CHICAGO, July 13 .- Damage to spring wheat by the recent excessive heat in the northwest was the cause of an early gain of Me in the price here. The expectation that with the railroads again running regularly a heavy movement hither of the winter wheat was inevitable, and that, seeing it could not be delivered upon speculative contracts, it would necessarily be sold at its Yesterday's Quotations on Flour, Grain and shipping value, caused weakness toward the end, the close being the below the previous day's resting price. A bulge in corn had some influence giving wheat its initial up-1n ward impetus, and some rumors early of the strike having been de-clared off by the strikers helped to keep it steady for an hour or more. A prominent trader unloaded 100,000 bu, and 200,000 bu. ots, which induced a great number of small holders to unload, the effect of which was to force the price down, and the close was within 16c of the bottom for the day. Corn started under some excitement and

at from %c to %c improvement in the price of the active option-September. The best prices of the day, however, were realized at the start. There did not appear to be any second line of timid shorts to take the place of the first after the latter discharged with July unchanged, September down %c

with July obtained higher. There was a light trade in oats. The market was stronger and prices advanced from ide to ide early, but later reacted in sympathy with wheat, and closed easy at the bottom and from 14c to 34c below the top, at about the same price as yesterday. Provisions were again dull. Hog receipts

were considerably heavier and their price was from 5c to 10c lower. There were more cash sales of lard reported than for some time previous. Swift and company were free mellers of ribs. STOCKS AND BONDS.

Share Speculation Opened Firm and Wa Strong Early. NEW YORK, July 13 .- The share specula tion opened firm and was strong during th morning and early afternoon. The marks began to be unsettled soon after midda and a small part of the list sagged off, sul sequently rallying, with a slight reaction after delivery hour. The final dealing were, however, in good tone, and the marke closed strong, prices showing a very general advance from 14 to 2 per cent. It was pretty nearly taken for granted at the oper ing of business that the collapse of th strike was near at hand, and when the ar nouncement reached the street that Pres dent Debs had officially declared the strik dent bebs had omcially declared the strik off the news merely served to hurry th shorts to cover more quickly. The usual di counting process had been done by th street, but the buying became more cond dent, and holders of stock were less anxiou

to part with their securities except at a vances, and in this way the actual endir of the strike helped prices to reach a high-98%, closing at a recovery of % per cent and 1% per cent higher on the day. In the afternoon Washington advices were received stating that the conferees of the house on the tariff bill favored decreasing the spirits tax from \$1.10 to \$1 and the bonded period. The Whisky people have been basing their calculations on the senate bill going through, so far as regards the spirit tax. There was a rush to sell on the unfavorable news, and a decline of 2% per cent from the high figure of the morning was quickly effected, with a final recovery of % per cent, making the loss from yesterday's closing 1% per cent. The bond market was fairly active and generally

with actual business in bankers' bills at \$4.834 for domand and \$4.579 for 60 days; posted rates, \$4.8944.0; commercial bills, \$4.894, BILVER CERTIF BAARS, 560765 GOVERNMENT FRONDS-Strong, State bonds dot

The Evening Post says: A quiet buying movement, neither large in volume nor sen up today. It was chiefly made up, no doubt, from disappointed speculators for the decline The Post's London cable says: The stock

markets are improving, particularly for Americans, which closed at the best. South American stocks were also better. No improvement or general sharp rise is pated, but Americans have, it is thought here, probably seen their worst prices, and a steady advance in them will affect all the markets. Silver was extremely weak today. India cannot buy. China only buys, and ery little. The following were the closing quotations

I had been troubled with chronic diarrhoea for over a year when I received a small botle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used and it gave me great relief. I then procured a 50-cent bottle and took about two-thirds of it, and was cured. I have taken some twice since when I had a loosness come on and it stopped it at once. I hope it will help others as it helped me. I feel very thankful to Mr. Stearns, the druggist, for telling me of this remedy and shall be glad to have this letter published. S. C. New, collector of internal revenue for this district, is arranging for a hunting trip in Colorado for President Cleveland, Attorney General Olney, Secretary of War Lamont, Senator o'clock p. Gorman, Collector of Internal Revenue Miller, Chairman Harrity and other distinguished

men. General New says President Cleveland is anxious to kill a bear. The locality that will be selected for the bunt will probably be the mountains around

Glenwood Springs. General New will go to Washington next week, and hopes to complete all arrangements for the hunting trip at that time.
