As to keeping out Indian traders from leasing land he said it would not be right in view of the fact that they were compelled to give a \$10,000 bond for faithful con duct of their relations with the Indians.

At midnight the party left for Pender, arriving here at 4 o'clock. The investigation was continued at Pender this morning, to which Captain Beck had been invited in order that he might know of the evidence in rebut-tal to his statement of last night. George Hecker was heard this morning, being one of the men recently arrested for re turning to his land. He said he was a renter under the Flournoy company, and had 400 acres, 330 under cultivation. He paid for this land 50 cents for the first two years and \$1 for the last two. LITTLE LETTER TO HOKE SMITH. Tonight the following was mailed:

Tonight the following was mailed: Hon. Hoke Smith, Secretary of the In-terior, Washington, D. C.: Dear Sir-We have the honor to inform you that we tele-graphed you today asking that no more leases to be made by Captain Beck, agent of the Omaha and Winnebago Indians, of Indians lands, should be approved until we could communicate with you further with reference to the matter. We also urged upon you to suspend all further evictions from these lands in the interests of justice to in-nocent settlers, whose crops would be en-tirely lost to them by such evictions, and who would otherwise be greatly damaged thereby. The wheat, onts and rye crops are now ripe and demani immediate harvesting, and unless this is specially done they will be lost to the owners. The evicion, there-fore, of settlers who have been suffered to cultivate these lands to this time without any serious objection upon the part of the government will result in great damage to them and the loss of their entire small grain crops.

The and the loss of their entire small grain crops. The difficulties at this agency among set-tlers and officers of the agency have been and are of such a character as to attract wide public attention and to demand some action upon our part as representatives in congress from this state. We have, there-fore, been sitting together, as a body, for three days, listening to the statements of the settlers, the Indians and the agent and others concerned at this place and at the purpose of informing ourselves of the truth of the matters in dispute and placing our-selves in a position to act intelligently and minitedly at the approaching Fifty-fourth congress in securing such legislation as will permanently cure the evil now in exist-ence.

Provides for Pool Selling on Tracks but Prohibits Foreign Books.

SPRINGFIELD, III., July 25 .- Representative Kilcourse of Chicago today caused a sensation by introducing a race track and pool selling bill in the house under the head of revenue. The bill is for an act taxing owners of racing enclosures and permitting and regulating pool selling and wagering in horse races ran therein. As soon as the title was read a score of members were on their

feet demanding recognition. Miller of Chifeet demanding recognition. Miller of Chi-cago got the floor and moved that it be the sense of the house that the bill does not come within the scope of Governor Altgeld's proclamation, and that therefore it lie upon the table. Speaking upon this question Miller made a scathing speech, denouncing the bill as an outrageous piece of subterfuge, chicanery and fraud. Half a dozen members rose to points of order, but the speaker decided in each case in turn that the points were not well taken. The bill provides that race track officers

shall pay into the treasury of the county in which the track is located 35 per cent of the gross receipts. It prohibits selling of pools

on outside races, and provides that races shall be held only between May and Novem-ber, and not to exceed sixty days on each track. A motion to table the bill was lost—

The first race, the junior single sculls, was won by J. A. Lefevre of the Mutuals 135 raw hides. The constable and his deputies started with their prisoners back to Jackson's Hole. Trouble was expected, and behind each Indian rode a deputy with a

rifle slung in convenient position. On the way back to Jackson's Hole the killing of the prisoners occurred. As to the exact facts of the killing reports differ. A man named William Laffity, who claims to be in possession of the actual facts, says that when about half way back to Jackson's Hole a buck Indian gave a warwhoop, which was evidently a signal. Immediately the entire number of bucks and squaws broke from

the trail and attempted to escape. The con-stable and his posses opened fire and killed nine bucks and eight squaws, only a pap-poose escapting. Then the constable and his men shot the Indian ponies, covered up all traces of their work and returned to Jackson's Hole, where they gave the alarm, and the settlers at once began to appeal to Governor Richards for protection from the Indians, who were bent upon avenging their

dead. Commissioner of Indian Affairs Browning has forwarded a dispatch to Agent Teter at the Fort Hall agency, instructing him to order the Indians now on the warpath to return to their reservations quietly and peace-fully before the military detachment ordered to the scene reaches there. The doner says he wants it understood that he advises the Indians as a friend destrous of their best interest and welfare. Agent Teter sent a reply this morning stating that he had sent trustworthy Indians to deliver the nessage to the Bannocks in the field.

The authorities here have not been disposed to look upon the affair as serious. The Interior department has decided that The the Indians must return to their reservation, and the War department has been called upon to assist in returning them, if they will not return peaceably. We have caused all statements made to us to be preserved in shorthand by the offi-cial court stenographer of the state district court of the Eighth judicial district, in which the Omaha and Winnebago reserva-tion is situated, a copy of which proceed-ings will be forwarded to you as soon as it can be transcribed. Without now express-ing any opinion upon the merits of the con-Ings will be for warded to you as soon as it can be transcribed. Without now expressing any opinion upon the merits of the controversy between the settlers and the agent, further than the present exigencies of the situation seem to rquire at our hands, we have to say that we unite in the conclusion that the eviction of those who hold at this time, under leases not formally approved by you, and who have planted their lands, by which the lands they occupy are to be turned over to new lessees without any reservation to them of their crops, would result in rank injustice to a large body of law-abiding, honest and industrious clitzens, who conscientiously believe that their leases are valid, and who have acted in good faith in what they have done and are doing. The evidence shows to our entire satisfaction that in most instances such persons have in good faith given their promissory notes to secure the rent of the land occupied by them for the entire leasend period, and in such instances a second rent has been exacted of them for the present year by their being required to rent of the landian owner or of some other persons claiming to hold leases to the same land through the instruction these sections and inview of the same land in view of this fact and other important matters disclosed by the testimony we are led to strongly urge you to permit these settlers to harvest and remove their crops without further molecation on the part of the the open their complex sections the present without the same in the part of the the part of the present in the part of the p

We are fully persuaded that no injustice will be done to the interests of the Indians or the govern-ment by your complying with our request, while the present course, if persisted in, must result in great injustice and loss of property to the settlers, for which they will be remediless. In the majority of instances the people occupying these lands are poor and altogether dependent upon crops they and altogether dependent upon crops they may raise with which to support themselves and their families. Admitting, for the sake of argument, that the leases of the so-called may rais of argument, that the leases of the so-called Flournoy company and others under which some of these settlers hold are void yet we believe they have acted in good faith, and by the failure of the government to evict them until their crops had been planted and practically matured they have been led to believe that they would be per-mitted to harvest in peace, and they should not now be unceremoniously evicted to their injury. Henry Miller, who lived next door, wa fortunate, and lost only \$50 the buildings were, however, practically de stroyed, and the loss on them will be al-most \$1,000. The name of the owner of these buildings could not be discovered last night. The fire seems to have been of incendiary

crigin. The building in which it started was unoccupied, and has been kept locked. no one being allowed admittance.

William Brown's Experience.

William Brown is a thorough believer in the fickleness of womankind. Last night as he was calmly enjoying an evening walk near Twentieth and California streets he was accosted by a woman who suggested that they take a walk together. William was agreeable. The woman introduced herself is Meda Rowley, and then began to inquire nto the state of Brown's finances. She covered that he had only a quarter, and that had a hole in it. This bit of information made a decided change in the woman's man ser, which had been all gentleness before and she pointedly told Brown that she did not want anything more to do with him. By this time, however, Brown had begun to like her pretty well and he didn't want to go.

She succeeded finally in putting the street between them. Upon this Brown began to call to her so often and so loudly that he was arrested. Miles Says the Bannocks Are Fighters NEW YORK, July 25 .- General Miles said last night in reference to the Indian upris-

ing in Idoho and Wyoming: "They are a strong, hardy and brave people. Yes, they are good fighters. In two or three days I ended the revolt in 1878. If well treated they are not a bloodthirsty people." "Do you think the outbreak will prove

"It is quite likely they will give trouble

in the present outbreak." The general exhibited an ordinance map o the country. It is a mountainous region, he said, towering, rugged hills being everywhere.

The rallway has not yet penetrated this re-gion. General Miles said that the Banocks roam over a very wide area of ountry. They are hunters, live by huntcountry. ing, and therefore had no settled habitation. They belong to Idaho and number several hundred.
