BASED ON SLIGHT EVIDENCE

Charges of Mismanagement in the Lincoln Insane Asylum Not Sustained.

CONSIDERABLE TESTIMONY INTRODUCED

Indications that Patient Montgomery Was Treated in the Usual Manner and Given All the Attention of the Institution Afforded.

LINCOLN, July 13.—(Special to The Bee.) Up to the present time the investigation into the charges made by a local paper of mistreatment of a patient, Eugene Montgomery, while at the insane asylum, has developed nothing at all startling. The charges made by the paper were that Montgomery was visited by relatives at the state hospital a short time after being sent there and found to be covered with welts and bruises, the result of brutality on the part of the guards, and after being removed from the institution immediately began to improve. An investigation was begun yesterday and is still going on. The greater portion of the testimony against the management of the asylum has been furnished by J. A. Buckstaff, a relative of the patient, and a physician who attended him after his removal to a local institution. So far the inference to be drawn from the testimony introduced is that the bruises and sores found on the unfortunate man were "red areas" resulting from a prolonged confinement in bed.

Attendants, nurses and others from the hospital who have been summoned to testify to the conduct of the institution have stated that on two instances since Dr. Hay has been in charge employees have been discharged for ill treatment of patients, but that otherwise they had heard of no complaint of mismanagement. All the wards and rooms, it was explained, were regularly visited and inspected by the superintendent, Dr. Tucker, the physician who had charge of the patient after his removal from the hospital, stated that the bruises found on the patient's person were the result of violent treatment at the insane asylum.

The members of the board present at the investigation are: Attorney General Hastings, Commissioner Humphreys, Secretary of State Allen, and Governor Crouse, and all take part in the cross-examination of the witnesses.

The last witness examined was the reporter who wrote the article which gave rise to the investigation. The information upon which he had based his article, he said, was hearsay, and had come principally from J. A. Buckstaff, the brother-in-law of Montgomery.

Chancellor Cuffels has been unanimously elected by the board of trustees of the Ohio university to the position of president of the university of this state.

Burlington Brakeman Killed.
M'COOK, Neb., July 13.—(Special Telegram to The Bee.)—Frank Crandall, a brakeman running out of this city, was killed today near Bloomington, Neb. It is supposed that he fell from the top of the train and was crushed before the accident was discovered. As soon as the accident was known the road sent a special, with his mother, who lives here, but he was dead before she arrived.

Assures Good Corn Crops.
PLAINVIEW, Neb., July 13.—(Special Telegram to The Bee.)—A bonifant rain commenced falling at 4 o'clock this morning and continued until 9 o'clock, which assures a large corn crop, and farmers and business men are correspondingly happy.

ATTRACTION A LARGE CROWD

Fremont's Interesting Chautauqua Entertaining Many Visitors Daily.

FREMONT, July 13.—(Special to The Bee.)—Despite the threatening weather a large attendance was at the Chautauqua at an early hour this morning to secure desirable seats to hear Dean Wright, the able teacher, preacher and platform speaker, at 11 o'clock in his lecture, entitled "Inspirations of the Scripture." Previous to that hour a spirited meeting was held by the itinerants' club. At 2 o'clock a well worked address was delivered by J. A. Ehrhart, and at 3 o'clock Dean Wright again took the platform, and taught the people "How Wide is an Inch," which was the subject of his lecture.

In the evening the Robertson and Ransom combination were entertaining with unique and charming music at tambora and string bells by Robertson, and dazing feats of necromancy by Ransom. Among those who addressed the Sunday school yesterday was Attorney W. A. Williams of Omaha, who amused and entertained with the subject of "A Real Boy."

The Methodist church of Ames, with an attendance of forty-five scholars, won the country banner, and the First Methodist Episcopal church of Fremont was in the field with 157 scholars, taking the Fremont banner, with the Presbyterian school a close contestant. On Wednesday of next week occurs the contest for the Chautauqua bicycle cup, won last year by Frank Ellick.

Plattsmouth Boy Drowned.

PLATTSMOUTH, Neb., July 13.—(Special Telegram to The Bee.)—Alfred Anthony, a 19-year-old boy, was drowned in the Missouri river just below this city last evening while bathing. Searchers recovered the body with a seine. A peculiar incident connected with the affair was that when the body was brought to the surface the dead boy had a large can filled with mud tightly clasped in his hands.

Indian Rentals Paid.

DECATUR, Neb., July 13.—(Special to The Bee.)—There was a payment made to the Omaha Indians at their agency, ten miles north of here, yesterday. The total sum paid to them was \$8,000, per individual, \$5.30. This money is from the rental

AT THE HOT SPRINGS MEETING.

HOT SPRINGS, S. D., July 13.—(Special to The Bee.)—After the party of Chautauquans returned from the expedition to the Wind cave they helped make up the large audience which greeted Rev. Frank Crane of Omaha. He delivered his interrogative lecture on "What Will You Do With It?" It was a popular address and caught the audience. The lecture was listened to by the largest audience of the session. He commenced his lecture by asking his hearers what they would do with \$1,000,000 if they had it.

Another feature of the day's program was the concert, in which the vocal solos of Mr. E. B. Hare of Minneapolis and Miss Bullock of Deadwood, and the piano solos of Miss Caldwell of Chicago, were much enjoyed.

Chancellor Hancher will deliver his lecture on "Our Daughters" tomorrow night.

OTSE COUNTY TEACHERS MEET.

OTSE COUNTY, Neb., July 13.—(Special to The Bee.)—Over 150 teachers are attending the Otse County institute, now in session at this place. Prof. Elwanger, county superintendent, has selected the following corps of instructors: Prof. Skinnel, superintendent of the Nebraska city schools; Prof. Caviness, principal of the Syracuse public schools; and Prof. St. Clair of Nebraska city. Prof. Saylor of the Lincoln Normal school delivered a lecture to the teachers Wednesday evening at the Methodist church, and this evening Chancellor Crook of the Wesleyan university lectures at the Congregational church. Superintendent Skinner will probably deliver a lecture before the institute closes.

WALLACE NEARLY FATALLY FIRED.

WALLACE, Neb., July 13.—(Special Telegram to The Bee.)—Mrs. John Bonesteel, living five miles east of this place, was so badly burned last night by accidentally overturning a lamp that she died at 10 o'clock this morning. Her husband threw a quilt around her and carried her out doors, and supported her until she was returned to the house to extinguish the flames. When he returned to her he found her on fire again. Mr. Bonesteel was badly burned, but not dangerously.

W. C. T. U. Convention Closed.

WAYNE, Neb., July 13.—(Special Telegram to The Bee.)—The seventh district Woman's Christian Temperance union convention in this city closed last night after an address by Mrs. C. M. Woodward of Seward lasting three hours. Her remarks were devoted chiefly to the interest of the populist party.

Elected the Mayor.

NEBRASKA CITY, July 13.—(Special Telegram to The Bee.)—The Salvation army paraded the streets tonight, beating drums and laboring in the spirit of the mayor's order to the contrary, and they were not interfered with.

DUN'S AND BRADSTREET'S

Under the Circumstances the Business of the Country Has Shown Amazing Vitality.

DECLINE OF VALUES UNEXPECTEDLY SMALL

Failures for the Week Were Mainly Unimportant and Liabilities Small—Mail Orders Small but Have Increased in Number.

NEW YORK, July 13.—R. G. Dun & Co.'s weekly review of trade tomorrow will say: When circumstances are duly weighed the strength and soundness of business in this country during the past two weeks are amazing. With the second city in the country in the hands of a lawless and murderous mob, besides many other cities and towns; with railway traffic almost entirely stopped over the vast area between Toledo and the Pacific; with presidential proclamations declaring the existence of an insurrection, and the passionate answer ordering 50,000 men to stop work; with a prolonged strike of miners not fully ended in many states, and with differences between the house and senate on the tariff bill, practically no noteworthy movement at Pittsburgh. All western business reports are of a pessimistic nature, but that it will be some time before anything like a complete restoration of conditions to a normal state can be attained. Toronto reports trade quiet; farmers throughout Ontario are not so much depressed as in the case of cattle is higher. Fall orders for dry goods at Montreal have improved somewhat, but other staple lines are dull. Crop prospects in Quebec are reported good. There are thirty-four business failures reported since the beginning of the year, against thirty-nine last week, twenty-six in the same week a year ago, and twenty-four in the same week two years ago.

BRADSTREET'S FINANCIAL REVIEW.

Termination of the Strike Has Caused a Stiffening in Values.

NEW YORK, July 13.—Bradstreet's financial review tomorrow will say: The reaction offered by the market to the influence of the strike has been of a noteworthy character. It was shown again at the beginning of the week, and when the market for the first time has been practically restored, it could no longer be doubted that the violent interruption of railroad traffic had been principally ended. The upward movement, based on the covering of shorts. The rise, however, was not supported by the outflow of European buying and was neither very extensive nor long in its duration.

The market, though steady and firm in the latter part of the week, has been characterized by professional trading and general speculative inactivity. The termination of the strike has, in fact, brought the market back to a state of waiting for the outcome of the tariff in congress, and the uncertainty of the tariff has been increased by the uncertainty of the action of the congressional committee of the two houses.

The market has indicated the disadvantageous conditions under which the railroads have labored. The tabulation of gross earnings for June and the six months exhibit the force of these circumstances in the average decrease of 22 per cent. in the earnings for June and for the six months of the half year. In the past fortnight railroads have been suffering further interruption in all directions, it being a significant fact that the earnings for the first six months of the year have been 25 per cent. below the corresponding figures of last year.

BRADSTREET'S TRADE REVIEW.

Great Railroad Strike Has Almost Paralyzed All Kinds of Trade.

NEW YORK, July 13.—Bradstreet's review of the state of trade tomorrow will say: During the greater portion of the week general wholesale business at Chicago and at centers within the territory tributary has been practically paralyzed by the railway strike. Larger eastern cities have followed the lead of the St. Paul, and though mail delays keep back some western orders, the number of failures during the past week have been 25 against 20 last year.

IRON TRADE REVIEW.

Strike Has Had an Unusually Depressing Effect on This Branch of Industry.

CLEVELAND, July 13.—The Iron Trade Review this week says: For the time being the iron trade is in a state of suspended animation. The Chicago colliery against railroad traffic and the almost complete paralysis of transportation in certain sections of the country have made production impossible to many manufacturers, and buying and selling are at a low ebb meantime. Today the indications are that the tie-up has done its worst and that traffic will be of increasing volume from this time on. The effect of the tariff suspension of business have been about evenly distributed through the various departments of iron production, furnace operations having not been wrenched out of relation to the rest. While strikers have restricted iron ore production, furnace operations have been kept down by scarcity of fuel, and troubles that originate in impurities of the coal to run with or from getting their product to the consumer.

Nothing Strange.
Intelligent people, who realize the important part the blood holds in keeping the body in a normal condition, find nothing strange in the number of diseases that Hood's Sarsaparilla is able to cure. So many troubles result from impure blood that the best way to treat them is through the blood, and it is far better to use only harmless vegetable compounds than to dose to excess with quinine, calomel and other drugs. By treating the blood with Hood's Sarsaparilla, scrofula, salt rheum and what are commonly called "humors," dyspepsia, catarrh, rheumatism, neuralgia, consumption and other troubles that originate in impurities of the blood or impaired circulation, can all be cured.

CONDEMNED MEAT.

Dr. Salmon Says Morton's New Order Is Well Warranted.

WASHINGTON, July 13.—Dr. D. E. Salmon, chief of the bureau of animal industry of the Agricultural department, has returned to the city from an investigation of the operations of the meat inspection law which included the slaughter houses at Chicago, Milwaukee and Nebraska City. He reports that the new order of Secretary Morton requiring condemnments must be promptly deposited in the fertilizing tank is working satisfactorily. This order was the outcome of complaints that had reached the department that meat condemned as unfit for use was frequently found on sale for consumption. The government inspector who condemns meat is now required to remain at the slaughter house until it is dumped into the tank and not allow it to be temporarily deposited in a cooling house or other place.
