COMMERCIAL AND FINANCIAL

Usual Break in Grain Prices Followed the Government Report.

PROVISIONS RALLIED NEAR THE CLOSE

Corn Opened About Steady but Immediately Began to Sympathize with the Yielding Spirit of the Wheat Market.

CHICAGO, Oct. 11.-The government report was followed today by the usual break in the price of grain. Wheat and corn are each %c lower for May delivery than at the close yesterday. Provisions rallied near the close on buying by packers and closed slightly higher. May outs finished with a loss of %c. Very little interest in the wheat market was displayed by the traders today. The government report did not raise the average of the crop much above the pre-viously indicated production as had been expected. A report said to emanate from the Argentine consul at Washington was given as the cause of some additional heaviness with which the market became affected about noon and due to which the price of December broke to 52%c. It advanced to 53%c and declined to 50%c, with an inclination around 531gc up to the time of the more radical weakness referred to. The Argentine authority quoted was reported to have said that the area sown to wheat in that country was variously estimated at from 10 to 50 per cent larger than in the year before. The market was dull near the

year before. The market was dull near the close, December finishing at 53c.
Corn opened about steady, but immediately began to sympathize with the yielding spirit of the wheat market. The opening price was from 30%c to 50%c for May and it became gradually weaker as the session progressed, resulting in a decline near the close to 49%c, with 49%c bid at the end. October fell from 50%c bid to 49%c at the close.

close.

Another active session was passed in the coats market. In sympathy with corn and on account of the offerings, prices suffered a decline. May opened 1mc up from yesterday's last quotation at 35mc, sold down to 32mc, and closed at from 32mc to 32mc.

The provision market was firm at the opening, but soon weakened. Those who bought on the little bulge of the day before tried to secure their profit. When they had dropped their loads and 12mc had been knocked off the opening price of pork, the packers came to the rescue and left closing prices 7mc higher for the day in pork, 2mc higher for lard and ribs unchanged.

The leading futures ranged as follows:

Minneapolis Wheat Market.

Minneapolis Wheat Market.

Minneapolis Oct. II.—Wheat was easy and quiet from the first this morning, and trading duil in futures. The demand for cash wheat was active, quickly absorbing all the offerings on track or to arrive at about the same premium above December as previously obtained. Receipts are said to be increasing at country stations, and the elevators are buying more of the stored grain. Roads reported bad yet in the country, preventing still larger receipts. In some sections where the roads will admit receipts are about as large as they were before the rains. In many parts, however, the roads prevent active business and the farm movement is necessarily lighter. The question of holding back wheat in farm granaries for higher prices seem to be entirely lost aight of in the northwest and all are selling apparently without reference to any possibility of an advance. Farm feeding to animals is going on briskly in some portions and considerable wheat will be consumed in that way. There was nothing but that feature today that had a tendency to prevent short selling and further consequent decline. There was some Pecember wheat here for sale, but as the trading had gone out of it a few days ago they feared to sell it, and there seemed to be no very great demand for the little thore was offered. Nearly everything is done now in May, and for that month there was at times fair activity. Fluctuations were generally light, not exceeding about te. Close: October, 154ge; December, blastistic; May, 554gffske. On track; No. 1 hard, Iffice; No. 1 northern, 154ge; No. 2 northern, 154ge; northern, 154ge; No

regular quotations. Receipts of wheat were 205,-229 bu; shipments. 12,509 bu. The flour market was easy in sympathy with the small decline in wheat. Patents, 42,7092.00 bakers, 11,5093.20. Production for the 24 hours was estimated at 25,000 bbis; shipments, 37,747 bbis.

OMABA GENERAL MARKETS.

Condition of Trade and Quotations on Staple and Faucy Produce.

The butter market is lower on account of the condition of the eastern market. The packers have made a decided cut in the price on packing stock, as will be noted from the quotations. Quotations ave made a decided be noted from the quotes ng stock, as will be noted from the quotes non. Quotations:

PIGEONS—Old birds, per doz., 75c.

VEGETABLES.

The quantity of celery that is shipped to Omaka and either consumed here or shipped out to near-by points is very large. In the past is large proportion of the celery handled here came from Kalamagoo. Mich., or was said as having come from that section. At one time it was hardly thought that any other section of the country could grow really good celery. Other sections of the country however, have been giving more attention to the growing of celery for market with no small degree of success. California now ships a great deal of celery to this market, and at some seasons of the year the supply is almost entirely from that state. During the past two years parties in Nebraska have commenced to experiment with this vegetable, and so far with marked success. This year about forty acres near Kearney were planted to celery and fifteen acros at Monroe, while there are small patches at Hebron and Florence. The Kearney and Monroe craps were purchased by an Omaha house making a specialty of handling celery, and they are now receiving from these two sources about to dozen bunches per day. The crop is about half harvested, and the growers estimate that the yield will amount to fifteen to twenty cars all told. Quotations:

FRUITS, per bbl.; Jersey, 15.30 per bbl.

FRUITS.

The European apple crop is almost a failure, says Garden and Forest, and large exportations from this country may therefore be locked for. Two thousand bbls, were sent away last week, and more than twice that number will no doubt be forwarded during the present week. Insignuch as there is not a full crop in Canada, and since the product of the United States will not be half that of an average year, it is fair to assume that prices will be high. In fact, the prices in England are already good. A few careless or unscrupulous shippers have done very much to injure the American export apple trade by sending inferior and badly packed fruit, and this tends to give a lad name to the entire supply from this side of the Atlantic. Newtown Pippins were already favorites in the English markets, but they have lost their position to some extent, owing to the fact that other green apples have been shipped from this country and falsely branded as Newtown or Albemarle Pippins. Red apples, such as Blaidwins and Kings, now bring the highest prices.

Holland and Belgium ship 600,000 bbls, to Engor Albemarie Pippins, Red appies, such as flaidwins and Kings, now bring the highest prices.

Holland and Belgium ship 60,000 bbls, to England in a good year, mostly early and fall sorts, says the New England Homestead, but this season will hardly sparse one-third that quantity. France will probably export two-thirds of her usual supply, mostly fall stuff. Australian fruit won't be on until early spring. England's own crop is very short, and at best does not stand much show against prime American red winter apples. There are fully six months during which the English market will present an active demand for American fruit, Baldwins being most popular. This is likely to keep our domestic markets clear of any accumulation of all the nice winter apples that can be moved at \$2.00g \$3.00. At that price the United States and Canada ought to be able to export \$50.000 to \$50.000 bbls, against \$175.600 bbls. last year, \$1.500.000 of the Islicity and \$75.600 bbls. last year, \$1.500.000 of the Islicity and \$75.600 bbls. last year, \$1.500.000 bbls. against \$1.500.000 bbls. against \$1.500.000 bbls. The census returns the United States crop of \$1.859 at \$7.250,000 bbls. of which all but \$1.000.000 bbls. were grown in twenty-seven states. Our domestic market and our surplus for export is controlled by the crop in eleven states. The west will probably take at full prices all the surplus west of New York state, Isaving apples for export to come from New York and New England which may ship west more than enough to counterbalance Michigan, Pennsylvania and Ohio exports. New York and New England which may ship west more than enough to counterbalance Michigan, Pennsylvania and Ohio exports. New York and New England will equal 1887's small crop miess nipped by early fronts, and at the prospective higher range of prices ought to export more than in 1889. Quotations;

WOOL MARKET.

Attendance at the Auction Sales Yesterday

Was Fair.

LONDON, Oct. 11.—The attendance at the wool auction sales today was fair, and the wool auction sales today was fair, and the tone better. Compelition was good, even for faulty goods. American buyers took 400 bales of greasy Victoria wools. The American purchases so far amount to fully 13,000 bales. German, French and English buyers were at work actively. The number of bales offered were 11,978, of which 1,500 were withdrawn. Following are the sales in detail: New South Wales, 209 bales; scoured, 24,678; 1½d; greasy, 44,678; Queensiand, 256 bales; scoured, 16d,91s 2½d; greasy, 6½66d; Victoria, 2,457 bales; scoured, 36d,91s 5d; greasy, 6½66d; Victoria, 2,457 bales; scoured, 36d,91s 5d; greasy, 6½66d; New Zealand, 7,853 bales; scoured, 4½d,91s 2d; greasy, 4,524,64 Cape of Good Hope and Natul, 1,756 bales; scoured, 7½,d,671s 4d; greasy, 2½,65d, ST, LOUIS, Oct. 11.—WOOL—Dull and unchanged.

STOCKS AND BONDS.

Speculation Was Irregular. NEW YORK, Oct. 11.-The stock market pened and closed firm, but in the interim he speculation was irregular. At no time during the day was the volume of business heavy. The cliques and room traders still monopolize the dealings and the commission houses report customers as scarce as ever. London was in the market as a buyer, but houses report customers as scarce as ever. London was in the market as a buyer, but confined itself almost entirely to St. Paul and Louisville & Nashville. Louisville & Nashville was notably strong, being in good foreign demand, as well as a favorite of the local traders, chiefly on a report that the earnings of the first week in October would show a heavy increase. The stock closed at the highest of the day and at an advance of 1½ per cent. Western Union lost ½ per cent on the day. Today's movement in Sugar is accredited to a leading manipulator of the shares, who worked more conservatively than usual, for the stock was held within a range of less than 2 per cent. An advance of ½ per cent was made at the opening and then a quick drop of 1 per cent, followed by a sharp recovery, and, in the late dealings, by a further advance, which brought the price up to 84½, a total gain from the low point of 1½ per cent and an advance from last night of 1 per cent. Toledo & Ann Arber shows a decline of 2 per cent, Leather preferred 1½ per cent and Wheeling, Lake Erie preferred and Colorado Fuel 1 per cent. The other changes were merely fractional.

The bond market was irregular during the morning and early afternoon, but in the later dealings became strong in sympathy

with the share speculation and closed with the share speculation and closed in goosi tone.

The Evening Post's London cable says: Of the decrease in the Bank of England this week 1611,312 was in coin and buillon and f144,000 represents the net gold export for the week, the details being £8,000 to Brazil, £13,000 bar sold chiefly for Germany, while £31,600 came in from China. The remainder of the decrease in reserve was due to cash gone into internal circulation. It is reported here that gold is beginning to leave New York for Paris and Germany. The stock markets were quiet today, but with a better tone. Americans advanced about 50c. The Argentine gold premium continues to fail and all South American securities are firm.

The following were the closing quotations on the leading stocks of the New York exchange today:

OMAHA LIVE STOCK MARKETS

Cattle Receipts Still Liberal but Net in Excess of the Requirements.

NATIVE CORNFED STEERS STILL SCARCE

Rangers Good Enough for Dressed Beef Sell Well-Under Grades, Cows, Canners and Stockers Strong-Hogs Rather Weak but Steady.

THURSDAY, Oct. 11. So far this week, compared with last, receipts show a falling off of about 4,000 cattle, while hog supplies have increased fully that much and sheep nearly 13,000 head.

There was a very fair run of cattle, although it fell nearly 3,500 short of last Thursday's deluge. Included in the receipts were some twenty-three loads of Texas cattle from Kansas City, billed direct to local slaughterers, and not offered on the market. Western rangers of poor to fair quality made up the big bulk of the supply, and dressed beef men experienced considerable difficulty in securing anything like enough steers to suit them. Eastern reports were in the main bearish, but notwithstanding that fact there was a strong, active market for anything at all useful. Low grade and thin stuff sold at fully steady prices on account of the active competition from feeder buyers, while the good fleshy stock, what

buyers, while the good fleshy stock, what little there was of it, generally sold at a shade stronger prices.

For cow stuff the demand from all sources was of a very urgent character, and while the supply was liberal it was not at all in excess of the buying orders. Prices ruled strong to a dime higher than Wednesday on all grades and all of a quarter higher than the first of the week. The movement was free and about everything in this line was disposed of by the middle of the forenoon. Veal calves met with a ready sale at strong prices and bulls, siags, etc., sold a shade better than for the past few days.

Business in stockers and feeders was unusually active today. Everybody was looking for light stock cattle and did not hesitate to pay a 10c to 15c advance to get them. All grades, however, were stronger and a big volume of business was transacted. Good to choice feeders are quotable at \$2.7063.15; fair to good, \$2.4062.70, and common grades from \$2.25 down. Representative sales:

LOWS.

HOGS-Receipts are picking up and the quality of the hogs improving. The supply today was more liberal than for some time and the

general quality of the offerings was the best for weeks. The market was very uneven, although for the most part the tendency of prices was lower. Liberal supplies, weaker provinging and the shyness of shipping and speculative buyers were all hearish elements, and while some of the good to choice heavy hogs sold at steady release early, the general market opened lower, the weakness on the commoner underweight stuff in many cases amounting to a migket decline at least. Sales above & were scarce, although a bunch of choice heavies brought \$5.15. The hunk of the fair to good mixed hogs sold at from \$4.80 to \$5. as at the commoner, tight mixed and rough boads went at from \$4.80 to \$4.80, with pigs and stock hogs at around \$1 to \$4. The general trade was dull and dragging, but braced up toward the close and finally wound up firm. The bulk of the trading, as on Westnesday, was at from \$4.80 to \$5. as compared with \$5 to \$1.10 on week ago today. Representative sales:

CHICAGO LIVE STOCK. More Good Cattle in the Pens than for

Some Time.
CHICAGO, Oct. 11.—There were more good CHICAGO, Oct. 11.—There were more good cattle here today than for some time past, and sales did not show up well. In common and medium grades there was no change. The supply was moderate, and about everything was worked off. Natilves were quoted at from \$1 to \$2.75 for cows, helfers and buils, and at from \$1 to \$5.75 for steers. Sales of westerns were on a basis of from \$1.75 to \$4.50 for poor to choice, and Texas cattle were quoted at from \$1.25 to \$5.50. There was a good inquiry for stockers and feeders at from \$2 to \$1.50, and the calf market was steady at from \$2.5 to \$2.50.

The hog market underwent a further improvement. There was a brisker demand, and prices were higher all around. They advanced from 5c to 10c immediately upen the opening of business, but a little later snything could be sold at 10c advance on Wednesday's prices. Although the proportion of good hogs was small, the built of the \$2.00 head on sale sold above \$5.10, and there were many sales at from \$5.45 to 5.55.

The close was strong. With several thousand sheep and lambs in the pens and fresh receipts of 20.600 or more, buyers had things all their own way. Comparatively few of the sheep went above \$2.50, and the built could be bought below \$4.55. Lambs were quoted at from \$1.50 to \$4 for poor to choice.

Receiptes: Cattle, 17,000 head; calves, \$00 head;

poor to choice.

Receipts: Cattle, 17,000 head; calves, 800 head; hours, 20,000 head; sheep, 20,000 head.

The Evening Journal reports: HGGS-Receipts, 20,000 head; official yesterday, 17,557 head; shipments, 8,328 head; left over, about 3,500 head; quality, hardly so good; market active and firm; prices about 5e higher.

CATTLE-Receipts, 17,000 head; market weak at 5600 decline.

1670c decline. SHEEP-Receipts, 29,000 head; market only moderately active; prices weak, 5670c lower. St. Louis Live Stock Market-
