RECEIVER ANXIOUS TO REDUCE SALARIES

Arguments to De Made on Both Sides of of the Subject-Peculiar Phase of the Litigation--Important Fapers Missing.

Judge Woolson arrived in the city and pened the September term of United States circuit court y sterday. The work of the erm would not ordinarily commence until this morning, but he had specially assigned yesterday for the arguments of the attorneys in the case in which Receiver J. F. Barnard of the Orusha & St. Louis railway, is seeking

an order of the court to reduce the pay of all the employes of the road, excepting the pointed master in chancery several months ago, and before him were summoned the witlesses, by whom the receiver attempted to

show that the road was a losing investment as a reason for cutting off the pay of the underlings. Mr. Ross filed his report about a month ago, and in it he upheld the claims of the receiver. The schedule which the receiver wants put lato effect is a very long ne, and the report containing the findings f the master in chancery comprises about 400 pages of typewritten matter. In gen-eral, it is claimed that the reduction ali the way through amounts to about 10 per The report has never been seen since cent. It was in the possession of Judge Woolson. He claims be sent it back, but it neve reached its destination. Whether it was lost

in the mat's or the court was mistaken as to having returned it is not known, but a further search will be made for H, and it is much too valuable a document to be lost. This morning will be submitted a motion for a continuance in the case of W. O. B. Honey against the Chicago, Burlington & radroad. The defendant wants the ance. This was the suit in which Quincy continuance. This was the suit in which Judge Shiras' doctrine that the contributory negligence of the wife, who was killed by a railroad train, would not prevent her husband from getting damages from the com pany, was overruled by the court of appeals last spring.

Council Bluffs & Manawa Directors Acced

to the tounty's Proposals. The heard of directors of the Council Bluffs & Manawa Electric Railway company held a meeting yesterday afternoon at Judge Gregory's office in Omaha and decided to accept the resolution passed last Saturday by the County Board of Supervisors and go of with the work of securing the th rty-fourfoot strip of land to be deeded to the county preparatory to beginning the work of building the road. A report was made of the probable cost of the undertaking. It has not yet been decided whether the road will stop on the north side of the lake, or run around the lake to Manhattan beach. In the former event, the cost will be \$12,000, while in the latter it will be \$30,000, owing to the fact that a trestle will have to be built through the east and of the lake, where Mosquilo creek empties into it. If the road stops on the north side two landings are talked of, one at the end of the county road and the other cast of Grand Plaza, where the Man-haitan beach steamers landed last summer. It is the present intention to have the grad-ing of the road bed and the planting of the poles finished this fall, so that the tracks own he put down as soon as the ground gets dry enough next spring. No contracts have been awarded yet, nor will they be until after the abstract of the title to the land desided to the county has passed the

Approval of County Attorney Organ. All the time little things are cropping that indicate that the Omaha & Council Railway and Bridge company will mately own the entire plant of the company, it in fact it does not already. There, at least, seems to be a very satisfactory understanding between the two com panles, and the opinion is constantly ga n-ing ground that the parties who engineered the scheme through the city council and county board were engaged to do so simply scause the directors of the motor company knew that their chances for getting any these two bodies At any rate, it is openly averred by the members of the new company that the r plant will be on the market from now on, nd they hope to sell it after the proceeds om the first year's work have demon-rated that it will be a financial success. W. S. Dimmock, the manager of the motor mpany, is to have the oversight of the instruction of the new line, the cars will hs run with power obtained from the motor company, will make connections with the trains run by the motor company, the d'rectors of the motor company have been con stantly consulted by the members of the new company whenever any new step was to be taken. uel New-trke. AND: Arrangements for the Funeral of Electrician Perkins Under Way. W. M. Perkins, the father of the assistant electrician at the electric light power house, who was killed Sunday night, took the re-

mains of his son home with him last evening to Loveland, where the funeral services will be held tomorrow afternoon at 12:30 o'clock. The members of lodge 49, Independent Order of Odd Fellows, accompanies him to the depot, and a detachment of ter-wout to Loveland to complete the arrangements for the funeral. It is likely that a number of Council Bluffs people will attend he funeral tomorrow, for the dead man was Geservedly popular. Mr. Carothers, the chief electrician, is particularly grief stricke the

ver the young man's tragic end. Mr 'arkins was singularly well adapted for the work in which he was engaged, and relieved Mr. Carothers of a great deal of the re-sponsibility of the place. There is no one Carothers thinks that the accident was caused by Perkins placing one hand on the dynamo while using the tin oil can with the

other. The tin can struck one of the new brushes that had just been put in, and the current was thus sent through his body. Some time ago Carothers sustained a shoch which enabled him to realize, to a certain extent, what it is to die by electricity. In working about the machine he brushed a finger against the machinery in such a way to "short circuit" a current through him "It knocked me flat," suid he, while talking to a Bec reporter yesterday. "The effec was peculiar, but not at all unpleasant, While I was falling I felt as though I was swelling up to an immense, size and becom-ing so light that I actually floated in the air. I never felt more comfortable and more all peace with the whole universe than I did for that fraction of a second, which, how ever, semed strung out into quite a little time. I think my heart must have stopped beating entirely, but the instant I struck the floor, all in a heap, the shock of the fall started it to thumping again, and the re-sult is I am here today. If I had had ten feet to fall, I haven't the slightest idea but

that my heart would never have gotten into action again." Bismarck his always been particular about the quality of his cookery. So is every one who uses Dr. Price's Cream Baking Powdez.

ITS POLITICAL COMPLEX N UNKNOWA Previous Differences Which dave Caused the Dissolution of Previous Parliaments Have Been Principally Con-

cerning Foreign Treaties.

WASHINTGON, Sept. 24 .- The convoking of the Japanese parliament on October 15, as announced in cable dispatches today, excites much interest in Japanese official circles here, as it will bring together for the first time the members elected the first week of the present month. As yet no advices have been received at the levation here as to the outcome of the elections and they are expected in the next mail. It is said, however, that while partles may be divided on some questions of international policy, all parties, including those usually against the government, will uphold the war which the mikado has prosecuted since the last parliagages on them. ment was dissolved. Up to that time the liberals and radicals, about 129 in number, had supported the government, the progressionists, about fifty in number, had usually opposed it, the twenty-eight opportunists were shifting in allegiance, and the other members were divided into small groups, The issue at that time was over the old treaties, one of which is with the United States, by which foreigners exercise ex-territorial rights in treaty ports in Japan. The torial rights in treaty ports in Japan. The opposition to the government clamored for the abrogation of these treaties. The gov-ernment would not go this far, saying it would be a breach of faith with foreign na-tions, though it sought to secure the abroga-tion of the treaties. The matter arouaed such bitterness that trouble arose between the parliament and the cabinet, whereupon parliament was summarily prorogued and the government appealed to the country. The the government appealed to the country. The elections have just bren held and the results are anxiously awaited, although the treaty ssue is now overshadowed by the war Th

theoming session, cannot, it is said, check otherwise affect the war, even should there be a desire to that end, as the em-peror and executive branch have the sole power of levying and prosecuting war and the parliament deals only with making ap-propriations for the army and navy.

WARNINGS TO SHIPPING INTERESTS

Work of the Weather Bureau in Tracing a Tropical Hurrieme.

WASHINGTON, Sept. 24 .- The weather bureau furnished the following special bulletin to the press this afternoon in rigard

to the West India hurricane. The first information of the hurricane was on the evening of September 20, when a severe storm was report if from the windward islands. On the morning of the 21st a warning telegram was sent to the Panama islands. On the morning of the 22d Bahama reported that the storm was south of Porto Rico, of small area, and moving clowly. Based on this report, warning telegrams wer sent to the observers at New York, Baltimore, Delaware Breakwater, Norfolk, Wilmington Savaona, Charleston and Jacksonville, directing them to give notice to shipping interests, especially to southwardbound vessels.

Saturday evening the storm app ars to have been to the east of the east point of Cebs, Santiago de Cuba reporting moderate north winds.

Sunday morning the hurricane was re-ported to the east of Cuba, and on this storm signals wer, ordered for Key West and information rignals holsted along the gulf coast to Galveston. Saturday evening the hurricane was central, approximately 200 miles south of Kew West, having moved about four-cen miles an bour, during the three days. Storm signals wer: ordered for Jupiter, Funtagorda, Tampa and Cedar Keys and information signals were hoisted at Charleston, Savannah and Savannah section

NINETY THOUSAND ACRES.

Lauds Granted to Hattroads by the Govern-

ment and Still Unpatented. WASHINGTON, Sept. 24 .- There are still pending in the Interior department unsettled ever 90,000 acres of lands granted to railroads and wagon roads many years ago. There are vatious reasons why these lands have not all been surveyed. Yet there are vast quantities of surveyed lands which are still unpatented. In the past four years about 10,000,000 acres have been passed to patent to the companies claiming them. At present there are in the course of examination in the general land office a great many lists of

lands which will no doubt be patented in a short time. Commissioner Lamoreux be-lieves that all grants where there can be no question as to the right of the company to Commissioner Lamoreux the lands be passed to patent at as carly a date as possible, and it is understood that Secretary Smith is also of the opinion hat it would be well to have these unques-ioned selections of grants patented and and disposed of. The records show that during the fiscal year ended June 30 not much more than 500,000 acres were patented in railroad grants, while in previous years the amounts have been larger, reaching 3,000, 000 acres in 1891 and 2,000,000 in 1892 and nearly 2,000,000 in 1893. With the mineral land difficulty settled and the proposition for the survey of railroad lands as fast as the companies desire there is no possibility of large amounts for patents in the future.

SKINNER'S NEW PLAY & HIT. Chicago Appreciates "His Grace de Gram-mont"-Kendalis in a New Piece.

CHICAGO, Sept. 24 .- When the curtain fell tonight on the second act of "His Grace de Grammont," produced for the first time on any stage, at the Grand Opera house, the success of Otls Skinner as a star was as sured, and Clyde Fitche, the playwright, had scored a triumph but little less brilling than that of Mr. Skinner himself. The per sonal success of that actor was distinct and successive, the end of the act bringing him recalls, and he was compelled press his thanks at the close of the play it a neat speech. The play was magnificently staged and the costumes splendid. The play

excellent supporting Miss Maud Durbin and Miss Sarah Truax were highly successful. Mr. and Mrs. Kendall gave their opening Mr. and Mrs. Rendan gave their opening production of "Lady Clancarty" tonight at Hooley's theater before a large and fashion-able andience. A RECENT CURE.

It is the custom of Drs. Copeland and Shepard to publish every week at least one statement of a recent cure. This week it is that of Mr. William Neep, 30th street and Avenue A., Council Bluffs, who is a skilled mechanic in the employ of the Smelting Works. He has been there since 1981.

WILLIAM NEEP, 36th-st. and Avenue A.

"I had sour stomach, or acid dyspepsia," said he, "ever since I was a small boy, Mouthfuls of sour gas and fluid were constantly belching up from my stomach. Four or five times every month I had a bad spell or bilious attack. At these times intense headache with vomiting kept me from work. Even a drink of water would not stay down. I took pounds of soda and much other stuff but got no real benefits. After awhile the kidneys and bowels became sluggish, ad-ding much to my misery. The trainent re-cently given me by Drs. Copeland and Shepard has cured me after years of ter-ment. I don't want to tire you with telling ment. I don't want to tire you with telling the thousand miseries felt by a dyspeptic, but will just may that these phy-sicians gave me a new stomach-so it seems-and cleaned my whole system. I am entirely well now. Their's is, in my opinion, the best treatment known for dyspopsia and like troubles.

quaintanceship formed with Ray, J. T. Chyns weth during his short stay here two years ago. He was in ill health then and not able to assume regular pastoral work, but he preached several Sundays, and was listened to cagerly. Those who met him and heard will be pleased to learn that his health is now restored sufficiently to enable him to perform full duty as a pastor, and for a year past he has been in charge of the Congregational church at Sheboygan, Wis. From fin ly illustrated eight-page paper, devoted to the church, it appears that he has a Sunday school of over 400, and a boys' brigade of nearly 100, and all departments of church

work seem flourishing. J. C. Hoffmayr's Fancy Patent.

Death of Mrs. Bope

Mrs. Clara Newton Bope died at 304 Benton street yesterday morning at 9:50 of dropsy of the heart. She was born in Philadelphia, April 10, 1855, removed here with her parents at the age of 3, graduated in this city with the class of '73, and taught for six years prior to her marriage Charles M. Bope, which took place at 2 son, Neb., July 17, 1879. She has been teaching here recently. She leaves besides her husband and two children, her mother,

Mrs. Elia Mason of Creston Ends Ber Life by Taking Poison.

CRESTON, I.a., Sept. 24 .- (Special.)-Mrs. Ella Mason, wife of a prominent photographer, became critically ill at 4 o'clock Friday afternoon, and was conveyed to her home. Her illness grew worse during the night, and at 4 o'clock the next morning she was dead. During the illness of his wife Mr. Mason did not call in his neighbors, and failed to summon a doctor until his wife was dying. When the doctor arrived Mrs. Mason was dead. The peculiar actions of Mr. Mason in not summoning aid and relatives while his wife was in such

great distress at once aroused public sus Criminating remarks reached his pleion. ears, and he insisted upon a post-mortem ex-amination. The symptons of Mrs. Mason led physicians to believe that she had taken poison. At the post-mortem examination a

quantity of poison was discovered, and the physicians believe it to be arsenic, but make certain the stomach has been sent to the state chemist. At the inquest it was ascertained that Sep-

tember 12 Mrs. Mason had purchased two ounces of arsenic at a drug store, informing the clerk that she wanted to use it in the photograph business, in which she was en-From the testimony and what can be gaged. learned from other parties, it appears that the relations between Mrs. Mason and her husband were not pleasant. They had been

matried about a year. Mrs. Mason had considerable money, but had been doing a los business. It is thought that family trouble prompted her to take her own life. It is said she informed one of the employes of the gallery that but for her children she would end her life. She had two children, having been married twice.

Ray Elliot: Caus Approaching a Close.

MARENGO, 1a., Sept. 24 .- (Special Telegram.)-The Ray Elliott case, which has been on trial here most of the time since August 12, before Justice Richardson, is closed so far as evidence is concerned, and arguments of attorneys were begun today by J. H. Feenan for the state, to be followed by D. H. Wilson and C. S. Lake for the defense, and Thomas Stapleton will close for the state. During the last week the state introduced several important witnesses in rebuttal, which, alone and aside from the mass of evidence in chief, would seem suffi ent to establish beyond a doubt that th boy her: in dispute is the identical Ray Efficit, son of Mr. and Mrs. George Efflott

and was kidnaped at that place May 12, 1893. People here, with few exceptions, fully be-lieve that the efforts of the defens: to prove that the boy here is the Maskell child have proved a failure.
