price it closed the day before. The weather bureau prediction of frost in the northwest was not realized, and the Cincinnati Price Current declared that everything was lovely and the spring wheat condition very high. The market soon followed up its opening seeking a still lower level. Besides the Parvest feature just mentioned the foreign market features were all there. The receipts were small for the season, but to likewise were the exports. Chicago re-ceived 48 carloads, 47 of which were new red winter and 17 of which inspected No. 2. The only wheat exported from the Atlantic seaboard for twenty-four hours was 1,205 bu, from Philadelphia, and Baltimore houses wired that they had resold today three boat loads of wheat that were taken by a foreign house yesterday. The trade was as narrow as has been remarked of it for some days and was easily influenced by comparatively small transactions. After the weakness with which the market opened had run its course it became firm and stad-ually worked up, into an appearance of actual strength. The recover was due for the most part to covering by shorts, but there was also some buying for the long account on a still remaining probability of frosts before tomorrow morning in the northwest and by reported storms there this morning, which had laid the crops over a length of sixty-five miles. The opening transactions were over a range of from 60% c down to %c for September. After a slight recovery to 66% c it sold down to 66% c and closed with sellers at that. Corn was weak at the opening under the was as narrow as has been remarked of it

but in the end it tumbled back to 90% and closed with sellers at that. Corn was weak at the opening under the influence of favorable weather for the grow-ing crop, and recovered later on the development of a demand for cash corn. Between 200,000 and 300,000 bu, were worked for shipment, and New York reported 23 boat loads sold there for export. The sales here for shipment were probably identical with the export business reported from New York. Receipts were lob cars. The opening range for September was 44% c and 44% c, and the latter was the closing rate. It first sold down to 43% c, and a great deal of short corn was covered on that break. It recovered as above.

ered gradually to 44½ c and 44% c, and closed as above. For a time after the opening oats had a comparatively firm tone. There were a good many buying orders in and sellers were none too plentiful. Later on, however, offerings were more than liberal and came from a great many different individuals, principally stop loss orders. A great de-cline resulted, and from that time on the market was weak. September started at 22% c, sold at 23c down to 22% c and closed at 22% c bid.

cline resulted, and from that time on the market was weak. September started at 2%c, sold at 2%c down to 22%c and closed at 2%t, sold at 2%c down to 22%c and closed at 2%t, bid. Provisions were affected in the forenoon by the weakness of the grain market, but later on the principal shorts bought through several brokers and sustained the market by so doing. At the close pork was 12%c higher, lard 5c higher and rbs 2%c higher. Receipts of hogs were 14,000 head. Estimates for Friday: Wheat, 90 cars; corn, 175 cars; oats, 180 cars; hogs, 12,000 head.

The subject under discussion was what Mr. Harvey had characterized in his book as "The crime of 1873"-the demonstization of silver. After some ulscellaneous sparring Mr. Harvey charged corruption in the passage of the act demonetizing silver. Mr. Horr in reply repudlated the inference that the citizens of the United States were all corrupt and none of their women

virtuous. He then took up the history of the demonstization act and proceeded to show the stages through which it had passed, and that its final enactment was not till after it had been before congress for nearly three years. He pointed out how the bill had been read in full several times and printed separately eleven times and printed sepa-rately eleven times and twice in the reports of the comptroller of the currency. The de-bates in the senate on it occupied sixty-six columns in the Congressional Record. In the

SEE NO CHANCE FOR A SCALP

Western Roads Satisfied with the Condition of Christian Endeavor Business.

-PRESIDENTS' AGREEMENT NOW IN EFFECT

All Lines East of Chicago Maintain There is No Cutting of Rates-Old Grain Carrying Contracts May Make Trouble.

CHICAGO, July 18 .- Nearly all the lines of the Western Passenger association were represented today when the meeting to consider the chances of demoralization resulting from the Christian Endeavor tickets reconvened. Reports were read from all the lines and the result was such that it was generally agreed that there would be no chance for the scalping of the regular rates. Chairman Caldwell was given authority to test the market at Chicago or elsewhere in the association territory, and if he finds any danger of demoralization from the tickets of any one road or any number of roads he is to call the atention of such road or roads to the matter and they will be made to protect competitors in such manner that there would be no necessity for the reduction of one way rates any-where to meet the Christian Endeavor tickets. Today the presidents' agreement to abso-utely uphold tariff rates from Chicago to the Atlantic seaboard went into effect. All the roads declared today that they were keeping the strict letter of the agreement, and that If any lapse from virtue had occurred it must have been in the office of some sinful brother in the next block. A number of grain carry-ing contracts have been made which will prevent some of the roads from absolutely maintaining the agreement before August 1. But the majority of them declare that they will keep it "as long as the rest do," which means everything or nothing.

Large Blocks of Bonds Floated.

PHILADELPHIA, July 18 .- Following close upon the sale yesterday by the Lehigh Coal company of over \$6,000,000 of bonds in London comes the official announcement of a similar transaction by the Lehigh Coal and Navigation company. This corporation today sold to Brown Bros. & Co. of this city, the American branch of the foreign house that American branch of the foreign house that took yesterday's big issue, \$1,000,000 collateral trust bonds bearing interest at 41<sub>2</sub> per cent and redsemable in ten years in gold. They are a portion of an authorized issue of \$1,500. 000, the half million only being reserved for future needs. The bonds were sold at par and accrued interest, and will no doubt 13 due time be offered to the public. Of the money thus raised \$500,000 will be used in

included ing the foating indebtedness. The re-mainder will be expended in equipments. NEW YORK, July 18.—It is announced that the Colorado Fuel and Iron company has negotiated the sale of \$2,000,000 of its general mortgage bonds, the proceeds of which are to be used to pay off preferred stock scrip bond loans and floating debts, and to give the company an increased work-ing capital of about \$500,000.

### Three Systems May Unite.

NEW YORK, July 18 .- A meeting was ade to the demonstization of silver. On the irollment of the bill a clause was omitted hich had the effect of limiting the coinage ield today of the representatives of both the reorganization committees of the Valley Railroad company of Ohio at which a compromise was agreed upon. The details of the with quoting a single sentence and leaving out the modifying context. The record new plan are being arranged and will be officially announced in a few days. It is beshowed that the statement was made in running debate and was not under leave to print. In the very speech referred to by lieved that from this agreement a combination between the Valley railread, Wheeling & Lake Erie and the Baltimore & Ohio rail-road, and possibly some others, will be brought into the combination. Mr. Harvey the speaker said this bill pro-vided for a standard "in a single metal" instead of, as before, in two metals, and

that all coins, except subsidiary coins, should be of gold. Mr. Horr then spoke of the de-monetization of silver in 1816 as the re-

O d Employes Carried Towne to the Grave, SAN FRANCISCO, July 18 .- The funeral of A. N. Towne, second vice president and general manager of the Southern Pacific railway; took place today and was attended by thou-sands of railroad officials, employes and friends. The pallbearers were the oldest engineers and conductors on the road. The directors of the Southern Pacific, prior to the funeral, met and adopted resolutions eulogistic of the dead railroad manager.

Onlite Handy with His shooting Ir LOS ANGELES, July 18 .- Alonzo Myers
