CONDITION OF OMAHA'S TRADE

Jobbers Report a Very Light Movement of Goods in All Lines.

COLLECTIONS GOOD IN THE COUNTRY

Crop Damage Reports from All Parts of the State Tend to Make Business in the Jobbing Line Very Dull-The Produce Trade.

The past week has been very unsatisfactory to the business men, irrespective of the line of business or location in the state. The crop damage reports have been so numerous from all sections of the territory tributary to this market, and have all contained virtually the same statement of facts, that business men have become thoroughly alarmed. Country merchants have been doing very little buying and say that they will wait until it rains before placing any orders of importance. In the meanwhile they are buying goods just as they are needed from week to week. This gives the jobbing houses a good many mall orders which keep the men employed, but do not

foot up in the aggregate to any great sum. The jobbers are following the same policy as the retail merchants, they are waiting for rain before laying in any very large stocks of goods for future trade. Several houses are known to have buyers in the east who are waiting for orders from head-quarters before making any move. Their future action depends largely upon whether it rains in the course of the next few days. The jobbers in other cities appear to be following the same policy, as the New York papers claim that that city is full of buyers who are looking around and taking it easy, but not buying anything to speak of.
The feeling among the jobbers appears to

be that the next few days will settle the fu-ture of trade in this section of the country. While there is no doubt much cause fo slarm, a business man observes that there is nothing to be gained by looking upon the dark side of the question and predicting that the worst is about to happen. It is a well known fact that the first reports erop damage are always over estimated. All places where there has been damage are noted and the facts made known to the public, while sections where there has been no damage to speak of are overlooked. Then, too, the amount of damage that any certain erop in any locality may have suffered is always exaggerated. Thus it was said that the oat and wheat crop was a complete fall-ure, and the farmers plowed up a good deal of it. Wherever they were too busy to plow up these crops there has been quite a yield and most all the reports from the country express surprise at these crops being so much better than was expected. While the corn has curied up in many sections of the state, and while most farmers are ready to say that it is past help and will be a total failure, a rain in the next few days would change the prospect very materially. Grain buyers say that even after the corn has withered and curied up so that an inexperi-enced man would say that it was past help, a little rain will cause it to revive and make a

dry weather, as the drouth is widespread and affects a good many large cities besides Omaha. At St. Joseph it is claimed that a good many of the traveling men are in the city and will not start out again until there rain, as they claim that the merchants in their territory will not buy goods while there is so much uncertainty as to the fu-ture condition of trade.

Collections in the country are generally good, due, apparently, to the fact that the farmers have been selling a good deal of live stock and have not been using their money to buy as many feeding cattle as usual. The receipts of hogs have been un-usually large all the past week, the heavies being on Saturday, when all previous records were broken. This rapid marketing would seem to indicate that the farmers and stock men of the country are anticipating a short age of feed and are unloading their stock as rapidly as possible. A good many stock cattle are being sold, as there is a shortage of grass and hay, and the farmers are buytunately, beef cattle are bringing a very fair price, while hogs are high, and what the farmers have for sale is bringing good prices. FINANCIAL.

While Omaha still shows a decrease in the matter of clearings, as compared with a year ago, her clearings compare very favorably with other cities in this section of the country. The decrease of 7 per cent is less than the average decrease for the whole country. which amounts to 13 per cent. The following Omaha and other western cities:

Omaha\$4,315,317
Minneapolis 4.24.73
St. Paul 3,185,785
Milwaukee
Duluth 2,421,416
St. Joseph 1,370,117
Denver 2,295,744
Bloux City 498,872
It will be noted that Omaha leads all the
litles mentioned.

During the past week the national banks have published statements of the condition of business, in pursuance of the call issued by the comptroller of the currency. A careful tramination of these statements would bring out some interesting facts as to the effects of the depression of the past year on the banking business. A week ago it was stated in these columns that there was plenty of money to be had, and that it was only a question of security. The banks were represented as anxious to loan money. This is accounted for by the fact that while there has been an increase in the deposits of the banks, there has been a falling off in the loans and discounts, owing to the lighter demand for money consequent upon the stag-

nation in business.

Toward the close of 1890 the loans and dis counts amounted to over \$12,000,000. In July 1891, it dropped below the \$12,000.000 mark and there has been a steady shrinkage ever since, as shown by the bank statements made at about this season of the year. The following will show the figures for five years past, taken from the statements for the months indicated: LOANS AND DISCOUNTS.

July, 1894\$ 9.469,536.24
July, 1893
March 1892 10,652,304.74
July, 1891
December, 1890 12,526,842.14
In the matter of deposits there has been a decided increase over July of last year, when
the money panic induced many timid people
to draw their funds out of the banks and
put them in the safety deposit vaults. The
following will show the total deposits of
the national banks of Omaha, according to
the statements made at the time indicated:
DEPOSITS.

		A 40	*****	STATE OF	A Willes			

There is a Bright Side to the General Cloud that Now Obscures the Sky. Mr. W. H. Roberson, local manager of R

G. Dun & Co.'s mercantile agency in this city, speaking of local trade, says: "I might make a very blue talk if I were so disposed this week, for the fact is that everything has seemingly gone wrong for the last seven days. Crops have suffered the last seven days. Crops have suffered terribly and a full-grown scare is on among all classes. A grain firm at Hastings estimates that every day without rain in that section is cutting off 100 carloads of grain, and opinion is general that hast Thursday cut down the prospects fully 50 per cent. "Nevertheless there is a bright side to the general darkness presented. One of our leading local houses is authority for the statement that the expenses have been reduced by 25 per cent and the sales increased 25 per cent at his establishment in the last six months, as compared with the preceding period of six months. Nearly all the wholesale dealers report an increase in the aggregate of orders, and it is known that expenses have been greatly re-

known that expenses have been greatly reduced.

"Omaha is fairly prosperous as far as wholesale business is concerned, and the season, taken altogether, does not look as bad in detail as it does in bulk. The fact that all our country merchants are buying light keeps them close to this market, and hundreds are sending orders here which formerly went to other centers.

Omaha is really in better condition than her neighbors, and can congratulate herself again over the fact that, although business is bad enough, it might be a great deal worse. The chief unpleasant feature is the fact that prospects ahead are by no means enoughaging, though it is quite possible indeed that a haif crop of corn will yield in cash foily as much as a full crop.

"It is no time to be pessimistic. The pessimist is never happy, no matter how things go. The man who has the graces of hope and confidence is the best citizen. An old citizen fell into a piace of business yesterday and was startled when the proprietor accused him of neglecting his duty. Upon inquiry he found that the 'duty' referred to was croaking. The business man said that from his observation the old citizens were devoting more time to croaking about hard times and heavy taxes than to anything else. There is too much ground for the charge, though it takes an exceedingly cheerful man to keep up his spirits in the face of so many misfortunes. The stiff upper lip and faith in the future are the only conditions which will work us out of the present commercial dilemma."

SNOW, CHURCH & CO.'S VIEWS.

Most Discouraging Week in All Aspects Has Reen Closed. Albert Andriano, local superintendent for Snow, Church & Co.'s mercantile agency,

"It is not an exaggeration to characterize the week just passed as most unsatisfactory and discoursging, both in local and general trade. A long period of dry weather, supplemented by hot winds during the few days, has worked serious and irre-deemable damage to crops in Nebraska, Iowa and adjoining states. A large number of orders coming in during the early part of the week kept jobbers at Omaha reasondeemable damage to crops in Nebraska, Iowa and adjoining states. A large number of orders coming in during the early part of the week kept jobbers at Omaha reasonably busy, but while the orders were large in number they were small in quantity and amounts. A most depressing feature of the situation is the fact that orders are so discouragingly small, and while they cause almost as much work, bring considerably less profit. During the early part of the month orders showed inclination of more liberality on the part of purchasers, brought about, no doubt, by the exceedingly favorable condition of the crops; warm weather and the drouth, however, have gradually dispelled the hopes of country merchants. There is no doubt, however, that the extent of loss to crops has been largely exaggerated, as is usual on occasions of this kind. That the crop has been largely exaggerated, as is usual on occasions of this kind. That the crop has been totally destroyed in some places and much damaged in others hardly admits of doubt, but it will be found that at many points the loss has not been near so severe as reported at this time. The acreage of corn put in in this state was unusually large this year, and even a partial failure would only bring it down to the usual mark; whereas, considerable damage would have to be done to bring it down to a fair average. There is very little consolation in the fact that in this instance Nebraska is not the only sufferer; Kansas, Iowa, and parts of Illinois are receiving their share of the bad weather.

"Carefully and conservatively reviewing the business situation, I cannot help acknowledging that affairs look very gloomy. Congress seems to be in a hopeless wrangle over the tariff question. Reports from the east indicate unsteady fluctuations in dutiable goods, manufacturers and importers are in a state of complete uncertainty as to the result of legislation, and it is not an exaggeration to say that all lines directly or indirectly affected by the tariff are in a state of complete demoralizati

First resort in the west-Courtland. CONFICT MINERS MUTINY.

Deputy Warden Nelson and One Convict Killed and Several Wounded.

NASHVILLE, July 28,-The convicts at Tracey City are in a state of mutiny, and as a result two men are dead and two others suffering from wounds. Yesterday the convicts loaded a pipe with explosives, fuse to it. Deputy Warden Nelson and assistants were passing along another entry to bring the convicts out for the night, and when they arrived opposite the bomb it exploded. Nelson was instantly killed, and Guards Terrell and Thurman slightly wounded. A negro convict named Pete wounded. A negro convict named Pete Hamilton was killed by a volley from the other guards. There were 115 convicts in the mines at the time, and all but seventy the mines at the time, and all but seventy surrendered. These remain inside and swear they will not come out. The state officials here were at once notified, and they in turn telegraphed Superintendent of Prisoners Kirk at his home in Chester county to go at

once to Tracey City. Telegrams say it will probably be necessary to send troops. Es-cape is probably the object of the mutineers. The trouble end-d today by the convicts surrendering and coming out of the mines. They were conducted to the stockide, where all the convicts are now safely guarded The free miners did not interfere in any way in the affair. Pete Hamilton, the convict who was killed yesterday, planned the mutiny as we'll as the one a year ago. When he was shot the backbone of the mutiny was broken.

WEDDED A WEALTHY VISCOUNT.

Miss Caroline Jones Married to the Viscount Benoist d'Azy of France.

NEW YORK, July 18 .- Miss Caroline ones, daughter of Nathaniel S. Jones of this city, but formerly of Chicago, was married oday to Viscount Benoist d'Azy of France. The ceremony took place in the church of St. Catherine of Genen in Harlem. Rev. Father Agnew of Chicago officiated and was assisted by Rev. Father Sluttery, rector of the church, and Rev. Pa her Evers, assissant rector. The bride was aftired in white satin with ruffling and draperies of point lace, and wore a superb tiara of dimmonds, the gift of the bridegroom, securing the folds of the long lace veil to the confure. Charles Herbert Davis was the best man and Miss Mamis Cooke of Chicago the maid of honor. The papal blessing was be "need upon the couple by Father Slattery about two weeks ago. After the ceremon, today a wedding break-fast was served at the resilence of the bride's parents in Audubon park.

This afternoon Viscount and Viscountess d'Azy will leave for the Adirondacks to stay for two weeks before salling for France. Few American girls have become the bride of such a rich young man of old family and title. The viscount's great grandfather was minister of state at France and his grandfather was president of the Chamber of Deputies when that body met in Bordeaux in 1871. Two of his custing are members. deaux in 1871. Two of his clusins are mem

The lions and leopards give two performances this afternoon at Courtland.

Dolly Got the Man of Her Choice PRINCETON, Ky., July 28.-Dolly Jones of Trigg county arranged to elope with her lover, Joseph Colton. Cassius Hicks, a rival, appointed, with a confederate carried Miss Jones to his own buggy and forcing her to enter, drove her to the house of a friend, where for ten days she was kept a prisoner. where for ten days she was kept a prisoner. Each day Hicks pleaded his cause and likewise each day Miss Jones refused him. Meantime notice was conveyed to her father, who hastened with an armed posse to release his daughter. Her captors ignominiously fled and now Miss Jones is to marry her old lover without an elopement.

Fine Fuel to Feed the Flames. WASHBURN, Wis., July 28.-The saw mill of the White River Lumber company at Mason was burned last night with forty million feet of lumber. The town was in

great danger.

An Omaha freight train with fifteen cars went through a bridge five miles south of here and all were burned. No lives were lost. lost.

The camp of the Ashland Logging company was burned. Loss, \$5,000.

The fire is now two miles south of here.
Washburn is in no danger.

Coolest ride hereabout to Courtland beach.

COMMERCIAL AND FINANCIAL

Prospective Rain in the Corn Belt Dampened the Ardor of Bulls.

WHEAT WAS RATHER QUIET ALL DAY

Corn Was Easier and Offerings Were Materially Increased-Shorts Evidently Covered Pretty Freely Friday and the Demand Was Not So Urgent.

CHICAGO, July 28 .- Prospective rain in the corn belt dampened the ardor of the bulls in corn today, and the other markets followed that grain in the easiness which resuited. There was a rally from the low figures, however, and corn and wheat finished but %c lower each. Oats closed %c lower and provisions at a slight decline.

Wheat was rather quiet all day, with fluc tuations covering narrow limits. The feeling was somewhat easier. Initial transac tions were at 521/2c for September, a 1/4c decline, but soon afterwards advanced 14c eased off another &c, remained quiet and steady and closed with September at 52%c The easier tone at the start was attributed to a prospective decline in corn, but the downward course was checked, influenced some by the increase in the clearings for the week, but offerings increased the impression prevailing that there would be a large increase in the visible as well as local stocks Monday. Liberal receipts are looked for next week, and this also had a weaken ing tendency. There was some rain in the northwest and the temperature was cooler.

Cables were lower.

Corn was easier and offerings were materfally increased, influenced altogether on the prospect for rain in the corn belt today or tomorrow. Shorts evidently covered pretty freely yesterday, and there was not so urgent a demand, commission houses all having more selling orders, and local longs were inclined to realize and take profits. In itial trades were at from 1/3c to 1/3c decline, with September at 14c, and after selling up With September at 44c, and after sening up 4c declined 4c for September and 4c for May, rallied from 5c to 5c, ruled steady and closed at 444c for September. The rally at the close was the result of moderate buying.

Oats were easier on the lack of demand.

The range for September was \(\frac{1}{2} \)c.

Provisions were very dull. Pork was steady at the start, but declined moderately later on the easiness in wheat and corn compared with last night, September pork is 1214c lower, September lard is 214c higher

and September ribs 21/2c lower. Freights, 7/2c for wheat or corn to Buffal The leading futures ranged as follows:

BOSTON, Mass., July 22.—The American Wool and Cotton Reporter says of the wool market: The sales this week have been phenomenal. The aggregate disposed of since our last review has carried the total sold-since January 1, 1894, close up to the amount set down for the first seven months of 1891. While the speculative elements of the movement, induced by the possible chances of the failure of the pending tariff bill, are sufficiently apparent, there is beneath this evident cause for the increased sales a considerable basis of demand for several kinds of wool, particularly for certain combing and clotthing wools. There has been for some time a diminished stock of worsted goods. The retail clother has utterly failed to find enough to supply his wants, and the worsted manufacturer has come to feel that he cannot wait any longer without buying wool. The movement on their part was sufficient to give added firmness to ½ and ½ bloods, which are nominally le a pound better than last week, although actual sales have not resulted in higher prices. Then, as remarked last week, the stock of wool in sight is below the average for this time of the year. It is ascertained from insurance men that there is a very small risk on the stock (taking into account the decreased value of wool) compared with last year, which indicates less wool in storage. Consignors are advising dealers to hold wool. Several houses have received telegrams from the west advising such course. The conclusion of the whole m

Chicago Fruit Quotations.

CHICAGO, July 28.—The Earl Fruit company sold California fruit at auction this morning, realizing prices as follows: Pears, Bartletts, IL66:EL89; Clapp's favorite, 31.60:EL89; Clapp's favorite, 31.60:EL89; Clapp's favorite, 31.60:EL89; Peaches, Crawford, SL46:EL89; Clapp's favorite, 31.60:El89; Crawford, SL46: prunes, Tragedy, only fair, 41.75; Gros, 31.65; iri.7a; Simoni, SL56; Chater, 31.67; dross, esg. 31.25:El.9; Washington, 31.15:El71.39; Burbank, 31.56; Satsuma, 34.65; purple Duane, \$1.75; Quackenboss, 41.75; grapes, Fontainedicau, \$1.25:El71.39. Nine car basks sold hers today.

Forter Bros. company, Chicago, sold four cars California fruit at auction today: Hartlett pears, 70c to 81.65; Tragedy pumps, 31.75; purple Duane plums, 31.80:Fl.85; Royal apricots, 25c; Early John peaches, 80 to 81.35; Royal Anne cherries, 16:22c. This fruit arrived in an over-ripe condition.

Forter Bros. company, New York, sold one car California fruit today at auction; Bartlett pears, 33.00:gc.3.c., early Crawford penches, 31.81%.

Minacapotis Wucat Market. Chicago Fruit Quotations.

Minneapolis Wheat Market. MINNEAPOLIS, July 28. Receipts of wheat were larger, being 125,000-but, with shipments of 30,000 bu. These receipts came on a weak market and the demand for truck wheat was light. The market for cash wheat chased at about 4c lower than the preceding day, and futures were also

about 4c lower. The close: July, 544c; September, 513c; December, 514c. On track: No. 1 hard, 514c; No. 1 northern, 55c, Trading for the day was at no time active. Flour was steady but dull, and sales were reported rather less than the production, which was about 2,000 bbls. Patents, \$3.5023.49; bakers, \$2.000.2.59.

STOCKS AND BONDS.

Speculation More Stagnant Than for Many Months on 'Change.

NEW YORK, July 28.-There is very little

to be said of today's stock market, which reached a point of stagnancy which a short time ago would have been considered impossible of attainment. With total sales of less than 40,000 shares, the speculation could not have been very interesting. In Sugar, which was the leader in the market, only 9,200 shares changed hands and the fluctuations were confined within a range of % per cent, the highest point touched being 103% and the lowest 102%, the closing price going % per cent below the top and a similar fraction above yesterday's closing. The grangers were slightly heavy and declined 1/4 to 3/4 per cent, St. Paul and Burlington & Quincy recovering 1/4 per cent. The group on the day shows a decline of from 1/4 to 1/2 per cent the latter northwest, the crop now being the moving influence. London was a seller of Union Pacific, causing a decline of % per cent, Distilling gained % per cent and lost % per cent, Missouri Pacific advanced 1 per cent, but subsequently lost all but 1/2 per cent of the improvement.

The trading in the rest of the list was very trifling, and the changes were in the

smaller fractions and in a majority of cases on the declining side. Phoenix mining sold down 4 per cent to 10. The general market at the close was fairly steady. Railway and miscellaneous bonds were very dull today. The tone of the trading was firm, and an ad vance was recorded of 21/2 per cent in Lake

Shore seconds, registered.

The Post says: The interesting feature of the bank statement was its heavy reported decrease in deposits. One-fifth of this \$5,000,000 decrease is accounted for by the \$1,000,000 shrinkage in the loans, and the rest has its obvious explanation in the week's gold exports. This is a rather unusually clear reflection of the fact that the specie apportionments are going out against withdrawals of idle foreign capital heretofore left on deposit balances. As has been often said, these funds are going back to Europe for the simple reason that the money market

OMAHA LIVE STOCK MARKET

Record Breaking Receipts of Hogs the Feature of Saturday at the Yards.

CATTLE TRADE SHOWS SOME IMPROVEMENT

Inquiry for Fat Cattle is Better and Prices Higher-Hogs Sell Briskly at a Decline of 10 to 15 Cents from Friday.

CHICAGO, July 28.—Less than twenty loads of good native centre arrived for the market today. Total receipts were about 1.500 head, but more than 1.000 head were about 1.500 head, but more than 1.000 head were Texaus. Light beef steers met with good demand at from \$4.50 to \$4.50. Level butchers picked up the cows and mixed stock at from \$1.80 to \$2.75.

With arrivals just about equal to the run of the cloning day last week, the hog market ruled agreeably active and strong. Prime heavy and fancy light sents sold up to \$5.55 in several instances, and the bulk of cred to choice shipping lots at from \$2.50 to \$2.30. A load of fancy 36.40 has sold up to \$5.57 to choice shipping lots at from \$2.50 to \$2.30. A load of fancy 36.40 has sold at from \$2.50 to \$2.30. A load of the sold at from \$2.50 to \$2.50. A load of the sold at from \$2.50 to \$2.50. A load of the sold at from \$2.50 to \$2.50. A load of the sold at from \$2.50 to \$2.50. Prime lambs are anotable at from \$4 to \$1.25.

Receipts—Cattle, 1.500 head; caives, 300 head; how, 14.000 head; about 1.500 head; load how, 14.000 head; about 1.500 head; posterial, 1.500 h SATURDAY, July 28.

The receipts of hogs were the largest today in the history of the yards, being 19,758 head, or 263 cars. The largest previous day's receipts was on July 11, when 16,868 hogs arrived. This brings the total for the week up to about 72,000, or 32,000 in excess of the receipts for the previous week. The receipts of cattle were only about 2,000 head, and there was only one load of sheep in the yards, 105 head, CATTLE—There was a fair demand for good dressed beef steers, and the market was strong at fully yesterday's prices. One bunch brought \$4.40, being the highest price touched in several days. There were several other loads good enough to bring \$4 and above. The grassy and half fat steers brought \$3.25@3.75.

There were quite a good many cows on the market and the trade had a little more life. Prices were strong, especially on the better grades. Quite a string of western cows brought \$2.75. Pretty fair native cows sold at \$2.00@2.50, while canners went

The trade in stockers and feeders did not show any material change. Both de-mand and supply was short, and the market quiet. Representative sales: DRESSED BEEF.
