There was a Very Dull Session in Wheat Yesterday.

PRIMARY MARKET RECEIPTS LIGHTER

Advance in Corn and Strength of Closing Cables Were the Incentives to the Buying Which Closed Business So Firm.

CHICAGO, Dec. 12.—There was a very dull session in wheat during the greater part of the day, but it closed with considerable animation. Early weakness gave place to strength caused by better closing cables.

Compared with yesterday's closing prices, wheat is 1/2c, corn 1/2c and oats a small fraction higher. Flour, however, was lower.

Wheat opened firm at from 59 1/2 to 59 3/4c, and buyers at over 59 1/2c, although one "five" brought 59 3/4c. The small business here is chiefly responsible for the heavy receipts, but some of it arose from the fact of the principal shorts having covered yesterday and left the open interest confined to those who had sold May wheat against their holdings of cash and those who had bought at the same time.

The advance in corn and strength of closing cables were the incentives to the buying which closed the market. The crowd in the corn market was larger than for some time back, and there was an apparent nervousness among buyers.
