When the hay was about all up Fackler pro-ceeded to haul it away. This engendered bad blood between the parties and they have been quarreling ever since. This morning Fackler commenced cutting

the hay; Buckminister ordered him to quilt, backing up the command with a 44 Winchester, but Fackler paid no attention to either the order or gun. Buckminister then took five or six shots at him, only one of which took effect, passing through the right aum and into his right side. Buckminister's side of the story is to the effect that Fackler

came around with a six-shooter and that he did the shooting in self-defense. No arrests have been made yet. The ball went clear through the lungs and

was cut out just below the left shoulder blade. The hemorrhage was not very profuse and Fackler being a young man and healthy there is a chance for his recovery.
