## WHAT A DOLLAR IS WORTH.

Council Bluffs cannot be humbugged like a new boom town of one or two year's ex-istence. We know when transients come in and advertise \$5.00 for \$1.50 that it's a fake. We have had them before. Sargent does not advertise to sell you \$3.00, \$4.00 and \$5.00 shoes for \$1.00, because he knows his dollars are worth only a dollar, and he can only buy a dollar's worth with them. But he will sell you a better shoe for \$1.00 \$2.00 or \$3.00 than any other shoe house in the city. Do not buy lottery tickets on shoes, but come to Sargent's and get the very best value. ## Toothless and Hairle's and Some of Them with Porciess Skin.

"If there is a more curiously made human being anywhere than Peter Wendling of Mount Nebs, Lebanon county, Pa., I would travel a good ways to see him," said John Gilbert, the traveling groceryman, to the

New York Sun. Peter Wendling never had a toth in his head nor a hair upon it. There are no pores to his skin, and consequently he never perspired. In warm weather he has frequently to be drenched with water to give him relief. In spite of

this curious defect in his organism. Wend ling used to be a farm hand and worked in the harvest fields. Two of his boys acnpanied him, carrying palls of water, tich they would douse over him as he mowed. This was so much trouble that quit farming and became a shoemaker, which occupation he has since worked. In warm weather he works and sleeps in collar

The queer physical makeup of Peter Wendling is hereditary. He was one of twenty-one sons that were born to his father by one wife, and none of them had an entire of teeth, and few of them had a hair on their bodies. The grand mother on their mother's side was toothless, hairless porclers, and so was a brother of t their other. Peter Wendling had eight children and all the teeth they had among them was ten. They were very short of hair, too, but skin was all right as to pores. "Yet this singular family were as happy

and contented as if each one had a double set of testh, more hair than Buffalo Bill, and no father without pores whom they had to spend a good deal of time sousing with water.

The rarest and costliest gems, though not always estoemed the most beautiful, are pigeon's blood rubles, fir: opals and dia-monds that are pure but shed a distinct glow of blue or pink. How humilating to see a large body of men lay down their arms before a half dozen. "Why did you vote to put a duty on salt?" asked the reporter.

'I voted for a duty on both salt and wool. though I am really in favor of both free salt and free wool. I understood that the tariff legislation meant legislation in favor of class interests, and the revenue feature was completely lost sight of. I showed the sen ate that all our Kansas saltmakers wanted was to retain their territory-that is, that some duty be put on salt so that the area they supply might not be encroached upon by foreign salt.

"I favored a duty on wool because the bill proposed putting a duty on woolen goods, and I wanted the Kansas farmers who raise the wool to be treated as well as the manufacturers.

"This whole thing was a grab game and I simply did my best to see that Kansas people were treated as well as other classes The senator is 63 years old today, yet he bears his age well and looks better and younger than when he last left Topeka

**GOOD DAY FOR REPUBLICANS** 

## Maine Gives the Largest Republican Majority in the State's Distory.

theft. AUGUSTA, Me., Sept. 10 .- It has been a good day for republicans, and a correspondingly bad one for democrats, but the result was not altogether unforeseen. To rain and general apathy is due the light vote, and though the democrats admit defeat, they do not show entire discouragement. The prohibitionists and populists are not largely in evidence so far as returns indicate. A heavy rain put a quietus upon the telegraph and telephone wires early in the evening, but

returns have been received from over cities and towns, and these indicate that the state has re-elected Governor Cleaver (rep.) over Charles E. Johnson (dem.) by a majority which will exceed 47,000, the largest in the history of the party. The republicans have carried every county in the state, and at 11 o'clock it is estimated that the legislature will have a working republican majority of 125, which ensures the re-election of Senator William P. Frye. Thomas B. Reed has been re-elected to congress by a plurality estimated at 19,000. Nelson Dingley, Seth H Milligan and H. Boutelle are also re-elected to congress by majorities ranging from 6,000 to 9,000. The total vote will probably not exceed 110,000.

Hon. J. H. Manley, chairman of the republican state committee, at 11:30 sent a mes-sage to Henry D. Cleves at Portland, in which he claimed the stale had gone republi can by a majority succeeding 37,000, as far as the election for governor was concerned the largest ever given. In 1856 Hannibal Hamlin had 25,000 majority, Samuel Corey in 1886 had 26,700, and Chamberlain had 000 in 1866 BANGOR, Me., Sept. 10 .- Returns received

by the News up to Storebock tonight indicate that the republicans have made but a slight gain in the state over last year. It looks now as if Cleves (rep.) will be slocted gov ernor by a plurality of 35,000 to 38,000 in a total vote of 110,000.

## Too Poor to be a Congressman

KANSAS CITY, Sept. 10 .- Hon, T. J. His property is heavily en-cumbered and his holdings have rapidly depreciated in value, while his law practice nes dwindled to nothing, owing to his con gressional duties. ## Irish Bulls in Germany.

Herr Szafranski, a German journalist, has published, under the title of "Humors of the Reichstag," a few utterances of German deputies. Here are some of them: Herr von Ludwig: "The people, the masses, know well enough that it is extremly difficult to pecome rich suddenly by honest toil, excepting always in the case of inheritance or marriage." Herr Leibknecht: "Yes, I should say the case is tragic if it were not so sad." Herr Rickert, taunting the min-istry: "Upon the ministerial benches we wear nothing, nothing but profound silence. Baron de Nordeck de Rabenan, speaking of the taxes on wine: "If I were to define bettled wines I should say that all wines that are in bottle are bottled wines." "To squeeze the juice out of Westphal: a lemon and then give it a kick-no, it not too much." Herr von Schalscha: you were to take twenty members of this chamber I do not think you could fix the limit of immorality." Dr. Greve: "Is there a more burning question than that e cremation ?"

Old Johnnie Irish of Schley county is parhaps the fleetest-footed man in Georgia of his age, and he is now 70 years old. He walked, or rather ran, from his home to Buena Vista, twelve miles, for the purpose of getting the contract for carrying the mail from Buena Vista to Oglethorpe on foot. The mail on this route goes three times a week, and the distance is thirty-six miles, which would make that many miles to be covered on foot every day except Sunday He lives fourteen miles from Ellaville and he has often made the trip in two hours On one occasion he was going to Ellaville to meet a priest who was to pass at a certain hour on the train. On the road he passes a man in a buggy, who offered the pedestrian a seat with him in the buggy. Johnny thanked him very kindly, but said he was in a hurry that morning, and he trotted on up the hill and through the soft beds and left the gentleman in the buggy far in the rear.
