Visions finished practically unchanged.

Wheat ruled dull most of the session, but has shown considerable strength, and at one time was 1/4c higher than it closed last night, but subsequently lost the advance and at one time was a fraction lower than it closed yesterday. Liverpool cables came stronger, and as much of the strong local sentiment which ruled at the close yester-day was carried over, the first trading was at some advance. The continuance of the drouth and the report from New York that there had been large acceptances from abroad started good buying by such leaders as Brosseau, Baldwin-Farnum and Frank Dunn, and a good many shorts were im-pelled to cover, giving the market a pretty firm tone. But the official report of the world's shipments last week showed that they had been over 1,000,000 bu. larger than reported yesterday, or 8,250,000 bu., which was 750,000 bu. In excess of the estimated weekly requirements. This proved something of a shock to the bulls, and started free selling, with Gifford, Rosencrans and free selling, with Gifford, flosencrans and Pardridge as the leaders, and the small fry began to liquidate, prices going off nearly %c. Later, however, the reports of damage by drouth were more alarming, and there was some recovery. Prices kept within a slight range, but firmness was the rule. December sold early as high as 60%c, weakened gradually to from 60%c to 60%c split, then up to 60%c, and closed at 60%c. May sold at from 64%c to 64%c. The market got weaker later, influenced largely by Bradstreet's report, which was construed by the crowd as bearish. December sold off to 60c and reacted, closing at 60%c. Corn was quiet, with price changes narrow. The very moderate receipts and the fair demand for cash property and the fair demand for cas

The speculative trade in provisions was of the same insignificant character as it has been for some considerable time. Fluctuations were confined to a very narrow range, and in the end prices were 2½c lower for January pork and unchanged for January lard and ribs. The easy feeling resulted from the lower live hog market.

Estimated receipts for Wednesday: Wheat, 330 cars; corn, 320 cars; oats, 220 cars; hogs, 35,000 head. 330 cars; corn, 320 cars; oats, 220 cars; hog 35,000 head. The leading futures ranged as follows:

Rumors of disturbances abroad in connection with the African gold mining speculation, lower prices for American securities in London and sales for American should mining speculation, lower prices for American securities in London and sales for that account in this market had a depressing effect upon the opening and a rally in the foreign exchange market also had unfavorable significance, in the opinion of the financial community. It is estimated, however, that large amounts of security bills may soon be available and contribute toward easier rates. About the only definite news bearing upon the market that obtained circulation was of further advances in anthractic coal prices at the cast and west. These advances range between 25c and 50c per ton over the recently quoted prices. The Philadelphia company will advance on Thursday next to about the same level. Wool Market.

BOSTON, Oct. 22—The only thing that prevents a boom in wool values here is the unsatisfactory position of the woolen goods market in this country. Nevertheless a large volume of business has been transacted during the past week, with slightly advanced rates. Domestic wools are 4c to 5c per lb, higher than in May last. There is a steady movement noted in territory wools and the supply of Australian wool on the market is getting considerably reduced, while prices are firm in sympathy with the situation abroad. Good killing cattle suitable for the dressed 45. beef trade were very scarce. There was nothing really good in the yards, or at least

nothing of any account. The most of the cattle offered for beef were really only good enough for feeders. The market on a desirable cattle could safely be quoted as it. steady, but the common grades were weak and lower.

About thirty loads of cows and heifers

were on sale, a small number considering the total receipts. The demand was pretty good, and about everything was taken in good season. The market as a whole did not show much change from yesterday. In some cases buyers claimed that the early purchases, if anything, were a little stronger.

purchases, if anything, were a little stronger.

Stockers and feeders were in very large supply. Not only were the fresh offerings very liberal, but there were plenty of cattle in the hands of yard operators. At the same time the country demand did not appear to be very heavy. There were some lookers in the yards, but they were not free buyers, and the market was very dull. As usual, even on dull days, a good many cattle changed hands before the close, but there was no snap to the trade. Under the circumstances it was only natural that values should show a shrinkage, and that the market should be, lower all around. Representative sales:

As 7,000 hogs were left over last night, there were 25,000 on sale today, a number somewhat in excess of the trade requirements. The few choice droves sold readily at firm prices, but common to medium droves were weak, with much of the trading at a decline of 5c, heavy packing hogs being especially weak. Heavy hogs sold at from \$3.30 to \$3.50, and a few choice butcher weights went for from \$3.85 to \$3.90. Mixed lots sold at from \$3.40 to \$3.80 and light weights at from \$3.40 to \$3.80 and light weights at from \$3.50 to \$3.70 for packing and at from \$3.70 to \$3.87 for packing and at from \$3.70 to \$3.80 for shipping droves.

Fewer sheep and lambs are coming forward this week and the decline in prices has been checked. The general demand was fairly active at yesterday's range of prices, inferior to choice natives being salable at from \$1.20 to \$3.40, with sales chiefly at from \$2 to \$3. There were sales of feeding sheep at from \$2.50 to \$2.90, and sales were made of western sheep at from \$1.85 to \$3.10 and lambs at from \$3 to \$4.25. The offerings consisted largely of western sheep and lambs.

He says that all his dealings were with Kierce, who

LOUISVILLE, Oct. 23 .- Hon. Cassius M. Clay, jr., of Paris, Ky., who made the race for the nomination for governor of Kentucky with General P. Wat Hardin, the democratic candidate, and who was defeated in the convention by a small majority, is out today in a letter to the democratic campaign com-mittee refusing to speak in behalf of Hardin, the free silver candidate on a sound money platform. He charges Hardin with repudiating the democratic platform and will not vote for him. He also states in his let-ter that a change in the control of affairs at Frankfort, the abolishment of the state house ring, would be of great benefit to the state.

The card is not bitter in tone, but is the plain statement of a sound money candidate who objects to repudiation of the sound money platform by a free silver candidate.
