The extraordinary demand created for Copps Cheer in all temperance communities where intoxicating beverages cannot be sole has led envious alleged rivals to attack and misrepresent it. Among conservative and cautious dealers who do not wish to even approach the line of violation of law, and families who don't want an intoxicating beverage in their lockers, these misrepresenta tions have led to the most crucial tests for alcohol known, and the beverage, while sparkling, invigorating and health-building, has been found to be as harmless as the mildest soda water. Discussed Vertical Writing. The semi-annual round table of the super ntendents of southwestern Iowa convened last evening at the superior court room of

the county court house. About seventy-five of the teachers of Council Bluffs were present, together with thirty or more prominent educators from out of town. An interesting discussion was had upon the subject, "Is Vertical Writing a Fad?" in which the various claims made in its favor by the friends of the new system were brought out, as well as those of the opposition. Its friends claims that it is more bygenic, more easily taught. that it is more hygenic, more easily taught, and, as it covers less space, more rapid than the now prevalent sloping characters, while each of these claims is disputed by those who are inclined to look upon the new system as more of a fad than anything else. Those who took part in the discussion were Dr. Marble of Omaha, Superintendents Chevaller of Red Oak, Lacey of Shenandoah, Sawyer of Council Bluffs and Dorland of Afton, and the Misses Van Ness of Denison and Blood of Council Bluffs. The second meeting will be held this morning at 9 o'clock in the as-sembly room of the high school, when other subjects of interest to educators will be taken
