Mr. Lomax Describes What is Being Done Toward Forming a New Passenger Association-Pacific Hotel Company Not Closing Houses.

For the first time in months all of the heads of the departments of the Union Paday, with the exception of General Manager at no time has it entertained seriously the tioned as to the truth of the rumor originating in Chicago that Receiver McNeill of the Oregon Railway and Navigation company was endeavoring to have separate receivers apcointed for the Oregon Short Line and Utah forthern, inimical to the interests of the inion Pacific, Mr. Clark became the interlewer and asked about the weather in Nebraska, avoiding the direct question. "I have nothing to say in regard to the rumor." said he finally. "You can hear all sorts of ru-mors in Chicago, which seems to be made up of rumors. However, it would hardly be right for one of the receivers of the Union Pacific to talk of matters which are merely in the air and until something definite occurs I would prefer to remain silent," and silent he was on the very important item which if true means much for the Union Pa-

ific system. From another source, however, the proposition was laid down that Mr. McNelli was pursuing a course that could not help but be suic dal if persisted in. "He is greatly overestimating his strength," said the interviewed, "and seems to be running his system on boom principles when there is no boom and not likely to be any for some time to come. McNelll is growing aggressive and in that very aggression lays ultimate defeat. It is all very well for a man to do all he can for his system, but there is such a thing as overreaching and that seems to be in store for the major, who is becoming perniciously active in breeding dissensions in Union Pacific ranks.

ONE ASSOCIATION ENOUGH. Lomax Gives Bis Notion of the Matter o

Organization. General Passenger Agent Lomax of the

Union Pacific is not overly enthusiastic at the work being accomplished by the representatives of the lines endeavoring to form a transcontinental passenger association. In fact, he said that at the present rate of progress the representatives might talk until next June and then fa'l of accomplishing next June and then fal of accomplishing their desires. From him it was learned that it is the intention of the lines to establish one large association with subdivisions, as the transmissouri association, the transcontinental association, the Texas association, the Chicago and Missouri river association. Nothing has been mentioned of the Montana situation and the part Montana rates play with Utah rates, and if Montana rates play with Utah rates, and if a transcontinental association would be formed what effect it would have on rates through Missouri river gateways to Mon-tana, Utah and Colorado. He said all had been voting "aye" on all propositions looking to an agreement, for the reason that they desired the committee of the whole to take up the questions seriatum. "Un-less all lines agree to participate in the agree-ment you can readily see how useless an agreement would be. Upon the question of differentials between the Canadian Pacific and other transcontinental lines the whole matter has been left to a committee com-posed of Mr. Newman of the North-western, Mr. Truesdale of the Rock Island, Mr. Stubbs of the Southern Pacific, Mr. Mc-Nichol of the Canadian Pacific, and myself, with power to formulate an agreement rela-tive to this business. But when our work is done the whole matter is to be referred the lines in interest, and no one can tell what the action of Mr. Chariton of the Alton will be, or Mr. Heafford of the Milwaukee They may insist that differentials are inimito the interests of their companies, in which case our work will be fruitless. This is only one of the many contingencies that may arise. We have simply been separating the wheat from the chaff, and when an agreement has been reached we have tagged the matter and put it to one side for final action when our labors have been completed. Beyond this nothing has been done. There has also been a tacit understanding that transcontinental rates are to be ad-

As to the salaries of the re-ceivers, he stated that the government had appointed two of the five receivers for the reason, as he supposed, that the government thought its interests under the recent decision of the suprem ourt. The matter was referred to the Hense committee.

An ordinance was introduced making the limit of a fine for assault \$190 or thirty days or less in the county jail.
At the last meeting of the council the ngineer was instructed to inspect the pav-ng on N street between Twentieth and Twenty-fourth. His communication stated that some inferior brick had been removed for many branches and in many states in which bonds to a large amount had to be given. Instead of apportioning the salaries to the various branches Judge Sanborn had simply made an order for direct salaries to by the contractors, and that in his opinion there was still some more bad brick that should be taken up.
