J.M HILL HAS ACQUIRED CONTROL Cut Throat Competition on Coast Business

Will Now Be at an End. ST. PAUL, May 21,-President J. J. Hill of the Great Northern rallway arrived home yesterday from Europe. In the course of an interview in the Dispatch he said he was not in a position at this time to speak of the o-called Northern Pacific deal, but said: 'You may put this down as an assured fact the Great Northern and Northern Pacific will never be consolidated under one manage-ment. You may add that the Northern Painc will not be broken up at all.
orts are canards and not to be co or a moment. The autonomy of the Nort rn Pacific will be p eserved and it will be ontrolled by its shareholders. There wil be a strong effort to develop the country along the line of the road; to sell the lands that await settlement and to sell them at a greatly educed price if necessary. I want to add hat it is my hope that a time has been eached when the roads will have to give up what they have been doing. The game of ut throat in the railway business of this ountry has got to be discontinued, and if it not the credit of the country will be still tore seriously impaired."

"How much is true of the matter that has een printed relative to your absolute con-rel of the Northern Pacific?" "Well, so far as the knowledge of any per-sons who have printed such matter is con-erned there is not a word of truth in it. I

have given no interview, nor allowed any one else to do so, of a nature that would admit he truth of the story."

Mr. Hill would not admit that the control of the road had passed into his hands, but the truth of the matter comes out from head-quarters, says the Dispatch. It is established that the trip taken by Mr. Hill was not of his seeking: that up to the time of his being ern Pacific. The Dispatch insists that it has knowledge that the control of the North-

doubt in the world that J. J. Hill has the Northern Pacific system in his bag. He has corralled it root and branch, and although, as he says, it may take some little time for the particular of the contract.

Dr. Scarles & Secries, 1416 Farman, Omaha, Neb. ern Pacific was rather forced on him than the entire plan to become public, the Dis-patch is in a position to give the northwes assurance that the two great systems of rail way will shortly be under the single control of Mr. Hill. His plan of making the road pay by settling the country along its lines at any cost is one that has commended itself to the sharebolders abroad and the consent which has put him in the responsible position he now holds was practically unanimous so far as the European holders are concerned."

HOMER MOORE'S CONCERT.

The concert last evening at the First Congregational church for the benefit of the nusic fund was artistically a most gratifyng success, bringing together in a well considered program a number of Omaha's leadder the direction of Mr. Homer Moore. The aches, sleeplesaness, lack of ambition and a

der the direction of Mr. Homer Moore, The audience was large and discriminating, the demand for encores being frowned down upon to the delight of a large proportion of these assisting in front. The churus, under Mr. Meore, opened the program of twelve numbers by singing "He. Watching Over Israel." from Mendelssohu's "Elijah," in a manner that showed conscientious work upon the part of the singers. While the opening attack was somewhat discordant, Mr. Moore casily pulled the chorus together, the light and shade of the piece being well defined ander his careful baton. Mr. Moore sang a Wagner and Gouned number, his rendition of "Jerusalem" being upon a highly elevated plane. Mr. Taber was welcomed back to his old organ with a heartiness that showed he was not forgotten in the press of other things and his playing was entirely credit. eriment.
