DAN FURKE TRIES TO KILL HIS FAMILY

Attempted Couble Tragedy Which Caused Excitement at North Platte-Burke Was Intoxicated and Owes His Downfall to Whisky.

NORTH PLATTE, Neb., May 30 .- (Special Telegram to The Ree.)-Dan Burke, one of Lincoln county's eldest residents, while in an intoxicated condition last night, quarreled with his family and shot his wife and Ed Burke, his son, neither dangerously. A man of kindly disposition when soher, Burke when drunk becomes exceedingly quarrelsome. Last night he was especially so Going home drunk he retired for the night, but shortly afterwards arose, and after using abusive and threatening language toward Mrs. Burke, he went out the back door toward the stable. Suspecting he was after his revolver, which he kept at the stable, Mrs. Burke aroused the family, two sons and a daughter.

Almost immediately Burke came into the house and, pointing the revolver at his wife, awore he would kill the whole family. Mrs. Burke seized his arm and begged him not to shoot. During the strugggle the weapon was discharged, the bullet passing through Burke then started for his son's room.

John Burke, the elder son, meeting him at the threshold, struck his father's arm as the latter aimed at his breast, and the bullet missing him, struck Ed, the younger brother, in the fleshy part of the arm, ploughing through the muscles, but missing the artery. The family managed to escape from the house before further casualty. Neighbors aroused by the shooting gathered, the sheriffwas summoned and Burek was arrested. Much sympathy is expressed for the family. and the unfortunate event is greatly de-plored by citizens generally. The family is highly respected, and one of the best known in the country. Burke was formerly wealthy, but his appetite for strong drink has been his ruin and was the sole cause of last night's crime

CONDEMNED BY LEXINGTON PEOPLE Mob of Tuesday Night Was, Not in Touch with the Public.

LEXINGTON, Neb., May 39.-(Special to The Bee.)-Owing to the action of the sheriff in procuring deputies, combined with a heavy storm, there was no trouble last night with the mob. It has been ascertained that the members of the mob had carefully laid their plans for the raid. Nearly every member of it was from the country. While the citizens of the city do not condemn them for what they actually did, they would have presented a solid front against their lawlessness being carried any farther, and all unite in saying such actions must not be attempted again.

The grounds being so far from water connection could not be reached by the hose, and before the hook and ladder truck reached the grounds the entire row of stalls on the west side were past saving. Forty-five box stalls and ten open sheds were consumed, being a loss of about \$600, on which there was no insurance. The fire was probably set by tramps, as the fire when first seen was in the middle of the row and burning each way. The grounds have been occupied by persons of questionable character at times during the past

month, and as soon as one party was ejected another would take possession.

OMAHA LIVE STOCK MARKETS

Cattle Receipts Continue Much Lighter than Those of Last Week.

MARKET FIRMS UP UNDER SHORT SUPPLY

Trade Active and Prices Higher from Start to Finish-Hogs Gain a Nickel on Thursday's Price Through Good Demand,

WEDNESDAY, May 30. The run of cattle was comparatively light and sheep supplies were fair, but receipts of hogs were decidedly heavy. So far this week, compared with last, there has been a falling off of about 2,300 cattle, a slight increase in sheep and a gain of nearly 3,50

Receipts of cattle were fully 1,000 lighter than a week ago today and the offerings included lots of very desirable beeves, both heavy and light. A light supply at Chicago and a higher market there created a firmer tone here and the market ruled active and higher right from the start. Dressed beef men all wented some cattle and they met with active competition from speculative shippers and export buyers. Sellers had little difficulty in obtaining prices fully a dime higher than Monday for desirable steers of all weights and anything at all useful could casily be moved at substantially stronger prices. Business was lively from start to finish and trading was practically over by the middle of the forenoon.

The supply of cows and mixed stock was light, only four or five loads, and the trade was lively as far as it went at steady to a shade stronger prices for what the beef men wanted. Canners sold in the usual ruts. Calves were in fair demand and firm and exen and stags sold freely at about steady prices.

Business in stockers and feeders was tolerably active. There continues to be a very fair demand from the country and regular dealers are taking more interest in the market than for some time lately. Prices show very little improvement, however, and it takes prime stock to bring over \$3. Good to choice feeders are quested at from \$2. to choice feeders are quoted at from \$3 to \$3.30, fair to good at from \$2.75 to \$3, and the commoner grades at from \$2.75 down. The quality was very good as a rule, fully up to the recent average. Although reports from the east were generally favorable, the heavy supply made buyers independent and early trading was largely at steady to strong prices, \$4.50 to \$4.55 for fair to good hogs regardless of weight. Active competition livened business up as the morning advanced and the same hogs sold freely later at \$4.55 to \$4.50, or a nickel higher than Tuesday, the market closing up active and strong at this advance. The popular price was \$4.55, the big bulk of the hogs going at that price, against \$4.50 and \$4.55 on Tuesday and one week ago today. Representative sales:

CHICAGO LIVE STOCK.

Cattle Market Opened Early Yesterday and

with Encouraging Firmness. CHICAGO, May 30.—The cattle market open early today and with an encouraging show of firmness. All classes of buyers were after cattle and with a supply of scarcely 11,000 head, sellers clearly had the best of the situation. They held their stock higher and although their sellers clearly had the hest of the situation. They held their stock higher and although their firmness made sales drag a little they had the satisfaction of seeing the yards cleared in good season and at an advance ranging from ic to 15c per 100 lbs. Grass cattle showed the least demand. They continue to be discriminated against, but the comparatively small supely of good dry fed cattle made the former salable at a small advance. Sales of steers were mostly at from \$3.85 to \$4.25, and \$2.50 to \$4.65 was the range of quotations for such brands as go to shippers and dressed beef firms. Cows and stockers and feeders at from \$2.75 to \$1.55. Calves are lower than at the close of last week. The hog market was easily 5c higher than on Tuesday and was active at the advance. Heavy grades—averages of over 269 lbs—moved up to from \$4.70 to \$4.95 and sales of light and medium weights were at from \$4.75, from \$4.75 to \$4.85. Scarcely anything sold below \$4.75, from \$4.75 to \$4.85. Scarcely anything sold below \$4.75, from \$4.75 to \$4.85. Scarcely anything sold below \$4.75, from \$4.75 to \$4.85. Scarcely anything sold below \$4.75, from \$4.75 to \$4.85 wednesday, but the arivals since Saturday have been \$4.900 head less than for the same time has week, in view of which, the strength the market developed was something \$4.85 surprise. Prices remained firm to the close. There was trading all the way from \$5 to \$4.55 for fancy heavy.

EGGS.—The market remains in the same notch where it has been for so long a time. It seems as if the price has been established for so long a time that it is hard work to break away from LIVE POULTRY—The market is steady at the decline already noted on chickens. Frazer River in British Columbia Does the Greatest Amount of Damage.

EIGHT LIVES ARE REPORTED LOST

Columbia River Does Great Damage to the Salmon Fisheries and Canneries-Great Damage Done to Railroad Tracks and Bridges.

VANCOUVER, B. C., May 30 .- The Fraser river has become a raging torrent and is dealing destruction and death at every point. The surrounding valleys have been submerged, houses and outbuildings of ranchers have been swept away, and where but a few days ago waving fields of growing grain met the eye is now but a waste of water. Whole herds of cattle and flocks of sheep 2.147 10.817 1.012 have been drowned in the rushing flood Whole villages on the banks of the stream are floating.

So far eight human lives are known to have been lost. At Langtry a little boy fell from a porch of the Langtry hotel and was swept away by the flood. The hotel was afterwards washed from its foundation. The entire town is flooded. The whole of the Langtry prairie is now under water, and the island on which is the Indian res-ervation is entirely under water. Four Indians, who were trying to tow some cat-tle from a ridge on the island behind their cances to the main land, were capsized and three of them drowned. The dead bodies of three men and a little girl were found at Hatztic Prairie entangled among floating trees. Many other bodies are reported as having been seen in the stream in other localities, but so terrible is the current that all attempts at rescue were futile. thousand acres of fruitful land are covered with water on which float the water on which float the of ruined homes, costly and expensive bridges. Hundebris dreds of people are seeking shelter on rafts and on the highlands, and loss of life is reported. The flooded district embrace: the most extensively cultivated region of the province, extending fifty miles along the banks of the Fraser from New West minster.

At Morris steamers sail right across when farms used to be. Farmers fearing to remain longer are taking passage on steamers and bringing their families here. The towns of Chilliwack, Harrison and Centerville have been been almost entirely inun-dated, and it has been with difficulty that the inhabitants have escaped with their

The damage done to the Canadian Pacific track is very serious all along the line. At Hatztic the dyking has entirely given away Hatztic the dyking has entirely given away and 600 yards of road have been carried away. At Nicomen the whole town is under water. Traffic over the railroad is entirely stopped, no train having arrived from the east for a week. No mails have been received or dispatched. At Hatztic Prairie and Griffin 150 men with six work trains are busily engaged in trying to save the track. In places it is proposed to throw hawsers across the chasms and in this way transfer the mails to the western side of transfer the mails to the western side of the breaks. Despairing of reaching their destination within a reasonable time, hun-dreds of passengers by the Canadian Pa-cific are being taken east. Every farmer and rancher at Hatztle Prairie is ruined.

The latest report says the Matsqui dyke has caved in and the country is all flooded, Reports from beyond Mission City cannot be obtained as the wires are down. The Mission railroad bridge, one of the largest on the Canadian Pacific road, is expected to go every hour. The Salmon arm bridge collapsed yesterday afternoon. At Yale the river is rising two inches an hour.

FIVE PERSONS DROWNED.

Boat Capsized and a Man and Woman and Three Children Went Down. PICTON, Ont., May 30.-Five people have lost their lives by drowning at Smith's Falls. Alex Lindsay took Mrs. Ingram, a neighbor's wife, and his brother's three children. aged respectively, 8, 12, and 13, out for a sail. When a little distance out the boat

capsized, and all were drowned. The bodies were recovered soon after, all lying together. Portland Street Cars Stopped. PORTLAND, Ore., May 30.-The Union Pacific cannot get west of Umatilla. The Union Power company was compelled to close down during the night, seriously crippling the street car service here. From the lower Columbia intelligence comes that op-erations have ceased at nearly all of the salmon canneries, that fisheries have been suspended and that great damage is feared. Among the farmers living along the river a bad state of affairs is reported. great many houses and barns are affoat, ored to the banks, and their owners are fearful that the current will carry them away. Thus far no serious losses have oc-curred. The latest news from the upper Columbia is of a favorable nature. At Ripaexa the river has fallen one foot. At Umatilia there is a rise of four inches.

Spokane River at a Standstill. SPOKANE, May 30 .- The Spokane river has been at a standstill all day. There has been no further damage here from high water. Reports from the Coeur d' Alene region are that the rivers are slowly falling. At Lewiston the Snake and Clearwater are higher than ever known before and are still rising.

SHE WANTED TO DIE.

Mrs. Ray Did Not Care to Live Without Her Husband's Love.

At 1 o'clock yesterday morning a call was received at police headquarters to send the patrol wagon to the Twenty-second street power house to remove a woman who had made an unsuccessful attempt to kill herself by taking chloroform. The woman was Mrs. Anna Ray, and her home is at 1111 North Fourteenth street.

Officer Stiles who patrols Cuming street was passing Twenty-third when he saw the woman stretched at full length in the gutter. The rain was pouring down upon the prostrate form in torrents. With one hand she was endeavoring to drag herself from the mud and slush, and with the other she held the remnants of a broken umbrella. The officer tried to have her explain who she was and what she was doing there at that hour in such a condition. The woman was mud from head to foot. The officer hailed a passerby, and together they removed her to the motor power house, where Dr. Saville was called. It was evident she had taken something, for she appeared to be in great agony. After a couple of hours' hard work she was brought to her senses. She said her husband told her he did not love her any more, and this being the case she had no further desire to live. She said she drank some chloroform. She was taken home. The house where

she lives along with the man she calls hus-band is one of the most wretched hovels band is one of the most wretched hovels down along the railroad tracks and ware-houses in the vicinity of Fourteenth and Nicholas streets. The moment the officers opened the door the stench from within nearly stifled them. A man was in the act of getting into bed. He claimed to be her husband, and said she would receive, as she always had good care. husband, and said she would receive, as she always had, good care.
