COMMERCIAL AND FINANCIAL

Wheat Broke Sharply on Numerous Reports Touching Chicago's Supply.

Until Within an Hour of the Close Little of Importance Transpired in the Oats Market-Free Offerings Caused a Sudden Drop.

CHICAGO, April 11.-Wheat broke sharply on the report of the loading back into elevators of wheat that had been held in ves-sels, May closing %c lower. May corn lost 4c. May oats lost 14c and provisions finished at a decline. The government report, which gave the condition of wheat at 814. made very little impression on the market. The prices opened just a shade under the rate ruling at the close of yesterday's ses-gion, but soon the slight decline was taken advantage of by some of the shorts to lessen the bulk of the previous sales. May sold at 55c at the opening and eased off to 64%c, which latter was the point at which the shorts bought. The buying by shorts got a further incentive from the reported sale of 10,000 bu, of wheat taken for shipment to Baltimore early in the forenoon. The price rose to 55\gc under that and rumors of the likelihood of considerable more being worked before the day was over. The northwestern receipts were light, Minneapolis and Duluth reporting only 200 cars, compared with 330 the corresponding day of last year. Liverpool was quoted unchanged in price, but holders very firm. New York wired here early in the day that foreigners were free sellers of distant futures in that market. At the advance named above, Pardridge and those who had calls likewise sold with considerable confidence, and owing to the further fact on tomorrow there will be no session of the Board of Trade, the bullish feeling was Board of Trade, the builtsh feeling was suppressed for a time and the early rise was lost, the price getting down again to 55c. At about that stage it became rumored that an operator who had carried a lot of wheat all winter in vessels, because it was cheaper to do so than to pay the regular storage charges, and had reserved the privilege of unloading it back into the elevators again, had seen fit to exercise the latter privilege. The market had a further break when the latter report got into circulation and it sold as low as 50 c for a few minutes and closed with buyers at that.

Corn was strong early and weak late. It opened at 45 c for May, sold off to from 45 c to 45 c and closed at 45 c, tumbled back to 45 c and closed at 45 c. The receipts were 105 cars, and 120 are estimated for tomorrow. The advance at the start was on a good demand for May, which started some shorts to covering, although the early buyers of May sold to an equal extent. The latter weakness was due to the drop in wheat.

Until within an hour of the close little of importance transpired in the oats market.

Until within an hour of the close little of importance transpired in the cats market. The feeling was firmer and prices somewhat higher on fair buying and sympathy with wheat and corn. The change in the situation was sudden and unlooked for. Almost everybody was offering stuff at one time, longs, elevator people and the crowd in general. J. Lindeman and N. B. Ream were probably the heaviest disposers. The early advance of fron 'lec to 'ke was lost, besides 'ke additional. May started at 29c, sold up to from 29kc to 25%c and dropped to 25%c, at which price the market closed. The provision market opened strong and closed weak at 15c loss for the day in pork, be in lard and 7½c in ribs. The hog receipts were 22,00 head, with 17,000 head estimated for tomorrow. The weakness was the break in the grain markets.

Estimates for Friday: Wheat, 35 cars; corn, 130 cars; cats, 190 cars; hogs, 17,000 head.

The leading futures ranged as follows:

STOCKS AND BONDS.

Securities Were Strong Again on Light Trading and High Values. NEW YORK, April 11.—The stock market was strong again today on light trading and a higher more of values was established in most of the stocks dealt in. In view of the closing of the board tomorrow and the Lendon exchange stocks dealt in. In view of the closing of the board tomorrow and the London exchange from this afternoon until Tuesday morning the transactions for the foreign account were limited. The only stocks which were at all active were chicago Gas, Sugar and General Electric. The announcement that the new board of aldermen of Chicago had repealed the ordinance granting franchises to the Ogden Gas and Cosmopolitan Electric companies, which were satagonistic to the Chicago Gas company, and the mayor had approved of the repeal, induced a heavy buying movement in Chicago Gas in the early dealings, which sent the stock up 1% per cent. Buring the afternoon Chicago advices reported that the attorney for the Ogden company held the repeal to be void, as it would abrogate contracts which have been entered into by the company, and on this the liquidating sales were made, chiefly to take profits. As the result the stock reacted I per cent closing at a raily of 1½ per cent and ½ per cent higher than on yesterday. Sugar fluctuated between 10½ and 10½4, closing at 103, which is ½ per cent below yesterday's sale. The trading in the shares was mainly confined to the holders who desire to realize profits and shorts who wanted to close out their accounts over the holday. A report originating in Boston to the effect that the General Electric and Westinghouse people had reached a basis of conference induced purchasing of the stock, after an early decline of % per cent, and moved the shares forward % per cent. In the afternoon trading a break of 1 per cent was made on a denial of the story, which led to section. or the stock, after an early decline of % percent, and moved the shares forward % percent. In the afternoon trading a break of 1 percent was made on a denial of the story, which led to seiling, a goodly part thereof being for the Boston account. A final rally of % percent book place, making the loss on the day ½ percent. New Jersey Central was sold down % percent in the opening trading, but a covering by the shorts advanced the shares 1% percent, closing within % percent of the highest. The Leather shares made further gains, the common is percent and the preferred 3 percent.

The general market closed steady at from % to 1% percent higher on the day, the latter Baltimore & Ohio. The other gains were merely fractional. Some few shares show losses, including Cordage, 1% percent, and Wheeling & Lake Erie preferred and Susquehanna & Western preferred, 1 percent. The bond market was active and strong during the day. The Atchison issues were the feature of the dealings and on purchases aggregating f812,000 the seconds jumped percent to 22½ and the fours 1% percent below the highest of the day. The total sales were \$1\$11.000.

The Evening Post's London cablegram says: \$1,911,000.
Evening Post's London cablegram says:

The Evening Post's London cablegram says:
The decrease in the coin and bullion in the
Bank of England this week is due to the cash
gone into circulation for Easter holiday and
other requirements. The decrease in public derosits is owing to the distribution of the dividend on consols. The net gold imported for the
week was fals,000. The Argentine minister denies any complication with Chili. The new
American loan was over 7 per cent premium
today. The stock markets were good right up
to the boildays, silver securities being specially
firm and Argentine stocks having a recovery.
Americans were generally is to is per cent better.

OMAHA LIVE STOCK MARKET Mixed, \$4.50@4.85; lights, \$4.50@4.75; Yorkers, \$4.60@4.75; SHEED-Recoipts, 1,400 head; shipments, \$60 head; market steady, unchanged.

cow best, and desirable fat cows and heifers sell about the most readily of anything coming to market. There was one bunch of cows here that brought \$4.25, and a few heifers sold as high as \$4.50.

There was a great plenty of stockers and feeders in the yards, but, as was the case yesterday, the disposition to buy was wanting. The market today was, at the least calculation, 25c lower than last week. The feeling today appeared to be that the decline of this week has brought the market down to a point where the cattle are well worth the money. There are several buyers in the yards who want big strings of cattle, and when the price gets down so as to meet their ideas there ought to be a good active market. Representative sales:

HOGS—In addition to the fifty-two fresh loads of hogs on sale this morning there were an even 1,000 carried over from yesterday. The receipts today were about the same, so far as numbers were concerned, as on Thursday of last week, when fifty-four loads were counted in the yards. The average quality of the hogs was about the same as yesterday, there being a few good heavy hogs and a good many light and medium weights. The conditions governing the market were clearly on the side of the buyers, reports from other markets indicating a decided decline. As a natural consequence the market here opened about 5c lower and the bulk of the hogs sold on that bosts. The movement was fairly active for a down market.

2......15... 4 00 3 2 2

SHEEP—There were no fresh receipts of sheep and nothing to make a market. Fair to choice natives are quotable at from \$3.50 to \$4.50, fair to good westerns from \$3.10 \$4.40, common and stock sheep from \$2.50 to \$3.50, good to choice 40 to 100-lb, lambs from \$2.25 to \$5.25.

premises be or become vacant or unoccupied and so remain for ten days; that in case of a fire the insured should furnish the insurer proof of loss. In a suit upon such policy the insurer interposed the defense that the insured did not furnish proof of loss as required by the policy. (I) An affidavit made by the insured and furnished to the insurer containing certain statements concerning the fire, set out in the opinion and held to substantially comply with the provision of the policy requiring the insured to furnish the insurer proof of loss. (2) That the insurance company, by refusing to pay the loss and defending the action on the ground that the policy in suit was not in force at the date of the loss, thereby waived the furnishing to it of any proof of loss whatever. Dwelling House Insurance company against Brewster, 61 N. W., 746, and cases there cited, followed.

2. A second defense of the insurer was that the insured, at the date of the issuance of the policy, was not the sole and unconditional owner of the insured real estate.

2. A second defense of the insurer was that the insured, at the date of the issuance of the policy, was not the sole and unconditional owner of the insured real estate. Held: (1) That this issue was one of fact for determination by the jury, and the district court erred in not submitting them. (2) If, by a loss, the holder of an interest in property is deprived of the possession, enjoyment, or profit thereof, or a security or lien resting thereon, or other certain benefits growing out of or depending upon such property, he has an insurable interest therein. German Insurance company against Hyman, 34 Neb., 704, followed. (3) It seems that where a policy is issued to one who holds the legal title to real estate, where no inquiries are made as to whether any other person is interested in such property, and no representations are made by the insured further than that he is the owner of the premises, that it is not a defense to the insurance company, in an action on such policy, that the insured, though holding the legal title to the premises, was a mere trustee for an undisclosed beneficiary.

3. The third defense of the insurance company was that the insured property, at the time of the issuing of the policy in suit, was vacant, and at the date of the fire had been vacant and unoccupied for ten days. The insured admitted the facts of the defense, but pleaded in avoidance thereof that the insurer issued the policy in suit with actual knowledge of the fact that the insured property was then vacant and unoccupied. Held: (1) That the provision in the policy rendering it void in case the insured property was at the date of the policy or should afterward become vacant sured property was at the date of the policy or should afterward become vacant or unoccupied was inserted therein for the benefit of the insurer. (2) That the existence of the vacancy at the date of the issu
