Cor. 15th and Dodge, Omaha. HIBERNIANS AT KEARNEY.

Omaha Officers Complimented and an Omaha

Man Made President. One of the most interesting state convenions which the Nebraska members of the Ancient Order of Hibernians have had the pleasure of attending was held at Kearney on June 29. There was a large attendance of Hibernians from all parts of the state, and they were royally entertained by the Kearney division. The sessions were held in Sarsfield hall, and as State Delegate Kilroy was unable to be present State Secretary John Naugle of this city called the convention to order. M. J. Saunders of Kearney was elected chairman and by a subsequent motion was made the permanent chairman of the convention. After the appointment of a committee on credentials an adjournment was taken until 2 p. m. At the afternoon session the report of the committee on credentials was read and adopted, after which committees were appointed on rules, auditing, insurance, grievance, bylaws, press and resolutions. A recess was then taken, after which the re-ports of the committees were heard. In its report the auditing committee paid a high compliment to State Secretary Naugle and State Treasurer Mahoney for the manner in which they had kept the accounts of the order. The matter of insurance was referred to the Nebraska board, as there were some nconsistencies in that department that required adjusting.

The election of officers resulted as follows:

President, John Rush, Omaha; vice president T. T. Kelcher, North Platte; secretary, George F. Corcoran, York; treasurer, J. J. Mahoney, Omaha; chaplain, Rev. D. J. Moriarity. The insurance officers were elected as follows: John Naugle, secretary; Richard O'Keefe, treasurer: William Maher of Omaha. James Kelly of Lincoln and W. R. O'Shaugh-nessy of Omaha will act as auditors, and, in conjunction with the secretary and treas-urer, will select a chairman. Charles P. Council Bluffsites have turned out in large numbers the past week. Alderman S. S. The "Aurora" catches the crowds every evening. She makes regular trips around Courtland lake, and several thousand people have been given an idea of the largeness of the lake since the "Aurora" started in on the Fourth. Everybody is astonished to find such a large body of water. Heretofore they were content on viewing the size of the lake from the beach, which naturally gives it the appearance of being quite small when viewed across the narrowest portion.

Sympathy with American Railway Union Expressed at People's Party Rally.

CRIES OF "READY" TO QUIT" IF CALLED

Cleveland Denounced for Invading Ellinois with Federal Troops-Third Party Doctrine Expounded by Dr. Abbott and Sline Robbins.

Third partyism was on top last night, and, as a result, Washington hall was comfortably filled with men and women, who turned out to hear populist doctrine from Dr. Abbott of Frement. The meeting was called to order by H. M.

Pichenor of the city central committee.

Referring briefly to the labor troubles, he ntroduced Dr. Abbott, who talked for an hour upon political questions of the times. The populist party was described as the real party of the people. The speaker pointed to the platform as evidence that the new party would not tolerate religious prejudices, as the religious fight was raised for no other purpose but to detract the attention of the

voters from the real issues before the people and let the usurers and grasping monopolies further extort from the bread winners. The populists desired that the tariff be so adjusted that not one cent would be collected from the people except what is needed for the government, economically and judiciously The new party was a protest against the convictions now prevalent and demanded that the capitalists be compelled to arbi-

trate their troubles with the working people In a brief reference to the French revolu-tion he pictured what might occur in the United States unless the men in power should fully grasp the situation and change the condition now before it was too late. The government was now directed by large corporations, instead of friends of the per ple, and until there was a change the pres-ent condition would continue to exist. The only relief that could come would have to come through good and wholesome laws enacted by the people's representatives, and he could see no way to get good law makers unless they were elected as members of the people's party. If placed in power they would enact laws for arbitration so that such strikes as are now going on could not occur. The mints of the United States would be opened to silver the same as gold and the miners would thereby be put to work. The men so put to work would buy from the manufacturers, which would star the wheels moving and give needed employ ment to factory labor. The governmen would then be the protector of the people as well as the protector of property.

evening. The arrangements committee is now busily engaged in perfecting all the de-The populists had not taken any particular stand upon the tariff question, but he was tails for the outing.

The last picnic of the month will be held certain that free raw materials would be great benefit to the people. He dealt in a sarcastic way with the past old party legislatures that had elected United States senators to represent Nebraska, and declared that the people had no show whatever with the corporations. well attended and enjoyable to all its members and friends. CHEERS FOR SENATOR ALLEN.

He was proud of the action of populis legislators, who, with the help of democrats had elected Senator Allen, a true representa-tive of the people. At the mention of Sen itor Allen's name the audience gave round after round of appliance. His reference to the per capita circulation theory was also roundly applauded. John Sherman, he said, was opposed to the per capita of \$50, and John Sherman had acquired a fortune of \$15,000,000 working for the government at \$5,000 per year. The theory that the United States should have an international mone-tary agreement was denounced as un-patriotic and unreasonable, and as supported by none except the misguided or cun-ning who know not what they do. The speaker could see great danger to the country from the wicked acts of the people's misrepresentatives, and made an earnest plea to the audience to work and vote for the populist party to save the country from the calami ties now confronting it. The question of the perpetuation of a republican form of government was one of the burning questions of this day, as well as days past. The government was one tied and the same the perpendicular of the perpendicular this day, as well as days past. The govern-ment was on trial and it was the people's duty as good citizens to come to the rescue. The state of Nebraska, he declared, is now greatly in need of good, honest state officers, such as the convention will nominate at Grand Island on August 24 next, and if the voters would sanction the action of the Grand Island convention the books of the state would be opened and the taxpayers could then see what had become of the money they had been paying to the state. practicing regularly on shooting days for a tournament by the local society. The date for this has not been fixed, but mem-The populists would make a hard campaign and men with a righteous cause knew no such word as fail. When Dr. Abbot conbers say that it will probably be held either in August or September of this cluded the audience cheered and showed their

approval of his address throughout. "READY TO QUIT." Mr. Tichenor then announced the latest news from Chicago and declared that if Debs should call out the workers all over the country the Omaha men should not be found in the rear. This declaration was cheered for several minutes and several voices shouted, "We are ready to quit." After the crowd settled down again the chairman in-troduced Mr. Silas Robbins, who talked about twenty minutes upon the questions advocated by the people's party. Mr. Robbins denounced the advocates of an interna-tional monetary agreement as being insin-cere and said that all lovers of peace and cere and said that all lovers of peace good government should join the populists in their effort to provide a sufficient supply the could see great need of a of money. He could see great need of a party such as the people's party is, and had confidence that if the party was placed in power it would live up to its pledges, as

it had done so far in Nebraska. In this connection he said that when the party elected the Nebraska legislature it passed the Australian ballot law in accordpassed the Australian ballot law in accordance with the party pledges, which was a more wholesome law than had been passed by the republicans for years. The populists also passed a law regarding the deposits of state moneys which the republican state officials refused to obey. This law was calculated to save the taxpayers of Nebraska thousands of dollars every year. The state school fund would increase under this law and would some day be a monument to people's party legislation. The speaker closed amid applause, making an earnest appeal to the voters to stand by the people's party. The following resolution was then passed

unanimously: Resolved, That we, citizens of Omaha, as sembled on the 7th day of July, 1894, do emphatically condema the autocratic action of the president of the United States in prostituting the rights of the states of this union by invading them with United States soldiers in a time of peace.

Resolved, That this meeting extends its most hearty sympathy to the railroad strikers now endeavoring to obtain justice, and upholds them in the lawful behavior they have maintained in the pressure of tyranny and outrages.

Courtland Beach is the place to go to enjoy Business Faitures. For the six months ending with the first

day of July there were 102 business failures in Nebraska, according to Bradstreet's. Dur-

ing the corresponding period in 1893 the

number was 122. In the matter of liabili-

ties there has been a great change, the figures for 1893 being \$2,988,405, as against Admision 19c; cl \$1,218,125 for 1894. This would go to show Courtland Beach.

was needless, had either Pullman considered arbitration or the railroad managers discontinued using Pullman cars. I understand that it will be argued that to discontinue them would be to submit to dictation. Even this would be better than a strike so disastrous and far-reaching as the present. I also know it is claimed that the general managers are acting for the sake of a principle. This may be true, but who can recall in the history of all the dealings between the public and railways an instance where the railway managements gave any evidence of an inspiring principle?

My way of avoiding the strike would

URGES ALL CHURCHES TO JOIN THE ROMAN

Plea for Unity Made by the Pontiff-Relations of Church and State Discussed-Denunciation of the Masonie Order.

NEW YORK, July 7 .- A special from Balimore says the encyclical of Pope Leo XIII. has been received at the archepiscopal resifence, and by the courtesy of Cardinal Gibsons a careful English translation of the Latin text has been prepared. The encyclical Eight western states report only 1,455 failures in six months of this year, against 1,633 last, a decrease of 178, accounted for is addressed to the people of the United States and paragraphs from it are as fol-"It is with the same burning charity that

we now turn toward those people who, in a nore recent age, under influence of exceptional convulsions, temporal and material left the bosom of the Roman church. Forgetful of past vicissitudes, let them raise their spirit above human things and consider the church founded by Jesus Christ. If they will but compare their own churches with this church and see to what a pass religion has come with them they will admit readily that, having forgotten the primitive traditions in several important points, the ebb and flow has made them slip into new things, and they will not deny that of the truths which the authors of these new things had taken with them when they seconded hardly any certain formula remains."

In regard to the church's relations to the state, the encyclical says: "This liberty however, need not arouse rivalries and ar tagonisms, for the church aspires to no power and obeys no ambition. What it destres chieffy to preserve among men is the practice of virtue, and by this means insure their eternal salvation. And so it uses co lescension and material processes. than this, having regard to the requirements of all societies, it sometimes waives the exercise of its own rights, as has been shown

"And if now we can consider what is hap-pening in our time, what tendency do we see by many of the churches? Supreme disdain, by many of the churches? Supreme disdain, hatred, and, what is worse, no efforts are spared to bring it under the yoke of the civil authority. Its property is confacated and its libertles narrowed, its education of the aspirants to the priesthood is hampered. Religious societies are dissolved or forbidden. In start we wiscons den. In short, we witness a revival of all the regalist methods. This is a vacation of the rights of the church. It is preparing lamentable catastrophes for society, for it is the open contradiction of the plans of God. The state has its own rights and duties; the church has hers. Between them should be bonds of strictest concord. So would surely be suppressed the unrest visible in the re-

lations of the church and state.

"Another grave peril to unity is the Masonic sect, a formidable power which has long oppressed all nations and especially Catholic nations. May God, so rich in May God, so rich In mercy; God, who holds in his power the times and the propitious hours, in his infinite goodness, grant our prayer and hasten the promise of Jesus Christ, 'There shall be one fold and one shepherd.' My way of avoiding the strike would have been similar to that adopted by the United States authorities in the Virginius affair, they having sunk the Virginius at sea in order to avoid a war with Spain. Thus might the railway managers have treated the Pullman cars. It would have been economy, and have well served their patrons and the public, and have done themselves honor and made a reputation for strategy and diplomacy scarce equaled.
