Young Ladies in Burnt Cork. FREMONT, Neb., Jan. 16 .- (Special.) -- One of the great events of the season in Fremont was a minstrel show at Love's opera house last night for charity's sake, in which the with burnt cork in the regulation manner. There was a good sized audience, and the affair was successful, as a show and as a

money maker. It was gotten up by the ladies of St. James' Episcopal church. In district court W. P. Gochenour had case against the village of Scribner, in which he claimed \$2,050 damages. He was arrested for peddling without a license, and was in fall for a time, and the damages claimed were for lacerated feelings and loss of reputation. After hearing the evidence and arguments Judge Marshall instructed the jury o find for the defendant, which was done Gochenour also has a case of the same kind against the village of Hooper, which is be-ing tried. Settle His Shortage.

BENKELMAN, Neb., Jan. 16 .- (Special.)-Ex-County Clerk O. A. Williams departed for Illinois Saturday, where he expects to reside in the future. He succeeded in settling the shortage with the county of from \$300 to \$500 while the commissioners were in session.

The relief committee of the Grand Army of the Republic post, Women's Christian Temperance union and other orders and private parties are receiving considerable aid to distribute now, and there is no reason for to distribute now, and there is no reason for any one in this vicinity going hungry or cold. County Treasurer J. C. Ough will retire from the mercantile business, having traded his stock to his brother, Hank, who has moved it to Wauneta, in Chase county. Dundy county will be in it next season if irrigation has any virtues. In this immediate vicinity five private ditches are completed, each ranging from six to ten miles in

pleted, each ranging from six to ten miles in length. The next tangible question to solve is how the people are to procure seed. Oil Was Not Inferior.

PLATTSMOUTH, Neb., Jan. 16 .- (Special Telegram.)-L. F. Hilton, chief of the state oil inspection corps, came down from Omaha this morning for the purpose of investigating the charge that the recent lamp explosion near this city, in which Farmer J. F. Stull was so badly burned, was the result of inferior oil. A sample of the oil was secured from the Stull family, and the same was lasted by the inspector in the presence of tested by the inspector in the presence of several interested parties. The oil successfully steed a test of 108 degrees, eight degrees more than is required by law. The result leaves the cause of the explosion more of a mystery than ever, although the inspector was inclined to believe that some gasoline had inadvertently been mixed with the oil. inspector still insists that he will pay \$100 for a pint of oil on sale in the state which will

not stand the test required by the statutes.

AGAINST TRANSFER SWITCHES. Judge Chapman Declares that the Law I

Unconstitutional.

PLATTSMOUTH, Neb., Jan. 16.-(Special Telegram.)-Judge Chapman has handed down his opinion in the Holt county transfer switch case, wherein it was sought by the State Board of Transportation to compel the Fremont, Elkhorn & Missouri Valley and Sioux City, O'Neill & Western railroads to put in a connecting switch at the town of O'Neill in accordance with the provisions of the transfer switch law enacted by the legislature two years ago. The law is said to be unconstitutional, the principal reason being that the law falls to properly amend and repeal the old law pertaining to the construction of transfer switches. In his the judge cites section 2, article 3, In his decision state constitution, which provides that no law shall be amended unless the new act contains the section or sections so amended, and the section or sections so mentioned shall be repealed. Judge Chapman heard the case at the request of Judge Kinkaid, who presides over the district of which Holt county is a part.

City a Winner in a Little Damage Suit-

Other Cases. Judge Duffle has decided the damage suit brought by Felder against Omaha in favor of the city. The suit was for \$300, which the plaintiff claimed had been awarded him for damages sustained by the filling up of Poppleton avenue, near Fourth street, in front of his residence. He based his claim on an ordinance passed by the council stating the necessity of filling the street. As-sessors were appointed to adjudge damages in case the work was done, and Felder's damages were put down at \$300. The council, however, never passed an ordinance or-dering the work. From the evidence it was shown that the street had been used as a dumping ground for the earth taken from other grading by contractors, as it was not up to the requisite grade, but it has not been ordered done by the city. Judge Duffle stated that, although the neople had been abused, he could not render a judgment in their favor, as it would be a dangerous precedent to hold that an agent of the city, in this case the engineer, could bind the city to damages by ordering the street to be filled without the allirmative action of the council.

The motion to reverse the decision of a justice court in the case of the Lemp Brew-ing company against Constab's Saussay has been overruled and the case dismissed. A motion for a new trial in the case of Sadie Clapp against Van Gilder was denied by Judge Duffle. This is a usury case, in which a judgment was given in favor of the plaintiff. The grounds on which the motion was based were that the defendants were not present when the case was called, be-cause they relied on the statement of the balliff that the case would not be called up

for several days.

TRAIN CREWS AND AGENTS INTIMIDATED

Grand Jury Crowns the Work of Detective Canada and Other Employes of the Company-Systematic Mathods Used by the Robbers.

The federal grand jury has indicted Milton Slosson, George Johnson, Charles Bailey, George Radel and Miller Marmie on a number of counts in which they are charged with a somewhat bold and extensive practice of robbing coal trains on the Union Pacific railway. For months there seems to have been an

organized gang of coal pirates at work along the line of the Union Pacific in this state. On December 6 train No. 24 from the west reached Paxton at 8:25 p. m. and stopped for water. Frank Roberts, the night operator, saw three men climb upon a that they commenced to steal coal. When Roberts reached the car they had two tons on the ground and were still helping themselves with no limit to activity.

Roberts commanded them to stop. The next instant one of the men, who he testi-fied was Marmie, shoved a big revolver in his face and with an oath told him to stand back. Roberts was unarmed and complied with the request.
Roberts retreated to a neighboring house,

where he got a large-sized shotgun, and re-turned to protect the company's property. It is said that after an exchange of shots, in which nobody seems to have been hurt, and the reinforcements of the train crew the coal thieves were routed.
On the night of January 5 Slosson, Bailey and Johnson robbed an eastbound freight train at Clarks. O. P. Richmond dis-

covered them and reported the affair to the

It is said that several of the above named men stopped at the house of Hansen, a sec-tion hand, residing near Paxton, and it was from the clew obtained from Hansen and Night Operater Roberts that Special Officer Canada worked up sufficient evidence to be-lieve that with the indictment of these mer an organized band of coal bandits on the Union Pacific would be broken up. The mat-ter was referred to the district attorney and the federal grand jury found a true bill against the parties named, several days ago.

Shadow of a Crime. People in the federal court room a fedays ago were not aware of the fact that one of the defendants before the bar of justice, who received a light fine, was none other than a defaulter from an outlying Nebraska county, who was favored with a political office in his county but a few years ago, and was arrested and tried in a district court for a shortage of \$3,500, which he could not make good. The case was decided adversely against the defendant. He was sentenced to three years in the penitentiary but pending the hearing of an appeal to the supreme court he was released on bond. In the meantime he got into fresh trouble and was brought before Judge Dundy, receiving a light punishment for a compara-tively trivial offense against the statutes

before the bonds will be formally accepted by the court. Counterfeiters at Work. A large amount of spurious silver quarters and half dollars have lately been shoved in Omaha, South Omaha and Council Bluffs.

and Secret Service Officer Walker will make TAKE STEPS in time, if you are a sufconsumption, and vor hundreds of livstages, consump-tion is a curable disease. Not every case, but a large percentage of cases, and we believe, fully 98 per cent. are cured by Dr. Pierce's Golden Medical Dis-

covery, even after the disease has pro-gressed so far as to induce repeated bleed-ings from the lungs, severe lingering cough with copious expectoration (including tu-bercular matter), great loss of flesh and ex-

bercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misrepresenting them, and who were often who have no interest whatever in mis-representing them, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to confess that it surpasses, in curative power over this fatal malady, all other medicines with which they are acquainted. Nasty cod-liver oil and its filthy "emulsions" and mixtures, had been tried in nearly all these cases and had either utterly failed to bene-fit, or had only seemed to benefit a little for fit, or had only seemed to benefit a little for a short time. Extract of malt, whiskey,

and various preparations of the hypo-phosphites had also been faithfully tried in vain. in vain.

The photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies, have been skillfully reproduced in a book of 160 pages which will be mailed to you, on receipt of address and six cents in stamps. You can then write to those who have been cured and profit by their experience. perience.
