Official Announcement of the President's Death Made in the French Senate and Chamber of Deputies-Specalation on Carnot's Successor.

PARIS, June 25 .- The deepest sorrow, dismay and anger prevails throughout France The cowardly assassination of President Sadi Carnot at Lyons last night is most heartily deplored by all.

Great anxiety is felt regarding the future and this will not be allayed until a successor to the late president shall be inducted into office. With all this is the anger of France at the assassin, Cesare Giovanni Santo, the young Italian whose deadly knife has plunged a nation into grief.

Telegrams of sympathy are pouring in upon the family and upon the government. These messages of condolence come from all countries of the world, showing that France is not alone in her sorrow at the death of her president. The newspapers of all shades of opinion print leading articles deploring the assassination of Sadi Carnot.

Signs of mourning are general throughout this city and France today. All the flags are at half-mast and the public buildings are being draped.

The murder caused consternation among the Italian residents in this city. The president of the Italian Chamber of Commerce, as soon as the president's death became known, immediately drew up an address of condolence which was signed by the chief Italian residents of Paris and which was subsequently presented to Premier Dupuy, who also received a message from Baron Blanc, the Italian minister for foreign affairs, saying that King Humbert, the two chambers and the government of Italy "shared the grief into which France had been plunged by the hand of an Italian an-

archist, a man without a country."
At a cabinet council held this morning Premier Dupuy formally announced to the murder of President Carnot, and an official message containing the same formal intelligence was sent to Senator Challemel-Lacour, president of the Senate, and to M. Casim er-Perier, president of

he Chamber of Deputies.

The government will propose to the Cham bers that the remains of the late President Carnot be accorded a national funeral.

The inquiries of the police this afternoon ulted in showing that Santo was born at Motta Visconni, northwest of Pavia, in De cember, 1873. The prisoner is a baker by trade, and was tried in Milan in 1892 for breach of the peace, but he was acquitted, owing to lack of sufficient evidence against

KNOWN AS A DANGEROUS ANARCHIST. Santo was known as a dangerous an-arheist and delivered anarchist lectures wildest nature before going t Switzerland last year. The police are keep-ing a strict watch over anarchists in all the cities of France, and it is expected that several important arrests will be made during the day.

There no longer seems to be much doubt that the president's assassination was the result of an anarchist conspiracy to reveng the deaths of Vaillant and Emil Henri, the two recently executed anarchists. Twenty detectives have gone to Cette, department of Nerfault, where Santo was recently domfelled in order to track down his supposed Crowds of people during th morning and this afternoon have rounded the Elysee palace, where all the foreign ambassadors and ministers, sena tors and deputies called during the day The majority of the deputies, after calling at the Elysee, asembled at the Palais Bour where meetings of all parties wer

The police inquiries late this afternoon resulted in obtaining the following facts in regard to the assassin's moves previous the crime:

Santo missed the train running direct Lyons at Cette Friday, and had to go to Montpeller and thence to Valence. From the latter place he was unable to pay his fare on the train to Lyons, having centimes in his pocket, and was obliged walk thirty miles. He arrived at Lyons the same afternoon. When the police rescued the prisoner from the mob after he had stabbed the president his clothes were torn to shreds, and it was found necessary to sew them together at the police station

of the Palace of Justice at Lyons. The body of the late president will possibly be placed on a train for Paris tonight and may arrive in this city early tomorro morning.

C. Ressman, the Italian ambas sador, received this evening a dispatch fro Rome saying that the investigation which the Italian authorities have made into the identity of Santo, the assassin, shows that he is not an Italian, but that he comes from Ticino, the southernmost canton of Switzer land, where the large majority of the inhab-

itants speak Italian.

The Senate and Chamber of Deputies will be assembled in electoral congress at Ver-sailles at 1 p. m. Wednesday next for the purpose of electing a new president.

MME. CARNOT'S ARRIVAL. Mme. Carnot, accompanied by her two ing. The widow was most respectfully greeted by a large crowd of people assembled about the railroad depot. She proceeded immediately to the prefecture, where the body of the late president new reposes in One of the dead man's sons, saw the decorations in the Rue de publique and other streets—decorations which had been displayed in honor of his father's visit to Lyons and which were not all removed this morning—was so agitated that he nearly fainted. The flags and other decorations on the prefecture were, however, removed during the night and the great flag hich usually floats over the Chamber of immerce was replaced by a large square banner of crepe. The inhabitants of Lyons generally are removing the festive decora-tions from their buildings and are replacing with mourning emblems as fast as

The apartment of the prefecture in which the body of Carnot lies in state presents a most impressive appearance. The remains of the murdered man are clad in a dress suit, and across his breast is the grand cordon of the Legion of Honor, of which as chief of the state, he was grand master. Around the bier are stationed a number of high officers of the president's military household, who, with several Sisters of Charity, watched the remains throughout the

troops and a strong detachment of infantry is guarding the building in which Santo, the

When Mme. Carnot reached the prefecture the death chamber was cleared of all but

the family and the widow, who had been joined by her third son, was left alone with her dead. The late president's family remained for a long time in prayer before the bler and then the widow was led away by her three sons, all four weeping bitterly.

Later the remains were photographed and a consultation between the sons of the late. president and the authorities in charge of the remains took place. The exact nature of their deliberations has not been made public, but it was stated that Mme. Carnot does not desire the body of her late husband to be embaimed and wishes it removed imiediately from Lyons to this city in order that it may lie in state in the chapel of the

Elysee palace.
No decision has yet been reached as to whether an official post mortem examination is necessary and it is said that this matter has been referred to the cabinet ministers, who are expected to render a decision

shortly. PARISIANS' BLOOD IS UP.

The feeling of public anger which prevails in this city as a result of the assassination is almost beyond description. On the boulevards scenes of the greatest excitement have been witnessed today. The police had the greatest difficulty in dispersing the crowds of wildly angry people who assembled at different points discussing the tragedy, cursing the assassin and calling for vengeance against the murderer and his supposed accomplices. The fact that the assassin is an Italian has given rise to the mose danger The fact that the assassin is an ously bitter feeling against Italy and Italians and several Italian flags, displayed out of sympathy with France's loss and draped with creps were hooted at and, in at least one instance, pulled down and torn into shreds. In every quarter of Paris fierce demonstrations against the Italian residents have taken place and as a result nearly all the Italian cafes and restaurants have been

But if the feeling against Italians is strong the sentiments of fratred with which the majority of the people regard anarchists is still stronger and is growing hourly in intensity. Santo, the murderer, has boldly intensity. Santo, the murderer, has boldly asserted that he is an anarchist and therefore upon the anarchists are the people pouring the vials of their wrath.

Further than this the prisoner has ap-parently made no statement, but it is reported that the police are convinced that the assassination of President Carnot is the result of a carefully planned conspiracy is which a number of people were concerned. This, however, is only a report, and the authorities are engaged in a most exhaustive investigation into the prisoner's past career and recent movements, and no official statement on the subject is likely to be made until this inquiry is completed.

The weapon used by the murderer was a ng, triangular blade of the stiletto pattern Upon the blade were engraved the words: "Record of Toledo." The sheath of the weapon is of velvet, with red and black

President Carnot's last words were Thank you, my friends; thank you.' Regarding the political situation, it is be-leved that ex-Premier Casimer-Perier, now president of the Chamber of Deputies, has the best chance of succeeding the late presi-dent, but the names of M. Chalemel-Lacour, president of the senate; Cavagnac, Dupuy Brisson, Constans and General Saussier are also mentioned as strong candidates. The bourse is open today, but the Cornexchange is closed. The exchange at

Havre is closed and so are all the exchange and similar institutions throughout France. The Senate was crowded this evening when the president, M. Challamel Lacour made an address expressive of the Senate's feeling at

the death of President Carnot.
"Europe," he said, "is appreciating the nobleness and strength of his character and shares in France's grief." The speaker ther voiced the Sepate sentiment and condolence with the family, saying: "If any man's in-nate goodness should have guarded him from hatred and fanaticism, it was President Carnot. The crime has strengthened our energetic resolve to defend the fundamenta es of society and to prevent outrages upo human life."

# STARTED FOR PARIS.

Remains of the Murdered President or Their Way to Paris.

LYONS, June 25 .- Were it not for the presence of the overwhelming force of troops stationed in and about the city there is lit tle doubt that the mob would attack the Palaise of Justice and wreak vengeance upor the murderer. Mourning emblems are worn by nearly every man, woman and child in the city and no dwelling seems too poor to display the emblems of grief. During the day a mob, including a number of members of the various gymnastic societies who have arrived in this city to take part in the letes, began to gather about the Cafes Casati, Mattosi and Maderni, and about the Italian quarters. Another large crowd about the hall where the known Italian Harmonic club meets, and most serious disorder was apprehended Threats were heard on all sides agains talians and anarchists, Several of th Italian wineshops were attacked and partly wrecked and the Italian cafes mentioned were stoned and otherwise damaged in spite of the efforts of the police and military The sidewalks in front of the Italian cafe: were strewn with wreckage. Some of the more hot-headed men proposed an attack upon the Italian quarter and the proposition was received with wild cries of applause, and in a moment an enormous mob, of which was carried a French flag, was en route to that part of the city given over to the Italians. Before the police could ntervene to prevent the trouble the mol had attacked all the shops belonging to the foreigners and sacked them. The p prietors and their families were forced flee for their lives. In the meantime another large band marched through other and by threats compelled every Italian who kept a cafe to close his place

MANY SIGNS OF STRIFE. The crowds in the Rue de la Republique ecame threatening, and refusing to disperse t was finally necessary to command the curaissers to charge the crowd. The Italian cafes were strewn with wreckage. The troops are still held in reserve under arms is also held in reserve in a house adjoining the Italian consulate to be ready to sup-port the police in case of an attack. A the request of the local authorities Italian consul has removed the Italian flag

from outside the consulate.

The Associated press correspondent has been able to obtain the details of the lasmoments of President Carnot. When the president regained consciousness after faint ing at the prefecture he asked for a pen but when it was placed in his hand he too weak to write. A little while before he died the president whispered for Colonel Chamerne, one of the leading officials o his military household. The colonel ap proached him and the dying man presses is hand and said: "Je suis touche, bion ouche." (I am wounded, badly wounded.) The body of M. Carnot was taken from the prefecture this evening and placed on train that will convey it to Paris. After prayers for the dead had been offered the casket containing the remains was carried and placed on a gun carriage. While this was being done salutes of artillery were fired, trumpets were sounded and drums beaten. All civil and military was shown the dead. The street in front o the profecture was densely thronged, as were all the streets leading to the railway station. Troops and gendarmes kept the way clear. The procession that followed included all the civil and military authorities of Lyons, and a large number of delegations from different cities and towns. Every man along the line of march removed his hat as the body passed by him. The people, who had heretofore stood severent and mute be fore the nation's martyr, when the body had passed, gave vent to their pent-up excite-

The police are actively engaged in search-ing for accomplices of Santo, which they feel certain he had. They are particularly anxious to find a hair dresser's assistant named Marius Violley, who is said to have repeatedly predicted that President Carnot would be murdered on his arrival here. Certain of Passing the Measure Without Assistance from the Third Party or from Hill-Vote May Be Had Before Saturday.

WASHINGTON BUREAU OF THE BEE, 1407 F Street N. W. WASHINGTON, June 25.

Senator Allen will vote against the tariff bill. He has not made this statement openly and it is not officially known how he will vote, but from an authentic source the correspondent of The Bee has ascertained that Senator Allen and Senator Kyle of South Dakota have been thrown overboard by the democratic managers. They are no longer counting on the votes of Allen and Kyle, but say that they can pass their bill without populistic help. They will make no further concessions to the populists nor to the republicans. They claim every democratic vote except that of Hill, and they also claim five republican votes for their bill. Who the republicans are will not be whispered for fear pressure might be brought to bear on the recalcitrants. It is expected the bill will be passed not later than Saturday night. W. D. McHugh and Euclid Martin of Omaha are in Washington for a few days They leave for home tomorrow evening. The general deficiency appropriation bill, as it stands, does not contain any appropriation for the payment of the judgment in the depredation claims of South Dakota. Representative Pickler sees a particular grievance in this, and has for some time in ended to propose an amendment appropriating \$500,000 for the payment of the judg ments. Congressman Sayers, chairman o the committee on appropriations, does no desire to have a special provision at time for payment of these claims, and has agreed to offer an amendment to the bill appropriating \$10,000 for another investigation of the matter. It has been set forth that gigantic fraud existed, and Mr. Sayers does not think the payment should be made until another investigation is had. This amendment is to be proposed with the idea that after the investigation an appropriation can be made in the deficiency bill of the next congress for the purpose of paying the claims which are found to be legitimate

# INCREASING MEXICAN PENSIONS.

Bill Reported to Increase Mexican Veteran

Pensions from 88 to 812. WASHINGTON, June 25 .- The bill agreed upon by the house committee on pensions to increase pensions of survivors of the Indian and Mexican wars from \$8 to \$12 s month has been reported favorably to the house by Representative Stallings af Alabama. Most of the beneficiaries, he repre-sents, have reached old age, and after add-ing vast territory to the United States, are dependent upon their own exertions and government aid for support. Their roll will decrease yearly, and there will be no addition to it. Attention is called to the fact that no new titles to original pensions created. The committee is constantly called upon to recommend private bills for the same class of beneficiaries. Although under the act of January 5, 1893, Mexican war survivors in destitute circumstances ar the increase, the committee entitled to thinks it a humiliating condition to compe them to prove themselves paupers, and also thinks the benefits should be extended to survivors of the Indian wars and widows of

veterans. A statement from the commissioner pensions shows that there are on the rolls 13,625 pensioners of the Mexican war and 7,611 widows; 8,109 survivors of the Indian wars and 3.811 widows, while applications nding for 2,576 Mexican pensions and 2.152 Indian war pensions. The number of Mexican war pensions increased under the act of 1893 was 3,421. The commissioner estimates that 1,979 additional Mexican pensions and 1,320 Indian war pensions will be granted, and he makes an estimate that the cost to the government of increases made by the bill will be \$1,309,632 per annum.

CLEVELAND TALKS OF THE TREASURY. Not Alarmed Over the Financial Condition at Present.

WASHINGTON, June 25 .- The president, in speaking today of the financial situation, said to an Associated press representative: 'The offer of certain New York banks to replace from their vaults the gold withdrawn from the government treasury for shipment abroad is certainly thoughtful and patriotic. It not only tends to maintain the treasury's gold reserve in good condition, but adds to the stock of public confidence, which is at all times present. The elements which make up our actual situation do not justify any apprehension, and the administration still adheres to its pledge and de termination to protect our national credit at all hazards, and keep the quality of our money equal to the best, so far as the limits of executive power permits. Of course, croaking and the spread of disquieting tales are calculated in the stringent condition. I assume, however, there is too much patriotism among our people and too much familiarity with our resources and capabilitles to permit our reserved force and financial vigor to be discredited. When the last government bonds were issued to replenish our stock of gold it was nearly as low as now, while outside of our gold we had as available money to pay ordinary expenses of the government only about \$19,000,000. We have now besides our gold and in money applicable to government expenses more

than \$53,000.000. "I understand it is charged in certain quarters that the payment of matured obligations is postponed to the amount of \$50,-000,000 or \$75,000,000. This is not true, We are paying as we go, in the usual way. Last year up to June the balance arising from the exports and imports of merchandise was \$64,552,040. The balance in our favor for the same period this year was \$62,940,562, representing a change in our favor of \$127,512,608. These conditions, taken in consideration with the willingness of our banks to help the treasury during any temporary and unusual drain of gold, ought to satisfy the most conservative of our safety. It must not be forgotten, as another favorable feature of the situation, that we are no longer purchasing silver or issuing gold certificates therefor."

#### WORK FOR THE SENATE.

There is Plenty Left After the Tariff is Disposed Of.

WASHINGTON, June 25 .- If the senate should still be in a mood for labor after the disposal of the tariff and should have time to take up other than the appropriation bills, it will not be without material to work upon. The senate calendar now numbers twenty pages, devoted merely to giving the title of bills, most of which have been acted upon by committees, and there is not a committee of importance that has not ready for its consideration numerous bilis

of greater or less importance. There undoubtedly will be considerable pressure to secure consideration by the senate of many of these bills and the probabilities are that a large number of those of small importance will pass by general consent and at times when there is no appro-

priation bill to press for attention. The probabilities also are that some a the more important measures may be taken up, and especially those which are not expected to evoke prolonged debate. It understood to be Senator Fauckner's inte tion to call up the bill for the admission of Utah, and the friends of this measure are very hopeful that it will go through without encountering opposition and without much debate, as the bill has been unanimously reported from the committee, and it is understood to be the policy of both sides of th senate to have the territory admitted.

Other bills of general importance which stand a chance of receiving the approval of the senate are those providing for a codification of the pension laws and the printing

Another bill which has not yet been re ported from the committee, but which probably will be reported soon, is that providing for the reorganization of the personnel of the navy. The committee on interstate com merce is uncertain as to the pooling bill and in the absence of Senator Butler, chairman of the committee, who is not expected to return to Washington during the present session, its report to the senate probably will depend upon the action of the house on this measure.

Senator Hansbrough will doubtless mak an effort to secure consideration of his Russian thistle bill, which was displaced the tariff bill when that measure was taken up, and which now holds first place on the calendar. Senator Morgan probably will make an effort, if opportunity occurs, up his Nicaragua canal bill, which holds a place on the calendar.

There are some who think that the silver question will be revived during the present ession, but the indications are averse this view. The committee on privileges and elections will take up the Ady-Martin con-test for the seat held by Mr. Martin in the senate imme ately after the conclusion of the tariff contest and the senate will, in all probability, decide this contest before ad-

# HOUSE ADOPTS RESOLUTIONS.

After Expressing Sympathy with the French People the House Adjourns.

WASHINGTON, June 25 .- When the house met today it was generally understood that it would adjourn early out of respect to the memory of President Carnot of France. Chaplain Bagby referred in his prayer to the great calamity which had befallen our sister republic in the murder of its president. A message from the president was announced and Executive Clerk Pruden appeared at the main door bearing a large envelope containing the president's announcement to the senate and house of the death of President Carnot. Mr. McCreary, chairman of the committee on foreign affairs, thereupon rose

WASHINGTON, June 25 .- Although the grand jury of the district court made a report to the criminal court today, the names of the contumacious witnesses before the senate Sugar trust investigating committee were not included in the batch of indict-ments returned. It is understood that the jury had the case of Broker Chapman of York City under consideration again and that the certificates of Vice President Stevenson in the case of Messrs. Have-meyer and Searles of the Sugar trust were presented. District Attorney Byrney ex pressed confidence today that two indict-ments against the newspaper men and two other witnesses would be returned before the end of the week. Pullman Cars Will Not Run After Noon if the A. R. U. Can Prevent It.

SWITCHMEN WILL CUT THEM OFF

Men in the Marquis' Shops at Wilmington Del., and Ludlow, Ky., Join the Strikers -Pullman's Attorneys Confident the Company Will Win.

CHICAGO, June 25 .- At noon tomorrow the American Railway Union will begin its flight against the Pullman Palace Car company, Orders for the boycott have been issued to all local branches of the organization and preparations are now complete for what it is said may be the greatest railway fight in history. The preliminary skirmishes tobay at Ludlow, Ky., and St. Louis, leave the Pullman company with only its shops at Wilmington, Del., to conduct repairs on its cars.

That this will badly cripple the company is not denied, but the officials claim that the railway companies will make all necessary repairs in order to handle the travel without loss that would result from the withdrawal of the sleeping cars patronage. Officers of the union were jubilant over the news from Ludlow and St. Louis and more confident claims of victory than at any

other time during the strike.

Vice-president Howard said: "We are going to bankrupt George W. Pullman and we are going to do it in a short space of time. We have shut up his works at Ludlow and St. Louis and we shall be able to close his last door at Wilmington by next week. He will be rendered completely helpless inside of ten days, unless

he comes to terms before that time. Attorney J. S. Runnels, speaking today for Mr. Pullman, said: "The Pullman com-pany is prepared to stand by its original proposition in this matter to the end. Personally, I have not the least doubt as to what the outcome will be. It will, beyond question, result in a victory for the com-pany. We now have about 750 men at work in the shops at Wilmington, Del., where the American Railway union made an unsuccessful attempt to organize the employes There are no indications at present that the strikers will be able to draw the men at this point into their fight.

The Pullman company tonight issued statement regarding the strike and proposed boycott. After reviewing the situation and stating that the strikers have already deprived themselves of more than \$200,000 in wages, the document concludes with the statement that the boycott is threatened because the company will not agree to submit to arbitration the question as to whether or not it shall operate its shops at Pullman under a scale of wages which would cause a loss to it of one-fourth the wages paid.

#### WILL FIGHT THE BOYCOTT.

Chicago Roads Combine in Favor of the Pullman Company.

CHICAGO, June 25 .- (Special Telegram to The Bee.)-To the General Managers association has been delegated complete jurisdiction over the proposed boycott of Pullman cars by the American Railway union. He membership consists of the general managers of each of the twenty-two Chicago terminal lines. In the proposed boycott of Pullman cars the association has decided to fight to the end for the Pullman company. The plan of fighting will be, as it has been to consider the twenty-two terminal lines as one. Consequently if the employes of one line strike against handling Pullman cars it will hardly be an hour before the of all lines will be given their choice of striking or remaining with their company. The general managers have planned out their

campaign with the idea that the boycott will ake place as proposed. Small committees, which can act quickly, have each of the details in charge. Inquiry has already shown there will be no difficulty in filling the places of the strikers. general managers are not ready to their employes will carry out the boycott to an extreme, but today declared they were

At noon Captain Clarke, who has charge of the coal and iron police at Horatio, was in Adrain, and a mob of angry women pounced upon him, and before the militia could interfere they gave him a severe pummeling. Stones were thrown at General Manager Fisher's train at this place last night while he was being taken to Altoona to attend a meeting of the mine operators. Both the engineer and fireman were hurt. Notwithstanding the presence of the military, the situation still considered critical.

Bridge Blown Up with Dynamite. CONNELLSVILLE, Pa., June 25 .- Striking cokers, with the aid of dynamite, made an an attempt to destroy the Possum Run railroad bridge on the outskirts of New Haven last night. Dynamite was placed against the abutments of the structure and did considerable damage to the heavy masonry. The road is a branch of the Southwestern Pennsylvania road over which the coke from the Trotter works, recently put in operation, is transported to market Twenty-Five Hundred Gogebec Miners Idle.

IRONWOOD, Mich., June 25 .- Two thousand five hundred Gogebec range mine employes are idle now in consequence of the action of the receivers of the Colby mine in closing that property this morning. A mass meeting of nonunion miners from the first opposed the strike which has been called for Tuesday afternoon. They want to go at once to work and will ask the company for protection should the unionists attempt to prevent them.

Another Strike at Homestead. PITTSBURG, June 25.-The laborers employed in the thirty-five and forty-inch mills of the Homestead Steel works have struck, and the departments are idle. The men formerly worked in gangs of ten, but lately the num ber has been reduced to six. The strikers claim that this reduction made the work

too hard, and they quit to force the com-pany to restore the gangs to their former Pittsburg Industries Reviving. PITTSBURG, June 25 .- A revival in local industries, which millmen confidently pre dicted would follow the settlement of the coal strike, was evidenced today when plant in all sections of the city, some of which have been idle for months, resumed work

CHICAGO, June 25 .- (Special Telegram to The Bee.)-Herman le Bean, bartender in Hannah & Hogg's saloon, which adjoins the Columbia theater, and who for a number of years served in a similar capacity in Woods' saloon in Omaha, was this afternoon fatally stabbed by a man as yet unknown. About 3 o'clock a man, fairly dressed and apparently but a trifle tipsy, stepped up to the bar and asked for some beer, saying as he did so that he couldn't drink Hannah & Hogg's whisky because it was too young. Le Bean contradicted the fellow goodnaturedly, and upon request gave the critic a glass of whisky to test. The stranger pronounced the liquor 2 years old, and another discussion followed. #### FIRED AT A PASSING TRAIN. People at Round Pond Adopt Heroic Meas

ures to Stop Trains. NORTH ENID, Okl., June 25 .- The trouble at Round Point is getting more serious every hour. The presence of United States marshals has not had the quieting effect desired. The crowd of citizens blew out the cattle guard on the outskirts of the town Saturday night and warped the ralls so that trains

could not pass over for some hours. That trains were not ditched is due to the vigilance of the deputy marshals. Last night three people were shot. The men attacked the southbound passenger train that came through the town, flying, with a hot fusilade of bullets from their Winchesters. More than one hundred shots were fired at the and some of the cars were perforated. A Mr. Fossett of King Fisher, who was standing on the platform, had his hat blown off and received a slight scalp wound, and another passenger was struck in the throat by a bullet. Johnson, a news dealer of Round

Point, was hit in the leg with a heavy charge of buckshot. During this delay the deputies did not fire a shot. Marshal Nix said he wished, if possible, to avoid a conflict which would surely result in considerable loss of life. Marshal Nix is here today, and he says all the power of the territory will be required to put down lawlessness in Round Point.

WICHITA, June 25 .- At 7:30 this evening terrible cyclone from the southwest struck the village of Keighley, Butler county, and nearly wiped the little town out of existence. Charley Stevens. Mr. Stevens said he was going to the Barker hotel, and had reached Thirteenth and Jackson, when a man sitting on the curb stone jumped up, and, grabbing Stevens by the arm, said, "I must have money." At the station, inside of the fellow's trousers, near the top, was found a loaded revolver. The police think the prisoner is the notorious Bill Hotch-
