SPAIN ENTERS FORMAL COMPLAINT Refers the State Department to Alleged

Fillbustering Expeditions. WASHINGTON, June 6 .- Mr. DeLome, the spanish minister to the United States, has called the attention of the State department to allegations that filibustering expeditions against Spanish authorities in Cuba are being fitted out in the bayous of the lower Mississippl river. The communication also states that armed citizens of some southern states often parade with arms, with a view a joining some of the outgoing expeditions or at least to give active encouragement to the Cuban insurrectionists. Some of the statements made covered facts of which the United States government can take no official notice and were too meager for official action. It is believed at the department that there is little truth in the reports received here from the south of warlike expedi-tions against Cuba, but should it be shown that expeditions are being organized which ome within the prohibitions of international law and our treaties with Spain there will no delay in bringing the parties concerned

It is learned the Spanish officia's are keep ing a close watch on several supposed expeditionary movements for the purpose of furnishing information on which to request action by the United States government. One of the expeditions is believed to have started from Philadelphia. The suspected ships, it is said at the Spanish legation, are the George Childs and the Bridgeport. The Spanish officials connect the movement of hese ships with suspicious operations at Dauphin and Cat island, off the mouth of the Mississippi. It is said these movements are mainly the result of the recent arrival i United States of General Quesada from Venezuela, who brought a considerable sum of money to aid the Cubans, and another sympathizer, who is said to have brought \$30,000 from Paris.
