Holmes, Hascall and Wheeler Appointed a Special Committee on Retrenchment,

NO MCRE MONEY FOR BOARD OF HEALTH Sentiment Against Establishing a Detention Hospital Almost Unanimous-Repairing of Sixteenth Street Viaduct-Ordinances Passed.

CITY COUNCIL PROCEEDINGS

The adjourned session of the city council last night was a very monotonous affair. the pyrotechnics having apparently been exhausted on the previous evening. The subject of retrenchment was brought up by Holmes, who moved that a committee consisting of one republican, one democrat

and one populist be appointed to examine the work in the department and see what could be done in the direction of economy This was carried without discussion and the following committee appointed: Holmes, Hascall and Wheeler. The report of the committee on judiciary on the ordinance providing for a change

of grade on Second street near Williams recommended the adoption of the report of the appraisers submitted in September. 1893. Back had a new scheme for the change of grade and straightway entered the lists with Hascall in a debate which

produced considerable amusement until the previous question was moved and the re-port of the committee was adopted. The committee on finance reported ad-versely on the request of the Board of Health for additional funds. Saunders op-posed the committee, saying that in his opinion the board was entitled to some aditional amount. Hascall supported the committee and Holmes wanted the matter laid

over until after the report of the commit-tee on retrenchment. Wheeler favored further consideration of the matter, and it was finally referred to the special retrenchment committee. In this connection a resolution was adopted requesting the Board of Fire and Police Commissioners to have the patrolmen co-operate with the Board of Health by reporting all nuisances which might exist n their beats.

The committee on pelice recommended that the communication of the Board of Health relative to a detention hospital be placed on file. The members argued that he city had always got along without any-

thing of this kind and ought to be able to continue in the same way. The report was adopted against the voice of Saunders, who declared that the hospital was one of the mperative necessities of the city, The contract for painting the drinking

fountains was awarded to Charles Johnson for \$46. The bids for the construction of additional fountains were ordered returned and the comptroller was directed to readver-The committee on viaducts and railroads reported that it had reached an agreement

with the railway companies with regard to repairing the Sixteenth street viaduct, the expense to be divided as follows: Union Pacific, six-fifteenths; Burlington, two-fif-

Pacific, six-integentias, Burlington, two-int-teenths; street railway company, five-fif-teenths; city, two-fifteenths. Adopted. Saunders secured a reconsideration of the previous action of the council in regard to the opening of North Thirteenth street be-tween Ohio and Nicholas streets and the

matter was re-referred to the committee. The following ordinances were passed: Appropriating money for refund of taxes on Tenth street viaduct; directing issue of certain grading bonds; amending ordinance relating to addition; amending circus license ordinance; amending special sidewalk or-dinance; paving Corby street from Sherman avenue to Twentieth street; paving Chicago street from Twenty-third to Twenty-fourth street; grading Nineteenth street from Castle street from Cuming to Ohio street; declaring the necessity of construct-ing a brick culvert at Forty-eighth and Leavenworth streets; grading Howard street from Thirty-third to Thirty-sixth

'Tis patriotic and noble to celebrate Decoration Day.

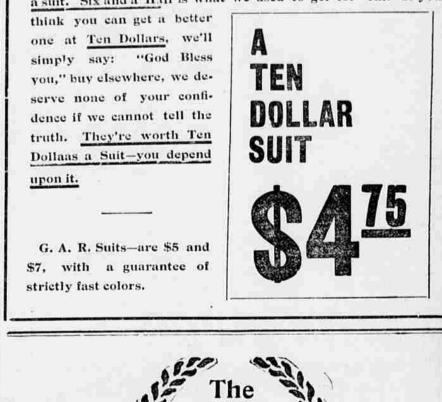

Let those who sacrificed life for future peace, find a corner in the hearts of every true American. Let us worship their memory. Let us keep their graves green; because they were heroes-because they fought for us, and paid for it with every drop of blood.

Speaking about heroes made by fighting, we ought to be some sort of heroes

ourselves. We fought our battle with those manufacturers east ever since early spring to secure what we are offering you this week and we got there-you bet.

Last night a reception was given by the Women's Christian Temperance union to the teachers of the city at the Commercial club. Over 500 invitations had been issued, and the parlors of the club were taxed to their utmost capacity by the schoolmaams. They were entertained by a choice program of recitations and vocal and instrumental music, and were served later in the evening with delicious refreshments.

After prayer by Dr. Chapin the address of welcome to the teachers was made by Mrs. E. L. Good, president of the associa-tion, and was responded to by Miss Snyder of the High school. In the course of the evening the Young Women's Temperance union was greeted and publicly introduced

by Dr. Freda Lankton. This reception was the closing meeting of the Women's Christian Temperance union for the year. There is only one union in the city at present, all the unions that had existed previously having been consolidated. The object of the reception was to bring the teachers and the union closer together in order that scientific temperance might be inculcated in the minds of the young.

The reception committee was as follows: Mrs. E. L. Woods, Mrs. G. W. Clark, Mrs. M. M. Pugh, Mrs. Graham Park, Mrs. E. L. Smith, Mrs. Watson B. Smith, Mrs. E. M. Covell and Mrs. Richardson.

The only Pure Cream of Tartar Powder .-- No Ammonia: No Alum sed in Millions of Homes-40 Years the Standard

We are making quite a specialty of D rectors' Tables. So few persons are aware of the magnitude of our trade in this one line of office cabinetwork that we make it the subject of special mention today.

We carry a number of lines, representing different grades, and in each grade there are different sizes. We build them with or without drawers, in both Oak and Mahogany, and in all shapes-oval, circular, rectangular, square and double width.

We have special patterns for small rooms, The oval shape is most desirable here, as it allows the selection of a larger size without resulting inconvenience. These oval tables are very graceful, and greatly add to the appearance of the room.

You will find it for your interest not to purchase office furniture of any description without first visiting our warerooms.

Chocolat - Menier.

His reasons are: Ten and Coffee create nervousness with

a people too nervous already; Bitter Chocolates are not fit to make a cup of chocolite; cheap (sweet) chocolates are impure, hence injurious; COCOA is no more like CHOCOLATE

than Skimmed Milk is like Cream. Chocolat-Menier is an exquisite Vanilla Chocolate, as nourishing as meat, as low priced as other beverages, and far imperior. Ack for yellow wrapper. Your grocer has it.
