THE RESERVE YARRANGE SOR STATE

CONDITION OF OMAHA'S TRADE

Business in a Jobbing Way Shows Some Little Improvement.

COUNTRY COLLECTIONS ARE ONLY FAIR

Values on Most Lines of Merchandise Are Firm at Previous Advances but with Little Actual Change in Quotations.

Last week was marked by an increase in general business, as compared with the previous week, and by a most decided on Staple and Fancy Produce.

Eggs are slow sale at quotations and stocks vailing among business men. The previous week was characterized by very warm weather, with a tendency toward hot winds. The anxiety as to the outcome of the corn erop was so great that business in almost every line suffered a big reduction. With the coming of general rains, which practically insure the crop against further damage from drouth, business men appear to feel that they can now count upon the fu-

grocery market as only a natural consequence.

The sugar market is very strong and there has been a large increase in the consumptive demand, owing to the fact that the fruit preserving season is now at its height. The first of the new erep of California peaches has put in an appearance on this market. Prices are very reasonable. On the coast prices in most cases are very low, but as the trade has been led to believe that crops of all descriptions, with the exception of apricots, will be large, there is no apparent disposition to force the market.

The pack of Columbia river salmon is completed and is generally believed to be smaller than last year.

DRY GOODS JOBBERS PLEASED. DRY GOODS JOBBERS PLEASED.

DRY GOODS JOBBERS PLEASED.

Jobbers in the dry goods line appear to be very well pleased with their experiences of the past week, as goods have been going out freely with the prospects favorable for a continued good trade for some time to come. The fact is that the dry goods people have had a good business for some little time and the volume of their sales show gains over previous years.

Staple cotton goods are very firm and the market gives unmistakable evidences of the firmness, some lines being held at higher prices at the mills. It is claimed that many of the mills, especially the southern, are without stocks of cotton and the advance in that staple is immediately reflected in the market for the finished product.

The market on woolen goods has not preremarket on woolen goods has not presented any new features, values remaining practically unchanged.

New York, Boston, Philadelphia, and, in fact, all domestic wool markets during the past week have been generally inactive as far as demand is concerned. The market is steady and firm, with transactions as large as might reasonably be expected in

large as might reasonably be expected in a vacation month, when dealers and users are in a position to leave their workshow for awhile.

It is quite certain that prices in the jority of transactions have been on a purely with those received three weeks ago. In the meanwhile, as trade is pursuing its steady quiet course, stock is arriving from London and from western points, and wool merchants are getting their stock in shape for the full trade.

It is quite generally anticipated that the for the fall trade.

It is quite generally anticipated that the months of September and October will find many of the more prominent manufacturers in a position where necessity will compet them to come to the market for the purpose of renewing depicted stocks.

HARDWARE TRADE IMPROVED.

HARDWARE TRADE IMPROVED.

While trade in the hardware line is not so very active it is considerably better than was the case ten days ago and local jobers are expressing themselves as fairly well satisfied with present conditions. Present prospects would seem to favor the belief that there will be a very fair demand for goods in this line during the balance of the summer and fail.

Buyers appear to have given up all idea of there being any turn in the market favorable to them, as the whole tendency of values is toward a higher plane.

The hardware market is firm, all the ad-

The hardware market is firm, all the vance of the past few months being held, while a few more advances are being reted.

It was thought that wire nails had ched the top, but it is said now that prices will be marked up 20 cents next ath.

BOOTS AND SHOES.

Trade in a wholesale way is of a very satisfactory character on boots and shoes. Liberal shipments are being made into the country and the general situation appears to be promising. The market is firm and there does not appear to be any immediate does not appear to be any immediate. danger of a weakening in values. The cost of the raw materials has increased to such an extent that there is no room for the manufacturers to cut prices. Not only the manufacturers to cut prices. Not only are sole and upper leather dearer, but sheep skins are 25 per cent higher, counters 80 per cent, cotton linings 20 per cent, nails 25 per cent and so on.

is safe to say, however, that the time near at hand when it is reasonable to look for some changes for the better. A great many people are returning from their sum-mer vacations, and as the fall season is near at hand there ought to be a decided improvement in the character of the retail trade of the city before many weeks roll

Some of the local clothing houses are pointing with a good deal of pride to the new goods that they have in stock in men's new goo is that they have in stock in men's wear.

While the trade in this line has not been so very large it has shown some evidence of life and the season as a whole is likely to prove as good as expected. The immber of noen in Cunaha who follow all the folblen of feshion is not so large as in many other cities, and yet Omaha young men are not all behind the times.

Dealers say that they have a larger trade than eyer before in linen and cotton suits. The fabric is cool and comfortable, and for that reason is said to be very desirable for summer went.

that reason is said to be very desirable for summer wear.

It is expected that fushion will soon demand farey alk vests for indoor weat.

A new ider in a vest has recently been brought to public attention in the east. The buttors on this garment are conceased, giving a very navel effect.

The latest lounging costume for hot weather is a sack cost, vest and trousers of Kentucky tow, russet shoes of low cut.

It is said that in the line of men's neckness of large dimensions are being the said transfers.

Total amount of transfers.

selected the most freely. The most striking of the new novelties consists of a peculiar treatment of the pult effect. Two generous pieces of material are gracefully folded into platis at one end and those plaited ends are made fast to the inner part of the band and brought forward. The two chis can be manipulated into a number of pleasing effects by the wearer.

De Joinvilles are shown in numerous designs and colorings and the continued demand for them would seem to indicate that they have come to stay.

New colorings in twill foulard scarfs are shown and are very stylish, such as erimson ground with all-over figures of olive and gold, olive with pale blue and gold, cream white with delicate veins of green and gold, etc. The material is so light that reversible four-in-hands and flowing end knots are the most practical and graceful.

Shippers of poultry will be interested in the following, from the New York Journal of Commerce: The Hebrew year 5656 will common September 19, 1895. This is of great interest shippers and dealers of poultry, as it com-mences the Jewish holidays and during the period over which they extend the live poultry sage from drouth, business men appear to feel that they can now count upon the future of trade with a good deal of certainty. The result is that the past six days have witnessed freer buying upon the part of the retail trade.

The jobbers of the city are giving expression to greater confidence in the outlook for business for the coming year and on every side there is evidence of a more hopeful feeling. No one is looking for a boom cropic feeling. No one is looking for a boom cropic feeling. No one is looking for a boom cropic feeling. No one is looking for a boom cropic feeling. No one is looking for a boom cropic feeling. No one is looking for a boom cropic feeling. No one is looking for a boom cropic feeling. The feeling into consideration the size of the crops and the fact that prices and fruits. Taking into consideration the size of the crops and the fact that prices promise to be low on farm products, none anticipates any more than a fair trade, either in a retail or jobbing my preparing for anything in the way of a phenomenally large demand for merchandise. At the same time business promises to be so much better than it has been for the past year that it will doubtless seem exceedingly good when comparing the demand, or merchandise. At the same time business promises to be so much better than it has been for the past year that it will doubtless seem exceedingly good when comparing and the indications at the present time would seem to be far and the production. With a general department of the past year that it will doubtless seem can be considered to the construction of the production. With a general improvement in the trade conditions in all sections of the country, jobbers look for a stiffening of the general features of the market have continued promising and the indications at the present time would seem to be far a base of production. With a general the production of the past of the market is more active than at any other time of the year. The holidays extend for nearly a month and during that time the receipts of live

COAL MARKET DEMORALIZED.

At a time when merchandise of almost every kind is showing advances the anthracite coal market is demoralized. Prices have reached a level which it is claimed leaves the producer no profit. Instead of showing signs of improvement the situation has been growing worse for some weeks past. Supplies are far in excess of the demand and distributing polints are all glutted. The origin of the trouble appears to be the disagreement between the coal roads as to the proportion of the production that each road should have.

Coal is now selling on this market in a retail way at \$7.50 per ton, which is the lowest point touched in nine years. Some local dealers are of the opinion that the great reduction in the price of anthracite coal wil lead to a drop in the prices on soft coal.

ABOUT OMAHA'S RETAIL TRADE.

Clothing Houses Have a Rich Display of Sensonable Faucles.

Any attempt to depict the condition of the local retail trade of Omaha would necessitate the repetition of a good deal that has been said during the past month. As yet trade shows very little improvement. It is safe to say, however, that the time is

COMMERCIAL AND FINANCIAL

Unfavorable Weather for Corn Advanced that Cereal One Cent.

PRIMARY RECEIPTS WERE SMALL

at 66c, and very seen at 65%c, some litt being let go at 65% before any reactic took place. The Liverpool market we quite dull and 4d to 1d lower; Antwerp, 12 centimes lower and Berlin from 4 mark to % mark higher. The spring wheat i ceipts at Minneapolis gave indications of i creasing and there was nothing unseaso able about the weather. The primary ma ket receipts altogether were again sm

able about the weather. The primary market receipts altogether were again small and in as strong contrast as ever when played against last year's.

The strength in corn caused a sharp reaction from the low figures and kept the market fairly steady all day. The shipments from Chicago for the week summed up 1,075.733 but, against 355.678 but on the similar period of the year before. The Argentine shipments for the week were reported at only \$2,000 bu. The clearances from both coasts for the week in wheat and flour together amounted to 1,824,000 bu, against 1,550,000 bu, on the week before. The trading was of the same local scale and character as before, and the fluctuations were confined to moderate bounds. The first prices already reported were at the lowest of the day, and they were succeeded by a rise to 65%c. After that the price was retained close around 65%c and 66%c was the latest trading price.

The news from the country about the damage being done to corn by drouth and heat caused that article to be in great request today at a good advance in its value. That started the shorts to buying, and there were enough of them to make it fairly lively in the pit during the greater part of the session. September, which closed yesterday at 37c, opened at 33%c, and after a reaction to 38c advanced irregularly to 38c advanced at that price.

Provisions were wanted at some improvement in price during the most of the session, but in the end there was no material gain except in January pork, which is 12½c higher than on the day before, and January ribs, which are 5c higher. John Cudahy was said to have been a good buyer of all kinds of product.

Estimated receipts: Wheat, 85 cars; corn, 700 cars; oats, 235 cars; hogs, 20,000 head.

Securities Opened Quiet and a Frac Securities Opened Quiet and a Frac-tion Higher Yesterday.

NEW YORK, Aug. II.—The stock market opened today quiet and generally a fraction higher. The usual raid on Tobacco was seen begun, and a decline followed of 3% per cent, with a raily of but is per cent. The preferred cased off I's per cent. Manhattan, which has cased off 14 per cent. Manhatian, which has also been under pressure of late, yielded 18 per cent and recovered is per cent. The heaviness of these shares did not influence the general speculation and values appreciated, under the leadership of Chicago Gas, which gained 18 per cent. Oregon Short Line and Leather preferred improved 14 per cent such. The market closed dull and firm, with most of the stocks traded in a fraction above last night's figures, while Leather preferred gained 1 per cent and Chicago Gas 18 per cent. Brookiya Elevated brought 114, against 18, the last preceding sale. The volume of business of the week shows a decline compared with that of the preceding six days, which were among the dullest of the year. This stagnation is to be accounted for partly by the absence from the street an vacation of many of the beating regrators, but the transactions are also restricted on the uncertainty as to

the movement of gold to Europe and the mime-diste foliure of the exchange market. These questions at present have more influence upon the share speculation than any ather, and specu-lature are carefully watching for indications for a return of case in the fortuna market, and con-sequently for the creation of gold exports. There is little trouble feared in the outflow of a few millions of gold within the next few weeks, or in the loss of some of the freezery gold reserve. Crep reports during the week were conflicting and fears of frost in the corn belt brought about selling of the grangers, still mainly for the short account.

PRIMARY RECEIPTS WERE SMALL

and fears of frost in the corn belt brought about selling of the grangers, "Sol' mainly for the short account.

Rumors were current at one time that an amicable adjustment had been reached in the anthracite coal reads differences, and a rapid appreciation in the values of these shares took place, but the statement proved to be unfounded and a reaction ensured. The adjected proposed organization of an opposition to the Tolsaco trast, the avowed intention of the attorney general of fillinois to push his suit against the frust and the heavy selling of the shares by a prominent bear operator tended to create an uneasy feeling among holders of the stock and a slimp followed of 10 per cent to 10, with a recovery of only \(\frac{1}{2} \) per cent to 10, with a recovery of only \(\frac{1}{2} \) per cent to 10, with a recovery of only \(\frac{1}{2} \) per cent. The general market was without feature and prices moved irregularly, but the losses are more numerous than the gains.

Hends today were quiet and irregular, but the more important changes are gains. The sales were \$1.80.00.

The bond operations of the week resulted generally in but slight changes. The speculation was characterized by considerable strength in the Oregon Short Line and the Oregon Navigation issues. The sales were \$1.80.00.

The bond operations of the New Port exchange to the leading stocks of the New York exchange.

The following were the closing quotations on the leading stocks of the New York exchange.

Week Closed with the Usual Light Run of Cattle.

OFFERINGS ALL CLEARED UP EARLY

Nothing Good in the Way of Fat Cattle and the Market Was Featureless-Demand for Hogs Exceeded the Supply-Prices Higher.

SATURDAY, Aug. 17. Receipts for the past twenty-four hours, is compared with the previous four days are as follows: 1.164 The total recipts for the past week, with comparisons, are as follows:

| Receipts this week | 15,039 | 10,666 | Receipts has week | 15,178 | 10,729 | Same week 1831 | 11,169 | 32,942 | Same week 1831 | 11,169 | 32,942 | Same week 1832 | 9,141 | 24,321 | 11 | will be parted to be considered. 3,118 5,553 1,617 6,901 1,861 It will be noted that the receipts of cattle for the past week are in excess of the receipts for the corresponding weeks of the pass three years. The receipts for the year up to date, as

compared with the corresponding period of Cattle 285.594 453.427 198.123 Hogs 748.317 129.595 548.629 Sheep 114.401 128.237 23.888 Owing to the large run of range cattle during the past few weeks the receipts of

cattle for the year show a less decrease now than on July 1. CATTLE-The week closed with the usual light run of cattle, only forty-six loads being received, as against ninety-four loads yesterday. There is very little to say about the market, as the trade was without any very important feature. The buyers were not long in clearing the yards, practically everything being soid at an early hour.

There was nothing good in the way of fat cattle. Some fairle steers brought \$1.55 and some native grassers \$1.35. The market was about steady.

Cows and heifers were in good demand and the market active at strong prices.

Stockers and feeders, as usual on the last day of the week, were not in overly good demand and and the market in consequence is rather weak. Representative sales:

CHICAGO LIVE STOCK.

Cattle Were Too Scarce to Make Market and Prices Were Nominal. CHICAGO, Aug. 17.—As there were too few cattle to make a market today, prices were largely nominal at yesterday's quotations. The best westerns received this week sold at from \$4.50 to \$5.10. The stocker and feeder trade continues lively.

or sale, including 1,500 left over from yesterday, and the supply was mastly sold at an early har, prices averaging a nickel higher. Heavy hogs sold at an extreme range of from \$4.25 to \$4.80, anixed lots at from \$4.35 to \$4.80. Iight weights at from \$4.50 to \$4.90, and a few singeing pigs around \$5. The bulk of the sales were at from \$4.50 to \$4.70, prices being 15c to 25c lower than a week ago. a week ago.

Not over 2,000 sheep and lambs arrived here today, and trade was moderate at yesterday's decline in prices. Sheep were salable at from \$1.75 to \$3,65 for inferior to choice natives, and westerns were worth from \$2.50 to \$3,25. Lambs were held at from \$1 to \$5.45.

Receipts: Cattle, \$00 head; calves, 75 head; hogg, \$,000 head; sheep, 2,000 head.

SAN FRANCISCO, Aug. 17.—WHEAT-nd steday; December, \$1.02%; May, \$1.08%; COLORED PYTHIANS TO MEET. Supreme Lodge of Five Continents Will Hold a Great Session.

CHICAGO, Aug. 17.-The eighth biennial ession of the supreme lodge (colored) of he Knights of Pythias of North America South America, Europe, Asia and Africa, wil be held Monday, Tuesday, Wednesday and Thursday. The city is already filling up with delegates, some of them being the most distinguished colored men of the country. The sessions are expected to be of great interest to all Pythians. Aside from the regular routine business to be transacted by the supreme lodge, there is the important question of unification of the various branche of the order among colored men, together with the probability that a law suit will be instituted by the branch known as the "Wil faction against the supreme lodge.

Wednesday promises to be the day of greatest interest. The supreme lodge officers are to be elected at that time. While Supreme Chancellor Mitchell appears to stand the most likely chance for election. number of applicants for the place are known to be working actively and with a showing of strength. Thursday the unishowing of strength. Thursday the uni-formed rank will have a grand parade through the principal thoroughfares of the South side. Divisions from St. Louis, In-dianapolis, Washington, D. C., New York. Cincinnati, Louisville and Columbus, O., will participate. Adjutant General Robert Jackson will be the commanding officer of the day. Battery D will be in the evening the scene of a public reception and a competitive drill, open to all visiting divisions. The judges for the drill will be Colonel Alfred Russell, Captain Julius Bhockner and Captain Land McKittele. tain Joseph McKittrick.

KILLED WHILE AT WORK. Sudden Harrienne Demolishes a Partially Constructed Edifice.

DETROIT, Mich., Aug. 17 -- A thunde storm accompanied by heavy gusts of wind which came up suddenly at noon today caused a fatal accident at the United Presbyterian church, which is being creeted at Twelfth street and Grand River avenue. The walls of the church are up and about ready for the roof. When the squall came portions of the front and rear wall collapsed, several men being hurled from ladders and scaffolds and burried in the ruins.

Frank Senova, a middle-aged bricklayer, was on a scaffold outside the rear wall when the crash came. The scaffold fell and Senova buried under two feet of brick and ar. Death must have been instantane mortar. ous, for his body, when dug out, was found to be frightfully mangled. Senova leaves wife and child. Charles Johnson, foreman of the brick

layers, was on a ladder inside the wall and Jesse North, a bricklayer, stood on the Scaf-fold. Both fell into the cellar and had to be dug out. Johnson was sent to Harper eyes full of lime, which may cause him to lose his sight. North was taken home, not very badly injured. Frederick Dekorske, a laborer, who was standing on the rafters of the top floor when the walls fell, was carried down to the cellar and received a painful wound in the abdomen.

Breaking Over the Agreement.

CHICAGO, Aug. 17 .- The competition for the Knights Templar business on account of the conclave commencing next week has re sulted in a practical ignoring of the Boston agreement by some of the lines, and the Lake Shore, Michigan Central and New York Central and their connections an-nounced today that the return portions of tickets in the hands of original purchasers will be honored from Boaton and intermedi-ate points between August 27 and October 2, whether they bear the stamp of terminal agent in Boston or not.

Leased a Railroad. NEW YORK, Aug. 17 .- The North Carolina

railroad has been leased to the Southern railroad for ninety-nine years, the terms being the payment of 6½ per cent interest on the capital stock of the North Carolina railroad for the first six years, which is the present rental of the road, and for the rest of the term of the lease the rent is to be 7 per cent

Indian Bureau Now Has the Matter Under Consideration.

CANNOT KILL INDIANS WITH IMPUNITY

Wyoming Settlers Who Murdered the Bannock Indians Subject to Arrest Under a Provision of an Old Treaty.

WASHINGTON, Aug. 17.-In spite of reports to the contrary, it may be definitely stated that the Indian bureau as yet has taken no steps whatever looking to the punishment of the Jackson Hole settlers for the killing of Bannock Indians. The bureau has sent no communications on the subject to the Department of Justice. It is probable, however, that steps will be taken to bring those engaged in the killing to justice.

The delay has been caused by the fact that no law was known under which the United States courts could take cognizance of the matter, and the further statement that it is regarded as practically impossible to secure a conviction in the Wyoming state courts owing to the strong feeling against the Indians. Today, however, it was discovered that the treaty of July 3, 1868, between the United States and the Bannocks and Shoshone Indians had a provision diand Shoshone Indians had a provision directly applicable to the present case, under
which the machinery of the United States
courts might be invoked to determine judicially the culpability of the settlers.

The second paragraph of the first article
of the treaty reads as follows: "If bad mes
among the whites, or among other people
subject to the authority of the United
States, shall commit any wrong upon the
persons or property of the Indians, the
United States will, upon proof made to the
agent and forwarded to the commissioner of
Indian affairs at Washington city, proceed

Indian affairs at Washington city, proceed at once to cause the offenders to be arrested and punishment according to the laws of the United States, and also reimburse the In-dians for the loss sustained." While the bureau has not yet decided on its course of action, it is probable that arrests will be made by United States marshals under the provisions of the treaty.

sons arrested can then sue for writs of habeas corpus, thus bringing the validity of the treaty and the whole status of the Indians into court. IN DEFENSE OF THE VEGETARIANS.

Chinese Claim that Recent Outrages

Were Not Committed by that Sect.

WASHINGTON, Aug. 17.-The better class of Chinamen in this city, notably those connected with the Chinese legation, discredit the report that the recent riots in China have been committed by the vegetarians. Said one of them in discussing this report: "It is incredible. The vegetarians in all eastern countries are persons who abstain from the use of all flesh as an article of

diet because of conscientious scruples against the taking of any form of life. They are of Buddhist faith and do not believe in killing animals, much less human beings, and it is not to be believed that they would have let their antagonism to the Christian religion betray them into any violence that would cause the loss of life. They are more or less fanatical, to be sure, but they are re-garded as of a submissive disposition." Discussing the matter further, he said it was true that strong prejudice existed among them against the missionaries because they believed that the practice of meat eating is a part of the Christian faith. Many of them think that if they should be-

come Christians they would be compelled to adopt a meat diet and some of the native converts to Christianity, between whom and the followers of the other faith there is al-ways a charply defined antagonism, have done much to intensify the feeling by performing acts especially calculated to a intense as is the feeling on the part of the Buddhists on this account, the gentleman does not believe that they would commit an act in contravention of their primary doc-trine. He thinks it more likely that ad-vantage has been taken of the knowledge of this antagonism between the vegetarians and the Christians to lay the blame for the killing of the missionaries at the doors of were in no way responsible for it.

the anti-meat eating sect, when in fact they RANSOM WILL BE REAPPOINTED. Minister to Brazil Will Only Be Out

a Month's Salary. WASHINGTON, Aug. 17 .- It is understood that aside from the inconvenience which will be occasioned to Minister Ransom by the failure to receive his salary promptly and the necessity for his reappointment, there will be no other complications attached to the decision which has been rendered by the solicitor general that under the constitution Mr. Ransom's appointment was irregular, because made during his term as senator. Mr. Ransom has understood for six weeks that the solicitor general's decision would be against him, and while he was forewarned to this effect, he was notified at the same time that he would be reappointed as soon as practicable after the decision which has caused Mr. Ransom to remain in this country as he has, but the assurance of his reappointment has been made so plain that he has made all preparations to return to Mexico towards the close of the present month. The provision under which the treasury refused to audit and allow his account will not apply to a reappointment, and there will be no further difficulty in the matter. will be no further difficulty in the matter. The minister's accounts were regularly allowed up to the first of July, so that at paysent the government is indebted to him only for his salary from July 1 to the present time. It is not doubted in any quarter that congress will afford him relief in this respect through an appropriation in the first urgent deficiency bill which becomes a law after the beginning of the next session

Consul Judd Evidently All Right. WASHINGTON, Aug. 17 .- Officers of the State department say that they know nothing about the reported removal of Max Judd, consul general at Vienna. It was stated that Mr. Judd received his exequatur nearly two years ago, and it would be singular if he had been found unsatisfactory on the grounds which were known at this time.
