trict court and be given a hearing. It now appears quite probable that Judge made no move in the matter, it being the this benefit? Is it not made for all the peocourt at Deadwood and open the term here about March 1. It is expected that Outcalt, ex-cashier of the defunct Capital National bank, will then be tried.

Because Senator John B. Wright has secured, by resolution, the use of the senate chamber next Monday night for a reception to brother senators, a rumor has gained currency that this is a portion of the machinery attached to his mayoralty boom. But this idea is given the laugh by all who have been invited.

Today Crawford, the man from York, arrested and indicted for mailing obscene letters and pictures to an estimable young lady of his town, was released on bail. He term of the federal court.

TO LEASE THE LINCOLN. The Lincoln hotel is still waiting for a iew proprietor. George R. Dunne, general auditor of the Burlington, of Chicago, and E. K. Criley, formerly proprietor of the Wirdsor hotel of this city, now of the Hotel Metropole, Kansas City, are in town, and the latter is said to have his eye on the

Lincoln with a view to prospective connec-tion in the shape of Boniface. Deputy Marshal Hubbard has returned from Fort Scott, but without the man Wells whom he was after. Wells, who is charged with mail robbery, refused to leave without an examination, and the illness of the commissioner made it impossible to procure an

mmediate hearing.
This morning the Lincoln Confectionery company closed its doors and is now in the hands of the sheriff. It has confessed judgnent in favor of the First National bank of this city for \$11,985, and the Hillside Savings bank of Hillsdale, Mich., for \$4,176. The invoice was completed today. Nominal assets are placed at \$49,000 and the indebtedness will reach about \$30,000. It is thought it may pay about \$20,000. The capital stock was \$30,000, and a provision required that the indebtedness should not reach more than

PASSED WORTHLESS PAPER. Grocer Arenson today informed Mayor Veir that one of the \$2 scrip bills sought to be issued by this city several years ago had been passed upon Mrs. Arenson last night as good money by a woman who made a 15-cent purchase and received the change in good money. The mayor's name had been forged to the scrip, as had also the city clerk's. At the time the old State bank was torn down this scrip had been scattered. The mayor has received speci-mens of it from Iowa, Missouri and other tates, where it had gained fraudulent cir-

Superintendent of Public Instruction Corbett is now at Cleveland, O., in attendance on the National State Superintendents' asso-ciation. He is expected to return tomorrow. SOLUTION OF THE DROUTH PROBLEM. The chancellor of the Nebraska Wesleyan university has written the following open letter to the public on the subject of a fast day as a solution of the drouth problem: That we are in peril as a state is too plain to require a statement. Another year of failure will down the great portion of

our business and the institutions depending upon it, such as schools, churches and benevolent enterprises. That God can change conditions if he sees best is certain. Does it not well become us to inquire whether that cause may be found in us, the people? Our God deems right character more valuable than crops and cattle and material thrift. Should He see in us that change which all men know we need, what blessings might ensue from his hand, both moral and material! This is just what the bible declares has often taken place, and will take place again when men comply with the conditions. Is it not wise to make a test? With it heartily entered into by the majority of our citizens, Nebraska would scarcely recognize herself on account of the great change for the better.

account of the great change for the better.

Bishop Newman, whose residence is in Omaha, suggested some time ago that a day of fasting and prayer be appointed to reach the above named end. That suggestion met extensive approval; and now comes the proposal to set aside February 27 as a day of special fasting and prayer to the God of harvests. Dare we go on into the perils and dangers, gloom and wreckage of another such year as the past without an effort at self-examination, humiliation and prayer for forgiveness, righteousness and help? Should any scoff or neglect, upon them will rest the perilous responsibility. Let all who are wise in the deepest and widest sense fall in with the suggestion, without regard to party or creed, and call upon our Father on that day.

True, this comes without formal eccle-

creed, and can open our rather of day.

True, this comes without formal ecclestastical or civil authority, but the people
constitute the highest authority in all such
matters of liberty. Let them, led by their
local spiritual leaders, or individually, come
before God with sincere humiliation, fasting and prayer, and see if He will not open
the windows of heaven and pour us out
such a blessing as there shall not be room
enough to receive. I. CROOK,
Chancellor Nebraska Wesleyan University.

KEARNEY, Neb., Feb. 20.-(Special.)-The friends of Officer George Overmier are congratulating him today on having received \$250 from Iowa as his half of a reward offered for the arrest and conviction of George Davis, who was wanted for the killing of the city marshal of Missouri Valley about a year ago. Mr. Overmier was really entitled to the full reward of \$500, as he had seen the man, but as John Vizzard, a detective for the Union Pacific, was here and had a photograph of the man, Mr. Overmier made the arrest on the strength of the photograph and offered to divide the reward with Mr. Vizzard when it should be paid.

The citizens of Riverdale township held a meeting last Saturday night, and after condemning the act of the Kearney county parties who broke into a car loaded with relief supplies in most emphatic terms, passed the following resolution:

Resolved, That we, the citizens of Riverfale township, denounce such action as
unlawful, unnecessary, and an insult to
citizens asking for relief, and we ask the

authorities to take such steps as are necessary to prosecute the guilty parties to the fullest extent of the law. The parties who broke the seal on the cars have been bound over to district court.
V. G. Lyman, formerly bookkeeper for the

Cogent Reasons Why Nebraska Should Give Ca Liberal Bounty to the Home Producer

CHAPMAN, Neb., Feb. 19.-To the Editor

of The Bee: To the foolish talk and the combined fight of the World-Herald and the free trade papers against the sugar industry and bounty I submit the fellowing reply: I admit it may be wrong to tax all the people and give a benefit to a few, but what means attention to a plant which, by proper cultivation, even in the driest season, gives a ern states? Is it not the duty of the state administration to educate the people and extend its aid in a commercial crisis like we have now, where the market price of duction, and even the price of beef and pork has sunken so that the farmer cannot raise cattle and hogs profitably? The market of the main products from the western states is destroyed by fearful competition from Argentine, Australia, India and other coun-tries before the products of our soil reach the seaboard for exportation. The products of these countries prevail in the market of Europe simply because these countries are surrounded by water and have only to stand the ocean freight, which is very cheap, and

they have, besides, the advantage of cheap Concerning all this, I have to say to the free trade crank, is it not the duty of the state and government to call the people's at-

tention to raising the products which we now import from foreign countries, of which sugar is the leading article? The total consumption of sugar in the en-tire United States in 1894 was 2,024,648 tons. serious stabbing affray took place yesterday of which there came from Cuba 1,005,761 afternoon at a school house about four miles tons; Porto Rico, 31,402 tons; Demerara, 45,952 northwest of this city between two boys. Patrick Dalton and Fred Calvert, who are about 14 years of age. Dalton received a cut about two inches long and the full depth of the blade in his left arm. It severed an artery and came near costing Dalton his life from loss of blood. The trouble had been of long standing and was on account of a girl.

West Indies, 122,557 tons; other West Indies, 133,894 tons; Sandwich islands, 150,845 tons; Europe, 164,325 tons; other countries, 15,137 tons; the total imported being 1,804,866 tons, while only 305,800 tons was home product. There is an immense stock of signar now in the market of the United States, shipped in before the new tariff law came in effect. There are 1,973,000 tons lying in Cuba and other Indian islands, which that Clifton Hinckley, an old Ashland boy, generally go to the United States, and if northwest of this city between two boys, | tons; British West Indies, 122,557 tons; other generally go to the United States, and if crowded out of use here by the 1,000,000 tons saw, cannot possibly recover, as the wound surplus beet crops of Europe it will be be-refused to heal and all hopes of his ultimate cause of a competition of low prices. During cause of a competition of low prices. During the entire administration, therefore, the preswas born and raised in Ashland and this will ent tariff law is rendered ineffective, especially in the near future, and without the stimulus of a bounty law the domestic sugar industry will die or sleep until the country is saved again from the hands of American in-

The countries whom we patronize in buying

their sugar have very cheap labor, not ex-ceeding the rate of 25 cents a day, and labor s the main object in the sugar industry. If a man sees the number of hands working in a beet field or factory and sees the pay roll Saturdays he is surprised. Now, why should we support the laboring people of Cuba and other Indian islands, or of Europe, and leave our people without employment; for what purpose do we patronize the Sugar trust, which WATERLOO, Neb., Feb. 20.—(Special.)—
The oleomargarine bill is causing much uncasiness in this section. There are about 100 farmers owning and milking from ten to sugar this trust must fall. Is not our soil as furnished work to thousands of hands. It t not worse than stupidity to destroy the American sugar industry and build the sugar industry of foreign countries, when by a few years' bounty or duty on imports we could stimulate sugar-making in America so that we would produce every pound that we consume, and keep more than \$150,000,000 which we now send abroad every year in active circulation in our own country, besides affording paying employment to thousands of farmers and laboring men who would otherwise be compelled to compete with other farmers and laboring men for employment in production of corn and wheat, that is already overdone? Has not the sugar in-dustry in every country been promoted, fostered and protected by a bounty law for several decades? Even an export bounty is now paid in every sugar producing country, Would the European states, who have double as much debt as the United States, do this

> invested in sugar property, based on good faith in the government, and the government was bound, in all honor, to maintain raise capital for building up this industry which promised so much to our Regarding Nebraska's beet sugar industry I have to say that its existence and pro-gress depends on the passage of the bounty bill. The Oxnard company built the present factories in good faith and spent more than a million dollars in this state, but in place of receiving thanks the protection was taken off as soon as the factories were finished. If each fool who is against protection of this industry, in claiming the profit would be too large, thinks there is too much money in it, he might go ahead and raise beets and produce sugar. I, as an expert, will tell him that even with protection he can lose money if he has not experience in the busi-ness. Washington and North Dakota have passed a bounty law, and Utah, Oregon and Colorado each have one before their legisla-tures, but Nebraska has the reputation as a sugar state, and the present legislature should keep up this reputation and not suffer this industry to decline, so that the same may bring credit to Nebraska soil and pros-

if they would not be convinced that this sugar industry is bringing an immense pros-

perity to the people and country? The Mc-Kinley bill did do the same, and under that

stimulus of bounty law the sugar industry

did grow rapidly. The bounty contract was made until 1905, and a barrel of money was

Distributing Relief at Shelby SHELBY, Neb., Feb. 20.—(Special.)—The streets of Shelby were more crowded yesterday than at any other time this year. The town people were out enjoying the warm weather, while those from the country came in to witness and partake of the distribution of two large wagonloads of provisions that had been sent by the State Relief commission. It was noticeable that very few residing in the town and the immediate neighborhood applied for aid, but many a home in the rough lands of the Platte north of here was made happy by the sack of flour, the jug of molasses and the bundles of second-hand clothing.
