It never rains but it pours. Omaha is to have the conference of the Nebraska free silver democrats without even contesting for the honor.

A house divided against itself cannot stand. A police force demoralized by internal dissensions cannot be efficient.

Women appear to be cutting quite a figure in the Breckinridge congressional canvass.

Nebraska patronage at the disposal of the pap dispensers has reached the lowest ebb.

As a matter of economy as well as a public comfort the city should substitute gas for gasoline lamps wherever gas mains are within reach.

On the return of the president to Washington the floods that have been overwhelming different parts of the country may be expected to subside.

If the train setters are sent to jail without mercy, what should be done to the coal miners who are taking coal belonging to private shippers for the purpose of feeding the railroad's locomotives?

Pennsylvania democrats are looking for a man who will consent to sacrifice himself as their gubernatorial candidate.

The opening of the new bids for electric lighting can be nothing more than a ceremonial farce.

That alleged bribery of senators turns out, according to Mr. Holman's version of the affair, to be simply a skillful trick by which it was hoped to learn which way the senators in question intended to vote upon the tariff issue.

When the garbage collection job was railroad through the council over the mayor's veto the chief argument advanced in its favor was that it would settle the garbage question at once for a period of at least ten years.

A few days ago a new political party was hatched at Des Moines in a meeting held within closed doors by nobody knows who and representing nobody knows what.

When William Jennings Bryan issued his manifesto declining the renomination for congress he threw a firebrand into the midst of the Nebraska democracy which was sure to kindle a terrific conflagration.

In this irrepressible conflict the republicans are bound to maintain the strictest neutrality unless the warring democratic factions shall call for arbitration.

It is not true that James E. Boyd was elected governor in 1890 on the free silver issue. The alleged crime of '73 and the double standard had no bearing whatever upon Mr. Boyd's candidacy.

As to the slump in the democratic vote in 1893, there is no doubt that the Mortons were more largely responsible than the Bryantes. That fact is readily gathered from an analysis of the returns by voting precincts and counties.

The action of the democrats of the house of representatives regarding the civil service bureau distinctly shows that a majority of them are hostile to reform of the civil service and are prepared to strike down that policy at once.

With such benefits in prospect, the value of which would be almost incalculable, it is easy to understand that the Canadian people should feel in an amiable mood, and that parliament should be disposed to give expression to a sentiment that costs nothing.

The dispatches from Washington announce the complete fizzle of the convention called by the Pan-American Bimetallist league to assemble at that place for the purpose of promoting the cause of the free coinage of silver.

There is only one explanation of this. It is that the free silver frenzy is gradually subsiding, and that people are beginning to view the silver question in the light of reason rather than of emotion.

means necessary to the operation of the law. It is another example of the reactionary spirit of the democracy which the people should note carefully and keep in mind.

A CONCESSION FROM CANADA. The attitude of Canada towards the United States has not always been friendly nor uniformly courteous.

It would appear from a resolution adopted a few days ago by the Canadian parliament that a change of feeling has taken place. This resolution favored the settlement of all disputes between Great Britain and the United States by arbitration.

Globe-Democrat: Mr. Bryan of Nebraska is another democratic congressman whose private business affairs show that this is not a good year for him to seek a reelection.

New York Tribune: There are some people who say that Congressman Bryan of Nebraska is a snoring and sulphurous ass, but his declination of a renomination, when he knows he would be defeated, vindicates him from this charge.

St. Paul Globe: Mr. Bryan of Nebraska, a statesman, will not be a candidate for reelection to congress, charges that the democracy is not nearly as strong as it was a year ago.

New York Post: Congressman Bryan of Nebraska announces that he will not be a candidate for reelection. He says he has decided to leave the party, though he admits that to avoid defeat he would have to work hard.

It Has Basis in the Belief that Hill Will Make No Opposition.

WASHINGTON, May 24.—Senator Gorman's practical assurance in his speech yesterday that the democratic party in the senate was united in support of the tariff bill has led to renewal of speculation as to the attitude of Senator Hill.

Mr. Hill has said since his return from New York that he had no objection to the tariff (tariff) of the bill which is taken to mean that while he is still unreconciled to the income tax he is disposed to support the tariff. There is a difference of opinion as to whether Mr. Gorman meant to include Senator Hill on the list of supporters or to create the impression that the bill would have the support of a democratic majority without Hill's assistance.
