There were less than a dozen in the city, and on account of the absence of a quorum the convention has been adjourned. and will probably be called to assemble in the fall. CALL FOR THE STATE CONVENTION.

Chairman Slaughter Issues the Formal Annonneement of the Cathering at Omnha. LINCOLN, May 24 - Special to The Ber. -Chairman Slaughter of the state central committee insued the call for the republican state convention to meet in Omsha on Wednesday, August 22, at 10 c'clock a. m. The call provides for a convention of 962 delegates, instead of 958, as at the convendelegates, instead of 958, as at the conven-tion last year, the basis of representation being the same. The increase is due to a mistake in the apportionment of delegates to Jefferson county last year. Then Jefferson county was given but eleven delegates, whereas the official returns of the vote cast for Hon. I. M. Raymond in that county shows that the county is really entitled to fifteen delegates. Douglas county leads, of course, with 108 delegates, while Lancaster county comes second with aixiv. The officounty comes second with aixty. The offi-

cial call is as follows:

The republican electors of the state of Nebraska are requested to send delegates from their several counties, to meet in convention in the city of Omaha, Wednesday, August 22, 1884, at 16 o'clock a. m., for the purpose of placing in nomination candidates for governor, lieutenant governor, secretary of state, auditor of public accounts, treasurer, superintendent of public instruction, attorney general commissioner of public lands and buildings, and to transact such other business as may be presented to the convention.

The several counties are entitled to representation as follows, being based upon the vote cast for Hon. I. M. Raymond for presidential elector in 1821, giving one delegate-at-large to each country, and one for each 1860 votes and the major fraction thereof:

# NO USE IN FIGHTING TRUSTS

Sherman Anti-Trust Law Insufficient to Reach the Sugar Trust.

LEGISLATION CANNOT BE MADE EFFECTIVE

Congressman Warner Convinced that Trade Combines Can Wriggle Out of Any Law that Can Be Framed-A. Slap at the Courts.

WASHINGTON, May 24.-Representative Warper of New York, who secured the fre sugar amondment to the Wilson bill, says will be futile to attempt to strengthen the Sherman anti-trust law in order to make I reach the Sugar trust and like organizations Attorney General Olney's report to the senate stated that he had prosecuted the Sugar trust, but that the case had been decided against the government in the various lower courts and was now pending in the United States supreme court.

Speaking of the report, Mr. Warner said "It has been suggested that congress should amend the law so as to give the attorney general greater power and overcome the objections of the courts. This plan was with view to instituting a general crusade against the trusts. I advised against any amendment of the law, as I think it would amount to nothing. It is absolutely impossi-ble to so frame an anti-trust law as to an-ticipate all the devious ways of trade comticipate all the devious ways of trade com-bines. You can readily make your laws strong enough to deal with trusts as now formed, but as soon as the law is made the trusts change their plan of organization so as to take them just outside the pale of the law. Moreover, it would be difficult to amend the trust law to meet the decisions of the courts, for those decisions turn mainly on a question of fact. They hold that the law is simed against monopolies formed in restraint of trade, but that the showing that the Sugar trust has combined to control the market is not such a showing of fact as will bring the concern within the terms of the law. With such judge-made laws in existence it is use-less to pass anti-trust amendments, as the trusts will reorganize to meet them."

#### MAQUAH INDIAN SEALERS.

Permission Asked for Them to Use Their Schooners While Away Sealing.

WASHINGTON, May 24.—The question whether the Maquah Indians of the state of Washington can use schooners in the Ber ing sea while sealing has been brought to the attention of the Treasury department. In a communication to the secretary of the treasury, Secretary Hoke Smith, acting on the recommendation of Acting Indian Commissioner Armstrong, asks to be advised whether the Indians, under a treaty be-tween this government and Great Britain concluded February 29, 1892, and a section of an act approved April 6, 1894, governing seal fishing in Bering sea, may be permitted to use their schooners as a place of refuge in storms, and security and protection at night, while engaged in fishing for fur seal in the canoes, as hitherto practiced by them.

In the canoes, as hitherto practiced by them.

The correspondence accompanying the letter includes the following opinion of the Indian commission, telegraphed to Indian Agent Powell at the Neah agency, Washington: "Indians may take fur seals in canoes or undecked boats propelled wholly by paddles, oars or sails, and not used in connection with other vessels or manned by more than five persons. This permission is not to apply to Indians in the employ of other persons, or who shall kill or ploy of other persons, or who shall kill or pursue fur seals outside of territorial waters under contract to deliver seals to other persons, nor to waters of the Bering sea or passes between the Aleutian islands. The agent later complained that under his construction of the opinion he notified the Indian sealers that they could not go out in their own schooners and then let down their cances and go out to spear seals;

that he knew that they had a right to go out in their canoes from the shore and catch seal, but that it was impossible, as it would require a day's travel to reach the sealing grounds in canoes. The agent also The agent also stated that the Maquahs would incur great hardship if the permission asked is not given. They have eight or nine schooners, some of them bought this season, while given. others have just been repaired at heavy cost. The sealing, says the agent, is not done from these schouners, but they are merely kept in sight, so that the sealers can go to them at night or in case of storm. The agent intimated that the Maquahs may not get through the winter unless they seal now, owing to the use of seals for food and clothing. He questions the benefits the Indians are to derive from ownership of schooners if they cannot use them in the manner indicated.

Plans for Chicago's New Postoffice. WASHINGTON, May 24.- The house committee on public buildings today decided to erect the new Chicago building on the site of the present postoffice. The lake front site was abandoned and it is proposed that the new building shall cover the entire block and be ten stories high. Supervising Architect O'Rourke told the committee that the work could be completed in three years. Mean-time the postoffice will occupy rented quarters. The amount of the appropriation was not decided upon, but \$4,000,000 was the

amount which the members seemed to favor. MISS COON'S BENEFIT CONCERT.

The popularity of Miss Myrtle Coon was well attested last evening by the brilliant audience which occupied every available seat in Free Mason's auditorium. The concert was a fine one from every point of view, and Miss Coon has reason to be proud of her

The first number on the program, a piano solo, one of Beethoven's sonatas, by Mme. Hess-Fuchs, was well rendered. Following was a string quartet, Mr. T. J. Bishop's rich alto voice was heard in the Ave Maria. rich alto voice was heard in the Ave Maria, and called forth much appliause, which was only silenced by her responding with another song.

A recitation by Mrs. E. Matheson, "The Brady Conundrum," evoked an encore which brought forth "Casey at the Bat."
One of the gems of the evening was Miss Coon's singing of the "Jewel Song," from Faust, in Italian; as an encore Miss Coon gave the charming little song, "Sing Heigho." Mr. W. B. Wilkins' "Adieu Marie" was a favorite number. Next came a violin solo by Mr. Franz Adelmann, a performance of great merit, which received an encore; "Legende," by Wieniawski, ac-companiment to both by Mme. Hess-Fuchs. Mr. Jules Lumbard's solo, "The Pirate." was sung with the basso's usual force and spirit, and his encore, "The Low Back

"Cadiz Mida." sung by Miss Coon, with accompaniment by the string quartet, was a beautifully executed and charming number, and was received with the applause it deserved. As an encore Miss Coon sang

ANNOUNCEMENTS.

This evening "The Carltons" will present Alfred Cellier's comedy opera, 'Dorothy." For a number of years Mr. Cellier was a collaborateur with Sir Arthur Sullivan. The scene of the opera is hid Kent, and the interest centers around Dorothy Bantam, daughter of Squire Banporothy Bantam, daughter of Squire Ban-tam, and Geoffrey Wilder, his nephew, whom he (the squire) is desirous of having marry his daughter. Geoffrey, being of rather a willful disposition, rebels against this coercion, but being in financial diffi-culties determines upon a subterfuge to gain some of his uncle's wealth without marrying his cousin, and to this end, as-sisted by his friend, Harry Sherwood, and a sheriff's officer, Lurcher, gains admission to his uncle's mansion, Chanticleer hall,

Our advertisers, The Charles E. Hires Company of Philadelphia, transact business over a very wide field, dealing in every city, town, village and cross-roads in the country. They report that the sales of Hires' Rootbeer so far this season are very much in excess of the same period last year. When it is remembered that their annual sales have before this reached the enormous total of 2,880,278 packages, which equals more than a gallon for every family in the country, it would seem at first thought that there is little room for further growth. Thirst for it, however, seems to be universal, as this year's report shows a very large gain, indicating that ere long the person who does not drink Hires' Rootbeer will be

somewhat of a curiosity.

No temperance beverage has ever anywhere nearly approached Hires' Rootbeer in popularity. Its wonderful success can be accounted for only on the ground that it is twhat the manufacturers claim—an honest extract of nature's most healthful roots, which slakes thirst, improves health, and pleases every member of the family. Its remarkable sale certainly proves that millions enjoy Hires' Rootbeer.
