COMMERCIAL AND FINANCIAL

Cash Wheat Broke All Records Yesterday on a Scratch Sale.

PROVISIONS ENDED WITH MODEST GAINS

Corn Was Very Weak at the Opening Yesterday and Became Weaker as the Session Progressed Up to Noon.

CHICAGO, Sept. 28.-Cash wheat broke all records today, when a round lot in the National elevator sold at 53c per bu. The speculative grain markets were weaker under free selling, corn leading in the decline. December wheat closed 1/2 lower, May corn. %e lower and May oats, %e lower. Provisions finished with modest gains.

Wheat followed the regular program a

the opening. It started weak at about %c below the closing prices of the previous day, and continued to rule dull and heavy for an hour. A little more life was infused into the market at the end of that time, and a slight increase in activity was accompanied by a rather firm feeling. The situ-Atlon had not outwardly changed since the day before. Chicago receipts for today were 78,499, and the shipments 8,282. The primary markets receipts, including those a Kansas City, amounted to about \$60,000 bu-The export clearings of wheat and flow from the principal Atlantic ports amounted to 533,000 bu. Foreign markets were generally weak and lower at the opening. Borlin being the exception. December opened here at 53%c, as against 53%c at the close yesterday. It did not get below that price, nor above 53%c all the forenoon. The clos-ing cablegrams showed no change since the opening. Antwerp, Paris and Liverpool sent lower quotations and Berlin higher. The price here worked down around 53½ near the middle of the day, and a scratch sale was made at 53c. Considering that corn was turning itself inside out during the greater part of the session, wheat acted firm, clos-ing at 53% bid for December.

Corn was very weak at the opening, and

Corn was very weak at the opening, and became weaker as the session progressed up to about 12 o'clock. In that time Ic per bu, had been knocked off the value it had at the close of the preceding day. The very first transaction shook the price down half, the opening trades in May being at a range of from 49%c to 49%c, compared with 56c, the closing value on the day previous. It ruled firm for a while, but reacted to 49%c, but shortly after 12 o'clock it had slid down to 49c. There was another reaction, which to 49c. There was another reaction, which carried the price up again to 49½c, but everybody seemed to have corn for sale at 49½c. The general belief as that a large portion of the unleaded cars in the railroad yards are filled with com, and the shipping demand for No. 2 corn has disappeared. The market was weak at the close, fluishing at

A good business was transacted in oats.
Orders were plentiful, and sellers offered
still more freely. This tended to ease off
values, although the fluctuations were governed entirely by the action of corn, and were steady to a shade firmer, but, generally speaking, were lower. Carrington-Hannah disposed of considerable stock. Bartlett-Frazer, Zorg & Lindman were good buyers. Other trading was principally scattered. May spened at from 34½c to 34½c to 33½c, sold up to 34½c and back to from 33½c to

3 4c, closing at 33 4c. Provisions did better for helders today. Provisions did better for holders today. The receipts of hogs were only 16,000, and 10,000 are looked for tomorrow. Armour & Co. were buying a good deal during the session, and the Anglo-American Packing company and the packers were also more favorably inclined toward the market than for several days. Pork opened at an advance of 5c, and rose 29c more, reacted a trifle and closed with a net gain of 22½c. Lard at the close showed an improvement of 10c, and ribs made a similar gain. Freight rates are steady at 1½c for wheat and 1%c for corn and 1½ for barley to Buffalo, and 4c for corn to Prescott.

LOUIS, Sept. 28.-WOOL-Quiet and un-

ST. LOUIS, Sept. 28.—WOOL—Quiet and unchanged.

ST. LOUIS, Sept. 28.—The American Wool and Cetton Reporter says of the wool trade: The market at date continues steady. The Landon sales did not show the advance expected by some, yet considering the selections offered the trade was not greatly surprised. Since the opening a little more strength has developed, especially on crossived wools. Advices today (25th) confirm the advance of about 5 per cent or 14d per lb, above prices at the close of the August sales. The undertone of our market is fullly strong; there staple territory, adapted to worsted purposes, continues to be in request. There has been more looking round for fleeces, especially for medium and coarse grades, than for a month previously, in fact, fleeces generally since the lish have been more of a feature than arything else, and a considerable quantity of them in the aggregate layer been sold in the range of our quoisations. There has been a perceptible failing off in the amount of foreign word sold this week. The sales of the week amount to 1,232,500 lbs. domestic and 55,000 foreign, making a total of 3,457,500 lbs., against a total of 4,53,750 for the reviews week and a total of 4,53,750 for the reviews week, and a total of 4,53,750 for the corresponding week last year. The sales in New York amount to 49,560 lbs. The sales in Philadelphia amount to 1,217,600 lbs.

STOCKS AND BONDS.

Securities Were Irregular with a Down-

NEW YORK, Sept. 28 .- The stock market was irregular throughout the day, with the general tendency in the direction of lower prices until late in the afternoon, when shares had reached about the lowest level At this time a very good buying movement set in, which brought about a recovery in

most of the issues traded in, and some shares advanced on the day. Sugar and Chicago Gas were the speculative features, the first named being by far the most prominent in the transactions. At the opening Sugar receted is per cent and quickly advanced is per cent, but the offerings were so heavy as to check the rise promptry, and under fre selling, which was continued during selling, which was continued during the morning, a break of 2% per cent was effected. The shares were fairly without support, and both longs and shorts were alike sellers. Daring the early afternoon railies and reactions followed in succession, but it was not until after 2 o'clock that a well defined advance set in by purchases of large blocks of the stock, and just before the close 91 was stock, and just before the close 91 was touched, being a gain of 2½ per cent from the low point of the morning, a reaction of ½ per cent taking place at the close, leaving a net improvement of ½ per cent. Sugar preferred, on light selling, fell off 1½, but recovered ¾ per cent to 92½. There was talk on the street to the effect that the refin ing company was getting ready to compete with importers of German beet sugar when the new crop begins to arrive next month.

but the shorts took alarm late in the day and closed out their contracts.
Chicago Gas rose 4 per cent in the early dealings, but on western selling supplemented cent was made before noon. During the af-termoon a partial recovery took place, and in the late trading a general advance was made. 1 HOVISIONS—Beef. steady. Cut meets, loss of 1/2 per cent on the day. The granger shares show declines on the day of 1/2 per cent in Burlington and 1/2 to 1/2 per cent in Burlington and 1/2 the total being 1% per cent, still leaving a loss of ½ per cent on the day. The granger shares show declines on the day of 1% per

part of its gain in the same way, to which facts are due the lack of speculative appreciation of the company's reports. London was a buyer of St. Paul in the early trading. The changes in the rest of the list compared with yesterday are generally slight. Advances are shown in Cotton Oil preferred, Tobacco common and preferred, lowa Central and Delaware & Hudson, I per cent, Louis-ville & New Albany preferred & per cent and Metropolitan Traction 234 per cent. Central Pacific and Manhattan advanced 1½ per cent. Cordage 1 per cent and Edison Electric 3 per cent and Brooklyn 2 per cent. The market cent and Brooklyn 2 per cent. The market closed strong. The bond market was fairly firm, but became easier in the afternoon. In the late dealings, however, there was a rally in the more active issues. The sales for the day were \$775,900. The principal changes on the day were: Missouri Pacific consol 6s adthe day were: Missouri Pacific consol 6s advanced 1% per cent; Susquehanna & Western refunding, 1% per cent, and St. Paul consols, Norfolk & Southern 5s and Eric consol gold 7s, I per cent. Declines: Union Pacific sinking fund 2s, 2 per cent; St. Louis & San Francisco consol 4s, 1½ per cent, and Iron Mountain 5s, 1% per cent.

The Evening Post's London cabl g a n s ys; The settlement was satisfactorily concluded today. The rumored difficulties concerned a large "bucket shop" if true. It will not affect

large "bucket shop" if true. It will not affect Americans, the commitments being in other quarters. The tone of the stock market to-day was irregular but dull on the whole, except for Americans, which improved but closed under the best. The reported serious riot in Brazil is entirely discredited here.

The Evening Post says: A shrewdly planned attack on Burlington stock simultaneously with speculators' offerings broke the price almost instantly to Monday's level. The other granger stocks yielded also, but all this, it is evident, was merely a bit of market tactics. The Sugar market turmoil

manipulators as a new pegged price.

The following were the closing quotations on the leading stocks of the New York ex-

Arriva's at the Yards Fall Off Again Greatly in Numbers.

NONE GOOD ENOUGH FOR DRESSED BEEF

trade Eager but Nothing to Supply It-Canners and Stockers in Fair Demand at Steady Prices-Hogs Open Lower, Closing Strong.

FRIDAY, Sept. 28. The receipts today were 1,973 cattle, 4,559 hogs and 2,835 sheep, as against 4,883 cattle, 5,711 hogs and 782 sheep yesterday and 2,969 cattle, 3,111 hogs and 109 sheep on Friday of

CATTLE-The receipts today were light, in fact the lightest of the week so far. There were no good beef steers in the yards, in fact few of any kind. Some westerns sold at \$3.60 and some lighter cattle at \$3.35 and \$3.50. While there were hardly enough beef steers here to make a market, it would be safe to call the trade steady and strong on anything desirable. Cows were in moderate supply and the market was steady to strong. Anything that

was at all desirable met with quite ready sale. The supply of feeders was liberal, but market tactics. The Sugar market turmoil there was a pretty fair demand and the ceased today as suddenly as it began. Apparently 80 has been selected by the inside Prices, if anything, were a little stronger.

WYOMING. Anies & Webb, 70 heifers.... 109 2 15 HOGS-The receipts of hogs were about the same as yesterday in point of numbers. The market opened with some of the buyers bidding even lower prices than yesterday, but other buyers had liberal orders and bought freely. Toward the close, as more favorable advices were received from Chi-cago, and as it became evident that there were not enough hogs to fill all orders,

the marked firmed up and closed a little stronger. The bulk of the sales were at \$5.10@5.25, against \$5.10@5.20 yesterday and \$5.25@5.45 on Friday of last week. Representative sales:

50 - 120 5 PIGS AND ROUGH.

SHEEP-The offerings were large and the market 10c higher on the best grades, while common sheep were still lower. Fair to choice natives are quotable at \$2.25@3.00; fair to good westerns, \$2.00@2.70; common and stock sheep, \$1.75@2.25; good to choice 40 to 100-lb, lambs, \$2.50@2.75, St. Louis Live Stock Market.

CHICAGO LIVE STOCK

Nominally Steady Cattle Market at Thursday's Reduced Prices. CHICAGO, Sept. 28.—At yesterlay's reduced prices there was a numinosity steady cattle

CHICAGO, Sept. B.—At yesterlay's reduced prices there was a numinally sterily cattle market today. True, buyers did not take hold with much avidity, but having afready secured a reduction in prices of from 25c to 35c, they were not inclined to force matters further. Receipts consisted about equally of natives and rangets, estimates being 4.990 matters. And angets, estimates being 4.990 matters and tangets, estimates being 4.990 matters and tangets, estimates being 4.990 matters. How that annher did not constitute the supply, a good many cattle remaining in sellers bands at the close of yesterlay's market. Trade opened law and slow. It was slow to the end, but there were more cattle left over than was the case yesterlay. Natives sold principally at \$1.75 to \$5.60, with \$1 to \$2.3 the extreme range. Sales of westerns were on a basis of \$1.50 to \$4.50 for prior to theice, and Texans were calable at \$1.25 to \$2.16. Stockers and feeders were dull at the recent decline and veal calves were work.

Frieces for hogs were very uneven. There were sales that looked he higher than Third day, and others barely as good as that day's. The average of prices, however, was slightly higher, and the tone of the market health'er, Alcant 17.000 hogs arrived, and that practically constituted the day's supply, very few hote having been left over from yesterlay. Sales were any good. The last werk has given very little satisfaction to sellers of sheep and lambs. Under the heavy receipts of sheep and hands. Under the heavy receipts of sheep 20.234 head there was a flump of from 18 to 16 for family. Exit make at \$1.60. head; sheep, 10.00 head.

Minneapolis Wheat Macket.

Minneapolis Wheat Market.

Minneapolis Wheat Market.

Minneapolis were 41 500 bit, shipmins, 22.120 bit. The demand for eash wheat was moving freely in the northwest and receipts at Minneapolis were 41 500 bit, shipmins, 22.120 bit. The demand for eash wheat was very active, and prices of December were thereby maintained at a higher relative position than May. The latter declined semewhat and closed by lower than yesterday, while December was about 35c lower. Cash wheat and September were also be lower. The closet September, were also be lower. The closet September were also be lower of the demand are sufficient to also for current use at their mills. These two sources of the demand are sufficient to alsorb readily all the wheat that is offered. There was a natural dispisition to self, because the feeling is that some of the elevator companies have been buying freely of December to take the wheat when it is delivered and turn it over to their own elevator. The result is that elevator companies are cantious about selfing December, as they desire to retain the wheat in their houses, that they may have it at that time to earn winter storage. Farmers are still delivering freely in the country, with a promise that full receipts at this point and Duloth may be maintained for some weeks at least.

Four market was dull and easy; patents, 85,1567-40; bakers, 11,8562-25; production was estimated at 5,000 bils, for the twenty-four hours; shipments were 36,400 bils.
