COMMERCIAL AND FINANCIAL

Helped by Light Receipts and Bad Crop Reports Wheat Was Firm.

CORN AND DATS CLOSED HIGHER

There Was a Decrease in Grain on Passage and Comparing the Domestic Recetpts Today and a Year Ago, the Deficiency is Heavy.

CHICAGO, July 22.-Helped by light recelpts and bad crop reports, wheat was in better demand and closed with an advance of Pic per bu. September corn gained Pic and September cats closed tic higher. Further damage to spring wheat was reported and that started the market and gave its direction for the day. Other later features of the day's news likewise prevailed bullish and brought in fresh buying orders from the outside, which the market appeared to require. September wheat, which on Saturday was only in moderate request at from 674c to 675c, started this morning with buyers at from 67% up to 67% and sellers rather reluctant to part with much at the time even at the better prices offered. In about ten minutes 684c was being paid, and that was the highest was being paid, and that was the highest point it touched during the remainder of the forencom. Besides the bullishness of the northwestern wheat situation, the world's shipments last week were about 2,00,000 bu, less than on the week before. There was a consequent decrease on ocan pussing and comparing the domestic receipts today and a year ago a surprising delicency is globel of the present season. The early cables quoted Liverpool 19d lower, but the Record callegrams reported an advance of 16 over oldernams reported from lever loads of the year before. Of today's nominal receipts is cars were old wheat, transferred from irregular city warehouses. Out of the new wheat only three car loads were No. 2. In last year's receipts on the corresponding day 25c cars inspected No. 2. The visible supply was rather a disappointment to the balls in that the week's decrease was only 75,000 bu, as against about double that quantity expected. Compared with last year's increase of 617,000 bu, there was not much in today's figures for the bulls to worry over, and neither do they grieve about it very lone. The price dropped back to 65 of after the visible supply statement was posted, but gradually began to recover, and in the endit had quite recovered from its midday hestation and began to act more in union with the character of the news. The amount on ocean passage decreased 2,000,000 bu. The amount in the visible supply is now 40,483,600 bu, against 55,755,000 bu, a year ago, and 55,955,000 bu, at the corresponding date in 1826. The market became strong in the last twenty minutes of the session advanced. May warmed up at 1-16c improvement after the opening at 5c decline. The closing quotations were September, 45c, and way gathered momentum as the session advanced the firmness in that delivery. About 160,000 bu, was reported for shipment in round lots. New York repo point it touched during the remainder of the forencon. Resides the bullishness of the northwestern wheat situation, the world's

Strong Tone Characterized The Trading on 't hange Yesterday. NEW YORK, July 22.—A strong tone char-

cterized the training on the Stock exchange, and with occasional reactions led to the taking of realits. The granger shares led the market by inactivity, and buoyancy, therein being partly for the long, but mainly for the short account which had been materially increased last week Reports of a heavy crop came in from all sections of the corn belt, and the advices regarding cheat are more favorable, both of which circum-tances induced the bear traders to close out in the stocks of the grain carrying reads. Rock Island snows an improvement of 2% per cent. Island snows an improvement of 2% per cent. Burthurgion 1% per cent. Northwestern Ps per cent and St. Paul % per cent. Northwestern Ps per cent and St. Paul % per cent. Nearly the intrapolation of the stock changing the stock of the stock changing the stock changing in the stock changing hands than is unsalty seld in a couple of weeks. Sugar was again bought by the bull clique, and a rumor on the board had it that a leading member of the trust had cabled orders to buy the stock which moved up 1% per cent, all but % per cent of which was reliabled. The other more important net advances from Saturday's closing prices are: Consolidated Gas, 1% per cent (Chevand Columbus Chicago & St. Lauis and Wheeling & Lake Eric preferred, 1% Lauis and Wheeling & Lake Eric preferred, 1% and American Tobacca, 1 per cent. Reading wis unfavorably affected by a report that there was included in the recognization committee between per cent, and all other shares a fraction, the improvement in Wheeling & Lake Eric preferred was due to the announcement on Saturday of the agreement with the Baltimore for the Joint use of the Valley rathond of Ohio. The market closed strong to buoyant. Bonds were dull but strong. The Sales were \$888.08.

The Evening Poet's Lond it cablegram says: The stick markets were quite. Console and invision in the Microdoman incidents. Americans were quiet all day and strong at the close, Louisville and St. Paul were bid. Gold slipments are generally feared, but not by the best informed people. The bell fiss general that all the new beside will return to America next month, when they become negatiable. The Lenigh Valley bonds were largely applied for today and refused at about 1½ premum. The prospect of a strong government induces sanguine views of the future trade here and they are checked only by the uncertain outless of foreign politics.

OMAHA LIVE STOCK MARKET

Run of Western Range Cattle Seems to Have Begun in Earnest.

DEMAND FOR THE GRADE IS STRONG

Natives Scarce and in Good Request a Steady Prices-Less than Five Hundred Hogs Offered and Buyers Make No Efforts.

MONDAY, July 22.

scarce, and there were hardly enough to make any showing at all. One load of 1.391pand steers sold at \$4.75, and abother bunch at \$4.65. The balance of the sales were mostly of olds and ends. Among the westerns there was quite a showing of good beer cattle. One sman panen of 1.395-pound range steers sold at \$4.80. The market on desirable fat cattle was steady to strong. There was no shortage of cow stuff, about thirty loads being reported in the yards, while loads of natives were very scattering. The majority of the cows were wosterns, while loads of natives were very scattering. The demand was good and the market reas subjugative on anything desirable. Good cows and helfers brought about list weeks prices. Common and rough cows were not as free sellers and were weak.

Stockers and feeders were in large supply, there being quite a number carried over from last week in the hands of speculators, in addition to the freeh arrivals. While the feeder trade was pretty good last week, innetty-nine cars having been shipped out into the country, it has been rather difficult to keep even with the supply. The prices paid for feeders have been pretty high and that fact, combined with the large offerings, brought \$1.40, and still more \$2.550.329. Really choice feeders, having both weight and quality, were scarce, Representative select.

CHICAGO LIVE STOOK.

Trade Was Slow in Opening, but After Enyers Started Busines: Was Iteisk. CHICAGO, July 22.—In cattle trade was slow n opening, but after buyers started to make purchases they were obliged to pay full prices for all good cattle, selfers taking a firm stand. There were quite a number of big, heavy, rather coal'se cattle, but good to choice breven were not at all numerous, and any steers good enough to bring \$5 moved off readily. Sales were on a basis of from \$5.40 to \$6 for common to choice The receipts today were 2.976 cattle, 495 hors, 373 sheep and 61 horses, as against 474 cattle, 2.818 hogs, 231 sheep and 15 horses on Saturday and 1.732 cattle, 708 hogs and 115 sheep on Monday of last week.

CATTLE—The market opened with 104 loads of cattle in sight and a train reported back to arrive in the afternoon. Almost all the cattle in the yards were westerns, and the few natives on sale were almost lost sight of.

Native beef steers were exceedingly scarce, and there were hardly enough to make any showing at all. One load of 1.284-pound steers sold at \$4.75, and abother bunch at \$4.65. The balance of the sales were

Father and Mother Both Arrayed Against Their Child.

CHILD EXONERATED IN POLICE COURT

Neighbors Place the Blame for the Arces: of Julia Klassner Upon Her Father and Mother-Quade Bidly Beaten by His Wife.

John Klassner and his wife entered police court yesterday to appear against their daughter, Julia, who had been arrested at their instance, charged with being incorrigible. It was a clear case, according to the story

of the parents. They alleged that Julia,

who is 15 years old and quite pretty, had been keeping company with a tough gang of young people who live near Seventh and Pacific streets, and that she was going to the bad at a Nancy Hanks gait. But there were other witnesses. The entire neighborhood seemed to be on Julia's side, and the evidence offered by a dozen women, who know the family, puts the father and mother in a very bad light, and completely exonerates the girl. Testimony was introduced which showed

plaint was on Friday evening. Julia had you want communicate with the manufacstopped at the gate to talk with two other turers as to what dealers handle their mosts. girls of her age, and a boy of their ne-quaintance. The mother called to her to come in. She did not respond promptly enough to suit the parental idea of obelience, and Mrs. Klassner caught her by the hair of the head, beat her across the face and breast, and fairly dragged her into the Other witnesses testified that Julia had

been working out since she was 12 years old and that she had been abused at home because she refused to turn over all of her earnings to her parents. People for whom the girl had worked testified to her excharacter, and one of the women offered to take the girl and give her a home. On this showing the case against the girl was dismissed and the parents were given a reprimand.

NOT THE ONE WHO DID THE FIGHTING Quade Acknowledged that He Was Not as

Good a Man as His Wife, Henry Qurde showed his scars in police court and there were enough of them to do credit to a veteran of many wars. Henry was arrested Sunday night on a

charge of disturbing the peace by fighting, and he had a protest that was strong enough to stand alone. He had not done any fighting. He had been in a fight, but not enough to to cut any figure. His wife was the one who had done the fighting, and Henry's scars were evidence of her prowess. The defendant had just fairly started on his tale of we when the wife walked into court and turned loose on him. She dealed that she had been fighting. She said Henry had given her \$2.15 in four weeks, and when he went out with some men Sunday she made up her mind to take a hand in the affair. He came home Sunday night and hid from her. She took her five children into an upstairs room and then started out to find Henry. She discovered him wrapped in a horse blanket in a dark hall. Then she didn't do a thing to him but take a coal cuttle and whack him three times across the lead and more times on other parts bo y. She wound up by punching him in the arm with a butcher knife. She was going on to tell about other family troubles,

any idea of going directly home. Serious Charge Against Webber. Charles Webber is in the city jail, charged with being a procurer, with Etta Martin as

but at the suggestion of the court she was led out and turned loose. Henry departed by a back street, and denied that he had

Sunday marning she succe ded in getting out of the place and went to the police for assistant Webber has been arrested as a procurer and the case will be heard this afternoon.

Uncle George Medlock, the venerable exsexton of Prospect Hill cemetery, was almost carried into police court yesterday t appear against Swan Berkland, who accused of having committed an assault upon Mr. Medlock on the night of July 13. On that evening Mr. Medlock was going home with a can of beer when he was assaulted at Sixteenth and Cass streets and so badly heaten that his recovery was considered doubtful for some days. He is still very feeble. He positively identified Berkland as the man who slugged him, and a number of witnesses testified to having seen the ac-

a customer on Saturday night. The customer gave his name as Martin Anderson and bought a suit of clothes for himself and two boys, offering in payment a check signed by Eggers & Back, and made payable to Martin Anderson for "therty-sex" dollars. The purchases amounted to \$26, and Mr. Levy passed up the bundles and a good \$10 bill. The Anderson check was proved to be a forgery, and the police are looking for a an by that name with a new suit of

Sick of this Bargain,

J. C. Clark took advantage of a full in the proceedings yesterday to tell his tale of woe to Judge Berks. He stated that he was married to Etta Grimm in Council Bluffs last September and had been living in South Omaha. Etta had forgotten all about her marriage vows, apparently, and had been lavishing her affections on all comers. Clark wanted a divorce and wanted it at once. He did not want to hire a lawyer, but was willing to make the matter all right with the ourt if the case could be given prompt at tention. He was referred to the district

Thomas Emmet is not a drinking man, yet he had faith in his physician. Emmet had a frightful cold and the doctor told him to get his hide full of whisky as a remedy. He followed the prescription implicitly and found himself in police court yesterday, charged with wife besting and having robbed his own trunk. His cold was broken, however. He was dismissed.

Would Not Contribute to the Growler. Ted Powers and Fred Fitzgerald are wanted by the pelice for having assaulted Charles Brown. Brown was accosted by these men at the corner of Eighth and Clark streets Saturday night and asked to contribute the price of a can of beer. He refused to comply and was assaulted and severely besten by them. He has had a warrant issued for
