

COMMERCIAL AND FINANCIAL

Higher Cables and Reports of Cash Business Sent Wheat Up.

CORN AND OATS CLOSED LOWER

General Feeling Just Previous to the Opening of the Exchange Was that Wheat Was High Enough for the Present.

CHICAGO, June 26.—Higher cables, reports of cash business at New York and liberal short covering sent wheat up today, September closing 5c higher. Corn closed 1/2c lower and oats 1/4c lower. Provisions made slight advances.

The general feeling just previous to the start this morning was that wheat was high enough for the present, and the action of the market for the past few days has been to strengthen that conviction. Inside of another ten minutes a complete change occurred in the mind of the crowd, which by that time was clamorous for the grain for July and September delivery at 1c per bu. over the price a majority of them were trying to sell for at the start and for five minutes after. The two months kept about the same, but the 1920 crop was 20c higher, and the 1921 crop was 20c lower. The time referred to was from 7:15 to 7:30. September advanced at the same time from 73 1/2 to 74 1/2, while the downward tendency at the opening was on account of the cessation of the rain in the northwest and the reduction of the temperature there to a point below the normal range of the plant without being injuriously stimulating or promotive of rust. St. Louis showed an advance there of 1/4c to 74 1/2. The price of prices of the day before that. At once there was a pronounced disappointing report from Chicago, which was the result of reports which were sent here in great numbers and which were interpreted to mean that the traders could not help giving expression to their feelings by a lively written demand for the grain. The Chicago market was so quiet that it was for a moment thought that the traders would not be so forthcoming as they had been yesterday, stating that California would not be so forthcoming as they had been yesterday. The market was thoroughly depressed by further advances received today, which gave confirmation to the report published on Saturday, giving 2,000,000 bu. as the indicated yield. Chicago receipts were reported to be only five million bushels, and only five million bushels came from outside the city. Minneapolis and Duluth receipts were reported to be only two million bushels, and only two million bushels came from outside the city. The Atlantic seaboard reported to be only one million bushels, and only one million bushels came from outside the city. The Pacific coast reported to be only one million bushels, and only one million bushels came from outside the city. The market was so quiet that it was for a moment thought that the traders would not be so forthcoming as they had been yesterday, stating that California would not be so forthcoming as they had been yesterday. OMAHA GENERAL MARKET.

Condition of Trade and Quotations on the Stock Exchange.

The market on all hands is firm and they appear to be in a little better mood. The feeling on the part of the public is one of confidence and the market is being made by parties anxious to clean up stocks.

The question as to the size of the hay crop is a matter of considerable importance just now. The hay crop is estimated to be about 100,000,000 tons, which is about the same as last year.

The market is still quiet, but there is a general feeling of confidence. The market is being made by parties anxious to clean up stocks.
