New Securities Listed. NEW YORK, Oct. 23.—The governing commit-tee of the New York Stock exchange today listed the following securities: Louisville & Nashville and Mobile & Montgomery railroads, \$4,909,909 ffty-year \$42 per cent gold first martgage Joint bonds, of which amount \$2,350,000 were disposed bends, of which amount \$2,990,000 were disposed of to redeem prior 6 per ceat mortgage bands of the Moldle & Montromery railway and the balance to be used in accordance with the terms of the mortgage. Western New York & Pennsylvania, \$122,000 first mortgage 5 per cent gold bonds of 1937, making a total listed to date of \$9,549,000. Lebigh & New York railroad, \$2,000,000 in first mortgage guaranteed gold bonds of 1945, principal and interest guaranteed by the Lebigh Railroad company (in receivership); \$295,000 additional first mortgage 6 per cent gold bonds, making a total listed to date of \$3,324,000. Staten Island railway, \$200,000 first mortgage 4½ per cent gold guaranteed bonds of 1943.

STOCKS AND BONDS.

Speculation in Securities Was as a Whole Uninteresting.

NEW YORK, Oct. 22.—The speculation today was, as a whole, flat and uninteresting. The volume of business was slightly above that of the creations day, but the day's distribution of the previous day, but the day's distribution of the dealings was relatively much wider. The course of prices was downward, almost without interruption. Commission orders were, as has been usual for some time past, very scarce, and the traders accordingly made prices. Of actual news there was a dearth, but the movements in the industrials and a few of the usually active railroad stocks were attended by gossip or rumors purporting to affect their position in the market. The most important influence having general learing was a recovery in the rates of foreign exchange, due to the disposition of houses having large amounts of exchange available to held out for the best rates obtainable. The supply of cotton bills was also lighter than had been anticipated.

The grangers shares were affected by reports of

rendy for market as yet. Advises from Chicago and the state of the disposition of company the state of the disposition of the state of th

boom in mining, but the bellef is general that the worst is over. Further failures here and in Paris are probable, but it is likely they are discounted, and the bear account is now considerable. Americans were duit, closing near the lowest. Brazilians were flat on fears of compilications about Trinidad. The Paris and Berlia markets were flat, but closed better.

The following were that the control of the paris and Berlia markets were flat, but closed better.

The following were that the control of the paris and Berlia markets were flat, but closed better.

CATTLE-At the opening of the market 95 mly 135 to 140 cars were in, but there were 49. several big trains back which promised to make the total receipts for the day large, While the greater proportion of the cattle were only good enough for feeders, there were some pretty fair beef steers, both natives and westerns. The offerings, how-ever, of desirable fat cattle were light.

natives and westerns. The offerings, however, of desirable fat cattle were light. The market opened rather slow. The large number of cattle reported back made the buyers indifferent and bearish, and there was not much activity to the trade. Buyers locked over the cattle that were in without buying many and then sat down to wait for the arrival of the trains that were back. The cattle, however, kept selling and by the time the market was over with there was not much left in the pens. The trade as a whole was slow and easier.

Cows and helfers were in moderate supply, there being only twenty-live loads among the early arrivals. In spite of the light receipts buyers seemed to feel that prices on that kind of stuff have been too high and they were determined to force some concession from sellers. With the demand very fair and the offerings light it was no easy matter to bear prices very much. While some sales showed strong prices, the market as a general thing was a little easier.

The supply of stockers and feeders was again large today. The trade was in very much the same condition as yesterday so far as demand was concerned. There were quite a good many buyers wanting cattle, but the feeling that prices would be lower before the day was over made them hold back and the trade in consequence was not very active. While the most desirable grades of feeders sold at about steady prices, the common and thin stock cattle were lower. Representative sales:

Although Receipts Are Curtailed Offerings Have Been Sufficient. CHICAGO, Oct. 23.-Although the receipts of attle for this week have been much smalle han a week ago, the offerings have more than sufficed to meet all the requirements of the trade, and Monday's advance of from 19c to 15c has all been lost. Yesterday's late sales were at reduced prices, and today's market was dull and dragging. Sales were on a basis of from and dragging. Sales were on a basis of from \$3 to \$5.30 for common to strictly choice unitive deceased beef and shipping steers, and, as choice 1/18 were pie til r. here were more as es at \$5 and upward, although good numbers of attractive looking steers weighing between 1,250 and 1,500 lbs, sold for from \$4.50 to \$4.75. There was fair activity in stockers and feeders at the reduced prices, sales being largely at from \$2.65 to \$2.75 for steers weighing from 600 to 1,250 lbs., with some cattle averaging over 1,300 lbs. at \$3.45. Western range cattle were rather slow at a decline of about 10c, with sales of steers largely at from \$3.40 to \$3.75. Range feeders sold at from \$2.85 to \$3.75. Range feeders sold at from \$2.85 to \$3.75. Range feeders sold at from \$2.85 to \$3.75. Range feeders feeders feetching \$3.45. Texas cattle were 10c lower than on Monday, with sales chiefly at from \$2.70 to \$3.20. Good hogs sold on an average of 5c higher, day, with sales chiefly at from \$2.70 to \$3.29.
Good hogs sold on an average of 5c higher, other kinds being barely steady. Sales were largely at from \$3.55 to \$3.55 for packing and at from \$3.70 to \$3.50 for shipping droves, common to prime lots going at from \$3.50 to \$3.90, as against from \$4 to \$4.40 a year ago, \$6.10 to \$5.825 two years ago, from \$5.10 to \$5.95 three years ago and from \$3.75 to \$4.40 four years ago. Pigs were plentier, the greater part coming from 11-linois, and they sold chiefly at from \$2.75 to \$3.65.

13.65.
The smaller offerings of sheep this week tend to strengthen the market, and prices were firm, with an active demand, the call for feeders being especially good at from \$2.55. to \$2.90. Inferior to prime sheep were in demand at from \$1.05.14.9, few going higher than \$1, and westerns selling at from \$2.70 to \$3 for good flocks, while lambs sold at \$3.40 for common to prime. Receipts: Cattle, 15,000 head; calves, 650 head; hogs, \$5,000 head; sheep, 14,000 head.

Averpeol, 17. HOPS-London (Pacific coast), 12 15s. Wool Market. Wool Market.

BOSTON, Ogt. 23.—The American Weel and Cotton Reporter will say temorrow: There has been a fair business done the past week in wool at previous prices. In some lines stocks have been pretty well sold, and had there been a better selection it is likely that a larger business would have resulted. Territorial wools have sold well, Montana, Idaho, Colorada and New Mexico being well represented in transactions. Mexico being well represented in transactions. Sales in New York, Boston and Philadelphia aggregate 8,576,256 lbs., of which 4,55,500 lbs. were domestic and 4,050,359 foreign, as compared with a total of 2,962,509 lbs. for the previous week. There is a hill in the market and a waiting disposition is clearly apparent. Foreign wools have sold well both in New York and Boston. There has been a general demand for wool in the Boston market, but transactions have been fewer and smaller than for some weeks as far as domestic wool is concerned. Sales of foreign stocks show an increase as compared with the previous week. The market is at present a waiting one. Territorial and certain California wools have, on the whole, been the best sellers. There is no particular demand for anything below a three-signiths grade of any sort of wool. Fleeces have sold fairly well. Some good blocks of Australian haye been moved. Cape wools have sold well. Cape been moved amount to 3,319,000 lbs. domestic and 1,251,000 lbs. foreign, making a total of 4,470,050 lbs., against a total of 8,016,000 lbs. for the previous week and a total of 8,016,000 lbs. for the previous week and a total of 6,016,000 lbs. for the previous week and a total of 6,016,000 lbs. for the previous week and a total of 6,016,000 lbs. for the previous week and a total of 6,016,000 lbs. for the previous week and a total of 6,016,000 lbs. for the previous week and a total of 6,016,000 lbs. for the previous week and a total of 6,016,000 lbs. for the previous week and a total of 6,016,000 lbs. for the previous week and a total of 6,016,000 lbs. for the previous week and a total of 1,000 lbs. for the previous week and a total of 1,000 lbs. for the previous week and a total of 2,010,000 lbs. for the previous week and a total of 2,010,000 lbs. for the previous week and a total of 2,010,000 lbs. for the previous week and a total of 2,010,000 lbs. for the previous week and a total of 2,010,000 lbs. for the previous week and a total of 2,010,000 lbs. for the previous week and a t
