SQUATTED ON THE CLAIM. Interesting Litigation at Plattsmouth

PLATTSMOUTH, Neb., Sept. 18 .- (Special.) Justice Archar's court has been the scene of a lively litigation since 11 o'clock this morning. It is the case of the state against W. M. Belleville, who is charged with cutting timber on the disputed land north of the water works pump house. The land is claimed by a man named Dinsmore. Belleville and his family, consisting of a wife and seven children, came here from Yankton, S. D., last June, and he heard at Glenwood, Ia., that there was a piece of land over here that could be had for the taking. He came over at once and "squatted" on the land, and here is where the trouble hinges. Dinsmore some two weeks later and said that he had bought the land from A. B. Smith. Belleville asked to be shown the deed to the land, but Dinsmore was evidently unable to furnish that important document, so Belleville stayed. He has been living in a tent since then until a couple of weeks ago, when he concluded to erect a cabin. On the land there are a number of old stumps, from which have sprouted a number of small trees, ranging in size from six inches to a foot in diameter. These Belleville cut and used to build his cabin. Dinsmore filed a complaint against him, charging him with cutting trees on his premises, and so matters stand. The case is being tried be-fore a jury of six and a long list of witnesses have been summoned. Thirteen witnesses have of records and plats from the court house
