Present Incumbent of the Bospital Management Declares He Was Not Given a Fair Deal by the Governor.

LINCOLN, May 24 .- (Special.) - The prospect for an immediate settlement of the der Hay-Abbott controversy is dubious. The supreme court adjourned today until June 18, having under consideration the quo warranto case submitted by Attorney General Churchill. Today Attorneys Hollenback and Abbott, for Plaintiff Abbott, filed his answer to the answer of Dr. Hay to the petition of the attorney general. The answer generally and specifically denies the allegations of the answer of defendant, and urges that the right of the governor to remove for cause is inviolate.

On March 11 the governor and Dr. Abbott visited the hospital and made a personal demand for possession of the institution, and on or about that date the governor notified the Board of Public Lands and Buildings that he had removed defendant, also the state auditor. On April 20 the governor again requested defendant to resign his office and to induce him to do so said that unpleasant charges would be pre-ferred against him should be fail to do so, and gave defendant until April 22 to consider. On April 22 defendant answered that he could not resign under intimidation.

He was subsequently furnished with copies of the charges preferred against him. The interest in the discussion grew so great that the second order of the day was pushed aside by general consent. A shower of resolutions fell upon the assembly, rang-ing all the way from the subject of non-alpholic communion wine to an injunction to members of the denomination not to vote in favor of the granting of license. The latter was adopted as the view of the assembly, but on the former question a decided oppo-sition was developed. After a long and spirited, though somewhat disorderly debate, it was decided that the "unfermented fruit of the vine fulfills all the conditions of the sacrament of the Lord's supper."

MINUTES OF NEBRASKA SYNOD.

Inited Presbyterian Revision-Dissent Over Instrumental Music. PITTSBURG, May 24.-There was a small ittendance at the morning session of the

United Presbyterian assembly. After devotional exercises the minutes of the synod of Nebraska, with regard to revision, were received and referred to the committee on revision. An invitaion was received to attend the

ommemoration of the first ordination of a minister by an American presbytery. The ommemoration will take place at the tenant thurch near Free Hill on June 4.

Rev. J. G. Carson, D.D., of Xenia, O., presented a paper, in which he changed his protest against the action of the general assembly of 1883, in permitting instrumental music in the church. He said that he had decided to change his protest to a dissent, stating that this was the only course open

to him other than a withdrawal from the church. By motion he was allowed to re-main in the church under dissent. The afternoon session yesterday was taken up with the reception of the committee from the Presbyterian general assembly. For the Presbyterians, General James A. Beaver made a speech advocating the union of the wo denominations. His remarks were greeted with great applause, and Moderator Michael answered him in the same strain.

Dr. Reid read the report of the committee from the Holland Reformed church, toward union. The report showed the pro-gress that has thus far been made by the committee to the joint conference, and recommended that inasmuch as the synod of the Holland Christian Reformed church does not meet until 1896 the committee on union be continued with instructions to negotiate con cerning any additional propositions that may be presented, also that a delegate be appointed to represent the church in the next Holland synod, and that every minister in the latter church be furnished with a copy of the confession of faith, catechism, testi-

LINCOLN, May 24 .- (Special.)-The application for a writ of mandamus in the supreme court in the case of the State of Nebraska ex rel O. Horn against Silas A. Holomb, governor of the state of Nebraska, respondent, alleges that, according to an act will continue to edit the journal during her of the legislature approved February 19, 1875, entitled "An act to erect and maintain an institution for the blind," it was provided that it should be under the supervision of a board of trustees consisting of six persons That on the 5th day of April, 1895, the Nebraska legislature elected a board of six trustees, of which O. Horn of Otoe county was one, and that he was duly elected treas-urer of said board. That he entered into bonds as said treasurer in the sum of \$15,000. and which bond he presented to Governor Holcomb for approval, but that the governor refused to approve and still refuses to ap-prove the bond. The relator therefore prays hat a peremptory writ of mandamus may issue, commanding the governor to approve the said bond of O. Horn as treasurer of the Institution for the Blind at Nebraska City and for costs of this action. A copy of the bond is annexed to the application. oreme court, which will not convene again fter today until June 18 next, lown a decision at some time following that

The attorneys for Governor Holcomb, Messrs. Darnell and Fitzpatrick, were this afternoon preparing the answer to the application. The answer will allege that the legslative action in electing these six truste was neither statutory nor constitutional, and that from 1875 until 1895 no legislature of the state had ever elected any such trustees, but that, on the contrary, the appointment of trustees had been left to the prerogative of the governor of the state.

Respondent admits the enacting and the approval of "An act to erect and maintain an nstitution for the blind," as mentioned in cassage of the act the new constitution of 1875 was adopted and ratified by the people of the state, and that it contained among other provisions in article v the following: "Section 10. The governor shall nominate and by and with the edvice of the senate (exressed by a majority of all the senators ected, voting by ayes and nays), appoint all officers whose offices are established by this constitution, or which may be created by law, and whose appeintment or election is not otherwise by faw or herein provided for; and no such officers shall be appointed

or elected by the legislature." Respondent further says that the portion of the act which provides for the election of trustees by the legislature was by said sec-tion 10 amended and repealed, and is not now of any force and effect at all, and all branches of the state government have so regarded and acted upon said statute.

Respondent alleges that all acts of said trustees are without color of law and are buil and void, and that he, as chief excutive of the state, has full control of said natitution and the sole right to appoint the rustees and other officers of the blind Respondent further alleges that the executive branch of the state government either the Board of Public Lands and Build

ings or the predecessors in office of respond-ent, have had the exclusive control and management of said Institution for the Blind ever since the adoption of said constitution and respondent has sole right to appoin trustees and other officers therefor.
