It is hard to swallow, but it is a fact that we were whipped clear around the stump and back again by the tailenders yesterday. The Quincy yellowbacks outplayed the home team all around and won as they pleased. Whitehill was not as effective as usual, and the hits of the visitors were bunched just where they would do the most good. McDougal pitched a steady game and the local sluggers were unable to hit when hits would do any

It was a rather uninteresting game all through, aithough the crowd warmed up a little when the old Omaha favorites, Munyan and Boyle, showed that they had plenty of base ball left in them yet. Boyle played a perfect game of ball at short field, and they took three hits apiece off Whitehill's delivery. Munyan's home run smash in the fifth inning was a beauty and on the first

The visitors began hitting the ball from the start and four hits in the first inning, together with a base on balls, netted three rous. They gained two more in the second and then Whitehill held them down until the fifth, when a base on balls and Munyan's home run increased their lead by a couple. In the next inning they jumped on poor Alex with four two-baggers and two singles after two men were out and cinched the game good

In Omaha's first Ulrich got a base on balls and Langsford kept up his record by an-other of his long hits over the barn. Seery, McVey and Hutchinson went out like so many ripe pumpkins, however, and we had to be contented with two.

Langsford's base on balls and hits by Seery, McVey and Moran gave us two more in th fifth, and in the Sixth Fear managed to round the bases on a base on balls and Ulrich's two-sacker. This was all of it and throughtwo-sacker. This was all of it and through-out the rest of the game Rourke's men-played as though they had no use for the game. Bo Needham, a Rockford, III., news-paper man, made his first appearance as a regular association umpire and did very well.

ST. JOSEPH, Mo., Aug. 17.—(Special Telegram to The Bee.)—Peoria was entirely out-classed by the Saints today, the latter playing a phenomenal fielding game. They also batted Dillon all over the field, and their safe drives were long and hard. There was not the semblance of an error in the field work of the home team and some of their stops were of the sensational order. Johnson pitched a good game and couldn't be hit when men were on the bases. Score:

WERE NOT GOOD CHRISTIANS.

Y. M. C. A. Ball Team Disbands on the Question of Sabbath Observance. The Young Men's Christian association base ball team, which was unquestionably the best amateur club that Nebraska has ever produced, has been disbanded, and unless there is a reorganization, which is not considered probable, it will not be seen on the diamond again this season. The cause of the trouble was the custom of certain players of the team of playing with other clubs on Sunday afternoons. There has been some complaint from the officers of the association on this account for some time, and it came to a climax the other

of the association on this account for some time, and it came to a climax the other day, when the offending players were notified that they would either have to give up their Sunday ball playing or quit the team. It was argued by the leaders in the association that it would never do to have Y. M. C. A. players playing every Sunday, as each member of the team was supposed to be a member of the association, and their reputation for Sunday ball playing would reflect indirectly on the good name of the association. The offending players could not see it in that way. They contended that since they obtained no compensation for their services, they were at liberty to play with other teams at any time when their services were not required by the association club. When confronted with the uitimatum of the managers, they left the team.

This action deprived the club of their pitchers, and it was finally decided to abandon the base ball business for the present. There is some talk of reorganizing the club with several new players, but as the season is so far advanced they will probably decide to rest on their record until another year.

Coleridge THE HIGHEST AWARD.

Royal Baking Powder in Strength and Value 20 Per Cent Above Its Nearest Competitor The Royal Baking Powder has the enviable record of having received the highest award for articles of its class—greatest strength, purest ingredients, most perfectly combined —wherever exhibited in competition with others. In the exhibitions of former years, at the Centennial, at Paris, Vienna and at the various state and industrial fairs where it has been exhibited, judges have invariably awarded the Royal Baking Powder the high-

The official report of the tests of the baking powders which were made by this department for the specific purpose of ascertaining which was the best, and which has been made public, shows the leavening strength of the Royal to be 160 cubic laches of carbonic gas per ounce of powder. Of the cream of tartar baking powders exhibited at the fair the next highest in strength thus tested contained but 133 cubic luches of leavening gas. The other powders gave an average of 111. California Man Heads Off the Pace-Maker at the Finish and Ends a Wonderful Race in a Most Seasational Manner.

DENVER, Aug. 17.-A grand stand crowded with 10,000 spectators, delightful weather and a perfect track were the condition at the second day's racing of the League of American Wheelmen tournament here today. The audience was well pleased with the good exhibitions by the crack riders and applauded them heartily. The record breaking was continued from yesterday, and today they were lowered by margins which left no doubt as to their genuineness. The program was carried out to perfection, and only one race, the last on the program, had any bad feature. This was the one mile, open class B, in which J. S. Johnson appeared for the first time during the meet.

The most interest centered in the two-mile championship-the third on the program, and the way the record was lowered shows what a magnificent race it was. Zeigler, the Californian, was given an ovation at the close. Western men had more luck today, and the California racers and their friends are tubilant tonight over the performance of Zeigler and Wells.

The sport was started by that of the halfmile handicap, class B, which had ten start-ers. Wells of California, with a handicap of forty yards, took the lead in the home stretch and won by a wheel from Grath of St. Louis, who had fifty yards. Wells' time was 0:5914, and clips three-fifths of a second from all previous records. Baid of Buffalo, scratch, time, 1:00, world's record.

time, 1:00, world's record.

The mile open, class A, race had a field of eleven riders. Anderson of Illinois set a hot pace after the first lap, and held his lead till well into the stretch on the last lap, when he was passed by Gardner, also an Illinois man and Callahan of Buffalo. ZEIGLER'S WONDERFUL RACE.

The big race of the day was the next one on the program. A new pacemaker was put in at every lap and instructed to make it a lively one. That they did can be told by the fact that the record was lowered six and two-fifths seconds. The pace-makers were Coulter, Gerwing and L. C. Johnson. At the one mile point Titus of New York had the lead, with Bald of Buffalo and Zeigler of California close up. At a mile and a third the pace was so hot that the field began to string out, and the famous Sanger was seen laboring hard in the rear. He dropped out entirely in another lap. At the beginning of the last lap the field was scattered a quarter of s mile, and most of the riders quit exhausted. T. C. Johnson was pacing, with C. M. Murphy of Brooklyn next and Zeigler coming up fast, followed by Titus. Up the back stretch Zeigler headed both Murphy and the pacemaker and won by nearly 100 feet, while Murphy was the same distance ahead of Titus. Zeigler was the only man that seemed to have any wind left at the finish. The result caused the greatest enthusiasm, Zeigler being a great favorite here. Bicyclists went nearly wild over the lowering of the world's record by six and two-fifths seconds. Murphy might have done better had he not made his race so early in the game.

The mile western championship was won

by Wells of California.

The five-mile handleap, class A, had a big field, owing to the fact that the trials were crowded out in the morning, and twenty-seven men started. Krube of Denver, with a 500-yard handicap, won, Maxwell of Winfield, Kan., 240 yards, second, and B. Bird of St. Paul, scratch, third. Bird's time, 12:15, lowers the record four and three fifth seconds.

The mile open, class B, had a field of big racers, but was declared off after going over it twice on account of not coming within the time limit. H. H. Maddox of Asbury Park went against the unpaced world's record of 2:11 1-5, with flying start, and made it in 2:10 1-5. Quarters: 0:31 4-5, 1:03)4, 1:36 4-5, and the mile in 2:10 1-5.

lowering the world's record made by Boreal on Monday one and a quarter seconds. He had to fight for it with the good colt Axworthy, by Axtell, the latter finishing but a head behind. In the free-for-all frot a mark was hung up that is likely to be shot at for many a long day. The track was just right, and it was an ideal racing day. Pixley was a bad actor and it took a dozen attempts to get the field away, Ryland T two lengths back. The Idaho gelding trailed to the haif, where Stewart began to drive the mare. He had laid back too long, but even as it was the gelding of uncertain breed did the last half in 1501s. "Sweet Little Alix" finished well within herself in 2:06, the third quarter being done at a 2:00 clip. Ryland T was a good second choice in the next heat, some thinking he was in form to do a mile in 2:05 or better. Again he got away behind, but went out to battle from the half, going the third quarter in twenty-nine seconds. With all he could not reach the mare, and she finished just as strong as before, in 2:054. The distance was waived in the last heat, Moorroe Solisbury instructing MeDowell to drive Alix her best clip. This time Ryland T went to a bad break and there was nothing to brush the mare in her supreme effort. She went on her courage, and was at the half in 1:04, the last half being done in 1:01%. The average for the three heats, 2:06, is far below that ever gone heretofore in either a pacing or trotting race. The first and last events of the card were the sensations, the 2:12 pace, 2:15 pace and 2:15 trot paling into insignificance beside the other performances, although the trot witnessed another downfall for Azote. In the morning pools were sold on Ralph Wilkes at \$259 to an average of about \$39 on the other horses in the field. The racing was all for second money, and Gretchen, Sixty-Six and Judge Austin were the ones who went for that. This was not settled until the third heat, when the last named made at hard finish and captured the place from Chmmodore Porter, Great expectations were laid on the free-for-all pace. Will Kerr acted badly and was distanced in the first heat. Hal Bradon, the favorite, lowered his record three-quarters of a second in the first heat, and had a cinch on first molley, leaving Muscot and Guy to fight for second money. The old gray mare had a hard tussle and finished second in the last heat. The time was the fastest race time made during the week. Carl Don's 2704, standing since the first day. Results!

Time: 2:26, 2:3014, 2:25%. May Never Play Again. The many friends of Win Camp, the popular Omaha pitcher, will be pained to learn that he had been taken worse, and that his that he had been tiken worse, and that his condition is very critical. He was seized with a severe hemorrhage Monday as he was passing his sister's house and had hardly strength endugh left to get into the house. Everything that surgical skill could do has been done to save his life, but although he is restling somewhat easier the chances are against his recovery. His physicians claim that the bleeding is not due to a lung trouble, as was supposed, but was caused by too hard work in the box while he was too young to stand the strain. His brother, Lew Camp, who is the star of the champion Sioux City team, was telegraphed for and is now in the city. There was no change in his condition yesterday; and his friends are still hoping that he will-pull through.

VIGILANT WAS TAKING A DAY OFF. Britannia Came in First and Safanita Sec-

ond, but Carina Wins on Time Allowance. RYDE, Isle of Wright, Aug. 17 .- The Vigflant did not start in the yacht race today in which she was to have again contested with the Britannia and Satanita. To an Associated press representative Mr. Gould explained that his reason for not sailing the Vigilant foday was that he wished to get her in trim for tomorrow's race with the Britannia, fifteen raties to the windward and return. Speaking of his defeat yest rday Mr. Gould said the race was fairly sailed and he was satisfied with the result.

The yachts emiesting today's race for the commodore's cup were the Britannia, Satanita, Corsair, Carina and Namana. The course is around the Isle of Wright, fifty-three miles. Britannia crossed the finish line first,

Satanita was second, but the Carina won on time allowance.

GOULD WANTS A FASTER YACHT.

For Re'll Have One Built. RYDE, Aug. 17.-In spite of the denials which followed the exclusive announcement by the Associated press that George J. Gould was ordering a new Herreshoff racing yacht the statement then made was perfectly correct. It is true that actual work on the

tions which are now known to be pending result in a challenge for the America's cup Talking to Mr. Jameson and Captain Carter on board the Britannia the other day Mr. Gould said: "As soon as I know that a challenger is building here I shall order a boat The Messrs, Gould will return to the United States in October, but they will revisit England in February next and thereafter they will live much in this country.

of inestimable value to the large class of infants that are predisposed to tritability of fants that are predisposed to irritability of the stemach and bowels, and in constant danger of cholera infantum. The basis of lactated food is sugar of milk. The only safety for pale, weak, sickly ba-

hies is to keep up their strength without irritating their intestines. This great problem of feeding delicate babies in hot weather has been solved to the complete satisfaction of hosts of mothers by lactated food. It has saved thousands of infant lives.

Mothers worry less about their children when they see them daily eating well and with evident relish. Children that cannot eat milk or can only bear a little, not enough to nourish them, should use lactated food, And this is why physicians and trained brighter eyes, firm flesh, clear skin, and the

mothers who have reared large families successfully, so urgently urge a diet of lactated food whenever the infant digestion is feeble. The ideal baby food is made up of simple ingredients that every mother knows to be wholesome and rich in nourishing qualities.
