Twenty-six degrees was the lowest temperature that was noted, and even that record was surrounded by a haziness that detracted very much from its reliability. John Coyle, who lives down near Manawa, came all the way up from the cypress groves and banana plantations that surround his home to tell about how his thermometer registered 24 degrees below zero when he got up. At the Terminal company's thermometer registered 24 degrees below zero when he got up. At the Terminal company's bridge the record was 20 below, and at the Omaha and Council Bluffs company's office it was the same. At 7 o'cclock at the power house of the Council Bluffs Water Works company on Broadway, near the river, the temperature was 18 degrees. this afternoon when Harry Hayward for the first time since his arrest saw his brother Adry, who had confessed. It was a strange sight. Harry looked full in Adry's face, with a smile, and, as if in obedience to the sum-mons, Adry rose half reluctantly, and the hands of the two brothers, pitted against states could house, custom house and post-office building now being erected at Omaha. In reply you are advised that the next con-tract to be awarded on this building will be for the roof, for which it is hoped that proposals will be invited during the present month. The drawings for the interior finish, plastering, folner work, hardware, etc., will not be completed until about six months from this date, but no delay will be per-mitted on the actual work of construction. In reply to your inquiry relative to pro-posals for the stone and brick work for the superstructure of the United S ates postoffic; and court house building at Kansas City, Mo., you are advised that no decision has yet been made as to the award of the con-tract, nor as to what kind of stone will be used. Respectfully yours, Acting Supervising Architect. Mr. Mercer also received the following com-

Air. Mercer also received the following com-munication: Sir: I have the honor to acknowledge the receipt of your letter of the 24th uit, with enclosures requesting critain information relative to the federal building now being erected in Omaha. In reply I have to state that the plans and specifications for the furring, lathing and plastering for this building have not yet been completed and it has not been definitely decided what kind of plaster will be used, but it is the present practice of this office to specify lime mortar plastering for buildings under its control, and no special patented articles are named in specifications. Brick and terra cotta floor arches and terra cotta covering of columns will be used for fireprofing the building. Should the company herein named desire to submit samples of its work to this office and will forward the same, charges prepaid, they will receive consideration and be placed on file for reference. Respectfully yours. Acting Supervising Architect. Congressman Mercer says he feels confident

Congressman Mercer says he feels confident that the Treasury department intends to do the fair thing by the Omaha building and will hasten its completion.
