a little work would lead to a general disruption of the strike. When Secretary Kilgallon's attention was called to the fact that what was claimed to be the scale in all its details as adopted by the present convention had been published in Pittsburg this morning he said: "It is impossible. We have not completed the scale, nor can we do so for a day or two at least. DULUTH, May 22.-A very unusual iron transaction has just been closed here between the Minnesota Blast Furnace company of Duluth and a leading Pittsburg steel maker. The latter has bought from the local iron company about \$30,000 worth of Bessemer pig iron, to be shipped at once all rail, to Pittsburg. There will be be-tween three and four full train loads of iron and the first lot has already gone forward. Satisfaction is expressed at the price. This sale is directly due to the coal strike in the east, but it is the first time that any coke company so far west has been patronized by eastern manufacturers.

AKRON, O., May 22.-Serious trouble is apprehended among the coal miners of Tuscarawas county, where several mines are being worked. Today the men were driven out of one mine by strikers, and to-morrow the same fate is treatened to the other workers. The sheriff telegraphed Major E. C. Bryan of the Eighth regiment for aid and he immediately left for the seat

a convention crowd than a little concourse of party leaders. All of the state officers except Governor Crounse and some of the old ones, the oil inspector and the commissioner of labor, the memoers of the State Board of Transportation and the usual crowd following in the wake were on hand. Lincoln's committee of 100 to secure the convention was headed by Bill Dorgan. Tom Benton, H. M. Bushneil, Bud Landsey and some representative citizens. Ex-Governor Thayer was there, and among the other "exs" were ex-Lieutenant Gayernor Shedd and ex-Congressman Dorsey, Ex-members of the legislature were there galore. Lowley of Seward, Wardiaw of Gage, Russell of Colfax, Hahn of Adams Haymond, McKesson and Moore of Lancaster, Watson of Otoe, Dew of Johnson, Everett of Burt, Cruzen of Frontier, Wether-ald of Thayer, Sutherland of Burt and many others whose names have been enrolled on the roster of the senate or house shed more or less radiance on the scene.

But to come down to the candidates, though some of those already mentioned think they are in it. Lincoln and Lancaster county come to the front, as usual, with more men that want something than any other part of the state. For one office they have two aspirants, for both Frank McClusky and L. L. H. Austin want to be superintendent of public instruction. In addition, there is 1. M. Raymond for governor, R. E. Moore for lieutenant governor, and Billy Hamilton for attorney general. Every one of these prospective candidates was on hand last night, and right in the small sea of humanity.

Of the other alleged candidates for governor, there were present at the meeting Jack MacColl, Tom Majors, John Peters, George P. Bemis, E. K. Valentine and W. J. Broatch. The only one who fafted to put in an appearance was A. E. Cady.

number of them were concealed in the brush. W. S. Summers, the present deputy, was not slow to declare that he wanted the place, and neither was W. S. Hamilton of Lincoln. Up to a week ago it was said that J. L. McPheeley of Minden wanted the job, but his organ has lately declared that it was authorized to say that Mac would decline every offer made to him. Still Mac was on hand last night.

Colonel Russell of Schuyler, Jake Dew of Tecumseh and J. R. Sutherland of Tekamah were circulating around the crowd trying to ascertain what their chances were to secure the nomination for commissioner of public lands and buildings to succeed Gus Humphrey. A couple of other people who also have their eye on that job, S. M. Bailey and M. J. Abbott, were not visible in the throng, but their friends were there.

A. K. Goudy hopes to succeed himself as superintendent of public instruction, but there are other people fishing for the same place. Austin of Lincoln, Frank McClusky, also of the capital city, and C. G. Pearse, superintendent of schools at Beatrice. That completes the list of state offices to be filled the coming fall, but it doesn't cover all the candidates who were on hand last night. Every congressional district had one or more men present who wanted had one or more men present who wanted to sit in the house of representatives, and

to sit in the house of representatives, and there were two or three senatorial as-pirants mixed up in the crowd. John L. Webster was one of the latter, but he al-lowed himself to get lost when John M. Thurston began an address to the assemblage.

It would hardly do to overlook the fact that Captain Phelps Paine and J. H. Ager, who ought to have been interred long ago, were again on earth for a season.

BISHOP FOR LER ON LINCOLN.

Attributes of the Great President. ST. PAUL, May 22.-(Special to The Bee.)-This evening Rev. Bishop Charles H. Fowler, D. D., LL. D., of the Methodis Episcopal church, gave his great lecture in

hours, without notes, holding the people spellbound.

His words were repeatedly greeted with storms of applause. He said in part:

"God's prophets have the right of way. They come with divine authority. They kindle a torch that many centuries cannot quench. They utter a new evangel, or open a new door, or conquer a new foe, plant a new republic, or found a new civilization. They serve most, and, therefore, are greatest. The world cannot forget Abraham, or Moses, or Leonidas, or Cincinnatus, or Pericles, or Paul, or Richelieu, or Cromwell, or Washington. Mankind will never forget our addition to this little group of heroes. Abraham Lincoln, who had the faith of Abraham, the leadership of Moses, the courage of Leonidas, the gentle contentment of Cincinnatus, the statesmanship of Pericles, the massive intellectual force of Paul, the political sagacity of Richelieu, the integrity of Cromwell and the patriotism of Washington.
