SPEAKER OVERRULED THE HOUSE RULES

Protest Filed Against His Autocratic Ac tion, but it Did No Good-Bill to Oust Dorgan Passed-Salary Bill Sent to Conference.

LINCOLN, April 2 .- (Special Telegram.)-Speaker Richards again demonstrated today his ability to override the minority of the house by sheer force of numbers and reckless fgnoring of all rules of the house and parliamentary practice. When the clerk had commenced to read the journal the usual motion was made to suspend the rules and dispense with the reading. Barry objected to this, called for the reading to proceed in full and quoted the house rule, which provides that such shall be the course unless unanimous consent is secured for dispensing with the reading. The speaker ruled him out of order . ad Barry appealed from the decision of the speaker, but the latter was sustained by the house by a strict party vote.

Barry then asked permission to file a protest and have it recorded in the journal. The speaker told him to write it out and send it up, and he would look at it. Barry's object was to ascertain what the journal showed of the queer proceedings had yesterday concerning the Omaha fire and police commission bill, House Roll 139. Howard yesterday made two or three telling points agginst Richards, but it was thought doubtful if any of his points of order or protests were spread upon the records of the house.

OMAHA CANAL BILL MAY PASS.

The Omaha canal bill, senate file 181, was in committee of the whole, recommended today for passage. One of the most important amendments adopted was striking out the word "irrigation" in every place where it occurred in the bill. The measure provides that any county in the state is authorized to issue bonds to the amount of not to exceed county for the purpose of constructing a canal through the county for navigation, water power and all other purposes except Irrigation

Senate file 13, Pope's bill to provide for the sale of food and drugs in a pure state, to prevent adulteration and providing for a pure food commission, was knocked out. The provisions of the ill-fated measure were almost identical with United States Senator Paddock's pure food bill, which at one time created considerable interest in congress.

house passed Cole's immigration bill today, but it was a long time doing it. There vere two calls of the house and then it failed of passage with the emergency clause. This measure is in the interest of J. W. This secretary, in reality, will be the board and his duties will comprise the collecting and distribution of statistics calculated to induce immigration. In addition to this the secretary is empowered to examine hotels and lodging houses for the purpose of inspecting fire escapes. ROUTINE OF THE MORNING.

When the clerk had commenced reading the journal this morning Chace moved that the rules be suspended and the reading of the fournal dispensed with. SUNATE BOTHERED BY THE LOBBY.

Boosters for Private Blils Take Up the Time of the Members.

LINCOLN, April 2 .- (Special.) - The senate commenced its daily grind in the midst of considerable confusion. The lobby was unusually large, and a great deal of button-10 per cent of the assessed valuation of the holing was in progress. The senate is being importuned every moment of the day to pass this bill or that bill for the benefit of private individuals. Some of these bills provide places for new officials. Some enable indito accomplish their own private ends. iduals Few of them are of importance to the state at large. The senate has enough to do if it will confine itself to the work of passing the

appropriation bills. After the reading of the journal a number of reports from standing committees were received, among them being the following: House roll No. 208, providing for the proper defense of various suits commenced and now ending in the federal court attacking the constitutionality of an act entitled "An act to regulate railroads, to classify freights, to

provide penalties for the violation of the it," approved April 12, 1893, and to appropriate funds to pay the expenses, including witness fees, court costs, traveling expenses, the words: printing and attorneys' fees already incurred

and to be incurred, in connection therewith. The committee on claims recommended that the bill be advanced to third reading and The committee on banks and currency the bill. ommended the passage of house roll No. 101. This is the new banking law, introduced in both houses. Each branch of the legislature passed its own bill, but as amended the house

bill was the most acceptable. Several sen-ators, however, desired to add one or two amendments, and it was therefore made a special order for 3 o'clock. Wright made another effort to bring up the Lincoln charter. He moved that it be or-dered engrossed for third reading. There

were signs of protest and the senator withdrew his motion. The senate then read for the third time

and passed house roll No. 550, a bill intro-duced by Davies, to amend the law defining the manner in which proposed amendments to the constitution may be voted upon. The gambling bill introduced early in the session by Hahn, and which was so radically

GOLDEN ROD THE CORRECT THING. Senate Concurs in the House Selection of 1 Floral Emblem for Nebraska.

LINCOLN, April 2 .- (Special Telegram.)-One of the incidents in the senate was the little debate between Senators Sprecher and

Sican over the proposition to designate the golden rod as Nebraska's floral emblem. A joint resolution friendly to the golden rod has passed the house, and it came up in the senate for final passage. Senator Sprecher sought to substitute the violet for the golden rod, and in support of his motion made what is by unanimous consent conceded to be the address of the session. It had evidently been carefully prepared, and was as eloquently expressed as it was beautiful in conception

Senator Sloan championed the golden rod in an argument worthy of comparison, but evidently delivered on the spur of the moment The golden rod triumphed, in spite of the poetic eloquence of Senator Sprecher. Expenses of Junketing Committees LINCOLN, April 2 .- (Special.) - The bills

A writ has been issued from the supreme court to the clerk of the district court of Grant county to do something which the clerk does not understand. · What is Death?

Not many folks speak dead languages nowadays and it's very hard to find out. Death is very foolish in some cases. Lots of folks die every year that could postpone it as well as not if they'd use a little common sense. Are you getting all run down? Getting consumption, are you? Doctor says you are in a bad way, does he? Do you want to die? If you do, don't try our kind of medicine. If you want to live, take Ozomulsion. It only costs a dollar to try it. It can't hurt you. There's not much in it but cod liver oil and guaiacol. The doctor probably gives you the common cod liver oil now. But this is ozonized. How's that done? That's our secret. That's what helps the cod liver oil and guaiacol to go where it will do the most good. Try it. It will make you hungrythings will look better to you-you'll eat more-you'll get more flesh on your bones-you'll begin to build up -you may get better right away. If one bottle helps you ever so little, you've started in the right directiontry another.
