UNDOING THE WORK OF THE HOT WINDS

Rains in Various Parts of the State Doing Wonders for the i amaged Corn Crop -Wild Rumor About Bob Baxter-Local Railway Gossip.

The reports of rains continue to pour in rom the various railroad headquarters with ast refreshing and encouraging frequency. nd are in a great measure dissipating the big scare among farmers and stockmen. All along the Union Pacific, the B. &. M., Elkhorn and various other lines radiating from this point throughout the state come the glad tidings of a restoration of hope for at least a good half crop.

As if by the magic wand of necromancy, the face of the whole country today presents a wantly different aspect from that of seventytwo hours ago. The pastures are rapidly assuming the emerald tint of thrift and th corn on all hands has straightened up and improved in a way that cheers the agriculturist's heart, and as usual the calamity howl seems to have been raised prematurely Word at the Union Pacific headquarters has it there was a light but glorious rain from Central City to Columbus at 5 o'clock Tues-

day night, heavier from Columbus to North Bend at 9 o'clock and a fair downpour on the O. N. & B. H. at 6 that evening. A good rain fell over all the territory between Gothenburg and Elm Creek and a hard rain all over the O. & R. V. territory at 5 p'clock yesterday morning, also a heavy fall p'clock yesterday morning, also a heavy fail from Wallace to Lima on the Kansas Pacific. On the B. & M. yesterday morning there was a quarter of an inch of water fell at Plathsmouth, Ashland and Lincoln, but little at Waverly. On the Schuyler branch, from Lincoln to Kearney, at Aurora, German-town, and other immediate points, a light fall, with prospects of more. From Prague to Schuyler there was a spiendid rain, also Hampton, Bradshaw, Garrison, Denton,

Harvard, Hastings and Sutton. On the Niobrara and Black Hills branch of the Union Pacific, north to Norfolk, there were good rains, also a hard shower along the whole of the Omaha & Republican Val ley, south; a light fall along the Albion and Cedar Rapids branch, but good •quantities at Stromsburg, Beatrice, David City and Fairbury; also down through Kansas. In all this region the corn has looked up a hundred per cent or more, despite the stories of absolute destruction.

#### Figment of a Disordered Brain.

A telegram dated August 1 from Portland, Ore., says: "A local paper says: There is a well defined impression in local railway circles that R. W. Baxter, former assistant general superintedent of the Union Pacific, will be made receiver of the Oregon Short Line and Utah & Northern. It is well known that the Union Pacific interests made a vigorous effort to secure the apoint-ment of Mr. Baxter as receiver of the Oregon Railway & Navigation railroad previous to Mr. Neil's ap-pointment, but the Sage interests controlling the bonds dictated the course pursued and the appointment of Mr. Neil followed. Failing in their first attempt, it is believed that the Union Pacific will make a great effort to have Mr. Baxter made receiver of the Short Line. This is a line the Union Pacific cannot afford to lose, as it is a most important feeder of the main line and under independent management connections might be made with the Denver & Rio Grande, which would divide the business between the transmissouri lines at Denver to the loss of the Union Pacific. The fact that the com-mittee of bondholders of the Oregon Short Line and Utah Northern has announced its intention to work in harmony with the Union Pacific receivers is taken as an evidence that the larger system has a strong bull on the bondholders and maybe it will enable the Union Pacific to accomplish with the Oregon

Charles Kennedy, general passenger agent of the Rock Island, has returned to Min-netonka for a few more gulps of fresh air. Charles may enter the yacht race up there today if the wind is favorable. The Kansas board of railway commissioners has ordered an arbitrary schedule of freight rates in effect, substantially the same rates

that were before the last sesion of the Kan-sas legislature for consideration. The rail-road however, will defy the schedule, which they consider inimical and ruinous in its effects. They had a kind of a storm burst out in

eastern. Colorado yesterday morning be-tween Lyman and Hugo. One thou-sand and three hundred feet of trackige was washed off the dump and considerable other damage done. The rain fell in torrents, but there is no agriculture in that region and he railroad was the only loser.

## To the Business Men of Omaha.

We consider that the business men of Omaha should understand that in this matter of a big production for the purpose of bringing people into our city this fail that there is a much better proposition now be-fore them by which they can make clear of all expenses as much as they are requested to contribute to the management of Mr. Paine. Mr. Paine first proposes to take \$15,000 out of Omaha and out of Courtland beach \$5,000 that means \$20,000 that will be given to them by the citizens of Omaha. Now Omaha business men should look at the other side of the picture. We propose that sidy to the company was to be submitted the citizens of Omaha should share in all the profits, and at the expiration of the engagement they would own all the scenery, grand stand, ticket offices, fence and other properties, which would be a starter for next year's production, and all the expense would not be as much as the \$11,000 Omaha proposes to expend. The production can be put on as well without Mr. Paine and his \$15,000 guarantee as with it, and all the profits go to the investors, who should re-colve the benefit.

This is not an experiment. We have the men who are each experts and who have had abundant experience, and are able to produce the pageant in a masterly man-ner to boom and make it a success. Why pay any one a guarantee or a bonus? Re-spectfully, WILL LAWLER,

Manager and Advertiser. J. EDGAR OWENS, Stage Director. PROF. GRAEACH, CHARLES ERNEST, Scenic Artists and Fire Works.

BOND ELECTION POSTPONED Platte Canal Proposition Not to Be Voted on for Some Time.

COUNTY BOARD RECONSIDERS ITS ACTION

Was Found Impossible to Prepare for the Special Election on Account of the New Registration Required by Changed Ward Boundaries.

The county commissioners held a brief session yesterday afternoon, and after allowing a few claims rescinded their action with reference to the canal proposition to the extent that the clerk was instructed not to advertise the proposition and ordering the return of the bond for the expenses of the special election. The matter now rests just where it did before the action of last week. The whole question is with the committee of the whole, where it will rest until a later date. H. T. Clarke, vice president of the canal company, appeared before the board and asked that the resolution by which the proposition to vote the \$1,000,000 sub-

to the county on September 4 he reconsidered and referred to the committee of the whole for further action at a later date. Paddock was in favor at first of expunging from the records all reference to the action of the commissioners regarding the canal proposition, but Stenberg and Livesey were anxious that the entire record stand, and Paddock withdrew his motion to expunge. The reason of this action is the fact that new registration, required since the re-

defining of the ward and precinct boun-daries, could not be had until just previous to the regular election in November. Section 8 of the law governing registration in cities of the metropolitan class is as follows: Hereafter there shall, in cities governed by the provisions of this act, be a general registration of the qualified voters resident in each election precinct in said cities, at the times herein below provided, and then only: On Tuesday, four weeks, the Wednes-day of the third week, on Thursday of the second weck and the Friday and Saturday of the first week, preceding the day of the November election in each year. For each and every election hed in any of the said cities, other than such as are designated in this section, there shall be a revision of the general registration had, as provided in this act, which revision shall be made on the Friday and Saturday of the first week preceding the day of each and every such election. It is argued that as the remodeling of the cities of the metropolitan class is as follows:

It is argued that as the remodeling of the vards and precincts makes an entirely nev

registration necessary this registration could not possibly be considered as a revision and onsequently will have to be made as specited by the law during the four weeks immediately preceding the general election in lovembe The matter was discussed at a meeting of

the canal company Tuesday afternoon and also to some extent at the committee meet-ing of the city council. It was suggested that the difficulty might be avoided by re-considering the action by which the city was redistricted and holding the election under the former division, leaving the ordi-nance which revised the boundaries to be again taken up and passed later in the year. It was shown, however, that the time for such action had passed, as the assessors had made their returns based upon the new division and the effect of repealing the ordiwould be to invalidate the 1895 tax It was understood after a thorough nance levy. discussion of the question that the special election should be abandoned and that the matter would be allowed to rest until the general election in November.

# MORE HIGH HONORS.

For Dr. Price's Cream Baking Powder. Another signal triumph has been achleved Dr. Price's Cream Baking Powder. At the California Midwinter fair of 1894, as at the World's Columbian exposition of 1893, it surpassed all competitors. An expert jury, after careful analysis and exhaustive mparison, awarded it highest honors and special gold medal. The award was for

morning on the grading of Florence boulevard In the Croft tracks and it is expected that the work will be completed in about a month. When this is accomptished the entire boulevard will be in good condition from Chicago street to Miller park.

INSPECTING THE PIPES.

Electrolysis Moral Plainly Revealed-Major Furay's Remedy.

The water works company is now relaying the mains in the meighborhood of Twentieth and Nicholas streets. About 1,000 feet of the eight-inch main on Nicholas will have to be replaced and fully 2,000 feet of the six-inch pipe on Twentieth street north of Cuming. The pipe has been in use about eighteen months and is badly eaten by electrolysis. Yesterday afternoon Superintend-

ent Lane of the Nebraska Telephone com pany, Chris Hartman, Assistant City Engineer Stanger and several other gentlemen examined the mains with Superintendent Hunt of the water works company.

The effects of the electrolysis did not differ to any extent from those observed in previous investigations. Scarcely a section of the mains in that vicinity failed to present some evidence of the work of the electric current, the lengths that lay immediately under the street car tracks being especially marked. The pipe was pitted from one end to the other with holes eaten by the elec tricity, and when struck with a hammer huge scales peeled off, leaving only a thin cylinder of iron. In many places the pipes were eaten entirely through, and one hole was observed fully two inches in diameter. One of the most remarkable features of the process is the change worked in the in-gredients of the iron. While cast iron is supposed to contain but little over 5 per cent of silica and carbon, the specimens of pipe examined by Father Rigge which had been exposed to the electric current showed the presence of fully 90 per cent of these materials. This forms a metal that can be whittled with a knife as easily as plumbago, while the particles of iron are scat

ered all through the surrounding clay. When the injury to the pipes was firs discovered, and before it was known that the damage was caused by electricity, Major Furay advised a friend of his to lay his water pipes enclosed in vitrified clay sewer The major did not know at the time pipe. what he was proposing a remedy for, but the other day the pipe in question was dug up and found perfectly intact. The clay acted as a noneconductor, and as the joints were perfectly sealed the electric current had not reached the iron. This idea is now being acted on to some extent, and a num-ber of water connections which have been laid recently have been enclosed in the clay pipe

# ENOUGH TO KILL TEN MEN.

#### Mrs. Roffman Swallows a Concoction and Speedily Dies.

At 11:30 yesterday Mrs. Sarah Hoffman, residing at 615 Park avenue, took six cunces of mixture of chloral and bromide and half an hour later she was dead. The fact of her having taken the deadly drug was not discovered until a few moments prior to her demise and then Dr. Ginn, the family physician, was called, but before his arrival the woman had expired. Whether or not the woman took the mix-

ture intending to commit suicide is not known. She had been in the habit of taking opiates, but this time, according to the state nent of a doctor, she took enough to kill a dozen men

Mrs. Hoffman was proprietress of the millinery store at 1408 Douglas street and was doing a good business, indicating that if it was a suicide, financial troubles were not the cause. People residing in the neighborthe cause. hood state that she and her husband got along very nicely and that domestic jars could not have induced suicid The family consisted of a husband and two small children.

GUARDIAN FOR FRANK RAMCE.

A. Faxton Appointed to Manage th Affairs of the Demented Merchant, Evidence was heard before Judge Baxter yesterday on the applicaton for the appointment of a guardian for Frank J. Ramge on the ground that ne was insane and entirely unfit to have charge of his property

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live bet-ter than others and enjoy life more, with ter than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs. Its excellence is due to its presenting is the form most accentable and please

in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kid-neyr, Liver and Bowels without weak ening them and it is perfectly free from every objectionable substance.

0000000

retired or semi-private conversation

plying a Lady's Easy Chair and Gentleman's Arm Chair, making a dainty set the same lines as the sofa, having the back and sides in a semi-circle.

wipe it out of memory you must sweep it clean---after a hurricane of business-as it is customary to the Nebraska-it behooves us to "clear away the debris," or, perhaps, more Bostonishly expressed, "To dismiss the superfluous conglomoration of unwelcome accumulations."

Right here in Omaha we call 'em odds and ends-good honest merchandise they are----to be sure-but of no value to us, because we never carry goods to next season-and above all, we never begin a season on broken stock.

You'll find, by carefully looking over, something you can use, in every department-and if it be your style and fit-there is a golden strike right there-because the price is likely one half what it used to be-or, perhaps a trifle above,

In our suit department we have a good many broken lots of suits-can't very well sell 'em down to tho root, because we have always such a tremendous collection-same case with the trousers department-for the same reason we have some rem. nants in our boys' and children's department-and iu our hat department-and in our shoe department and more so in our men's furnishing stock----in shirts-underwear and the like, where the supply and demand is tremendous.

We firmly believe in cleaning house of broken lots-experience taught us so-and we therefore apply the broom of reduction, and dust off the last vestige of profit-and often below the price they could be manufactured at.

A sale for mutual benefit---we clean house---you save the stuff.

Short Line what it failed to do with the Oregon Railway & Navigation, the appoint ment of a Union Pacific man as receiver"

The above is a sample of the rot incubated in the brain of the ever enterprising and ubiquitous railroad reporter by the in nocent movements of railroad men. With the average railroad reporter, if any official turns 'round suddenly, walks real fast or looks over his shoulder, it means that the road he is connected with is either going to the eternal demnitions, be injuncted, fired into the court or wrapped up in brown paper and handed over to the tender mercies of a receiver. And the Oregon man is no exception to the rule. This Baxter business is all guff, pure and simple. Mr. Baxter, along with General Manger Dickin-Superintendent McConnell, Purchasing Agent Griffith and Lawyer Kelly, is inter ested in a little gold mine snap down ner Huntington, and was called hither to look over and inspect the same with his The fact that Baxter dared copartners. to come east from Portland has caused the omniscent Portland newspaper man to think for a lack of something more plausible that he was certainly on his way to receive his Christmas present in advance in the shape of a receivership for the Oregon Short Line.

#### Moving Range Cattle.

The efforts of the Union Pacific freight department seem to be bent in the direction of the movement of range cattle from the Utah and Oregon Short Line country toward South Omaha and the Kansas City markets, with prospects of the best results. The feed is magnificent and cattle that have been classed as "feeders" heretofore are now making marketable beef on account of the superior nourishing and succulent qualities of the grasses, which is much better in this country this season than for years. So it is largely a beef proposition this year with the railways and stock yards.

## Railways and Railway Men.

H. B. Kooser, the blondined but highly lively and efficient freight contractor for the Missouri Pacific, will leave in a few days for a months' visit at his old home in the heart of Pennsylvania's dutchest region. The boys at the headquarters are again husily hulling that old annual walnut that Kooze is going to the orient to be married, but he isn't. There isn't a female woman Pennsylvania who would be caught dead with him.

#### Fixing for the Fair.

The Burlington is arranging its schedule for the state fair service, similar to that of former years. The fair is at Lincoln, and continues from September 7 to 14. One fare for the round trip from all points in Nebraska is the size of it. A special train tchedule will also be put in force, which will permit visitors from all points to get in and out at the fair in one day.

#### Resulte | in Naught.

Elmer H. Wood, assistant general freight agent of the Union Pacific, returned yesterday morning from Kansas City, where he has been in attendance at the meeting of the West of the Missouri Freight Rate commit-tee. Complications arose at an early stage in the discussion and the meeting adjourned without having accomplished anything.

#### Polaters for the Sport-men.

The Elkhorn is preparing matter giving information to sportsmen of the unsurpassed game regions that dot this popular line from Omaha to the mountains. Prairie chickens, geese, ducks, grouse, quail, ante-lops, deer and bear, besides superb fishing, is obtainable at any time in season all along the legendary Elkhorn.
