STATE COMMITTEE.

There will be a meeting of the republican state central committee Tuesday, August 21, at 8 p. m., at the Millard hotel, Omaha.

Quorums are again at a high premium in both houses of congress.

If we are to have no more tariff tinkering which is congress still hanging out in Washington?

The state reunion at Grand Island is the next star event in the list of annual attractions for the men with military inclinations.

It is a pretty long time since Omaha last had the republican state convention, but she has not forgotten how to take care of the visitors.

Senator Kyle is making war on the liquor department of the senate restaurant. The trouble with the latter is that it dispenses whisky without sugar.

The republican state convention will miss the congressional contingent from the national capitol at Washington, but it will try its best to get along without it.

The cruel wars at South Omaha and at Lincoln are both over, and the valiant soldier may now lay aside his brass-buttoned uniform and return to the desk or the counter.

From the report of the formation of new trusts in various lines of business it is to be inferred that the trusts seem to have taken courage from the passage of the new tariff bill.

Nominate a clean, capable man for governor and you will carry the state. Nominate Tom Majors and you will demoralize the party and jeopardize the success of every man on the ticket.

The man who can reconcile his own satisfaction the president's tariff letter to Chairman Wilson and Secretary Carlisle's letter to the senate can make black appear white in his own eyes.

That predicted resignation of Secretary Carlisle has not yet been promulgated. Mr. Carlisle ought to make a feint at resigning. If only to accommodate the political prophets whose reputations are at stake.

There will be only 23,757 World's fair medals abroad in the land when the awards are finally distributed. We fear that some of the Columbian postage stamps will bring a bigger premium than the World's fair medals.

Republicans of Nebraska held it within their power tomorrow to nominate a state ticket that will be elected by a good plurality, but the men on the ticket must have no flies on them, or, for that matter, fly specks.

Omaha keeps the governor's cup at all events. Yet it is to be hoped that no ill feelings are to be engendered by the competition between the local candidates to which each of them is in strict justice entitled to the honor of first place.

Senator Vest of Missouri denies the rumor that he is about to retire from public life. Any one who knows Senator Vest ought to know better than to credit any such unauthenticated rumor. The Missouri senator never withdraws from anything.

Senator McPherson need not resign in order to be rid of his official responsibilities and the heavy burdens of his office. Let him but wait until his term in the senate shall have expired and the people of New Jersey will see to it that he is promptly relieved.

The fact that the president allowed the river and harbor bill to become a law without his signature, by the lapse of the stipulated constitutional ten days, may be a straw indicating his intention regarding the tariff bill, which must be equally distasteful to him.

No wabbling on silver in the republican state convention. The republican party stands for honest money over against depreciated currency and flattens of every kind. Nothing is to be gained and everything is to be lost by yielding to the wiles of the free silver cologne delusion.

The Chicago Herald, which fitted out the expedition which Wellman was to have led to the north pole, thinks that newspapers do not sufficiently appreciate the achievements of newspaper men in other fields. The Herald has taken the wrong tack to prove its point. Wellman has not achieved anything of real importance. Let him approach nearer to the pole than his predecessors and he will not be wanting applause and appreciation.

PENSION LEGISLATION.

When the record of the Fifty-third congress is completed it will be found, judging from the history of the first session, that the majority in that body has not been notably solicitous for the welfare of the union veterans. This is not surprising, in view of the declared policy of the administration regarding the pension system, and yet it is a matter which should not escape attention.

It is not surprising, in view of the declared policy of the administration regarding the pension system, and yet it is a matter which should not escape attention. Every-body understood that when the present administration came into power one of its chief purposes was to attack the pension rolls and to discredit, if possible, what the republican party had done for the benefit of the men who preserved the union.

OF HIS SUPPORT.

of his support Mr. Maynard last year, and if the republicans nominate a strong and popular man he will be overwhelmingly elected, provided, of course, that the republicans are united.

The campaign in New York will be in full blast in about thirty days, and the promise is that it will command a great deal of attention throughout the country, because the result will have a more or less decided bearing upon the national battle two years hence.

A HIGH COMPLIMENT. Congressman D. H. Mercer has received a flattering compliment at the hands of the republicans of this district. Without a dissenting vote the convention of the Second congressional district voted him a re-election for the position he has filled during the past two years.

But Mr. Mercer has agreeably disappointed those who had no confidence in his ability and fitness to represent the state in the national legislature. His record has been consistent and satisfactory to all classes of republicans, and his constituency, regardless of party, concur in the opinion that he has done as well in promoting their interests during his first eighteen months in congress as any man could have done under like conditions.

Under the present law litigants pay no more for publication in newspapers of large circulation than they do for publication in readership papers. The law fixes one uniform price for all, and this price, by the way, is less than the established advertising rates of the leading dailies and weeklies of Nebraska.

It is pleasant news to hear that the Breckinridge campaign in Kentucky is gradually nearing its end, despite the indications denoting the probability of his re-nomination. The contest in the Ashland district has been quite the opposite of a campaign of education.

Ab, There's the Rub. If the railroad corporations are so immaculate why do they shrink from a contract which would oblige them to furnish a tub of hot suds?

A Smasher of Precedents. Probably no president before Mr. Cleveland ever told a leading senator in his party that he would see him in the White House again, but there never was, in some respects, a president like Grover Cleveland.

Just What Murphy Thought. They mean nothing. They tend to nothing. They are merely imaginary sores to which the people will cling as long as they can. They are imaginary sores to which the people will cling as long as they can.

PROFANE AND THINGS.

The senate plugged the popguns with a Murphy. One of the most pathetic things in public life is an unattainable ambition for office.

A new gas has been discovered in the atmosphere of London. Its qualities are not definitely known, but it is believed to possess some of the common danger for days.

Prof. Kiker, populist candidate for congress from the Pennsylvania district, has followed the show business all his life as a magician and ventriloquist. He has a family of boys and has organized a band among them, which will play at all political meetings.

Miss Kate Field has been made one of the beneficiaries in the will of Mrs. Cordelia H. Colburn of New York. The catalogue of numerous private and public bequests, among them rare paintings of great value to the Boston Museum of Art and to Wellington College.

Chicago Tribune: Under the supervision of the authorities Coxey's army is doing some good work on the roads, and Coxey ought to be making himself useful in the same way. It is as long a contract as that of his poor debts.

New York Sun: The McKinley tariff law, unblemished by an income tax, is distinctly more desirable, more wholesome and more democratic in its nature, than the Wilson-Gorman scheme with its income tax.

Chicago Times: Secretary of Agriculture Sterling Morton is making a grand stand play for popularity in returning to the national treasury some \$500,000 of the appropriation made by congress to be expended by his department during the fiscal year which ended June 30.

Washington Star: "Some men," said Uncle Eben, "is so sored on human nature that when they see a reflection on the umbrella they think it is a reflection on the umbrella's quality."

Chicago Tribune: "I'd like to join you on that steam excursion today," said the coroner, regretfully, "but I don't think I can. The entire party, it is beyond the ken of the man who was hurt in the street car accident yesterday."

EVERYTHING IN READINESS.

Democratic Efforts Devoted Toward Holding a Majority in the House—Every District Conquered by Both Parties—Work at Headquarters.

WASHINGTON, Aug. 20.—With the closing of congress the managers of the national congressional campaigns are preparing for the fall campaign with much energy.

Senator Faulkner, at the head of the democratic committee, is directing his efforts toward holding a democratic majority in the house of representatives. Extensive headquarters are in operation, with the executive work in charge of Secretary Lawrence Gardner.

The statistics gathered are the most elaborate ever undertaken by the committee. They show not only the votes by counties for the last four congressional elections, but in close districts the figures are carried out to townships, wards and even precincts.

Another plan of ready reference is by shaded maps of the district in which the various colors show the strength of republicans, democrats, populists, prohibitionists, etc., with the figures as to the vote of each party.

A complete canvass has been made of every congressional district in the country by the republicans and the work to be done mapped out and systematized. In states where a campaign is on the work will be left in the hands of the state committee.

Denver, Aug. 20.—Senator Teller arrived from Washington yesterday, and will spend his vacation of several weeks in the west. According to his idea, the coming state campaign is to be one for good government.

Washington Star: "Some men," said Uncle Eben, "is so sored on human nature that when they see a reflection on the umbrella they think it is a reflection on the umbrella's quality."

Chicago Tribune: "I'd like to join you on that steam excursion today," said the coroner, regretfully, "but I don't think I can. The entire party, it is beyond the ken of the man who was hurt in the street car accident yesterday."

BOX OF INFERNAL MACHINES.

Paraphernalia of the Invidious Anarchists in the Hands of the Police. CHICAGO, Aug. 20.—Inspector Conway has secured a chestful of the peculiar machines used by the gang of incendiary conspirators in the destruction of property in this city.

The machines are electric devices and are constructed on the single cell interrupted current principle. The deadly nature of the machines is well known to the police, and they are evidently the property of anarchists and lend color to the theory of a plot for wholesale destruction of property and life.

TOLEDO, Aug. 20.—About 5,000 people assembled today on the battlefield of Fallen Timbers, on the Maumee river, twelve miles above this city, to celebrate the centenary of Wayne's victory. Here, on August 20, 1794, he defeated the Wyandotte, Ottawa and Delaware Indians, breaking the power of their confederacy and securing peace to the northwestern frontier.
