OMAHA: of William Parks is Taking on a Most Practical Phase.

AFTERMATH OF A MURDER DONE IN 1870

Money Lying in the First National Bank for Twenty-Four Years Now Claimed by the State for the School Fund.

W. M. McFarland, secretary of state, is in the city looking up certain matters connected with the estate of William Parks, who has been dead for more than twenty years, but whose money, to the amount of \$5,000, is still on deposit in the First National bank of this city.

The money, which was deposited in 1870, is known probably to very few, even of those who knew him in this city during the 60s and 70s. He came to Council Bluffs in 1863, from St. Joseph, Mo., and hired out as a teamster for Edward Creighton, who was then engaged in building the first overland telegraph system between this city and the south.

During the winter, while the men were hauling poles from the mountains in Wyoming, they were caught in a big storm. They cut their coats and escaped their lives on foot, leaving the animals behind, as they supposed, to die in the snow and ice. When the springtime came they were back and were surprised to find that the oxen had in some way managed to get away from the camp, and that they were all dead, as they supposed, to die in the snow and ice.

Next week the ladies of the church will hold their annual social at No. 11 Pearl street. A sprandi variety from which to select is assured.

Bourgeois' music house has few expenses; high grammas are sold reasonably. 116 Stutsman street.

Ground oil cake \$1.30 hhd. at Morgan & Co.'s drug store, 134 Broadway.

Davis sells drugs, paints and glass cheap. Grand hotel, Council Bluffs, reopened Oct. 1.

Washerwomen use Domestic soap.

Congress of Growers. Tomorrow will wind up the annual exhibit of the Pottawattamie County Poultry and Pet Stock association.

The patronage has been excellent and the exhibit has been very successful throughout. Judge A. Y. Bicknell has done his work to the satisfaction of all, and no complaints were heard of the results of his findings.

That he has the right kind of an eye for a judge of poultry was shown by his success in picking one of the exhibitors in an attempt to "dicker" a defectively marked fowl.

A couple of white feathers in the wings were all that prevented the bird from being perfect, and he undertook to remedy that little defect by a judicious use of dye.

In looking at it Judge Bicknell noticed what an unpractical eye he would have had to test a bird that didn't use just the right kind of dye, my friend," said he to the owner, who happened to be standing near. He took a wet cloth and rubbed it on the feathers, and the dye came off, leaving the white feathers glaring the embarrassed owner in the face.

You Are Invited. To come with your friends to the Library party tonight in the Presbyterian church parlors.

The laundry use Domestic soap. Will Be No Game. COUNCIL BLUFFS, Dec. 6.—To the Editor of The Bee:

We notice in your paper a challenge from the Council Bluffs Junior foot ball team. We have twice defeated them fairly, and have firmly refused to play them again.

In regard to the challenge of Saturday we admit that two of their players were absent, but that was their fault, not ours, and it is a rather small excuse to make after being beaten so often.

We have no challenge from them and do not intend to do so, consequently it is impossible for them to claim a game against us.

HIGH SCHOOL JUNIORS. Gas cooking stoves for rent and for sale at Gas Co.'s office.

Domestic soap breaks hard water. SURPRISE THE FACULTY. Cornell College Greek Letter Societies ignore the Professor.

CEDAR RAPIDS, Ia., Dec. 6.—(Special Telegram.)—A sensation has been created at Mount Vernon by the distribution of a handbill containing extracts from the papers giving an account of the doings of the Sigma Nu fraternity of the city of Chicago.

The doings of the Sigma Nu fraternity of the city of Chicago, which were given in the handbill, served as a bomb exploded in the minds of the students of Cornell college, who were then in the city of Chicago.

The students of Cornell college, who were then in the city of Chicago, were so much incensed by the doings of the Sigma Nu fraternity, that they were determined to do something to bring the matter to the attention of the faculty.
