COMMERCIAL AND FINANCIAL

After a Weak Opening Wheat Did Some Long-Distance Fluctuating.

QUITE A HEAVY TRADE IN THAT CEREAL

Feature Was the Purchasing by Professionals and the Larger Commission Houses Who Sold Freely Saturday-Stocks and Bonds.

CHICAGO, June 11 .- After a weak opening. due to the bearish government report, wheat today did some long distance fluctuating, and closed 46c higher on the general bullish news of the day. Corn closed 7sc higher. Oats, unchanged and provisions higher all

There was a heavy trade in wheat within from 1%c to 175c range. The opening was weak at from %c to 114e under Saturday's close, but gradually advanced 11/2c, declined Mc, railied %c, declined %c, changed some, ruled steady, and closed near the top. The lower opening was attributed to the government report, which made the condition of winter wheat 83.2, against 81.4 last month. and the area 99 per cent. Both the condition and the area were higher than expected. The spring wheat condition was reported at 88, and the total crop of spring and winter estimated at 410,000,000 bu. The feature was the heavy buying by local profeature was the heavy bounds of feationals and the larger commission houses who sold freely Saturday. Room traders sold freely at the start, but finding an urgent demand hastened to cover their early sales. The stronger tone was due to the liberal decrease on ocean passage, the decrease in the visible supply, stronger continental cables and to dry weather reports from the northwest, which were again quite numerous. Corn was active within from 1%c to 11%c

range. Selling at the start caused an early decline, but the action of wheat created a decline, but the action of wheat created a strong market at the close.
Oats were active, declining early on the government report and reacting later on good buying. The market closed near the top after a 1% c range.
Provisions were generally firm on a scarcity of offerings and high prices for live hogs. The action of wheat, too, helped prices. Compared with Saturday night July rock is the higher July lard 5c higher and

pork is 15c higher, July lard 5c higher and July ribs 10c higher.
Freights slow, moderate offerings at 1%c for corn to Buffalo.

The leading futures ranged as follows:

Minneapolis Wheat Market.

Minneapolis Wheat Market.

Minneapolis June II.—The wheat market spened weak and lower in the morning, due probably to disappointment with the government report, showers throughout several parts of the north-west and southwest, weak cables etc. All these reduced the early price about \$c below the closing price of Saturday. Later cables reported stronger markets. This, with the relative cheapness of prices, started better buying and the mirket advanced with more or less at adiness throughout the day, and at the end prices were about \$c\$ higher than the lowest of the morning closing; June and July, 60\(\)c; September, 60\(\)c; track, No. 1 hard, 60\(\)e, No. 1 northern 60\(\)c. Receipts were 24.49 bu; shipments, 21.25 bu. The demand for flour was sleady, with sales equaling the production. The latter was about 12.60 bits; shipments, 35.776 bits; putents, firm at 24.40 to \$1.60 bakers, \$2.05 to \$2.40.

The Market Record reports a decrease of 184.000 bu, in the larger lines of country elevators and 75.030 bu, decrease in the smaller lines, mixing a total decrease in the smaller lines, mixing a total decrease in the smaller lines mixing 25,600 bu, garins 25.204,600 bu, a year 250.

also light colored percales and challes. There was a request for bleached cottons and cambride. Fack prints shared in a good selection, as were some makes of ainglains, densets and torion dress goods. Weekin goods are doing fairly well on deliveries, but new request unmaching, trining clothes are in demand at 2 11-16c his and declined for sixty-four square contracts.

Constructs.

Local Printing Market.

Illetter Packing stock is generally quoted at Stafflo. Choice country, 158140.

JOSEPH-The general run of fresh eggs are going at 15c, but the fanches is firmer and a few sales of extra bright stock are reported at 10c.

Live Polither the recepts are much lighter that they were a week ago, but the market is not overly netice. Old hers, Syc rootlers, Sc. The demand for other kinds of poultry is rather light, though a limited quantity is saintle. Itacks. 6675c; her turkeys, 75c; gobbers, 59 fc; geore, 5015c.

VEAL-The recopts have been large all the week, and dealers have had hard work to keep life market cleaned up, and prices are allitle weak. Goal fat veals were quoted at 6655c.

TIGEONS-There is a demand for old pigena, but young birds that are not strong on the wing are not wanted, Old birds, per Joz., fl. 6611.50.

VEGETARILES.

OLD BEANS—The market is steady. Neither the domaind nor supply is very heavy at this point. Hand picked may, 2566g21c, medium navy, 11.5912.0; common white beans, 41.5001.50, ONIONS-New southern colons are quoted at 25c per 16. Top onlone are plenty at 15422c on orders. Local Produce Market.

ONIONS—New senthern enlong are nucled at 25 pc per its. Top onlors are pienty at 15 pc. 25 pc it 11,1994,29.
AlliAGE—While good stock that will stand shipping is not plenty, there is some arriving from California. At this scaron of the year cab-bage has to be waked off rapidly, as it will no iold up well. Good shipping stock, on orders, ASPARAGUS-Good home grown stock, \$5949c

PIE PLANT-Home grown ple, plant, 2c on rders.

TOMATORS—The market is much better sup-fied than was the case a few days ago. Mis-issisppi stock is now quite plenty and of good unity. Shipping stock, per crate 4 baskets, NEW DEANS—Wax beans, \$1.50 per bu.; string beans, \$1 per bu. PEAS—Pens, per bu., \$1.50@1.60.

FRAS-Pens, per 60., \$1.5091.05.
FRUITS.
STHAWBERRIES-For the first time in a good many days there were no berries in from Missouri points. The market was, in fact, practically bare, there being only a few cases here from Chicago. They sold to the local trade at \$2.50 per 16-95, case.
CHICHRIES-The market is pretty well cleaned up in the matter of Children cherries. More are Lilled to arrive litter in the week. Choice shipping sites, \$1.5591.50.
APRICOTS-California apriests are commencshipping stock, \$1.35@1.50.
AlTRICOTS—California apricots are commone-ing to arrive in small quintities. Shipping stock, in orders, \$2.50.

STOCKS AND BONDS.

Week Opened in Securities with a Generally Heavy Tone. NEW YORK, June 11.-The week opened on the Stock exchange with a generally heavy tone to the speculation and during the greater part of the day prices dropped. There were evidences of liquidation in some few stocks and London was a moderate seller of the arbitrage specialties. The cutting down of the dividends of the New York & New Haven from 21/2 to 2 per cent had a depressing influence on other dividend paying stocks, which are under suspicion of like scaling. The decreased earnings of the St. Paul for the first week of June also had a weakening influence on the stocks of the western roads, particularly the grangers. In the industrial group the trading was irregular. Sugar, which led in the transactions was pressed for sale at the opening and broke 11/2 per cent. The selling movement was not of long duration and the room traders took up the buying, with the result of establishing an advance of 3½ per cent, with a subsequent reaction of 1½ per cent, and a final recovery of ½ per cent, making a gain on the day of 1¼ per cent. The preferred stock declined ¾ per cent. There was no news from Washington on which to base the advance and it seems to be entirely due to manipulation by the trading element. Tobacco, which rose 1 per cent, and Dis-

close today. In the final dealings the specu-lation became fairly strong for the general list and there was a partial recovery of the early losses. Bonds were steady during the morning and firm in the afternoon. The Evening Post says: Neither the crop report nor the consequent movement of the grain market had any appreciable influence on stocks today. In these the decline was -which were rather effective-on factors quite unconnected with commercial prices. One of these was the bituminous coal strike. Probably more effective in its way was the reduction of the New York & New Haven dividend. This, of course, started talk of

tilling, which made a net gain of 1/2 per cent,

were the only industrials to show higher figures than Saturday's final sales at the

other forthcoming reductions, talk which in some directions is very possibly well The following are the closing quotations on the leading stocks of the New York ex-

OMAHA LIVE STOCK MARKET

Week Opens with an Average Run of All Sorts of Stock.

WELL FED CATTLE SELL MUCH HIGHER

Good Beef in Demand, but Grassy Stock Neglected-Hogs Steady to Strong and Somewhat Higher-Sheep Steady.

MONDAY, June 11. The supply of beef cattle was rather limited, but included a string of choice cornfed steers that sold for \$4.70, the highest price paid in some time. Handy fat cattle sold fairly steady, while anything off finish or weight was hard to move at prices generally 5c to 10c lower. Sales included good to prime 1,200 to 1,550-lb, steers at \$4.25 to \$4.70, fair to good 1,000 to 1,200-lb. steers at \$4 to \$4.25. The market was more or less uneven and slow throughout,

Cows and heifers of good quality found a ready sale at prices generally steady, while the grassy and all rough stock of all kinds is selling very poorly at bottom figures.

There was a fair sprinkling of stockers and feeders, while the demand was about equal to the supply, consequently there was no special change in prices. Good to choice feeders are quoted at \$3.10 to \$3.40, fair to good at \$2.80 to \$3.10 and common stuff from \$2.80 down. Representative sales:

There Was Nothing the Matter with the Market for Cattle. CHICAGO, June 11 .- There was nothing th CHICAGO, June II.—There was nothing the matter with the market for choice cattle. It was as active as during last week and was not less firm, though without pronounced advance. The proportion of ripe cattle was not as prominent as hereofers, and as the demand w.s. unabated the situation was still slightly in sellers favor. Common to fair grades were weaker and from loc to 15c lower than at the close of last week. The sunply was large. First estimates were around 18,000 head, but later arrivals swelled the toigl 64 19,000 head, of which about 2,000 were Texans. Sales of natives were on a basis of from \$1.25 to \$5 for inferior to extra. Exceedingly few steers soid below \$4, and there were few trades above \$4.50. The prices most frequently poid \$607 Ows, beifurs and bulls were from \$2.50 to \$5.25. A few helfers of superior quality soid assound \$2.85. Texas cattle were quoted anywhere from \$1.25 to \$1.50 for thin cows to from \$4.60 to \$4.50 for choice fat steers. Although the supply of hoss was large, the market was very strong. It was especially strong for light weights. They made an average gain of loc, the best grades bringing \$4.70, and the bulk changing hands at from \$4.50. Is \$4.50. Heavy and medium weights were 5c higher, and active at from \$4.55 to \$4.50 for common to choice. Extra quality was quoted at \$4.95. The increased firmness was land from \$2.70. The increased firmness was land for poin stuff at any price. Quotations were from \$1.25 to \$4.50. The increased firmness was land from \$2.75 to \$4.25. and spring lambs were salable at from \$2.75 to \$4.25. and spring lambs were salable at from \$2.75 to \$4.25. and spring lambs were salable at from \$2.75 to \$4.25. and spring lambs were salable at from \$2.75 to \$4.25. and spring lambs were salable at from \$2.75 to \$4.25. and spring lambs were salable at from \$2.75 to \$4.25. and spring lambs were salable at from \$2.75 to \$4.25. and spring lambs were salable at from \$2.75 to \$4.25. and spring lambs were salable at from \$2.75 to \$4.25. and spring lambs. Were salabl matter with the market for choice cattle. It was as active as during last week and was not

TRIP TO TABOR.

Described by One Who Enjoyed Its Many Pleasant Features.

How ignorant the bulk of us are of the many fine things almost at our doors. Therefore it was a wise thing on the part of the college authorities at Tabor to arrange for a trip to give an opportunity to the Omaha people as well as members of the Congregational convention to see then fine country, their fine towns and their fine educational institutions. The excursion was a great success. There was quite a big gathering of ladies and gentlemen at the union depot at 3:45 Saturday morning to make the trip to Tabor by the Chicago, Burlington & Quincy to Malvern, thence by the Tabor & Northern to their destination, under the guidance of President Brooks of Tabor college. The morning after the fine rains was cool and delightful and the beautiful country along the banks of the Missouri to Plattsmouth looked fresh and charming, and many were the exclamations of surprise and delight at the sight of the promising fields of corn and other crops all along the route. Crossing the Missouri and Platte a more extensive view of the landscape came in sight. The scene was one of great beauty, and members of the convention from eastern states were not backward in their words of praise of the fine scenery and rich agricultural land the track runs through, without doubt one of the fairest garden spots of Iowa, rich in soll all over.

Arriving at Tabor, carriages were in educational institutions.

the fine scenery and rich agricultural land the track runs through, without doubt one of the fairest garden spots of Iowa, rich in soil all oyer.

Arriving at Tabor, carriages were in waiting to convey the party through and around the town, which is beautifully situated, the villas and dwellings generally well built and of handsome appearance, with pretty gardens and crehards surrounding, covering a considerable area of ground. Tabor is a growing town, always adding to its population, which now numbers close upon 1,000. It stands on a plateau with an elevation of 350 feet above the bottom lands of the Missouri, and is a most healthful town, and with groves, gardens rich in flowers and fruits (the apple and cherry trees at the present time giving promise of an abundant crop) and educational advantages with its fine schoels and college. It is attracting many families to take permanent residence there, besides the many students who take a year's course of training equal in every respect to that received in old castern schools and colleges. The students number about 250, with twelve or more professors, and the accommodation in the new and older buildings is very complete. The college is in a thriving condition, for after paying all salaries and accounts they have a balance in the exchequer. Graduates leave this college to fill important appointments all over the world. The college is worked on the co-educational system, believing that as men and women have to live together they should be educated together.

After the drive the party was taken to the church parlors, where the ladies of the town had a contribution of all the nicest dishes their skill and lingenuity could devise, and what added zest to the dinner was to have it served by the hands of the providers, whose happy faces and sparkling eyes were a feast in themselves, and as a climax to it all the prestic bands of the congregation, presided. Short, pithy speeches were given and music from a highly trained chorus of twenty young ladies, led by Miss Webster,

tlemen singers being in the park engaged in a field day contest with the Corning academy.

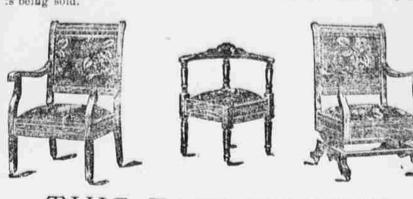

The party left Tabor at 3:50 in the expectation of making a quick run to Omaha, to get back in good time for the Commercial club reception in the evening, but the delay of an hour or two at Glenwood, owing to the breakdown of the engine postponed the arrival to 8:50. Both going and returning all went merry as a marriage bell, hymn and song singing filling up a large part of the time on the return, and the wait at Glenwood by stories by the scare, and many of them were of the most amusing description.

It should be mentioned that the line of railway from Malvern to Tabor, about nine miles in length, is mostly owned by the college, the president of it being also the president of the road.

WATCHING A CHICAGO FIGHT

Equabble Fetween Grain Dealers and Warehouse Men Attracts Attention.

LOCAL DEALERS ARE INTERESTED No. 41 Broadway.

Nebraska Grain Will Have to Pay Toll i the Board of Trade Operators Win Their Point-New Syndicate

in the Field. Nebraska grain men are watching with

no little interest the fight between the Chicago Board of Trade grain dealers and the public warehousemen. It is claimed by members of the board that the warehousemen use their positions to the detriment of the grain dealers in that they buy and sell grain and manipulate the market for their own benefit. While there is no doubt but the men at the head of the great public elevators in Chicago have worked the market that is by no means the only reason for the opposition of the grain

dealers. For some time back there has been tendency in all lines of business to do away with middlemen as far as possible The dull times of the present year have only intensified the desire to save the middleman's profits. As a result the elevator dleman's profits. As a result the elevator men in Nebraska and other western states have fallen into the habit of selling their grain direct to the warehousemen instead of allowing a Chicago grain dealer to sell it for them and charge half a cent per bushel commission. The saving of half a cent per bushel is quite an Item, and so many sellers have dispensed with the assistance of the grain dealers that the commissions of these gentlemen have fallen down to a very low notch. In order to restore their business they are trying to have the Board of Trade of Chicago forbid the buying of grain by public warehousemen, on pain of having their houses declared irregular and the grain nondeliverable upon contracts. If this is done it will cost Nebraska grain men half a cent on every bushel of grain that goes to Chiit will cost Nebraska grain men half a cent on every bushel of grain that goes to Chi-

it will cost Nebraska grain men half a cent on every bushel of grain that goes to Chicago.

On top of this thrust at the warehousemen by the grain dealers comes another from a wealthy syndicate which would like to have the board do away with the old warehousemen entirely. In brief, the Board of Trade is asked to cut loose from all the old warehousemen and recognize only the receipts of the new concern, which promises to build enough elevators at South Chicago to store all the grain that comes to that market. The tempting feature of the proposition, and that which most interests traders on the board, is the syndicate's offer to store grain at just half the rates now charged by the old warehousemen. The only favor asked in return is that the Board of Trade should recognize no other warehouse receipts than those issued by the new houses.

The originators of the new scheme are said to be eastern capitalists. Instead of putting up large frame houses, such as are now in use, they propose to construct a series of steel tanks. These tanks will be supplied with new machinery for colling overheated grain. All the latest machinery for cleaning the grain will be employed.

At present warehousemen charge 1 cent a bushel a month for storing grain. The syndicate agrees to store it for just hat the present charge. To heavy shippers that reduction would mean an enermous saving, that would make up, many times over, what might be paid out for commissions. The members of the new syndicate agree that they will refrain entirely from buying grain.

It is understood that no less than \$2,000.

that they will refrain entirely from buying grain.

It is understood that no less than \$2,000,000 would be invested in the construction of these elevators and the purchase of land. Should the directors accept the proposition the old clevators, with their capacity for storing \$3,000,000 bushels of grain, would probably become very unprofitable investments. Some of them are not making dividends now, and could ill afford to lose the heavy tolls paid monthly by grain shippers. The old elevators represent an investment of millions, their estimated cost being from 10 to 12 cents a bushel for every bushel of their capacity. This is ladependent of the real estate and would indicate that they are worth, above that, from \$3,00,000 to \$4,000.

Three steamers at Courtland, take a sail. New Kind of Artificial Milk.

New Kind of Artificial Milk.

A Cincinnati chemist has made a discovery that promises to revolutionize the diary business. It is a combination of water, solids and fat that is equal to the finest milk. It is in reality chemically pure milk and is, of course, free from all taint of disease that cow milk has. This chemical milk will raise a cream, will sour, turn to curd and water, and butter and cheese can be made from it the same as from cow milk. At present the cost of

production is more than \$1 a gallon, but the chemist believes with a few more experi-ments he can reduce the price to 10 or 15 cents a gallon, and by making it in whole-sale quantities can retail it at the usual 6 cents a quart. It will be but a short time, according to this, till the "Dry Feed Dairy" will disappear from the milk wagons to be with "Chemically Pure Milk-Made from Distilled Water and the Purest

SANTEES WANT A BETTER SHOW. Claim that They Are Not Receiving Their Dues from the Government.

CHAMBERLAIN, S. D., June 11.-(Special to The Bee.)-The Indians at Santee agency, just across the South Dakota line in Nebraska, have a grievance against the government. There are in all about 1,100 of these Indians. For the past thirty years they have been strong friends of the government, and during wars with the Sloux and other northwestern tribes have

years they have been strong friends of the government, and during wars with the Sloux and other northwestern tribes have on each occasion rendered the government valuable assistance. During General Custer's campaign against the Sloux, in 1874, twenty-eight Santees accompanied the expedition as scouts, and they performed their duties with a loyalty and devotion that won words of praise from their commander. In the year previous, 1873, nineteen Santees accompanied General Sully on his expedition against hostile Indian tribes, and did fully as good work as distinguished them during subsequent Indian troobles. In the disastrous campaign of 1876, when General Custer and his galiant command were massacred by the Sloux under Gall. Rain-in-the-Face, Big Road and other distinguished Indian chiefs, the Santees remained true to the government, and during the remainder of the summer successfully performed various notable and dangerous deeds of valor in assis in the government troops to run down and subdue the turbulent Indian tribes. Notwithstanding these thirty years of loyalty to the government, the Santees are not receiving the consideration accorded to other tribes of Sloux, which, in conjunction with them, accepted the treaty of 1889, under which treaty a portion of the Sloux reservation was opened for settlement.

The principal cause for complaint is the fact that although these Indians are a unit in the desire to take their lands in severalty under the allotment act, there is not enough land in their small reservation to give each Indian over 18 years of age the amount of land to which they are entitled. Many of them have taken their allotments, but the baliance are unable to do so for the reason that there is not sufficient land. On the Cheyenne, Standing Rock, Lower Brule, Rosehud and Pine Ridge reservations many Indian families have taken their allotments, and by reason of this some of the families own as high as 1,000 acres of land, which was selected by themselves. The shortage of hand on the Santeer servations
