LONDON, Nov. 15.—The Times tomorrow will publish a dispatch from Tien-Tein saying General Yeh reported that he was attacked at Amin Lung on November 1 by the Japanese troops, and that he succeeded in repulsing them. The Chinese general adds that the Japanese made a second attack on the position he occupied on November 1. on the position he occupied on November I, but it appears the Japanese were again repulsed and the Chinese pursued them toward Fung Wan, which General Yeh expected to reach soon after sending this report. The similarity between this defeat of the Japanese and the defeat they are said to have sustained at Motien on the road to Peking would make it appear the two engagements may be identical.

to the desire of the nation to celebrate the birthday of the emperor, which was on November 10 last. For two years the govern-ment has been gathering funds for the occa-sion. All of the provincial officials have been instructed to prepare gifts and collect sums of money to be taken to Peking as offerings to the emperor. When disaster overtook the Chinese forces in Corea the whole purpose of the government changed to the defensive, and the paramount wish was to keep Peking safe from invasion and capture. It was decided that the birthday peremonies and decorations sound be conempire were massed to preserve the capitol. FAKES PERPETRATED BY MAJORS MEN

Canards on Which They Say They Will Contest flolcomb's Election in Spite of the Fact that He Has Over Thirty-Two Hundred Plurality.

The antics of the Majors contingent in Omaha and Lincoln are decidedly amusing. While the official returns as certified to by county clerks conclusively confirm The Bee's figures, showing Holcomb's plurality to be 3,246, yet every day brings a new crop of roorbacks and rumors from railroad claquers alleging gross errors in the count, irregularities in ballots as issued by county clerks; that Majors has a plurality of the votes already returned to the secretary of state; that the attorney general-elect has given it out as his profound opinion that there are good grounds for a contest; that a fatal error has been discovered in the Knox county vote,

The B. & M. Journal yesterday morning aunounced under flaming headlines that a contest had been decided upon. Here is the way the subsidized sheet puts it up:

A careful reading of the article reveals only the discredited roorbacks that have been current the past week. The only fact stated that is at all tangible is the expressed opinion of A. S. It is known that Churchill met a party of railroad hirelings at Lincoln Wednesday, where it was decided that notice of contest would be filed some time before November 26, the date on which the time for commencing a contest will ex-

The effect of these contest rumors has been discounted by The Bee. It is known that they are put in circulation only for the purpose of creating doubt as to Holcomb's election, that the public mind may be prepared for the consummation of a conspiracy to count him out. It must not be forgotten, however, that many prominent republicans have repudiated the clamor for a groundless contest, and discountenanced the expressed hope that a legislature, largely republican, would vote to seat a man who had been

fairly beaten by over 3,200 plurality.

The Bee holds the official certificates of county clerks in all save three counties of the state, attesting the official vote cast for Silas A. Holcomb and T. J. Majors. The re-maining five counties lie off railroad lines and are sparsely settled, the vote being light. The Bee has the official vote of these counties as given in the table below: The Bee's incontestable figures give Hol-comb the decisive plurality of 3,246 votes, as
