OFFICE - . NO. 12 PEARL STREET Figures from the Late Election Show that Nothing Got Away in Pottawattamie.

AGER WINS BY A WONDERFUL MAJORIT

Will Have Nearly 4,000 Over Jim the Jumper-County Officers All Elected by Good, Safe Pluralities - What the Returns Show.

That Pottawattamie county and the Ninth engressional district are republican by a andsome majority was placed beyond all ossible doubt by the returns that came in resterday. The republicans were not prepared for so sweeping a victory, but they accepted the situation gracefully. Nor were the democrats looking for such a crushing defeat. They made no effort to secure com-plete returns, for their case was hopeless, and he republicans did likewise, because they

ildn't have to.

The republican committee early in the day from the official returns, as they wer prought into the office of the county audi or, claimed that the congressional distriwould be republican by a majority of 3,500 and during the day they found no reason for changing their estimate. The returns from Rockford, Washington and Waveland town ships did not come in during the day, but i is estimated that Hager's majority in the county will reach 400, and may be in excess of that figure.

The entire county ticket is elected by the republicans by major ties ranging anywhere from 225 to 1,000, such majorities in a county that has been noted for having at least one contested election a year being quartet, composed of Mrs. W. An Inventor Unable to Withstand the Tri umph of Success. The death of Rev. Edward F. Roberts of Rochester, N. Y., at the hotel Arno, Washington, D. C., on Friday, is the end of a story peculiarly sad and pathetic, says the Rochester Union. It is the case of a man killed by joy. A true chronicle of a strug-

gling inventor whose worn-out life passed away as soon as the success he labored for was within his grasp. He died penniless, and within a week he would have received Six years ago Mr. Roberts invented a cash register, said to possess marked advantages over other machines. Since that time he has perfected his patents and worked uncessingly to organize a company to put the machine upon the market. A number of

Rochester business men inspected the de-vice at the Chamber of Commerce during the autumn and were impressed with its value. Last Monday, after several weeks of uncertainty, the formation of the company was practically completed and Mr. Roberts was to receive \$50,000 for his invention. He went to Washington to make a final search in the patent office in order to assure the company that everything was all right.

His inspection resulted in the certainty that there could be no danger of litigation, and the fortune was within his grasp. The re-lief and joy was more than his poor over-worked body could stand. On Thursday a worked body could stand. On Thursday a blood vessel burst in his brain. He fell into a state of unconsciousness, from which there was no hope of recovery. To hasten the end, however, a heavy cold on the lungs de-veloped into pneumonia, and he died on Fri-

Mrs. Roberts, with one of the gentlemen who had organized the company, hastened to Washington, but arrived too late. They found the inventor dead.

In Brooklyn the late returns show a total vote of 54,695 for and 52,927 against the proposition, which makes it evident that the people of the two cities have given their approval to the plan of consolidating the two municipalities by a good majority.

officers of the Desplaines street police station early this morning. The club got out its banners and hired several bands of music and started down Halstead street to celebrate the close of election. They were in a state of glee over the gains the republicans had made in the country, and many of them were drinking. Several were armed with revolvers, which they fired in the air as they marched along. The crowds along the streets through which they passed hooted and jeered them, and the Italians returned the calutations in kind. At Madison street they turned east on that thoroughfare. John turned east on that thoroughfare. John Dempsey was standing on the sidewalk. He shouted, "See the dagos." A stalwart Italian saw Dempsey and started for him. A crowd of the marchers followed the leader and Dempsey was seen running down Madison street at the top of his speed followed by a crowd of hooting Italians. He turned into Canal street, but at Monroe street was caught by the crowd and severely beaten. The Desplaines atreet patrol wagon, with Officers McWilliams and O'Day on board, came to Dempsey's rescue. They succeeded in driving back the crowd and putting Dempsey into the wagon. The crowd then closed in about the officers, and it looked serious for them for a moment. They drew their revolvers and kept the crowd at bay by firing several shots into the air. The first re-turns received last night showed atrong republican gains. TOO MUCH SMOKING.

Serious Results Following Overindulgence in Tobacco.

The symptoms of overindulgence in smoking are more or less clearly defined, says Dr. ortions of Westchester and Queens.

The whole area covered by the "Greater effects of tobacco among the lower classes by smoking too strong tobacco. The texic are comparatively not infrequent. The form square miles. Commonly they are found to be bootmakers, or those to whom the opportunity occurs of smoking while they are at work. In most cases there is a sorely hit, not only in the loss of the ex-serious failure of vision. Associated with pected income, but also in the rulnous de-this is the loss of perception for the colors red and green, which is confined to the central part of the retina. The diagnosis, however, having been made, the treatment is easy enough. Practically this resolves itself into the emphatic prohibition of all smoking. It is always best to give the patients in-structions to burn their pipes. As long as an old "trusty friend" is permitted to lie on the mantelplece or anywhere within sight and stripes. Our enterprising Cousin Jonathan reach the temptation becomes almost irresistible to disobey orders, and in the luxury of renewing a valued companionship to forget the strict injunctions against indulging in the habit which had been laid down. Almost invariably in these cases overindulgence is found to consist in smoking half

an ounce of shag dally-that is to say, when the surgeon asks the patient: "How much do you smoke?" it is seldom that any other answer is given than that of "about half an ounce of shag a day." The constancy of this reply is really remarkable. "Tobacco amblyopia" is almost unknown in connection with any other form of tobacco than that which is called "shag." In addition to the amblyopia the patients are distinctly affected with "tobacco tremors;" their hands are shaky, they are more or less nervous, and they complain of loss of appetite. Their com-plexions, moreover, are in that condition which may be described as "muddy," and which may be described as "muddy," and there is a characteristic expression of list-lessness in their eyes. But what are the results of the treatment? In most cases the surgeon may speak hopefully of the recovery of vision; provided that the patient absolutely or apprentices, and the other for members, coases to smoke, and certain treatment be improved to enable him to attend to his work | business.

in this country, occasioned by efforts of English capitalists to get possession of various American industries, says the Washington Post. Our brewerles were the most conspicuous objects of this movement, and many of them passed into the ownership and control of English syndicates. But the transfer was not effected without protest. Grave fears were expressed by numerous newspapers and public men that the consequences of such a change would be injurious to this country. In reply to this suggestion it was delicately intimated that in making bargains Jonathan was not at all likely to be overreached by John; that the properties were being sold for cash, and that the increase of money in the country was a very desirable thing. So, in spite of opposition, the sales went on for some months, and breweries. flouring mills, etc., were purchased by English syndicates at valuations considered in excess of those placed on them by assessors were located. In other words, the owners got their prices and the buyers were satisfied. Both sides were, therefore, in a happy frame of mind. But this mutual felicity was not destined to perpetuity. Almost every gale that sweeps from the east brings to our ears a wall from the English buyers. They claim that they paid too high prices for the cov-sted properties. Worse than that, they howl about "deception" and "fraud" practiced by "the unscruppious Americans." The earn-ing capacity of the breweries and mills has not come up to expectations. The looked-for dividends have not come to hand. The London Financial Chronicle says:
"If any class of enterprise looked promising

as an outlet for English capital it was the better sert of American breweries. They showed rapid development, ministered to a great and growing necessity and seemed to be embarked on a highly prosperous career. Unfortunately, the majority of the brewery ompanies floated over have belied expecta-ions and investors have consequently been

Another prominent British financial organ discourses after this fashion: "What with American railroads going into the bands of receivers, American mines turning out to be barefaced swindles and Ameristripes. Our enterprising Cousin Jonathan does not give us much of a 'look in' when he comes over here to scoop up our dollars. In nine cases out of ten he is associated with one of two things, an impudent fraud

A REMARKABE CURE,

A CASE OF PILES OF EIGHTEEN YEARS' STANDING.

Cared by the Pyramia Pile Cure.

There are plenty of pile cures which give relief and sometimes cure a mild case of piles, but there is only one which can be de-pended upon with certainty to cure obstinate long standing cases, and that is the Pyramid Pile Cure.

Endorsements and testimonials are re-ceived daily from men and women whose integrity and reliability are above question and in this connection a letter received from and in this connection a letter received from Rev. Jas. H. Wesbrook of Bowne, Mich., may be of interest to pile sufferers who have sought in vain for a cure. He says: I have used the Pyramid Pile Cure and I know that it is all that is claimed for it. I have been troubled with piles more for about eighteen years and had tried other remedies, but the piles grew worse until about ten moths ago I used the Pyramid Pile Cure. It gave almost instant relief and

I have been free from piles ever since. Rev. Jas. H. Wesbrook. The remedy seems to act equally well in every form of piles, blind, bleeding, protruding or itching. It stops all pain almost immediately, allays irritation and removes enstipation, and anyone who has suffered the annoyance and pain of a rectal trouble will appreciate the excellent results which invariably follow the first application of the

The Pyramid Pile Cure is prepared by the Pyramid Drug Co. of Albion, Mich., and for sale by druggists everywhere.

with one of two things, an impudent fraud of a colossal overcapitalization."

"Cousin Jonathan" did not go to England to sell the properties referred to—certainly not to sell mills and breweries. John came here—he came, he saw, and he thought he conquered. He exercised his own judgment in making purchases. Doubtless he paid too much in some instances, but that was his own mistake, made with his eyes wide open. If "fraud" was practiced our courts were open to hear complaints and redress wrongs. But if, as we suppose was the case, John simply made bad bargains in his voracious desire to invest, he should not make himself ridleulous by selling "feaud".
