University Boys Straighten Enough of Hofmeister's Curves to Win.

ALMOST INVINCIBLE ROBINSON IS

Visitors Only Secure Eight Scattered Hits in the Nine lunings of a Very Sharp Game of Base Ball.

it was a very pretty game that was played out at the University club's park yesterday afternoon between the college boys and the lastings team. There was enough batting and enough rocky playing and enough sharp playing to satisfy everybody, and to top the Quincy at Rockford. hole thing off the home team woo, which also was entirely satisfactory, except to the GAMES OF THE NATIONAL LEAGUE. crowd of Hastings rooters, who were piled up on the bleachers.

The game started off in a way that made the cold shivers run down the backs of the local enthusiasts, although the home term Gumbert and Wallace, in which the former outsited the visitors. Gettman got a base got slightly the better of it. Both pitchers on balls, Perry got a life by Jellen's error, 3,000. Johnson mide a hit and Webster got a base while Crawford was trying to disengue the ball, which got tangled up with his feet. This brought in a run. One more came in when Cope made a hit. Another run was made is the third by two hits and about seventsen errors Crawford made while trying first to dig the bail out of the ground and then to hit the sun. After this Crawford was planted out in the field, and Lawler took his place at third. This change seemed to strike the combination, for thereafter the Hastings boys usually went out in one, two,

The University boys had to but and bat hard to get their runs, for beyond two inexcusable and not important errors by Webster the visitors put up a great fielding game. Hofmeister was touched up for thirteen hits, six of which were two biggers and one a three bagger, but did not give a base on balls. The batting honors were carried off by McAuliffe, whose three hits were each for two bases, and Jellen, who made two singles and the tri-sacker. Crawin for his share with two singles and a two bagger.

"Robby" pitched a great game. Eight hits were made off him, but these were so well scattered that four of them did no: affect the score at all, and the errors were more responsible for the three runs that were-made than the other four hits. He struck out nine men and gave buly two bases on

BROOKLYN, Sept. 6.—This afternoon's ter. The managers of the affiir got a vigthe assistance of a number of scrapers and the big roller got the track in preity fair shape by the time the first event, the one mile novice, was called. This was at 12 o'clock sharp, and five minutes later the nine starters were lined up under the wire, and at the crack of Referee Cox's pistol went off in admirable shape to the enlivening strains of the famous band of the Second Infantry. United States army, and the cheers of the vast crowd of spectators. The Seventh Ward band was also in the big amphitheater, and alternated with the military organization

in the rendition of an excellent program.

As the afternoon wore on the race track was the point of gravitation for the tremendous throngs which had by this time swarmed within the grounds. The scene presented was grandly exhibitating. The bg grand stand was one mass of gaily clad men, women and children, whose beaming faces and sparkling eyes well bespoke the happiness they were extracting from Omaha's Jubilee day. But if the grand stand was a living hive of joyous spectators, so was the lawn, the paddock, promenades and the green slopes stretching away to the east and west. Every available inch was occupied by ambitious humanity, and the large force of police, mounted and afoot, had their hands full in preventing the track from being overwhelmed by the rush of a living and breath ing avalanche. It was certainly the greatest crowd that ever reviewed a race meet in this section of the globe, and if Omaha alone can make such a glorious showing. what will the state and surrounding country

Both the bleycle and horse races were much enjoyed, and the performance of the rough riders from the Big Horn country, headed by Rattlesnake Abe and Jerking Bill, two celebrated cowboys, aroused the great crowd to the wildest cheering and enthusiasm. Following is a summary of the bicycle

Denounces Its Interference in Muntcipal and Educational Affairs. A large congregation gathered at Temple Israel last evening to listen to the lecture of

A common error of today, Dr. Franklin said, was the acceptance of words and names for ideas. The word religion even today was as little understood as in the dark ages. Only the civil law prevented the use of fagots by those who knew nothing of religious Dr. Franklin asked if it were patriotism, if

it were Americanism, to oust men from schools on account of their religious beliefs. He declared that his whole soul rose in indignation at the insults that had been heaped upon Prof. Marble in the name of American-ism. It was his opinion that any man who had the courage of his convictions was likely to have similar indignities thrust upon him. The thought the preacher wished to emphasize was the great mistake in applying denominational titles to persons far removed from what the names implied. One who disgraced his religious title should lose that lile. In conclusion Dr. Franklin said: "He is not a Jew who does not strive for Jewish ideals; he is not a Christian who does not lead a Christ-like life. Religion is life and love and beauty, and whatever makes for righteousness. He whose religion is merely in the name is sailing under false colors.

WILL BE READY ON OPENING DAY.

No Delay in the Opening of the Atlanta Exposition. ATLANTA, Ga., Sept. 6.-The management of the Cotton States and International exposition is surprised that reports have gone out to the effect that the opening of the exposition will be postponed. President Collier was this afternoon interviewed on the subject and said to an Associated press reporter: "The report is groundless and the ex-position will be opened September 18 if the world stands. The exposition buildings are all done and the grounds are practically ready. Only a few more days work will be necessary to spread the gravel which is to cover the walks. The steam is on now in the power plant and the seventeen engines and all the exhibits in the machinery hall will be ready promptly on time. The electric fountain will be playing. The exhibits in the government building are already in place. The agricultural building, the fine arts, the electricity building, the machinery building, the manufacturers' building, the trans-portation building will be ready for the public on the opening day. There will be some stragglers as at all expositions, but the majority of the exhibits will be ready. There has never been a time in the history of expositions where a more complete exposition will be thrown open to the public on the opening day.

The mile open, which was left unfinished from yesterday, was finished today and was won by Tom Cooper of Detroit. As on yesterday, the first heat of this event was today declared no race on account of the time limit having been exceeded. Fred Loughhead of Sarnia, Ont., who has been carrying off all the class A events in the recent Canadian meetings, was down for an attempt to beat the track record of 2:02 1-5, by Johnson and Weinig. The Canadian did not make the attempt for the mile, but did go a quarter-mile, paced, in 30 1-5 seconds, beating the class A record for the distance by 1 2-5 seconds. A brisk breeze favores him. Results:

First Appearance in Court. For the first time during thirty-five years' residence in this city, either as a witness, complainant or defendant, Patrick O'Donne'l appeared in police court yesterday. He was arrested on a complaint sworn to by Mike Lovey, a neighbor living at 1021 South Twentieth street, charging him with disturbing the peace and using vile language to him. Mr. O'Donnell charges that Lovey interested himself in the affairs of one of his tenants and an altercation followed, and that both men grew angry. O'Donnell is an o'd-time Union Pacific engineer and well known and popular with all old-timers in the city. The

case is set for a hearing Monday. Got a Transfer to Jail. George Montague wanted a transfer to the East Omaha line from Conductor Crosby of the Sherman avenue line last night, and beause he was told that the street car company did not issue such he became angry. Words were exchanged, and finally Montague struck

the conductor with his cane, breaking the stick. An officer was called and he was arrested on the charge of assault. All Say They Are Bookmakers. Harry Ladd, Harvey Sherman, John Rodgers, J. Stein and Frank Hood, who say they are bookmakers at the races in Counc'l Bluffs, were arrested last night by Detectives Savage and Dempsey. It was thought that they might be over here to work the city. although the men said that they came over

FOURTH WARD REPUBLICAN CLUB. It Elects Officers and Hears from Colonel C. R. Scott.

Colonel C. R. Scott had another attack of Rosewaterphobia at the meeting of the Fourth In Other Words, Just What Is Your Dr. Lee Franklin, who has just entered on Ward Republican club last evening. The attack was apparently brought on by the dress he emphatically denounced the A. P. A. presentation by W. J. Broatch of the name of the judge of the criminal section of the district court for membership in the club. Before Scott became unrestrainable, however, the club succeeded in transacting some little business.

These officers were elected: President, John G. Kuhn; vice president, F. C. O'Halloren; secretary, K. S. Fisher, and tressurer, H. Hoff. A resolution was introduced asking the club to favor the present system of street cleaning. Its introduction at once pre-cipitated troble, as D. H. Wheeler was in the under the hand and seal of Winspear that the street commissioner kept no record show-ing the extent of the streets swept by day labor. He was exceedingly anxious that the subject should be investigated and the matter laid over 'est the citizens' movement should steal some "campaign thunder" by reason of its advocacy of the system. Mr. T. K. Sudborough wanted "civil service" enforced if the present system was carried on. The failure of the present system to get the republicans of the proper stamp in the posi-tions caused him anxiety. Finally, unable tions caused him anxiety. Finally, unable to kill the resolution, owing to the talk of laboringmen favorable to it, an amendment was tacked on by Wheeler setting out that the Board of Public Works should request the

of the work done.

Judge Baxter stated that he was seeking Judge Baxter stated that he was seeking nomination as county judge at the hands of the republicans, that he had not been approached by any other party, and that he was not seeking the nomination from any other party, as he had been erroneously credited with party, as he had been erroneously credited with

he said, should not discredit his standing as a republican.

The attack from which the judge of the criminal bench had been suffering at this toms of its own, but has the symptoms of criminal bench had been suffering at this point reached an acute stage. He grose and stated that he was feeling much oppressed by the honors just thrust upon him. The remarks of Judge Scott were not out of the usual channel. They consisted in stories of popish p'ots which he had discovered, tirades against the chief of police, var'ous city and state chicials and abuse of judges of district bench, four of whom he openly charged with corruptly bowing down to the editor of The Bex The vocabulary of the speaker was enriched with allusions to the scoundrels, skunks, etc., who oppose him. He desired re-election, he said, to demonstrate that he was the man with backbone.

A proposition favoring a reappointment was ost, the club favoring deferring the matter until the 1896 convention. Others called on for speeches were Messrs.

Broatch, Daily, Thompson, Powers, Burkett, Unitt, Rathburn, Westberg and Pierson. "SIEGE OF VICKSBURG" BEGINS.

First Night of the Fireworks Drama

at Courtland Beach. The enterprise of the University club in bringing Pain's mammoth spectacular production, "The Siege of Vicksburg," to Omaha was rewarded by an audience of flattering proportions on the opening night. The show kidneys are in perfect condition it is almost impossible for the lungs to be out of order, was given in the amphitheater at Courtland beach, which was erected for a similar production last year, and in spite of the previous attractions of Jubilee day the big out of doors show house was fairly well filled. The show is of the same order as the "Last Days of Pompeil," but the representaion of the familiar street scenes of the southern city is an acceptable change from the crude picture of Roman life.

The scenic feature of the production is an elaborate affair. The background presents a has faithful picture of the city of Vicksburg, help. faithful picture of the city of Vicksburg, with the river flowing between the massive forts that dispute its passage. In the streets of the mimic city a crowd of 100 darkeys swarm and their songs and dances and a cake walk furnish the bulk of the lighter part of the entertainment. The darkey quartet sang the old plantation songs acceptably and their rendition of the "Old Kentucky Home" and "Suanee River" was the signal for an encore. The Schubert Glee club, led by Lee Kratz, sang "Tenting on the Old Camp Ground" and "The Vacant Chair" from the Union camp as Grant's army encamped the Union camp as Grant's army encamped before the city on the night before the final

assault. The Thurston Rifles and the Omaha Guards composed the troop that represented the union army and their encounter with the confederate defenders of the city was a realistic imitation. The bombardment of the scenic city was an excellent piece of spectacular effect and was a stirring climax to the performance. The full of the city was followed by a display of fireworks which were even better than those of last year. Among the set pieces the portrait of Mr. Z. T. Lindsey was particularly effective and bicycle race across the stage by a pair of fiery bikers was a marvel of mechanical pyrotechnics. The faults of the perform-ance were such as were readily traceable to the difficulties of the first presentation and it is promised that hereafter the show will be even better than before.

Drove Dynamite Into a Pine. DETROIT, Sept. 6 .- A special to the Tribune from Hastings, Mich., says: Robert Bryan, a well driver, was killed and Mrs. Henry Ragia was probably fatally injured by a dynamite explosion six miles northeast of this city today. Bryan was driving a piece of dynamite into a pipe when the explosion occurred. Every bone in his body was broken. One piece struck the woman in the eye. Two pieces entered her side.

A Most Unusual Conversation With a Great New York Professor Reproduced Verbatim. Does It Apply to You?

I am fortunate in knowing a prominent profesor of this city. He is a man of de research and world-wide popularity. It seldom that he unbosoms himself, but did so to a circle of friends and myself the other evening. This is what he said: "It is surprising how rapidly the condi-tions of life are changing in America." "Do you mean, professor, in the manner of living?"

Yes, and also in the manner of dying. The habits of life, the nature of work, even our diet is different from what it was fifty or even ten years ago.

ot seeking the nomination from any other difficulty which may be correctly called the arty, as he had been erroneously credited with modern disease. It is common to both men oling. That the bar had endorsed him before, and women, and even children are not free nearly every other disease. Men and women have been afflicted with it for years and did not know what ailed them. They may have had peculiar pains, felt out of sorts irregularities, headaches and scores of other symptoms, and sctualy did not know what was the matter with it.

the matter until it was, perhaps, too late,"
"To what do you refer, professor?"
"I refer to Bright's disease of the kidneys, which I consider nothing less than a Modern Monster. Its great danger is in the very Monster. fact that it is so insidious, so sly, if you please, and, indeed, so little understood. Physicians seem baffled when brought face rhysicians seem to admit to face with it, and do not hesitate to admit that there is but one known scientific and certain remedy for it, whether in its first or last stages, and that remedy is Warner's Safe Cure."

The professor paused for a moment and reflected. Continuing, he said; "You may think that I am radical in making such statements, but I am not. I know whereof I affirm and I know that there are more men and women who have disease of the kidneys in some one of its stages today than any other known trouble, and I do not except consumption. Why, do you know that many cases of so-called pneumonia are nothing less than the last stages of Bright's disease? And do you also know that if the because the kidneys throw the poison out of the system that accumulates upon and rots the lung tissue? Take my word for it, there are thousands of men, and perhaps more women, who do not know it, but who are today afflicted with kidney disease, and I only wish they might be warned in time."
I was much impressed by the professor's earnest words and reproduce them as nearly as possible for the benefit of any one who may perhaps be in such a condition as he has described, and who needs immediate has described, and who needs immediate help, and such help only as can be certain
