A good crowd assembled at the Charles Street park yesterday afternoon. wanted to see the Rourkes do the Saints. But they were disappointed. St. Joe did

the Rourkes. Boxendale pitched. That is the whole

story in a nutshell. They hit him for twenty-two safes and forty bases, and when he got down town Manager Rourke gave him a ticket of leave. Jack Munyun also drew a prize, and Boyle will hereafter play second.

Both of Omaha's new men played, Hutchlson and Langsford, but did nothing requiring special mention. I will wait until they play several games before presuming to pass judgment. The release of Boxendale and Munyun neans that we are to have good ball or

thow the reason why. The same teams meet again this afternoon and Whitehill will be in the box for the box for the Here's to Alec.

DROPPED HIS SPADE QUICK

Colored Man While Making an Excavation Discoversia Human Skeleton.

UNDER THE DODGE STREET SCHOOL

Reasons Why Certain Parties Believe that a

Murder Was Committed-Doctor Thinks Bones Were Those of a Negro -Turned Over to Coroner.

Evidences of what may have been a murder were brought to light by a workman who was making an excavation at the Dodge street school at Dodge and Eleventh streets yesterday afternoon. The superintendent of school buildings is

remodeling this school, and yesterday he set a laborer at work to enlarge the coal cellar. A hole was made near the northeast corner of the building through the stone foundation and a colored man was put at work digging away the dirt. He had not made much progress until his shovel struck something round and hard, which he supposed was a stone. He grabbed hold of the object and turned around to throw it out at the opening. This movement let the light into the place, and with a frightened exclamation the man dropped the object and excitedly called for the foreman of the work The object which he had picked up was a man's skull, and the laborer turned several degrees lighter in color before he could get out of the place. The whole skeleton was exhumed. It is almost certain that the man had been buried in this place for five or six and maybe more years. The bones were in a good state of preservation and a small straw hat was lying near where the head of the skeleton was.

A surgeon who examined the bones said he was of the opinion that the remains were those of a middle aged man of medium height. He was not certain whether the owner of the bones had been white or black, but was somewhat inclined to the latter be lief, as the bones of the skull were quite thick and the forehead receded noticeably.

As the skeleton was surrounded by a two foot foundation wall it would have been noticed when the excavation was made for the foundations had it been there at that time. It seems most at that time. It seems most likely that the body was dragged in under the building by some one interested in con-cealing it and then it was rolled up close to the wall and covered with earth. is a space of about two and one-half feet between the floor of the school and the earth, so that a person would have to get on his hands and knees to crawl under. The outh end of the basement is used as a oiler room and there is a small door leading into the place where the body was found

Another entrance could have been effected under the steps leading to the north entrance. Up to about a year ago these steps were open so that any one could have crawled under. There is a passage large enough to admit a large sized man under these steps, and it would be an easy matter to get to where the body was located. The air under the building is remarkably dry, and it is thought that a corpse would not decompose rapidly if lightly covered with People who viewed the bones were of the pinion that a murder had been committed

and the victim had been disposed of in the above manner. An old resident living near the school house stated to a reporter that nine years ago a ranchman named Jack Wilson came to Omaha with a roll of money and determined to have a good time. He lived in a riotous manner for a few days and then suddenly disappeared, never hav-ing been heard of since. At the time he disappeared he was supposed to have plenty of money, and foul play was suspected at the time, although no investigation was made, The bones have been turned over to the coroner and he will bury them at once, there being no clew to their identity or the manner in which they came to be buried under the school house.

DUMPS ARE ESTABLISHED.

Board of Health Obeys the Court-Foot of Poppleton and Boulevard Avenues. Judge Ferguson's order to the Board of Health to establish a dump for the city garbage collectors caused that body yesterday to forget personal bickerings long enough to comply with the order. It established two dumps, one at the foot of Poppleton avenue and other on Boulevard avenue east of Blake street. One of these dumps is the one which was used by the stock yards company last summer and which caused so much complaint from the resients of Gibson.

With the exception of the city engineer all of the members of the board were pres-ent when Mayor Bemis called them to order. He announced that the meeting was for the purpose of establishing a dump under the orders of the district court. Plumbing Inspector Duncan took occasion to remark that he thought the judge had been misin-formed as to the facts in this case, or he would not have issued an order intending to place the board in contempt if it did not immediately comply with the provisions of the order. He further intimated that Health Commissioner Saville had pushed himself to the front to get to tell his side of the case to the court because the board did not agree with him in the matter under discussion. Dr. Saville denied this state-ment, and said that he was duly summoned into court and that he made only a state-ment of facts which could be proved. Dunment of facts which could be proved. Dun-can called for an opinion from the city at-torney, who was sent for. Mr. Conneil gave it as his opinion that Judge Ferguson ex-ceeded his authority in directing where the Board of Health had to establish a public dumping ground, but he thought that the members of the board would exhibit great good judgment in strictly observing the

order of the court, or they might land in the county bastile for contempt. A petition was received from some of the garbage men, signed by most of the residents and property owners, requesting that a dump be established at the junction of Poppleton avenue and the Missouri river. The petitioners explained that they had leased several lots along the river front in that locality and would erect a chute for night soil and a dump for general garbage. The petition was placed on file. Commissioner Saville then made a motion that the board establish a garbage dump at the foot of Poppleton avenue on such lots as may be secured for that purpose by the garbage men. Inspector Duncan moved to amend Saville's motion by establishing an additional dump at the foot of Boulevard avenue, formerly known as Calhoun street, at a point east of Blake, and both propositions were passed. Bruner, Duncan and McAndrews voted in the affirmative under protest against the order of the court and Seavey did not qualify his position. Bemis and Saville voted in the negative.

Imflammatory Rheumatism Cured. OMAHA, Neb., June 28, 1894.—Having been afflicted with inflammatory rheumatism for a number of years so that I could scarcely a number of years so that I could scarcely walk and after trying all sorts of remedies and many doctors, which proved fruitless, I began taking Hood's Sarsaparilla. After taking five bottles I am strong and hearty and able to work. Too much praise cannot be given for the work of Hood's Sarsaparilla in curing the afflicted. parilla in curing the afflicted.

PARIS MENIER LONDON 59 Wabash Av., Chlengo-S6 W. Broadway, N. Y-A Heppelwhite Seat.

It seems sometimes a little hard to se-Fashion condemn your existing furniture before it is half worn out, yet it is the common lot of all-the price one pays for his pleasure-and, as Terrence observes, "HUMANI A SE NIHIL ALIENUM PU-TET.

The chair here shown is an adaptation of one of Heppelwhite's most famous frames.

It is not a large seat, but it is so cleverly shaped to the body that it ranks all the giants of comfort. The back is high, and the sides are brought forward to provide comfortable reclining cushions for the shoulders. The arms are cushioned, and the seat is wide and deep.

When you find such a chair as this it is worth an effort to own it. We have today the largest and newest stock of furniture in Omaha, and prices unquestionably the lowest.

WEATHER APPAREL.

To keep cool these days is quite a task-There are various ways to keep cool, though--Drink-for instance-two quarts of ice water every half hour-wrap in pure flannels and lie down in the shade for 24 hours-Another way, a quart of ice cream every 15 minutes, devour it rapidly, prop It up with 2-oz. of medicated cotton and bathe your feet in mustard-Still another, plunge headlong into a stream, swim thirteen times against the tide, take 1-oz. of quinine and cover with six feet of sand-But The Nebraska's recipe is cool, light and comfortable clothing--'Tis not only the wisest way but the cheapest.

Cheapest-to be sure-We'll furnish you with a black sateen coat for 65c-of course Alpaceas are a deal lighter. Well, you may have a good Alpacea coat for 75c a finer for \$1.25, and the very best at \$2.00-Extra long 'uns are \$1.75.

Now we have Mohairs at \$2.25 that'll cost you elsewhere \$4.00 at least. Blue and black flannels at \$1.75 and a lot of other shades --

There is a sensible way to replenish your suit-buy a coat and vest--we offer a large selection--in serges-alpaceas -- flannels -- cashmeres -- Drap D' Ete -- Bedfords --- and other new things at prices --- well --- leave it to the reputation of your standby the -- Old -- Nebraska ---
