WELCOME ADDRESS BY MRS C. M. HARL

Mrs. Huston and Others Responded-Miss Pearson Reads the President's Annual Report Which Was Full of Interesting Information.

man's Foreign Missionary

There were but few vacant seats in the big auditorium of the Broadway Methodist church last evening when the opening exercises of the annual meeting of the Des Moines branch of the Woman's Foreign Missionary society were begun. Ninety per cent of the seats were occupied by women, and nearly 300 of the women were delegates to the meeting. The few fortunate but insignificant men scattered around in the audience received some valuable lessons in the

art of conducting big conventions. Mrs. M. S. Huston of Burlington presided and called the meeting to order, and after prayer introduced Mrs. C. M. Hari, who delivered a very beautiful address of wel-

come, filled with charming thoughts dressed in beautiful imagery. It had the finish and polish of one of the best efforts of her polished husband, and was the source of a good many compliments from her friends. Rev. H. P. Dudley, pastor of the church, also spoke pleasant words of welcome and encouragement, making the point that it was the missionary spirit that had been responsible for all the great movements and reforms that have brought the world to its present stage of perfection, that the disstreets. covery of America was due to the same spirit that causes the women to penetrate the heathen lands in the darkest parts of the world and enlighten them with the beams of Christianity.

Responses were made by Mrs. Huston and others and then the president of the society, Miss E. Pearson of Des Moines, was intro-duced and read her annual address. The ad-dress was long, but it was full of interesting information and food for thought and encour-agement in the work the society has undertaken. The first organization was effected in Beston in 1869, but now the society girds the globe with its agencies and its influence. twenty-five years ago there were no extended plans, no great resources; only a few women's hearts stirred by the suffering of their sis-ters in other lands. Now it has 150,738 women enrolled and has put an amount of money into the treasury during those years that exceeds \$3,139,000. The foreign interest is represented by 150 missionaries and 600 bible readers, 400 day schools with 13,000 pupils, forty-one boarding schools, three homes for homelasy women and \$200,000 month of

Two Harbors of Wel-Hal-Wel and Port Arthur Inspected by Japanese Admiral -Supposed Spy Tortured in China

LONDON, Oct. 11 .- A dispatch received from Tien-Tsin says that the Chinese officials no longer deny that the Japanese fleet commands the Gulf of Pe-Chi-Li. It is added that the Japanese admiral pays a weekly visit to every important station on the gulf and makes his inspection leisurely.

trance to the harbor of Wel-Hai-Wei for three hours on Saturday last and then went across to Port Arthur, where they could make observations without getting within range of the guns of that place. The Japanese fleet returned to Wei-Hai-Wei on Monday last in single line, keeping their distances splendidly and headed straight for the barbor. When almost within range the fleet separated and hovered around the barbor entrance. The fort fired a few shots at the Japanese, but the latter did not reply and continued mak-ing observations until Count Itos' flagship, the steel cruiser Hashidate, fired once, upon the fleet reformed and steamed away in the direction of Taku.

the war with Japan.

Engineer Purdy of the ill-fated Chen-Yuen is in Hong Kong, and from his account of the battle, it seems certain that if the Chinese admiral had had a fast cruiser or two with which to reconsiter and ascertain the ap-proach and strength of the enemy his big ships would not have been hemmed in close to shore within twenty minutes after he first saw the smoke of the Matsushima. As It was he was quite helpless, being unable to maceuvre at all, and fearing to permit the Japanese vessels to maneuvre at all, and fearing to permit the Japanese vessels to get between him and the shore. It is also pointed out that if the Japanese had had reserve vessels, one or two men-of-war, that could have been two men-of-war, that could have been brought up as the Chinese fleet was escap-ing, the fleet could have been utterly de-stroyed. Naval officers who have studied Naval officers who have studied the battle at close quarters declare that the next war between naval powers will hinge upon the ability of the navy yards to make repairs quickly and the stringth of the reserve, and add that the recent engagemen was worth millions of pounds to England.

CAUSES OF THE WAR.

Ex-Chinese Minister to Washington Writes to a Friend in This Country.

WASHINGTON, Oct. 11 .- A prominent diplomat, for many years connected with the State department, has received from Chang-Yen-Hoon, ex-Chinese minister to the United States, who is now the senior member of the board at Peking (Sung-Lamen), which corresponds to the foreign office in other countries, the following letter which gives the explicit statement of the Chinese version of

the causes which brought about the present war between China and Japan: "PEKING, China, Aug. 21, 1894.-My Dear Friend: In the month of June last, riots of a rebellious character broke out in the southern part of Corea, and as that country is tributary to this government, it sought from us military assistance. Accordingly, 1,500 troops were dispatched by the viceroy to the vicinity of the trouble, with no other aim but to restore peace to those unfortunate people. The Japanese government immediately sent a large force, took possession of the Corean capital and fortified themselves in all the important positions. "When the Chinese troops arrived at

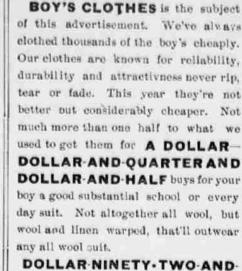

Yashan the rebels dispersed and peace was restored. In accordance with a treaty between the two governments the forces of both countries should immediately have been withdrawn after a riot or a rebellion had been suppressed, and the imperial government was about to withdraw its troops, but Japan insisted on permanently stationing her mili tary forces in that country. On an intimation of her Britannic majesty's minister that the withdrawal of the troops of both would as-sist in a speedy arrangement, we expressed our perfect readiness to recall our troops. our perfect readiness to recall but down our The Japanese minister at Scoul informed our representative there that he would advise the second to withdraw its troops, but his government to withdraw its troops, but Japan would not listen to reason, and arbi-tration and entered upon war.

"In the fear that the exact causes of this trouble would not be properly presented in the Américan newspapers, I write in the hope that you will be convinced that my government has done the utmost to maintain friendly relations and that it was not China that commenced the hostilities. If it is not improper and not against the usual prac-tice, I would like to have this letter published in your leading papers, hoping that its publication may gain for my country the sympathy of the great American people. I remain yours very truly, "CHANG-YEN-HOON."

LONDON, Oct. 11 .- A dispatch from Tokio says that a detachment of Japanese cavalry and infantry has made an attack upon and routed a force of 2,000 Chinese at Wi-Ju and that the place remains in the hands of the Japanese. It is reported to the Japanese officers that 10,000 Chinese troops occupy the north bank of the Yalu troops occupy the north bank of the rain river, where they have completed eight batteries and are building more. It is gen-erally believed that the Japanese will be in possession of Moukden by the early part of November. A state of siege has been declared in the district of Hiroshima, under article xiv. of the Japanese constitution. The Chinese in Peking and Tien-Tsin believe that Russia is actively assisting Japan by every means in her power except a formal alliance. As a result of Admiral Ting's re-port, dwelling upon the superiority of Japan's quick-firing guns, China has concluded large contracts with Krupp and German agents
